The following bill was *passed for printing*:

Setting Aside Land in Jefferson Square for Site of Fire Alarm and Police Telegraph Systems.

On motion of Supervisor Bancroft: Bill No. 3025, Ordinance No. — (New Series), as follows:

Selecting and setting aside additional land in that certain square or park known as Jefferson Square, bounded on the north by Eddy street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems.

Whereas, the Board of Supervisors did, by Ordinance No. 2732 (New Series), select and set aside in that certain square or park known as Jefferson Square, bounded on the north by Eddy street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, a site upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems; and,

Whereas, the site selected and set aside by said Ordinance No. 2732 (New Series) is not sufficient for said central station for the Fire Alarm and Police Telegraph and Telephone Systems; now, therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. There is hereby selected and set aside, in addition to the lot, piece or parcel of land heretofore, by Ordinance No. 2732 (New Series), selected and set aside in that certain square or park known as Jefferson Square, bounded on the north by Eddy

street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, the lot, piece or parcel of land more particularly described as follows, to-wit:

Commencing at a point on the southerly line of Turk street, distant thereon two hundred and eighty-two (282) feet and six (6) inches easterly from the easterly line of Laguna street; running thence at a right angle southerly one hundred (100) feet; thence at a right angle easterly thirty (30) feet; thence at a right angle northerly one hundred (100) feet to the southerly line of Turk street and thence at a right angle westerly along said southerly line of Turk street thirty (30) feet to the point of commencement, upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems.

Sec. 2. Said station when erected to be under the control and management of the Joint Commission of the Department of Electricity and said Joint Commission shall have power and authority, when said station is erected, to maintain across said square or park the necessary conduits, wires and lines leading to said station.

Sec. 3. This ordinance shall take effect immediately.

#### Street Railway Fare Tickets.

Supervisor Gallagher presented:

Bill No. 3026 Ordinance No. — (New Series) as follows:

An ordinance to regulate rates of fare to be charged for the transportation of passengers over street railroads within the City and County of San Francisco, requiring the sale of tickets for such transportation, limiting the price to be paid for such tickets, and providing penalties for the violation of its provisions.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The rates of fare to be charged for the transportation of passengers over street railroads within the City and County of San Francisco shall not exceed five (5) cents for each passenger per trip of any distance in one direction, either going or coming, along any part of the whole length of the road or its connections.

Sec. 2. Tickets for the transportation of passengers as above mentioned shall be sold, upon demand therefore, on each and every street car run or operated for the transportation of passengers within the City and County, and such tickets shall be sold at a price not exceeding twenty-five (25) tickets for one dollar (\$1.00) or six

tickets for twenty-five cents (\$0.25).

Sec. 3. Children under six (6) years of age shall be transported free of charge when accompanied by a passenger who is required to pay for transportation under the laws and regulations governing street car transportation within the City and County.

Sec. 4. All passengers shall be accorded the same transfer privileges except as otherwise provided by law.

Sec. 5. The provisions of this ordinance shall apply to all street railroads operated within the City and County, whether operated by the municipality or by private persons or corporations, their agents or successors.

Sec. 6. Any person or corporation, who either as owner, lessee, receiver, officer, agent, superintendent, manager, conductor or employee, shall fail, refuse or neglect to comply with any of the provisions of this ordinance, is guilty of a misdemeanor, and upon conviction thereof, shall be punishable by a fine not exceeding one hundred dollars, or by imprisonment in the county jail for not more than fifty days, or by both such fine and imprisonment.

Sec. 7. None of the provisions of this ordinance shall be held to repeal ordinances and regulations for the sale and use of street car tickets for school children.

Sec. 8. This ordinance shall take effect ninety (90) days after its passage.

**Relative to Deficit on Stockton Street Tunnel.**

*Supervisor Gallagher presented for the Lands and Tunnels Committee a report relating to progress on Stockton street tunnel and deficit to be made up therefor, which was ordered referred to the Finance Committee.*

**Adopted.**

The following resolutions were adopted:

**Extensions of Time.**

On motion of Supervisor McCarthy: Resolution No. 10863 (New Series), as follows:

Resolved, That the State Improvement Company be and is hereby granted the following extensions of time to complete street work:

Ninety days' time from and after May 11, 1914, within which to com-

plete contract for grading Brompton avenue, from Bosworth street south-erly, under private contract.

Ninety days' time from and after May 11, 1914, within which to complete contract for grading Lippard avenue from Bosworth street south-erly.

These extensions of time are granted upon the recommendation of the Board of Public Works for the reason that the contractor was delayed on account of other contractors' operations.

Thirty days' time from and after May 11, 1914, within which to complete contract for constructing sewer in Circular avenue and Sunnyside avenue, between Diamond and Baden streets.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractor was delayed by United Railroads realigning tracks.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Invitations to F. O. A to Convene in San Francisco in 1915.

On motion of Supervisor Hayden:  
J. R. No. 1253.

Whereas, The Foresters of America, located in San Francisco, with a membership of 12,000, has invited the Grand Court of the Foresters of America (which is to meet in Salinas, California, beginning tomorrow, to hold their next Grand Court session in San Francisco in 1915; therefore, be it

Resolved, That his Honor, the Mayor, be requested to wire an invitation to the Grand Court of the Foresters of America at Salinas, California, inviting them to meet in San Francisco in the Exposition year, 1915.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

**ADJOURNMENT.**

There being no further business the Board at the hour of 6:15 p. m. adjourned to meet May 5, at 2 p. m., to hear taxpayers on proposed budget for ensuing fiscal year.

In Board of Supervisors, San Francisco, Monday, May 11, 1914, 2:00 p. m.

The Board of Supervisors met in regular session.

### CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Deasy, Gallagher, Jennings, Kortick, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—13.

Quorum present.

His Honor Mayor Rolph presiding.

### READING AND APPROVAL OF MINUTES.

The Journal of the meeting of May 4, 1914, was read and approved.

### ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matters were presented and read by the Clerk:

Exemption of Superintendent of Hospitals and Health Officer From Local Residence Requirements of Charter.

*Communication*—From Civil Service Commission, requesting Supervisors to pass resolution exempting applicants for the positions of Superintendent of Hospitals and of Health Officer from the requirements of previous residence in San Francisco.

*Referred to Public Efficiency and Civil Service Committee.*

Payments for Construction of Sewer in Old Ocean Road and Junipero Serra Boulevard.

The Clerk reported the receipt on May 5th of checks from the Spring Valley Water Company for \$2500 and from Baldwin & Howell for the sum of \$13,000, agreed amount paid toward the construction of sewer in the Old Ocean Road and Junipero Serra Boulevard. Deposited same with Treasurer on May 5th and received Treasurer's receipt therefor, which is on file in this office.

Leave of Absence, Hon. J. J. Sullivan.

The following was presented and read by the Clerk:

May 11, 1914.

Hon. Board of Supervisors, City Hall,

San Francisco—

Gentlemen:

Application having been made to me by the Honorable John J. Sullivan of Department No. 2, Police Court of this City and County, for leave of absence with permission to leave the State of California, I respectfully request that, in compliance with Section 3, Article 14 of the Charter, you concur in granting said leave, same to begin July 1st and cover a period of sixty days.

Very respectfully yours,

JAMES ROLPH, JR.,

Mayor.

Whereupon, the following resolution was presented and *adopted*:

J. R. No. 1265.

Resolved, That in accordance with the recommendation of his Honor the Mayor, Hon. John J. Sullivan, judge of the Police Court of the City and County of San Francisco, be and he is hereby granted a leave of absence for a period of two months from and after July 1, 1914, with permission to leave the State.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

### REPORTS OF COMMITTEES.

The following committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Public Buildings Committee, by Supervisor Bancroft, Chairman.

Health Committee, by Supervisor Walsh, Chairman.

Fire Committee, by Supervisor McLeran, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

Supplies Committee, by Supervisor Hilmer, Chairman.

Report of Finance Committee in re Payment of Assessment on City Property for Stockton Street Tunnel.

The following report was presented and read by the Clerk:

May 8th, 1914.

To the Honorable, the Board of Supervisors—

Gentlemen:

Pursuant to the request of the Board, your Finance Committee reports in the matter of the financial condition in re the Stockton street tunnel and the omission from the budget of reference to this subject:

In the first place, no city department, official, association or citizen made any recommendation to the Finance Committee regarding the Stockton street tunnel at the time the budget hearings were in progress. The Board of Works' budget proposal, which includes the requests of the City Engineer's department, contained no recommendations or reference of any character to the Stockton street tunnel. The Lands and Tunnels Committee of this Board made no recommendation on the matter nor did the Stockton Street Tunnel Association make any representations until after the Finance Committee had reported the budget to the Board of Supervisors.

Subsequent to the filing of the budget report, this matter was brought to the attention of the committee with a hope, we presume, that the committee would take up the matter and add to its previous recommendations. This procedure would, of course, have opened the door to all sorts of revisions, which the committee did not wish to undertake at that time; and inasmuch as no recommendation had been made on the subject matter, the committee felt that the impending deficit in the construction of the Stockton street tunnel could be and should be met without adding approximately one cent to the tax rate for the forthcoming year.

The committee has been informed that the preliminary studies of the proposed work were not thorough enough to disclose the character of construction which it was afterward found necessary to install. And now that the deficit is impending, the committee does not believe it is proper to add to the tax rate to correct an engineering error on a purely district project. The theory on which the Stockton street tunnel was initiated and the work undertaken is that it is a district benefit. The engineer, in making the assessment, included what we think is a fictitious benefit to city property, and thereby attempted to force by indirection an appropriation from the city toward the construction of this district improvement.

In other district improvement projects, the districts have paid their assessments and the city has not been called upon to contribute—notably, the extension of Polk street, the cutting down of Beale street, the opening of Vulcan street—they were done by district assessment and the city was not

called upon to give financial assistance. Similar procedure was intended in the proposed Fillmore street tunnel and in the Twin Peaks tunnel.

The committee has been informed that when the assessment was originally made out, the engineer was advised by the City Attorney to place only a merely nominal assessment on the city property. This, we understand, was to avoid legal technicalities, notwithstanding the general belief that city property cannot be assessed for any purpose. It is obvious that the placing of a benefit assessment upon Union Square—property of the city, which cannot be sold and cannot be leased—is lugging in an appropriation by the ear.

When the bids were received for the construction of the work, the total amount estimated for the cost of the tunnel including damages is \$631,879.00. Of this assessment, \$416,978.48 was collected, and \$48,971.20 assessed to the city and \$8,839.79 assessed to the state were not collected. The bid for construction was \$337,000.00, and when this bid was received and contract awarded, there was an apparent surplus, which was gratifying to the Board of Works and the engineers and to all concerned. When it was learned by the engineers that specifications must be changed and additional funds provided, this former surplus was of course used, and now the committee is informed that there is a deficit impending of approximately \$48,000.00 to \$50,000.00.

If this deficit must be met by the city, the question arises: Can it not be properly met out of the funds of the Municipal Railway Bond Fund of 1913? It is proposed to build the Municipal Railway through the Stockton street tunnel to connect the Geary street line with the Union street line. This tunnel is a necessary right-of-way to that connection. If the Board was correct in its action proposing to pay part of the Church street assessment out of bond funds, is it not equally proper to pay a portion of the Stockton street tunnel assessment out of the same fund? It would seem that the action of the Board of Supervisors in proposing to use railway bond funds for street grading and street opening establishes a precedent by which, if the Board is determined to complete the Stockton street tunnel out of city funds, the railway funds may properly be used.

Ordinarily, in matters of this kind, an assessment district must meet its own obligations and where a deficit arises, the needed funds must be procured from the original source. There is no doubt but that the proper place

to procure the additional needed monies should be from the Stockton street tunnel assessment district. While the charter provides for payment of tunnel projects in part by the city, that procedure was not contemplated nor invoked in the Stockton street matter, and it seems to the Finance Committee that it would not be fair to the tax payers of the city to compel them to make up deficits met with in a district improvement.

Respectfully submitted,  
 THOMAS JENNINGS,  
 WM. H. MCCARTHY,  
 HENRY PAYOT,  
 Finance Committee.

**Privilege of the Floor.**

*City Engineer M. M. O'Shaughnessy* was granted the privilege of the floor and stated that he called the attention of Supervisor Jennings, chairman of the Finance Committee, to the urgent necessity of providing for the payment of the assessment on city property for the construction of the Stockton street tunnel about six weeks ago in the Mayor's office. The banks, he declared, had refused to advance any more money to the contractors so long as there remained a question of what the city intended to do regarding the prospective deficit in available funds for constructing the tunnel.

*Geo. Skaller* also addressed the Board and stated that he had spoken to Supervisor Jennings in regard to making some provision for the payment of the assessment on city property for the construction of the Stockton street tunnel.

*Theo. Savage*, attorney, representing the contractors, stated that his clients had received a letter from the Donahue-Kelly Bank which is final, and which stated that no further credit will be extended unless the last payment is assured. He said the condition was very serious and that his clients were greatly embarrassed by the failure to provide for the payment of the assessment on city property.

*City Attorney Percy V. Long* stated that inasmuch as the Union Street Railway would connect with the Stockton street road and would be a beneficiary of the tunnel, that the assessment could legally be paid out of the earnings of the Union Street Railway. He warned the Board against infringing the charter provision limiting the amount of emergency taxes which might be levied over the dollar limit, saying in that regard that he was by no means sure that he could sustain the city's contention in the cases now pending in the courts in which the emergency tax has been attacked.

Thereupon, Supervisor Vogelsang introduced the following resolution:

**Declaring it to Be the Sense of the Board That Assessment on City Property for Construction of Stockton Street Tunnel Shall be Paid Out of Funds to be Hereafter Designated.**

J. R. No. 1260.

Resolved, That it is the sense of this Board that the assessment of about \$48,000.00 levied against City property for the construction of the Stockton street tunnel shall be paid out of funds to be hereafter designated.

**Motion.**

*Supervisor Bancroft* moved the suspension of the rules for the consideration of the foregoing resolution.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Absent—Supervisors Hocks, Murdock, Suhr—3.

**Amendment.**

Whereupon, *Supervisor McCarthy* moved to amend resolution by providing that payment be made out of earnings of Union Street Railway.

**Amendment to the Amendment.**

*Supervisor Gallagher* moved that consideration of *Supervisor McCarthy's* amendment be laid over one week.

**Point of Order.**

*Supervisor McCarthy* raised to a point of order. He declared it to be his opinion that *Supervisor Gallagher's* motion was out of order and inasmuch as the amendment and the resolution pertained to the same subject matter that they should be considered together and that action on an amendment could not be postponed and the original motion acted upon. He requested a ruling from the chair on the point raised.

*Chair ruled that Supervisor Gallagher's motion was in order.*

**Appeal from the Decision of the Chair.**

Whereupon, *Supervisor McCarthy* appealed from the decision of the chair. The question being: "Shall the decision of the chair be sustained," the roll was called with the following result:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Kortick, McLeran, Nelson, Vogelsang, Walsh—10.

Noes—Supervisors Jennings, McCarthy, Nolan, Payot, Power—5.

Absent—Supervisors Hocks, Murdock, Suhr—3.

Thereupon, the decision of the chair was declared sustained.

**Motion.**

*Supervisor Vogelsang* thereupon

moved the adoption of his resolution, accepting the amendment thereof by the addition of the words "out of funds to be hereafter designated", as suggested by Supervisor Power.

Substitute for the Whole.

Supervisor McCarthy moved as a substitute for the whole that the entire matter lay over one week.

Motion lost by the following vote:  
Ayes—Supervisors Jennings, McCarthy, Power—3.

Noes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Kortick, McLeran, Nelson, Nolan, Payot, Vogelsang, Walsh—12.

Absent—Supervisors Hocks, Murdock, Suhr—3.

Resolution Adopted.

Whereupon, the question being taken on Supervisor Vogelsang's resolution as amended the same was adopted by the following vote:

Declaring it to be the Sense of the Board that Assessment on City Property for Construction of Stockton Street Tunnel Shall be paid Out of Funds to be Hereafter Designated.

J. R. No. 1260.

Resolved, That it is the sense of this Board that the assessment of about \$48,000.00 levied against city property for the construction of the Stockton street tunnel shall be paid out of funds to be hereafter designated.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Noes—Supervisors Jennings, McCarthy—2.

Absent—Supervisor Hocks—1.

Motion.

Supervisor Gallagher moved that the Clerk be directed to obtain the opinion of the City Attorney as to the legality of paying city's portion of assessment for Stockton street tunnel out of Municipal Railway funds or out of earnings of Union Street Railway.

So ordered.

#### HEARING OF APPEALS.

Main Street Change of Grade.

Hearing of appeal of J. J. Lermen et al. to confirmation of the report of the Board of Public Works upon the damages and benefits resulting by reason of change of grade on Main street, between Folsom and Bryant streets, and on Harrison street, between Spear and Beale streets, laid over from a previous meeting and fixed for the hour of 3 p. m. this day, was proceeded with.

Motion.

Supervisor McCarthy moved that hearing be laid over four weeks in-

asmuch as plan for financing entire removal of hill has not as yet been completed.

Motion carried.

San Bruno Avenue.

Hearing of appeal of William H. Cole et al. against assessment for improvement of roadway of San Bruno avenue, between Silliman and Felton streets, fixed for 3:30 p. m. this day, was proceeded with.

Protest.

Daniel O'Connell, attorney, appeared and protested proceedings on the ground that the matter was now in litigation and beyond the jurisdiction of the Board of Supervisors.

Whereupon, the following resolution was presented by Supervisor McCarthy and adopted:

City Attorney to Inform Board as to Whether or Not City Has Been Enjoined From Doing Street Work on San Bruno Avenue.

J. R. No. 1254.

Resolved, That the City Attorney is hereby requested to inform this Board whether or not the City has been enjoined from doing the street work on San Bruno avenue, between Silliman and Felton streets.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

SPECIAL ORDER, 3:30 P. M.

Dog Muzzling Ordinance.

In accordance with recommendation of Health Committee and on motion of Supervisor Payot proposed "dog muzzling ordinance," made a Special Order of Business for 3:30 p. m. this day, was taken up.

Privilege of the Floor.

Dr. Wemple was granted the privilege of the floor and stated that rabies has been epidemic in San Francisco for the past two years and that during that time there have been nine human deaths due to this cause. He said that 376 cases were treated in the laboratories, being mostly dogs; there were one or two cases, however, in which cats and horses were the victims. During this epidemic 215 persons have received the Pasteur treatment for rabies. In the cases where they received the patient in time fatalities were invariably prevented. The Pasteur treatment extends over a period of three weeks and costs at least \$100. He quoted statistics showing beneficent results of dog muzzling in Europe.

Mrs. W. Wiseman was granted the privilege of the floor and related an instance of a vicious attack upon herself and child by a dog belonging to

one of her neighbors. She urged the Board to enact the dog muzzling ordinance.

*Doctors Rosenstirn, Snow, Evans and Steers* also addressed the Board, urging the passage of the proposed ordinance.

*Mrs. Marshall*, president of the Humane Animal Society, also urged the enactment of the dog muzzling ordinance.

*Dr. Gibbons* favored the muzzling of vicious dogs, but was opposed to the proposed dog muzzling ordinance as a general proposition. He did not believe that such a thing as rabies existed.

*Mr. Robinson* also opposed the proposed dog muzzling ordinance.

#### Communications.

From the California Medical Society and the Chamber of Commerce urging the enactment of the dog muzzling ordinance were presented and read by the Clerk.

#### Motion.

*Supervisor Vogelsang* moved that further consideration of the proposed dog muzzling ordinance be *continued one week* and made a *Special Order of Business* for 3:30 p. m., Monday, May 18, 1914.

Motion *carried*.

#### UNFINISHED BUSINESS.

##### Final Passage.

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote:

Setting Aside Land in Jefferson Square for Site of Fire Alarm and Police Telegraph Systems.

Bill No. 3025, Ordinance No. 2749 (New Series), as follows:

Selecting and setting aside additional land in that certain square or park known as Jefferson Square, bounded on the north by Eddy street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems.

Whereas, the Board of Supervisors did, by Ordinance No. 2732 (New Series), select and set aside in that certain square or park known as Jefferson Square, bounded on the north by Eddy street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, a site upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems; and,

Whereas, the site selected and set aside by said Ordinance No. 2732

(New Series) is not sufficient for said central station for the Fire Alarm and Police Telegraph and Telephone Systems; now, therefore,

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. There is hereby selected and set aside, in addition to the lot, piece or parcel of land heretofore, by Ordinance No. 2732 (New Series), selected and set aside in that certain square or park known as Jefferson Square, bounded on the north by Eddy street, on the south by Golden Gate avenue, on the east by Gough street and on the west by Laguna street, the lot, piece or parcel of land more particularly described as follows, to-wit:

Commencing at a point on the southerly line of Turk street, distant thereon two hundred and eighty-two (282) feet and six (6) inches easterly from the easterly line of Laguna street; running thence at a right angle southerly one hundred (100) feet; thence at a right angle easterly thirty (30) feet; thence at a right angle northerly one hundred (100) feet to the southerly line of Turk street and thence at a right angle westerly along said southerly line of Turk street thirty (30) feet to the point of commencement, upon which may be erected by competent authority a central station for the Fire Alarm and Police Telegraph and Telephone Systems.

Sec. 2. Said station when erected to be under the control and management of the Joint Commission of the Department of Electricity and said Joint Commission shall have power and authority, when said station is erected, to maintain across said square or park the necessary conduits, wires and lines leading to said station.

Sec. 3. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Changing Routing of Street Car Lines.

Bill No. 3027, Ordinance No. — (New Series), as follows:

Changing the routing of certain street car lines of the United Railways in the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The United Railways of San Francisco is hereby authorized and directed to change the routing of cars on certain of its lines within the City and County as follows:

The cars on the line known as the Turk and Eddy line (designated as No. 4) now operated from the Richmond District to Market street and The Embarcadero via Turk and Eddy streets shall hereafter be routed on Ellis and O'Farrell streets and on Fourth street to the Southern Pacific Depot; the cars on the Parkside-Depot line and on the Ocean-Depot line (designated as Nos. 17 and 20) operated respectively from Twentieth avenue and the Ocean Beach to the Southern Pacific Depot shall hereafter be routed to Market street and The Embarcadero via Turk and Eddy streets, and the cars on the line known as the Hayes-Market line (designated as No. 21) now operated from Fulton street to Market street via Ellis and O'Farrell streets shall hereafter be routed to Market street via Turk and Eddy streets.

Transfers heretofore issued by the Turk-Eddy line at points west of Divisadero street as specified in Ordinance No. 581 (New Series) shall hereafter be issued at the same points by the Parkside, Ocean and Hayes-Stanyan lines, and transfers heretofore issued by the Parkside, Ocean and Hayes-

Stanyan lines west of Divisadero street shall hereafter be issued at the same points by the Turk-Eddy line.

None of the cars herein mentioned shall be operated on Market street between Eddy street and The Embarcadero between the hours of 4:30 and 6 o'clock p. m.

Section 2. This ordinance shall take effect June 1, 1914.

#### Final Passage.

The following matters heretofore passed for printing, were taken up, and finally passed by the following vote:

#### Amending Street Pavement Ordinance.

Bill No. 3028, Ordinance No. 2750 (New Series), Amending Section 4 of Ordinance No. 240, entitled, "Prescribing general rules and standard specifications for street and sidewalk work and limiting the use of various kinds of pavements and sidewalks in the City and County of San Francisco," approved March 1, 1901.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 4 of Ordinance No. 240, the title of which is recited in the title of this ordinance, is hereby amended so as to read as follows:

Section 4. No asphalt or bituminous rock pavement shall hereafter be laid on any street whose gradient exceeds eight (8) per cent., except on Fourteenth street between Guerrero and Dolores streets.

No bituminous rock or asphalt pavement shall hereafter be laid without a binder course within the following described district:

Commencing at the point where the west line of Van Ness avenue termi-

nates at the northern water front of the City; thence southerly along the west line of Van Ness avenue to the southerly line of Bay street; easterly along the southerly line of Bay street to the southwesterly line of Montgomery avenue; southeasterly along the southwesterly line of Montgomery avenue to the westerly line of Stockton street; southerly along the westerly line of Stockton street to the northerly line of Post street; westerly along the northerly line of Post street to the westerly line of Mason street; southerly along the westerly line of Mason street to the northerly line of Ellis street; westerly along the northerly line of Ellis street to the easterly line of Polk street; northerly along the easterly line of Polk street to the southerly line of Washington street; thence across Polk street on the southerly line of Washington street to the westerly line of Polk street; southerly along the westerly line of Polk street to the northwesterly line of Market street; southwesterly along the northwesterly line of Market street to the westerly line of Valencia street produced; southerly along this line and the westerly line of Valencia street to the southerly line of Fourteenth street; easterly along the southerly line of Fourteenth street to the westerly line of Harrison street; southerly along the westerly line of Harrison street to the southerly line of Alameda street; easterly along the southerly line of Alameda street to the southeasterly line of Division street; northeasterly and easterly along the southerly line of Division street to the southeasterly line of Berry street; northeasterly along the southeasterly line of Berry street to the eastern water front of the City, and thence northerly and westerly along this water front to the place of commencement; provided, however, that within this district special permits may be granted by the Board of Public Works for the construction of bituminous rock or asphalt pavement without a binder course on streets other than main streets.

Within the district described in this section no bituminous rock nor asphalt pavement shall be laid on streets whose gradients exceed six (6) per cent.

On streets with gradient not exceeding fifteen (15) per cent, pavements of bituminous rock or asphalt may be laid upon either side of a central strip of basalt block or vitrified brick pavement having a width of at least fourteen (14) feet. Where bituminous rock or other smooth surfaced pavements are already laid on accepted streets whose gradients exceed the limiting

gradients herein mentioned, they may be maintained.

Section 2. This ordinance shall take effect immediately.

Hon. Board of Supervisors, City Hall, San Francisco:

Gentlemen — Application having been made to me by Honorable Thomas F. Boyle to be absent from the State for a period of sixty days, in accordance with Section 3 of Article 16 of the Charter of the City and County of San Francisco, I beg to recommend to your Honorable Board that the leave of absence requested by Mr. Boyle be granted, such absence to date from Monday, June 1.

Respectfully,  
JAMES ROLPH, JR.,  
Mayor.

Whereupon, the following resolution was presented and adopted under suspension of the rules:

J. R. No. 1266.

Resolved, That in accordance with the recommendation of his Honor the Mayor, filed May 18, 1914, Thomas F.

Boyle, Auditor of the City and County of San Francisco, is hereby granted a leave of absence for sixty days from and after June 1, 1914, with permission to leave the State.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—18.

Report of City Engineer on Garbage Incinerators.

The following report was presented and read by the Clerk:

May 18, 1914.

Public Welfare Committee, Board of Supervisors, San Francisco:

Gentlemen—In reply to a letter addressed to this office on the 13th instant by the Clerk of the Board of Supervisors, requesting a report on the status of the Islais Creek Incinerator at the present time, I beg leave to submit the following:

*Brief History of Construction of Garbage Incinerators.*

On May 11, 1908, an election was held for the purpose of authorizing the issuance of bonds in the sum of \$1,000,000 for the purpose of constructing a garbage disposal system for the City of San Francisco and the proposed bond issue was approved by the voters.

On October 1, 1908, an investigation was begun for the purpose of determining the quantity, composition and heat values of the refuse collected in this city.

In June, 1910, the specifications for the Islais Creek and North Beach incinerating furnaces and appurtenances were completed by the City Engineer, approved by the Board of Public Works and an appropriation was made for their printing. These specifications were so worded as to place all of the responsibility for the design, construction, erection and testing of the incinerating plants upon the contractor to whom the contract for their construction might be awarded. The contractor was required to guarantee the results which would be secured and heavy penalties for failure to fulfill the guarantees were provided.

On August 12, 1910, proposals were invited for the construction of the mechanical equipment of the North Beach and Islais Creek incinerators, to be opened on November 16th.

On November 18th, 1910, the contract for the construction of these incinerators was awarded to the Power Specialty Company, agents of the Destructor Company, who proposed to furnish and install furnaces of the Heenan-Froude type.

On December 19, 1910, the contract between the Power Specialty Company and the Board of Public Works was signed.

Preparation of plans for the construction of the furnaces and their appurtenances was thereupon begun by the Power Specialty Company and of plans for the buildings to house the incinerators by the City Engineer. These plans were practically completed on October 30, 1911.

On October 30, 1911, the Power Specialty Company suggested a change in the manner of handling garbage from the garbage wagons to the incinerator furnaces.

On January 3, 1912, after a careful investigation of the merits of the proposed change, the Board of Public Works, at the recommendation of the City Engineer, passed a resolution accepting the proposal of the Power Specialty Company upon the condition that the bondsmen of the Power Specialty Company should file a stipulation approving the change.

This change necessitated the discarding of the plans which had previously been made for the construction of the buildings to house the proposed machinery. New plans for these buildings were accordingly commenced immediately.

On February 5, 1912, the contract was awarded for grading the site of the Islais Creek incinerator.

On May 12, 1912, contracts for the construction of the Islais Creek incinerator buildings were awarded to McLean-Haggans & Aden and the Judson Manufacturing Company.

On July 3, 1912, the foundations for the furnaces of the Islais Creek incinerator were ready for the Power Specialty Company to commence the work of installation and, as required by the specifications, the Power Specialty Company were notified to that effect in Board of Public Works Resolution No. 18922. The date of this resolution automatically fixed the date upon which the contractor should be ready to commence testing the Islais Creek station at October 24, 1913, and the date upon which the station should be completed at January 22, 1914. Under another clause of the specifications, however, this

date upon which the station is to be completed has been automatically extended until such time as the Power Specialty Company shall complete such alterations and further tests as have been found necessary.

On August 28, 1913, the Power Specialty Company commenced testing the Islais Creek incinerator and continued testing until October 14, 1913. During this period 947.3 tons of garbage were burned. During these tests it developed that the grab bucket which had been furnished by the Power Specialty Company for the purpose of handling garbage between the garbage storage pit and the incinerator furnaces was not entirely satisfactory and that the bucket elevator which had been provided for handling crushed clinker from the clinker crusher to the clinker storage bins was not suitable for the purpose.

On October 14, 1913, the plant was shut down for the purpose of installing a new grab bucket and bucket elevator.

On December 23, 1913, the necessary changes had been completed and the Power Specialty Company again commenced to burn garbage.

On December 24, 1913, after 26 tons of garbage had been delivered, the scavengers declined to deliver any more garbage until the road to the incinerator should be placed in a passable condition.

On January 19, 1914, the road had been repaired and the burning of garbage was again commenced and continued until February 27th, during which period 1070.9 tons of garbage were consumed.

The operation of the incinerator during this test showed that the machinery for handling the ashes and clinker resulting from the burning of the garbage was unsatisfactory and after numerous experiments, the Power Specialty Company decided to give up the attempt to make this machinery satisfactory and to redesign the clinker handling portion of the plant.

On February 27, 1914, the garbage incinerator was shut down and since that time the Power Specialty Company's engineers have been engaged in making various plans for the handling of clinker between the incineratory furnaces and the clinker storage bins.

On May 1, 1914, after a consideration of all of the plans which had been prepared by the Power Specialty Company, the Power Specialty Company and the City Engineer finally selected what appears to be the most desirable plan and the Power Specialty Company was authorized to proceed with the necessary altera-

tions. These alterations are now being made.

At the conference recently held in the office of his Honor the Mayor the Power Specialty Company stated that they could have the plant ready for operation again in two months, or about July 1st. The engineers of this office are of the opinion, however, that a somewhat longer time will be required to make the necessary alterations and do not expect the plant to be ready for further trial before the first of August.

As has already been stated, the contract between the Power Specialty Company and the City definitely places all responsibility for the design, construction, erecting and testing of the proposed garbage incinerators with the contractor, who is required to guarantee the results which will be secured from the operation of the incinerators, under heavy penalties for failure to fulfill these guarantees.

This being the case, the activities of this office have been confined to the inspection of the manner in which the work has been performed by the Power Specialty Company, all responsibility for the design of the incinerating plant having been assumed by the company under the contract. This responsibility the Power Specialty Company fully recognize and are cheerfully making the necessary changes in the incinerator at their own expense.

It is but fair to the Power Specialty Company to state that there does not appear to be any serious difficulty in burning garbage in a manner which is entirely satisfactory and without the emission of any considerable quantity of smoke from the chimney. The difficulty up to the present time has been in handling the resulting ashes and clinker. These contain a large quantity of tin cans which have prevented the successful operation of the clinker handling machinery. This clinker handling machinery is a new departure in garbage disposal and one which has not been experimented on to any considerable extent by any other city. It was adopted, I understand, at the advice of Mr. Rudolf Hering, the Consulting Engineer under whose advice the specifications were prepared, with the idea of minimizing the cost of operating the incinerator. While I cannot state that the method of handling clinker which is now being installed will be successful until it has been tried, I see no reason to doubt that the plant can ultimately be made to comply with the requirements of the specifications in every particular.

There is attached hereto a statement of the expenditures which have

been made under this bond issue up to April 1, 1914. Your particular attention is directed to the fact that the original estimate did not contemplate the purchase of the Sanitary Reduction Works and the \$400,000 which was used for the purpose has reduced the amount available for the construction of additional plants by just that amount.

In reference to the North Beach incinerator, it is not proposed to proceed with its construction until it shall be proven by actual operation that the plan upon which we are now experimenting can be made to fully meet the requirements of the specifications. The plans of the North Beach station will then be revised to such an extent as is shown to be necessary, and contracts let for its construction as soon thereafter as possible.

Respectfully yours,

M. M. O'SHAUGHNESSY,

City Engineer.

San Francisco, Cal., May 15, 1914.

Hon. John S. Dunnigan, San Francisco, Cal.:

Dear Sir—In replying to your favor of May 13th, I have the honor to advise you that the delay in placing the Islais Creek incinerator in full operation is due to the unexpected difficulty encountered in designing the mechanical means for handling the clinker, as called for by the specifications.

Our people have been manufacturers of refuse destructors for over twenty years. We have some three hundred successful plants to our credit, extending throughout all countries, and including the principal cities abroad, such as London, Manchester, Dublin, Brussels, Rotterdam, Paris, St. Petersburg and Rio de Janeiro.

In America we have built the modern plants in the cities of New York, Milwaukee, Paterson, Buffalo, West Mount (Montreal), Vancouver, Seattle, Montgomery, Atlanta, Savannah and Havana.

Our contract with the city calls for the construction of incinerators which, when finished, will be the most complete and the most economical in operation yet attempted. Necessarily they involve some novel features in design. Your engineers will confirm our statement that no difficulty whatever has been experienced in satisfactorily burning the garbage delivered to the plant, the sole difficulty being with the clinker handling machinery. We have no hesitation in stating that this part of the problem can be satisfactorily solved and that we will deliver to you an incinerating plant which will be a credit to the city as well as to ourselves.

At the hearing in the Mayor's office toward the end of April, we promised his Honor to have the plant in full operation within three months, and it is our intention to keep that promise.

Respectfully,

E. H. FOSTER.

Recommending Tunnel Accountant and Assistant.

#### REPORTS OF COMMITTEES.

The following committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Public Buildings Committee, by Supervisor Bancroft, Chairman.

Health Committee, by Supervisor Walsh, Chairman.

Fire Committee, by Supervisor McLeran, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

Supplies Committee, by Supervisor Hilmer, Chairman.

Consideration of Proposed Reduction, Street Railway Fares.

The following reports were presented and read by the Clerk:

#### *Majority Report.*

San Francisco, May 18, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco:

Gentlemen—A majority of the Committee on Public Utilities, after full consideration of the bill to regulate rates of fare for the transportation of passengers, and requiring sale of tickets for such transportation and limiting the price of such tickets, etc., providing in effect the sale of six tickets for 25 cents and 25 tickets for \$1, reports adversely with the recommendation that action thereon be indefinitely postponed.

The Committee acted on this matter at its meeting Wednesday, May 13th, Supervisors Bancroft, Hayden, Hilmer and Vogelsang voting for indefinite postponement and Supervisor Gallagher voting for favorable recommendation of the aforesaid bill. Supervisor Gallagher reserved the right to present a minority report.

In making this report, the Committee repeats its arguments of May 4th when adverse action was recommended upon ordinance providing for half-fares on the street railways for persons under eighteen years of age. In that report it was stated:

"In the opinion of your Committee no action looking to the reduction of

railway income should be taken at least until after the completion and full operation of all Municipal roads now building and proposed.

"All extensions to existing lines and all lines now in course of construction will probably be built out of the earnings of trunk roads as the least burdensome method of raising necessary finances.

"Your Committee feels, so far as privately owned systems are concerned, that insistence for some time in the future of the policy now followed of five cent service for five cent fare shall continue.

"Having assumed the responsibility of Municipal construction and ownership, it is incumbent upon the City to construct unprofitable extensions as well as profitable main lines, and this must certainly be done without addition to the general tax rate.

"When this shall have been done and the system operated for a time sufficient to demonstrate its financial success, it may be possible and feasible to reduce present charges of transportation without injury. And at that time a careful study of the transportation question can be made and, with the cost and operating data at hand, an intelligent and fair judgment may be reached."

The arguments here quoted the Committee feels apply with equal force to the six for a quarter fare ordinance as they did to the half-fare under eighteen years of age.

The Committee feels that the six for a quarter system would necessarily reduce the income of the Municipal Railway; that the possible increase in traffic would not be commensurate with the reduction in revenue.

Respectfully submitted,

ALEXANDER T. VOGELSANG,

PAUL BANCROFT,

FRED L. HILMER,

J. EMMET HAYDEN,

Majority Public Utilities Committee.

#### *Minority Report.*

May 18, 1914.

As a member of the Public Utilities Committee, to whom was referred proposed ordinance to reduce street car fares, I herewith submit the following minority report:

I take issue with my associates on the committee as to the desirability and practicability of enacting this ordinance at the present time. Especially do I take exception to the determination of the majority of the committee to shelve this matter without at all investigating the merits of this proposition. My associates proclaim themselves great friends of municipal ownership and operation of street railroads, and are opposed to inquire into the effect or feasibility

of reducing fares on the plea that the welfare of the municipal road requires the continued accumulation of a surplus before it is safe to adopt any measures to cheapen the service. In my judgment, this attitude is irreconcilable with acknowledged aims and reasons underlying our policy to own and operate our public utilities. The only justification for entering upon the policy of municipal ownership is to give better and cheaper service to the public than under private management. If this city cannot accomplish these aims, I hold that municipal ownership will prove a failure, and this city is now embarking on a course the direct opposite to that followed by all other cities in America and abroad that have successfully demonstrated the advantages of public as compared with private ownership.

If a proper investigation is made, I feel confident such investigation will show that there is only one way in which the private local monopoly may be satisfactorily regulated, and that is by actively competing with it both in matter of service and of rates. It is my firm opinion that the municipal road can stand such competition from the start, and that such policy of active and persistent competition will bring good results to the people of this city.

Anticipating that difficulties may arise in securing absolute mathematical demonstration as to the effect in dollars and cents the reduction will have on the gross receipts, I think, however, the investigation will show that some reduction in fares is justifiable. Hence, it would be proper and in line with our duty to establish the proposed reduction for a tentative period, say for the space of one year, in order to afford an incontestable basis for the formulation of a permanent or progressive policy in this matter.

I would respectfully remind every member of this Board, that each and every one of us has been entrusted with office on a platform to advance municipal ownership. As part of our official duties we are bound to investigate and regulate rates of transportation. This Board is the only body under our laws entitled and empowered to make such investigations and regulations. Taking into consideration that only a comparatively small portion of the population have occasion to be benefited directly by the use of the municipal road, it results that our duty to the rest of the people, the majority, demand imperatively of us to carefully guard and inquire into their interests. They also are entitled to good service and rea-

sonable rates. No one in this city should with our connivance be compelled to pay a higher price than the service is reasonably worth.

In order that there may be opportunity given me for the collection of data which will amply refute some statements made, I respectfully ask that consideration of this subject matter (and the majority and minority reports) be postponed for thirty days and be made a special order at 2:30 p. m., on Monday, June 15th, 1914.

Respectfully submitted  
ANDREW J. GALLAGHER,  
Member Public Utilities Committee.

#### Action Deferred.

*Supervisor Gallagher* moved that both reports be laid over and made a Special Order of Business for 2:30 p. m., June 15, 1914.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hocks, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Noes—Supervisors Hilmer, Jennings—2.

#### Hearing of Protests.

##### *Improvement of Beach Street.*

Hearing of appeal of Dundon & Co. against the improvement of the roadway of Beach street, between Taylor and Jones, and Beach street, between Jones and Leavenworth, fixed for the hour of 3 p. m. this day was proceeded with.

#### Privilege of the Floor.

*P. F. Dundon*, representing Dundon & Co., was granted the privilege of the floor and addressed the Board. He protested against the proposed improvement on the ground that it is unnecessary at this time.

#### Motion.

*Supervisor Power* moved that action be deferred one week in order that Supervisors may visit location.

Motion carried.

##### *Improvement of Arlington Street.*

Hearing the appeal of John H. Wise from the decision of the Board of Public Works in overruling the objections of John H. Wise to the proposed improvement of Arlington street, between Charles and Miguel streets, as set forth in Resolution of Intention No. 29420 (Second Series), of the Board of Public Works, fixed for Monday, May 18, 1914, at 3 p. m., was proceeded with.

#### Privilege of the Floor.

*John H. Wise*, property owner, was granted the privilege of the floor and addressed the Board. He protested against the proposed improvement on the ground that the property lines

have not yet been determined, that bridge should first be constructed at Charles street and for the further reason that there were other outlets to the district by way of Charles and Miguel streets.

**Motion.**

*Supervisor McCarthy* moved that matter be laid over two weeks.

*Motion carried.*

**Relative to Payment of City's Assessment for Stockton Street Tunnel.**

In accordance with action had at last meeting *Supervisor McCarthy* renewed his motion that *Supervisor Vogelsang's* resolution providing for the payment of the City's assessment for the Stockton street tunnel be amended by providing for such payment out of the earnings of the Union Street Railway.

**Amendment.**

*Supervisor Gallagher* moved as an amendment that action be postponed until tomorrow.

*Motion carried.*

**SPECIAL ORDER, 3:30 P. M.**

**Dog Muzzling Ordinance.**

In accordance with recommendation of Health Committee and on motion of *Supervisor Payot* the proposed "dog muzzling ordinance," laid over from last meeting and made a Special Order of Business for 3:30 p. m. this day, was taken up.

**Privilege of the Floor.**

*Mrs. Evans*, representing the Tokalon Club, was granted the privilege of the floor. She urged the Board to adopt the recommendations of the Board of Health and renew the "Dog Muzzling Ordinance."

*Dr. Ophuls*, representing the State Board of Health, called attention to the presence in San Francisco of an epidemic of rabies among dogs and the importance of the enactment of a dog muzzling ordinance in order to stamp it out.

*Dr. Julius Rosenstirn* read telegrams from the Board of Health of New York City as to the restrictions in vogue in that city for the purpose of stamping out rabies.

*Wm. Nealon*, protested against the proposed dog muzzling ordinance. He did not believe such a disease existed as rabies. He declared that only a short time since one of his fingers had been bitten almost entirely off by a pet dog and no serious consequences followed.

*Mrs. Marshall*, representing the Animal Humane Society and *Dr. Kellogg* of the Board of Health, renewed their requests for the enactment of the dog muzzling ordinance for the reasons heretofore advanced by them.

Whereupon, the following resolution was presented by *Supervisor McCarthy* and adopted by the following vote:

**City Attorney to Prepare Ordinance Authorizing Mayor to Order Muzzling of Dogs.**

On motion of *Supervisor McCarthy*:  
J. R. No. 1276.

Resolved, That it is the sense of this Board that the City Attorney be requested to prepare an ordinance authorizing the Mayor to order the muzzling of all dogs or to provide a method of so doing whenever he is convinced by reports submitted to him by the Board of Health that there exists within the limits of the City and County of San Francisco danger of infection of rabies; and provided, further, that for the purpose of presenting this information any police or peace officer be authorized to impound and hold for investigation for a period of not more than five days any supposed mad or rabid dog.

Ayes—*Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nolan, Payot, Power, Suhr, Walsh*—15.

Noes—*Supervisors Murdock, Nelson, Vogelsang*—3.

**Indefinite Postponement.**

Whereupon, the following entitled ordinance was, on motion of *Supervisor McCarthy*, indefinitely postponed by the following vote:

Bill No. —, Ordinance No. — (New Series), "Requiring the Muzzling of Dogs."

Ayes—*Supervisors Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Walsh*—14.

Noes—*Supervisors Bancroft, Jennings, Murdock, Vogelsang*—4.

**UNFINISHED BUSINESS.**

**Final Passage.**

The following matters heretofore passed for printing, were taken up, finally passed by the following vote:

Providing \$12,312 Derived from Rentals for Erecting Temporary Works of Art in Civic Center.

Resolution No. 10876 (New Series), as follows:

Whereas, it is necessary to improve the Civic Center and place the same in a presentable appearance for the Panama-Pacific Exposition to be held in this City and County during the year 1915; therefore, be it

Resolved, That the sum of \$12,312.00 be and the same is hereby set aside, appropriated and authorized to be expended out of the City Hall and Civic Center Bond Fund, issue 1912 (from moneys therein, derived from rentals of premises within the Civic Center),

for the purpose of erecting in said Civic Center works of art of a temporary character, consisting of balustrades, pedestals, lamps, etc., subject to approval of the Board of Park Commissioners.

It is further provided and understood that all of the hereinabove described work will be removed from said Civic Center upon the closing and termination of the Panama-Pacific Exposition.

**Ayes**—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Suhr, Vogelsang—15.

**Noes**—Supervisors Jennings, Power, Walsh—3.

Providing \$8136 for Parking Civic Center. Resolution No. 10877 (New Series), as follows:

Resolved, That the sum of \$8,136 be and the same is hereby set aside, appropriated and authorized to be expended out of the City Hall and Civic Center Bond Fund, issue 1912, under the supervision of the Park Commission, for the planting of trees, plants and shrubs, and otherwise parking in the Civic Center.

The above work is to be done in accordance with plans and specifications to be furnished by the Bureau of Architecture of the Board of Public Works.

**Ayes**—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Providing \$43,552 for Construction of Sidewalks, Curbing, Settees, Grading, Filling, Cistern, Piping, Gravel Walks, Sculpture, Fountains, etc., Within the Civic Center.

Resolution No. 10878 (New Series), as follows:

Resolved, That the sum of \$43,552.00 be and the same is hereby set aside, appropriated and authorized to be expended out of the City Hall and Civic Center Bond Fund, issue 1912, for the construction of sidewalks, curbing, settees, grading and filling, cistern, piping, gravel walks, sculpture and fountains, etc., within the Civic Center, subject to approval of the Board of Park Commissioners.

The improvement of Nineteenth avenue between Anza and Balboa streets by the construction of granite curbs and an asphaltic pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the

roadway thereof, where not already so improved.

**Blasting Permit.**

Also, Resolution No. — (New Series), as follows:

Resolved, That W. E. Gruver is hereby granted permission, recoverable at will of the Board of Supervisors, for a period not exceeding ninety days from date of approval of this resolution to explode blasts in Rhode Island street, between Eighteenth and Nineteenth streets, during the construction of a sewer in said street, provided that said permittee shall execute and file a good and sufficient bond in the sum of ten thousand (\$10,000) dollars as fixed by the Board of Public Works and approved by his Honor the Mayor, in accordance with Ordinance No. 1204; provided, also, that said blasts shall be exploded only between the hours of 7 a. m. and 6 p. m., and that the work of blasting shall be performed to the satisfaction and under the supervision of the Board of Public Works, and that if any of the conditions of this resolution be violated by the said W. E. Gruver, then the privileges and all rights accruing thereunder shall immediately become null and void.

**Adopted.**

The following resolutions were adopted:

**Extensions of Time.**

On motion of Supervisor McCarthy: Resolution No. 10888 (New Series), as follows:

Resolved, That Sunset Construction Company is hereby granted an extension of thirty days' time from and after May 5, 1914, within which to complete contract for curbing and paving Forty-fifth avenue, between Anza and Balboa streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that property owners want a better curbing and sidewalks and contractor is endeavoring to secure enough signatures to construct a better type of curb and sidewalks.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Also, Resolution No. 10889 (New Series), as follows:

Resolved, That Healy-Tibbitts Construction Company is hereby granted an extension of thirty days' time from and after May 13, 1914, within which to complete contract for constructing the Baker street sewer.

This extension of time is granted upon the recommendation of the Board

of Public Works for the reason that water pressure at high tide has retarded the work.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Also, Resolution No. 10890 (New Series), as follows:

Resolved, That Flinn and Treacy are hereby granted the following extensions of time to complete street work, to-wit:

Thirty days' time from and after April 21, 1914, within which to complete contract for curbing and paving Thirteenth avenue, between Geary and Clement streets.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the work is almost completed.

Thirty days' time from and after April 17, 1914, within which to complete contract for the construction of an artificial stone sidewalk on Buena Vista avenue, between Haight street and Duboce avenue, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that on account of the excessive rains in January and February, contractor could not start work.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

**Intention to Change Grades.**

Resolution No. 10891 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works filed May 14, 1914, to-wit:

On Bryant street, between Ninth street and Division street, and on Tenth street, between Harrison street and Division street.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice

of the passage of this resolution of intention.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Intention to Widen Circular Avenue.

Also, Resolution No. 10892 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the widening of Circular avenue, between Diamond street and Sunnyside avenue, to a width of sixty feet.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Award of Contract, Metal Book Racks.

On motion of Supervisor Hilmer:

Resolution No. 10893 (New Series), as follows:

Resolved, That a contract is hereby awarded to the Bank Equipment Co. for furnishing eight (8) metal book racks for the Hall of Records for the sum of five hundred and eighty-two and 50/100 (582.50) dollars; said articles to be furnished in strict conformity with the bid and specifications therefor submitted on April 27, 1914. A surety bond in the sum of one hundred (100) dollars, to be approved by the Mayor, shall be furnished by said Bank Equipment Co. for the faithful performance of said contract. All other bids for said articles are hereby rejected.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Fixing Monday, May 25, 1914, for Hearing Appeal of Mary J. Claasen et al. Against Improvement of Mohawk Avenue.

On motion of Supervisor McCarthy:

Resolved, That Monday, May 25, 1914, at 3 p. m., in the chambers of the Board of Supervisors, be fixed as the time for hearing the appeal of Mary J. Claasen et al. from the decision of the Board of Public Works in overruling the objections of Mary J. Claasen to the proposed improvement of Mohawk avenue, from Mission street to Huron street, set forth in Resolution of Intention No. 29291 (Second Series) of the Board of Public Works.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran,

Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Mayor to Sell Horses of Sheriff's Department.

On motion of Supervisor Hilmer:

J. R. No. 1272.

Resolved, That the Mayor is hereby requested and authorized to sell the following personal property, now in custody of the Sheriff, at public auction after five days' advertising, to-wit:

One bay horse named "Dan."  
One bay horse named "Portola."  
One bay horse named "Dick."  
One dark mare named "Jessie."

All of said personal property being unfit and unnecessary for the use of the City and County.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following resolutions were introduced under suspension of the rules and adopted:

City Attorney to Advise as to the Creation of New Positions in Budget.

On motion of Supervisor Power:

J. R. No. 1273.

Resolved, That the City and County Attorney be and he is hereby requested to inform this Board whether, in view of the provisions of Section 35 of Article XVI of the Charter of the City and County of San Francisco, the budget for the fiscal year 1914-15, which contains provisions for the creation of new positions and the compensation of the incumbents thereof, will require the affirmative vote of not less than fourteen members to pass the same.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

City Attorney to Advise as to Legal Proceedings to Bring Great Highway Under Jurisdiction of Board of Public Works.

On motion of Supervisor Power:

J. R. No. 1274.

Whereas, many difficult engineering problems have developed on the Ocean boulevard, or Great Highway, and

Whereas, it is most necessary and essential that a magnificent boulevard or esplanade be constructed along the shore of the ocean, extending from the

Cliff House to the County Line on the south; and

Whereas, if such esplanade is to be built, the construction and control of said roadway should be under the jurisdiction of the Board of Public Works; therefore, be it

Resolved, That the City Attorney be and is hereby requested to advise this Board as to the legal proceedings necessary to bring said roadway under the supervision and control of the Board of Public Works.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.  
Supervisors Association to Meet in San Francisco in 1915.

On motion of Supervisor Kortick:  
J. R. No. 1275.

Resolved, That the Board of Supervisors concur with his Honor the Mayor extending a cordial invitation to the Supervisors Association of the State of California to hold the 1915 convention of that body in San Francisco.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

#### Extensions of Time.

On motion of Supervisor McCarthy:  
Resolution No. 10894 (New Series), as follows:

Resolved, That Robinson Nugent is hereby granted an extension of thirty days' time from and after June 6, 1914, within which to complete contract for paving and curbing of San Bruno avenue, between Division and Alameda streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that, while the work is now well under way, all of the curb being set, the grading done and about one-half of the concrete base constructed, there is a possibility of the contractor being unable to finish the work by the 6th day of June, 1914, and obtain an acceptance.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Also, Resolution No. 10895 (New Series), as follows:

Resolved, That Robinson Nugent is

hereby granted an extension of thirty days' time from and after May 21, 1914, within which to complete contract for paving, etc., of Ninth street, between Brannan and Division streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that, while the work is now well under way, all of the curb being set, the grading done and about one-half of the concrete base constructed, there is a possibility of the contractor being unable to complete the work on time and obtain an acceptance.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matters were presented and read by the Clerk:

Absence of Supervisor Vogelsang.

*Communication*—From Supervisor Alexander T. Vogelsang, explaining that he will be unable to attend this meeting owing to necessity of his attending to certain litigation in San Andreas.

Read and *Supervisor excused*.

Absence of Supervisor Payot.

The Clerk announced the absence of Supervisor Payot, who was *excused*.

Revocation of Spur Track Permits on Potrero Avenue.

Also, *Communication*—From Board of Public Works, recommending revocation of spur track privilege granted to F. E. Knowles and serving Ames & Harris Company's warehouse at Potrero avenue and Alameda street, for the reason that it will seriously interfere with the construction of the Potrero avenue extension of the Municipal Railways.

*Referred to Streets Committee.*

Also, *Communication*—From the Board of Public Works recommending revocation of privilege and removal by June 15, 1914, of spur track on Division street, between Potrero avenue and Hampshire street, crossing Division street and extending to Bryant street, and at present serving yard and warehouse of N. Clark & Sons, for the reason that it will seriously interfere with the construction and operation of the Potrero avenue extension of the Municipal Railways.

*Referred to Streets Committee.*

Leave of Absence, Chief of Police.

The following communications were presented and read by the Clerk:

Mayor's Office,  
San Francisco.

To the Honorable Board of Supervisors of the City and County of San Francisco:

Gentlemen—Application having been made to me by Chief D. A. White of the Police Department of this City and County for permission to leave the State for a period of 30 days from May 26, 1914, I hereby request that, in conformance with the language of Section 3, Article XVI of the Charter, you concur in granting said permission.

Very respectfully yours,

JAMES ROLPH, JR.,  
Mayor.

Also, *Communication*—From Chief of Police D. A. White, requesting permission to leave the State for a period of 30 days from and after May 26, 1914.

Relative to Office Secretary to Superintendent of Schools.

Also, *Communication*—From Superintendent of Schools Alfred Roncoveri, calling attention to the great necessity of creating position of office secretary in his department and requesting that provision be made for same.

Approved, James Rolph, Jr., Mayor.  
*Referred to the Finance Committee.*

Improvement of Beach Street.

Also, *Communication*—From the California Fruit Cannery Association, urging prosecution or proposed street improvements at Beach and Leavenworth streets.

Also, *Petition*—Of the South Central Improvement Association, against maintenance of rag sterilizing establishment of Raychester & Company at Eleventh and Folsom streets, and suggesting that it be located near crematory.

*Read by the Clerk.*

**Relative to Litigation Involving Improvement of San Bruno Avenue.**

Also, *Communication*—From the City Attorney, advising that inasmuch as city is not party to court actions now pending that it is not enjoined from doing any street work in San Bruno avenue, between Silliman and Felton streets.

*Read by the Clerk.*

#### REPORTS OF COMMITTEES.

The following committees, by their respective chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Fire Committee, by Supervisor McLeran, Chairman.

Health Committee, by Supervisor Walsh, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

**Hearing of Appeals.**

*San Bruno Avenue.*

The hearing of appeal of William H. Cole et al. against assessment for improvement of San Bruno avenue, between Silliman and Felton streets, fixed for the hour of 3 p. m. this day, was proceeded with.

**Privilege of the Floor.**

*Daniel O'Connell*, attorney representing property owners, was granted the privilege of the floor. He protested against the Board taking any action at this time as the matter is pending in the Superior Court. He stated that an injunction was obtained in July, 1912, and the property owners obtained damages from the City Street Improvement Company to the amount of \$12,000. The decision was subsequently set aside. A different court gave another verdict though the judgment has not yet been entered. While the matter is

still in litigation he requested that Board of Supervisors take no action.

*Oscar Heyman* stated that he had signed up contracts extending over a number of years providing for certain street work in San Bruno avenue and requested that the work be proceeded with.

Whereupon, the following resolution was introduced by Supervisor McCarthy and adopted by the following vote:

**Denial of Appeal.**

Resolution No. 10911 (New Series), as follows:

Resolved, That the appeal of William H. Cole et al. from the decision of the Board of Public Works in recommending the street work on San Bruno avenue, between Silliman and Felton streets, be and the same is hereby denied.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—16.

*Wisconsin Street.*

The hearing of appeal of T. J. Flynn against decision of Board of Public Works in the matter of the improvement of Wisconsin street, fixed for 3 p. m. this day, was proceeded with:

*Supervisor McCarthy* presented the following resolution, which was adopted by the following vote:

**Postponement of Work.**

Resolution No. 10912 (New Series), as follows:

Resolved, That the Board of Public Works is hereby directed to delay for a period not exceeding one year from date further proceedings for the construction of concrete curbs and artificial stone sidewalks on Wisconsin street, between Twentieth and Twenty-second streets, as set forth in Resolution of Intention No. 29290 (Second Series) of the Board of Public Works.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—16.

*Mohawk Avenue.*

The hearing of appeal of Mary J. Claasen et al. against improvement of Mohawk avenue, fixed for 3 p. m. this day, was proceeded with:

**Privilege of the Floor.**

*Oscar Heyman* was granted the privilege of the floor and stated that he had 51 lots on Mohawk avenue for sale, that he had improved one-half of Mohawk avenue and had expended \$1500 for street work. He requested that the work be allowed to go on.

Geo. M. Wilson also addressed the Board. He protested against the proposed improvement. He said he was not an obstructionist and is now engaged in doing street work in front of 412 lots in this city. The improvement on Mohawk avenue would cost him approximately \$1000 and was entirely unnecessary at this time. He declared that the proposed improvement was intended to serve the selfish interests of an individual and would not benefit property as street was a cul-de-sac.

Andrew F. Burke stated that this was a proposition to coerce property owners to pay for unnecessary work. The street is a cul-de-sac and the proposed improvement not required at this time.

Whereupon, the following resolution was introduced by Supervisor McCarthy and adopted by the following vote:

**Postponement of Work.**

Resolution No. 10913 (New Series), as follows:

Resolved, That the Board of Public Works is hereby directed to delay for a period not exceeding one year from date further proceedings for the improvement of Mohawk avenue, from Mission to Huron streets, as set forth in Resolution of Intention No. 29291 (Second Series) of the Board of Public Works.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLernan, Murdock, Nelson, Nolan, Power, Suhr, Walsh—16.

*Beach Street.*

The hearing of appeal of Dundon & Co. against the improvement of the roadway of Beach street, between Taylor and Jones, and Beach street, between Jones and Leavenworth, laid over from last meeting, and fixed for the hour of 3 p. m. this day, was proceeded with:

**Privilege of the Floor.**

P. F. Dundon was granted the privilege of the floor and addressed the Board. He declared that the work was unnecessary at this time and a heavy burden on the property owners.

H. Shimer of the Bureau of Engineering stated that the work was necessary inasmuch as it provides the connecting link with other already improved portions of the district.

Whereupon, Supervisor McCarthy presented the following resolution, which was adopted:

**Denial of Appeal.**

Resolution No. 10914 (New Series), as follows:

Resolved, That the appeal of Dundon & Co. from the decision of the Board of Public Works in recommend-

ing the street work in Beach street, between Taylor and Jones streets, and in Beach street, between Jones and Leavenworth streets, be and the same is hereby denied.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLernan, Murdock, Nelson, Nolan, Power, Suhr, Walsh—16.

**PRESENTATION OF PROPOSALS.**

*Lighting Streets and Public Buildings.*

Bids for lighting public streets, public buildings and outlying districts with gas and electricity, and for furnishing heat, light and power to the City and County of San Francisco for the year ending June 30, 1915, were proceeded with and referred as follows:

1. Pacific Gas and Electric Company; certified check for \$7500.
2. Pacific Gas and Electric Company; certified check for \$46,000.
3. City Electric Company; certified check for \$2000.

Referred to the Lighting and Rates Committee.

**UNFINISHED BUSINESS.**

**Final Passage.**

The following matters heretofore passed for printing, were taken up, finally passed by the following vote:

#### Laundry and Boiler Permits.

Supervisor McLeran presented:

Resolution No. — (New Series), as follows:

Resolved, That the following revocable permits are hereby granted:

#### Laundry.

Jean Claverie, at 2159 Geary street.  
Cames French Laundry, at 201 Diamond street.

Sanitary Laundry Co., at 15 McCoppin street.

#### Boiler.

Adler Sanitarium, 50 horse-power, at Van Ness avenue and Broadway.

#### Oil Storage Tank.

C. Hadler, on the west side of Mission street, 25 feet 6 inches north of Seventeenth street, 1500 gallons' capacity.

Stella C. Lovegrove, at northeast corner of Washington street and Presidio avenue, 1500 gallons' capacity.

#### Motion.

Supervisor McLeran moved that application of Jean Claverie for a permit to conduct a laundry at 2159 Geary street be *recommitted to the Fire Committee.*

*So ordered.*

#### Passed for Printing.

Whereupon, the foregoing resolution amended by striking out application of Jean Claverie was *passed for printing.*

#### Boiler Permit.

Supervisor McLeran presented:

Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at will of the Board of Supervisors, is hereby granted The Raychester Co., Inc., to maintain a boiler of 150 horse-power to be used in furnishing power for the manufacture of sterilized wiping rags and to install and maintain an oil storage tank of 3000 gallons capacity, in premises to be constructed at the northeast corner of Folsom and Dore streets; said permits being granted on the express condition that there be no windows or other openings in the rear portion of said building.

#### Privilege of the Floor.

Andrew J. Branagan, representing South Central Improvement Association, was granted the privilege of the floor and addressed the Board. He opposed the granting of the permit and stated that the applicant was endeavoring to extend his rag sterilizing plant at Eleventh and Folsom streets. He said that the Raychester Company is nothing but a junk business and unsanitary and filthy. Rags are imported from all over the country, and from the Orient. He said that since it was determined that the Municipal Railway would run on Eleventh street, its future was likely to make it a residence and apartment house district, and such an establishment would be a detriment.

Jos. Taafe, representing protestants, stated that this is no ordinary application such as the Board passes on every Monday. Great danger to the public health is present by reason of the employees of this establishment going out and mingling with the public on the streets and in the street cars.

Jas. B. Gaffney, property owner, stated that property would be depreciated and the health of wife and children will be menaced if the business is permitted to be conducted in that neighborhood.

Bessie Durback, property owner, stated that the plant should be located in some other place not so centrally situated.

Wm. Kelly, attorney, representing the applicant, stated that his client was engaged in a legitimate business. If the business becomes a nuisance it will then be proper for the Board of Supervisors and the Board of Health to abolish it.

J. West, also addressed the Board in favor of the application. He said that it was not true that rags would be imported from the Orient.

Archie Block, of South of Civic Center Improvement Association, stated that his organization generally was in favor of any improvement such as that applied for. He said he was requested by Dr. Quinlan and another member of the Association to appear before the Supervisors in the matter.

#### Adopted.

The following Resolutions were adopted:

#### Extension of Time.

On motion of Supervisor McCarthy: Resolution No. 10906 (New Series), as follows:

Resolved, That Church and Clark be and are hereby granted an extension of thirty days' time from and after May 5, 1914, within which to complete contract for improving the intersection of Dorland and Dolores streets.

This extension of time is granted upon the recommendation of the Board of Public Works for the rea-

son that there is some clearing up to do; the work has been completed.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—15.

Fixing Date for Hearing Appeal of Kate Faulkner Against Assessment for Street Work on Twenty-first Avenue, Between Lincoln Way and Irving Street.

Also, Resolution No. 10907 (New Series), as follows:

Resolved, That Monday, June 1, 1914, at the hour of 3 p. m., in the chambers of the Board of Supervisors, No. 1231 Market street, be fixed as the time and place for hearing the appeal of Kate Faulkner, 1285 Twenty-first avenue, from the assessment made and issued by the Board of Public Works on the 13th day of April, 1914, to the Raisch Improvement Company for the street work done under public contract on Twenty-first avenue, between Lincoln way and Irving street.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—15.

#### Extensions of Time.

Also, Resolution No. 10908 (New Series), as follows:

Resolved, That F. T. Moore is hereby granted an extension of thirty days' time from and after May 8, 1914, within which to complete contract for the construction of a sidewalk on Fulton street, between Stanyan street and Fourteenth avenue.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the operations of the Street Repair Department are making impassable that portion of Fulton street, between Stanyan street and Arguello boulevard, and the fact that the curb at the angular corner of the south-westerly intersection of Fulton street and the new entrance to Golden Gate Park are not yet in.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—15.

Also, Resolution No. 10909 (New Series), as follows:

Resolved, That G. W. McGinn & Co. is hereby granted an extension of thirty days' time from and after June 3, 1914, within which to complete contract for the improvement of the intersection of Ninth street, San Bruno avenue and Division street.

This extension of time is granted upon the recommendation of the

Board of Public Works for the reason that it has been necessary to cause the removal of a building encroaching on this intersection, which has delayed the work to some extent.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—15.

#### Intention to Change Grades.

Resolution No. 10910 (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades on the following named streets, at certain points and elevations above City base, in accordance with the written recommendation of the Board of Public Works filed May 12, 1914, to-wit:

On Peralta avenue, between the westerly line of Hampshire street produced and a line at right angles to the easterly line of, at the northerly line of Wolfe street; on Tomasca street, between Montcalm street and Peralta avenue, on York street, between Precita avenue and Peralta avenue, on Franconia street, between Wolfe street and Peralta avenue.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this resolution of intention.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Walsh—15.

**Removal of Wm. H. Hammer, Fire Commissioner.**

The following matters were presented, read and ordered spread in the Journal:

May 27th, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen:

I beg to advise you that Mr. William H. Hammer having been removed by me as a member of the Fire Commission of this City and County, on May 27th, 1914, I have this day appointed Mr. Charles T. Spader to fill the vacancy on the Board of Fire Commissioners, caused by the removal of Mr. William H. Hammer, and to fill the unexpired term of said William H. Hammer.

I transmit to you, herewith, copy of the charges preferred against William H. Hammer, and copy of my decision after a hearing of said charges.

Respectfully yours,

JAMES ROLPH, JR.,

Mayor of the City and County of San Francisco.

May 27, 1914.

To the Honorable Board of Supervisors, San Francisco.

Gentlemen:

On May 19, 1914, certain written charges, a copy of which is annexed hereto and made a part hereof, preferred by me against Fire Commissioner William H. Hammer, were presented by me to said William H. Hammer, accusing him of gross and wilful official misconduct and of wilful and contumacious misconduct, in violation of his duty as a member of the Board of Fire Commissioners, and in violation of law.

On May 21st, 1914, Commissioner Hammer appeared personally at my office, in response to the citation. Thereupon, on the day last mentioned, the trial of Commissioner Hammer, on the charges brought against him, was commenced before me, as Mayor of the City and County.

Mr. William A. Kelly, at my request, presented the evidence in support of the charges, and Messrs. John T. Williams and George T. Wright appeared

as attorneys for Commissioner Hammer.

The trial was concluded on Monday, May 25, 1914.

I found and decided that each and every charge is true and is sustained by the evidence, and that Commissioner Hammer is guilty of each of these charges, and I have this day removed him from the office of Fire Commissioner of the City and County of San Francisco, because I have adjudged him guilty of the said charges brought against him, as aforesaid.

A copy of the decision this day addressed to Mr. Hammer, is hereunto annexed. Decision rendered at 3:30 o'clock p. m., May 27, 1914.

Very respectfully,

JAMES ROLPH, JR.,

Mayor of the City and County of San Francisco.

In the matter of the charges against William H. Hammer, Members of Board of Fire Commissioners of the City and County of San Francisco.

On the 19th day of May, 1914, as Mayor of the City and County of San Francisco, I preferred certain charges against William H. Hammer, as a member of the Board of Fire Commissioners of the City and County of San Francisco. A copy of these charges is attached hereto and marked "Exhibit A" and made a part of this decision.

The first of those charges is based upon the repeated and persistent refusal of William H. Hammer, as such Fire Commissioner, to accept the certification by the Civil Service Commission of those persons eligible for the position of Assistant Chief Engineer of the San Francisco Fire Department; and upon the fact, that, after such list of eligibles were certified to the Board of Fire Commissioners by the Civil Service Commission, William H. Hammer, as Fire Commissioner, voted in favor of the appointment, to the offices respectively of First and Second Chief Engineer of the Fire Department, of persons whose names had not been certified to the Board of Fire Commissioners by the Civil Service Commission, and who were ineligible for such appointment and whom Commissioner Hammer knew to be ineligible.

The second of the charges is in effect that Commissioner Hammer's refusal and neglect to accept the certification of the Civil Service Commission and to abide by the law, the legal and proper administration of the affairs of the Fire Department has been interfered with; the discipline of the Fire Department endangered; the department, itself, demoralized, and the public business of the City and County of San

Francisco, particularly of the Fire Department, obstructed; all by the actions of Commissioner Hammer; and, further, that Commissioner Hammer, in writing, refused to attend a conference called by the Mayor of the members of the Board of Fire Commissioners and of the Civil Service Commission for the purpose of attempting to relieve the situation in the Fire Department.

A copy of these charges was served on William H. Hammer on the 19th day of May, 1914, together with a notice of the time and place set for the hearing of the charges, a copy of which notice is attached hereto and marked "Exhibit B" and made a part of this decision.

The charges were heard, and a trial of Commissioner Hammer was had, before me, as Mayor, in the office of the Mayor, on the 21st, 22nd, 23rd and 25th of May, 1914. Commissioner Hammer was present in person and was represented by counsel. Evidence was taken, and the matter submitted to me, as Mayor, for decision.

I find and adjudge William H. Hammer, as a member of the Board of Fire Commissioners of the City and County of San Francisco, to be guilty of said charges, and both of them, and I hereby remove him from office as a member of the Board of Fire Commissioners of the City and County of San Francisco.

The positions of First and Second Assistant Chief Engineers of the Fire Department have been held for some time by John R. Maxwell and James F. Layden, who were temporary appointees not under Civil Service. The Civil Service Commission has certified, under the provisions of the Charter, the names of three eligible persons for appointment to each of these positions. Commissioner Hammer has refused to vote for any of the men whose names were furnished by the Civil Service Commission upon the ostensible ground that the Civil Service Commission, in making up its list of eligibles for these two positions, did not include a physical examination with the mental examination. I am not, in this matter, concerned with the question whether or not the Civil Service Commission ought to have included a physical test in this examination. Upon entering the Fire Department, all applicants must submit to physical examination and must be found in sound bodily health, but the Charter makes it discretionary with the Civil Service Commission to require persons seeking promotion from one grade to a higher grade in the Fire Department to submit to a physical test. The Civil Service Commission has decided, in the

exercise of its legal discretion, not to require a further physical test from the active battalion chiefs seeking promotion. Judge Murasky has decided, in accordance with the plain provisions of the Charter, that the Civil Service Commission acted within its rights when its dispensation with the physical examination in the case of battalion chiefs. That, however, is not the issue. The only question involved in this matter is whether the members of any other commission shall set themselves up as judges to determine the propriety of an action of the Civil Service Commission, and shall undertake to go behind the certification of the Civil Service Commission. It is quite obvious that if Civil Service is to be anything but a farce, no commission or official shall be permitted to question the character or sufficiency of the examinations held by the Civil Service Commission or the validity of the lists of eligibles certified by that Commission. So City Attorney Long decided in 1908 in the Twomey case. I quote from City Attorney Long's opinion, rendered July 23rd, 1908, addressed to the Board of Police Commissioners:

"You ask now 'whether your Board has the power to go behind the certification of the Civil Service Commissioners and declare Twomey's appointment invalid?' Replying directly to your question, I would advise that your Board cannot 'go behind' the certification of the Civil Service Board."

This opinion, delivered officially in writing by City Attorney Long, is in direct conflict with the curbstone opinion rendered by the same official, upon which Commissioner Hammer bases his refusal to act upon the certification of the Civil Service Commission. That this, however, cannot have been Commissioner Hammer's sole reason for refusing to accept the certification of the Civil Service Commission is plain from the fact that when a motion was made to appoint to the positions, respectively of First and Second Assistant Chief Engineers, Mr. Maxwell and Mr. Layden, the temporary occupants of those positions, Mr. Hammer promptly voted in favor of the appointments, although neither Mr. Maxwell nor Mr. Layden had ever taken a physical examination for promotion. It is most extraordinary that a man who had, as Commissioner Hammer claims to have had, conscientious scruples against voting in favor of appointing to those positions Civil Service men who had not taken any physical Civil Service examination, should freely and gladly vote for appointment, to those same positions, of two men who had passed neither physical examinations nor qualified, in the mental examinations,

given by the Civil Service Commission, as eligible for certification.

I cannot reconcile Commissioner Hammer's stated reason for refusing to appoint the Civil Service eligibles with his actions. I consider his action a direct attack upon civil service. The excuse that the men certified by the Civil Service Commission have not passed a physical test is, in my opinion, buncombe. The examination was open only to Battalion Chiefs. If any of the Battalion Chiefs, who took the mental examination for promotion, is not physically fit to hold his position as Battalion Chief, the Board of Fire Commissioners should prefer charges against him for such unfitness, and, if they have failed to do so, they have committed a breach of duty. On the other hand, if the Battalion Chiefs are physically fit to perform their duties, there is no need, in my opinion, of an additional physical test. The severest physical test is the active and competent performance of the duties of Battalion Chief, and it is admitted that eligibles are actively and competently performing their duties as Battalion Chiefs. Commissioner Hammer wants to wait until an appeal taken from Judge Murasky's decision shall be decided.

I am not concerned with the issue upon appeal. Even though Judge Murasky's decision were subsequently reversed, that fact would not alter the situation. Mr. Hammer, in defiance of the Charter, and in violation of his plain duty, has refused to vote for the appointment of civil service eligibles, and has voted in favor of persons who are not eligible under the law.

The Superior Court has been vested, by the people, through the constitution, with the settlement in the first instance of controversies at law. The Superior Court has decided this dispute. The fact that an appeal has been taken to the Supreme Court, which, in the ordinary course, would not be heard for more than a year, cannot be allowed to suspend the operation of the city government during that time. Public convenience cannot permit the city government to be suspended pending an appeal. Such a condition would be intolerable.

Commissioner Hammer's refusal to vote for the appointment of any eligible on the civil service list has caused a deadlock, has obstructed public business, and has injured the discipline of the Fire Department. In order, if possible, to relieve the situation, I as Mayor, called a meeting in my office of the Civil Service Commissioners and the Fire Commissioners to consider what should be done. This action, I took, not only because the people hold

me responsible for the actions of all commissioners in the conduct of all departments, but because the Charter, in Chapter I of Article IV, expressly makes it the duty of the Mayor to "vigilantly observe the official conduct of all public officers and the manner in which they execute their duties and fulfill their obligations" and "from time to time recommend to the proper officers of the different departments such measures as he (the Mayor) may deem beneficial to public interest"; and the Charter further declares that the Mayor "shall see that the laws of the State and the ordinances of the City and County are observed and enforced," and "shall have a general supervision over all the departments and public institutions of the City and County and see that they are honestly, economically and lawfully conducted." Under these provisions, it was the manifest duty of Commissioner Hammer to attend the meeting in my office and his refusal to do so was a breach of his official duty, and not, as he contends, a mere discourtesy to the Mayor who had appointed him.

Dated May 27th, 1914.

JAMES ROLPH, JR.,  
Mayor of the City and County of San Francisco.

#### EXHIBIT "A."

*In the Matter of the Charges Preferred by James Rolph, Jr., Mayor of the City and County of San Francisco, Against William H. Hammer as a Member of the Board of Fire Commissioners of the City and County of San Francisco.*

Now comes James Rolph, Jr., Mayor of the City and County of San Francisco, and makes the following charges against William H. Hammer, an officer of the City and County of San Francisco, State of California, to wit: a member of the Board of Fire Commissioners of said City and County and one of the Fire Commissioners of said City and County.

(1) That said William H. Hammer is now and at all the times herein mentioned was an officer of the City and County of San Francisco, State of California, to wit: a duly appointed, qualified and acting member of the Board of Fire Commissioners of the City and County of San Francisco, and has been such officer and commissioner continuously from the date of his appointment, to wit: the 30th day of September, 1912.

(2) Said William H. Hammer since so becoming an officer, to wit: a member of the Board of Fire Commissioners of the City and County of San Francisco, and while such officer, to wit: a member of said Board of Fire Commissioners of the City and County

of San Francisco, has been guilty of gross and wilful official misconduct as such officer, to wit: a member of the Board of Fire Commissioners of said City and County of San Francisco, in the following particulars:

**FIRST CHARGE.**

(1) Prior to the 23rd day of July, 1913, the Civil Service Commission of the City and County of San Francisco, State of California, pursuant to and in conformity with the provisions of Article 13 of the Charter of the City and County of San Francisco, established a classification within the classified service thereof, providing for examinations for promotion in the San Francisco Fire Department, from the rank of battalion chief therein to the rank of assistant chief engineer therein. Said classification made by said Civil Service Commission and designated by it "Assistant Chief Engineer" was made by it for the purpose of establishing a list of persons eligible for appointment to the positions respectively of first assistant chief engineer and second assistant chief engineer of the San Francisco Fire Department.

(2) On the 23rd, 24th and 25th days of July, 1913, the said Civil Service Commission held an examination, under its rules and regulations, in accordance with the provisions of Article 13 of the Charter of the City and County of San Francisco, for the purpose of preparing a register for the grade or position of assistant chief engineer of the San Francisco Fire

Department, in order that the names of persons on such register might be certified by said Civil Service Commission to said Board of Fire Commissioners for appointment to the officers respectively of first assistant chief engineer and second assistant chief engineer of said Fire Department.

(3) That, on the 19th day of March, 1914, said Board of Fire Commissioners of said City and County of San Francisco notified said Civil Service Commission that it desired to fill the said positions of first assistant chief engineer and second assistant chief engineer of said Fire Department, and requested said Civil Service Commission to make certification to it of eligibles for appointment to said positions in said Fire Department, of first assistant chief engineer and second assistant chief engineer.

(4) That, on the 23rd day of April, 1914, said Civil Service Commission, and the commissioners thereof, as a result of said examination so held by said Civil Service Commission, as aforesaid, and from the returns of the examiners, did prepare a register for said grade and class and position of assistant chief engineer. Said register was and is in the words and figures following, to wit:

"Eligible List of Assistant Chief Engineers, Fire Department (Classified Service, Part Two (Old Series), Div. L., Sec. 2, Class IV).

Adopted April 23, 1914.

Rank.	Percentage.	Name.	Address.
1	90.8125	Stephen D. Russell,	22 Beaver St.

6	81.65	James Radford,	1453 Church St.
7	75.35	Thomas J. Murphy,	463 Duboce Ave."

(5) On the 23rd day of April, 1914, and after said register had been prepared, as aforesaid, and acting upon the said notification and request of said Board of Fire Commissioners, and in response thereto, said Civil Service Commission duly certified to said Board of Fire Commissioners the names and addresses of three candidates standing the highest upon the register for assistant chief engineer of said Fire Department for appointment to the position of first assistant chief engineer in said department, viz.:

Stephen D. Russell, 22 Beaver street, rank No. 1 on eligible list.

John J. Conlon, 1634 Waller street, rank No. 2 on eligible list.

Michael Boden, 1650 Nineteenth avenue, rank No. 3 on eligible list.

and after said register had been prepared, as aforesaid, and acting upon the said notification and request of said Board of Fire Commissioners, and in response thereto, said Civil Service Commission duly certified to said Board of Fire Commissioners the names and addresses of three candidates standing the highest upon the register for assistant chief engineer of said Fire Department for appointment to the position of second assistant chief engineer in said department, viz.:

John J. Conlon 1634 Waller street, rank No. 2 on eligible list.

Michael Boden, 1650 Nineteenth avenue, rank No. 3 on eligible list.

Charles R. Murray, 1009 Tennessee street, rank No. 4 on eligible list.

(6) On the 23rd day of April, 1914,

sioners and as such Fire Commissioner, has refused and failed, ever since the said 23rd day of April, 1914, and he still refuses and fails to vote for the selection and appointment to the positions respectively of first assistant chief engineer and second assistant chief engineer, or either of them, of said Fire Department, of any persons or any of the persons whose names and addresses were certified to the said Board of Fire Commissioners and to the Fire Commissioners, as aforesaid, for the said respective positions of first assistant chief engineer and second assistant chief engineer of the said Fire Department, or either of them, and has declared that he will never vote, as such Fire Commissioner and as a member of said Board of Fire Commissioners, for the appointment of any of the persons whose names and addresses were so certified for said respective positions of first assistant chief engineer and second assistant chief engineer of the Fire Department, and the said William H. Hammer, as such Fire Commissioner and as a member of the said Board of Fire Commissioners, has, since the 23rd day of April, 1914, voted for and attempted to secure the appointment to such positions respectively of first assistant chief engineer and second assistant chief engineer of said Fire Department, of persons whose names were not certified to the Board of Fire Commissioners by said Civil Service Commission, and who were ineligible, and whom he then and there knew to be ineligible for appointment to said positions, or either of them.

(8) That, on the 29th day of August, 1913, in an action then pending in the Superior Court of the State of California, in and for the City and County of San Francisco, in which John R. Maxwell, an officer of the San Francisco Fire Department was plaintiff, and said Civil Service Commission of the City and County of San Francisco, and the members thereof, were defendants, Honorable Frank J. Murasky, one of the Superior Judges of said City and County of San Francisco, and by whom said action was being heard, determined that the said classification aforesaid by said Civil Service Commission was authorized and legal and that the examination to be held by said Civil Service Commission, and which was thereafter held, as aforesaid, was in accordance with the provisions of the Charter, and within the powers of said Civil Service Commission.

#### SECOND CHARGE.

(1) Complainant hereby refers to paragraphs 1 to 8 inclusive of the statement of the first charge herein-

above set forth, and expressly makes said portions of said statement of said first charge a part and portion of this charge as though expressly herein incorporated.

(2) Since said 23rd day of April, 1914, two of the members of said Board of Fire Commissioners have voted, and are now willing to vote to appoint one of said persons so certified by said Civil Service Commission for the position of first assistant chief engineer of said Fire Department to said position, and one of said persons so certified by said Civil Service Commission for the position of second assistant chief engineer of said Fire Department to said position, but by reason of the failure and refusal of said William H. Hammer to vote for any of said persons for said positions, or either of them, ever since said 23rd day of April, 1914, it has been and is still, impossible to appoint any of said persons to either of said positions. No appointment to either of said positions has been made by said Board of Fire Commissioners and ever since said 23rd day of April, 1914, a vacancy has existed in each of said positions.

(3) At all times since said 23rd day of April, 1914, by reason of the failure of said Board of Fire Commissioners to fill said vacancies from said persons so certified by said Civil Service Commission as eligible to appointment to said respective positions, the legal and proper administration of the affairs of said Fire Department has been interfered with and the discipline of said Fire Department endangered, and the department itself demoralized, and the public business of the City and County of San Francisco, and particularly of said Fire Department, has been obstructed.

(4) For the purpose of attempting to relieve the aforesaid situation, on the 14th day of May, 1914, said Mayor of said City and County of San Francisco notified said William H. Hammer, as a member of said Board of Fire Commissioners, in writing, and orally, to attend a conference to be held by himself, as Mayor, and the members of said Board of Fire Commissioners and Civil Service Commission of the City and County of San Francisco, at the office of said Mayor in the City Hall, San Francisco, California, on Friday, the 15th day of May, 1914, at 3 o'clock p. m., said Mayor intending, at said time, to make such recommendations to said members of said Board of Fire Commissioners and said Civil Service Commission, and to said William H. Hammer, as such member of said Fire Commission, of such measures as he deemed beneficial for the public interests, and to insist

and demand that all laws, rules and regulations pertaining to the administration of civil service in the City and County of San Francisco be obeyed and observed.

(5) Said William H. Hammer, as such member of said Board of Fire Commissioners, refused, neglected and failed to appear at said time and place, to attend said conference, or for any other purpose, and notified said Mayor and asserted publicly that he would not attend said conference, or any like conference.

(6) Said refusal of said William H. Hammer to attend said conference was wilful, contumacious and in violation of his duty as said member of the Board of Fire Commissioners, and in violation of law. Said assertions and statements so made by said William H. Hammer, as aforesaid, were insulting, offensive and discourteous to the Mayor of the City and County of San Francisco, and intended by him so to be.

Dated May 19, 1914.

(Signed) JAMES ROLPH, JR.,  
Mayor of the City and County of San Francisco.

#### EXHIBIT "B."

Office of the Mayor of the City and County of San Francisco.

*Notice of Hearing of Charges Against William H. Hammer, a Member of the Board of Fire Commissioners of the City and County of San Francisco.*

To William H. Hammer, Member of the Board of Fire Commissioners of the City and County of San Francisco, State of California:

You are hereby notified that on Thursday, the 21st day of May, 1914, at the hour of ten o'clock a. m. of said day, at the office of the Mayor of the City and County of San Francisco, located on the third floor, Room No. 318, of the City Hall, Market street, near Eighth street, San Francisco, California, certain charges against you, a copy of which is hereto attached and marked Exhibit "A," and hereby made a part hereof, will be heard and passed upon by the undersigned Mayor of the City and County of San Francisco.

It appearing to me that if said charges are true, that good cause appears for my removing you as a member of the said Board of Fire Commissioners of the City and County of San Francisco;

You are therefore notified and directed to appear at said time and place and show cause, if any you have, why you should not be removed by me on account of said charges, from your position as a member of said Board of Fire Commissioners, and you are further notified that you may at said time

produce witnesses and testimony in your own behalf; and further, you are notified that said hearing will be so held at the time and place as above set forth, and at such future time or times to which it may be necessary to postpone said hearing.

Dated May 19, 1914.

(Signed) JAMES ROLPH, JR.,  
Mayor of the City and County of San Francisco.

#### Report of Tax Collector on Twin Peaks Tunnel Assessment Collections.

Office of the Tax Collector of the City and County of San Francisco.

San Francisco, May 29, 1914.

To the Honorable the Board of Supervisors:

Gentlemen—I, Edward F. Bryant, Tax Collector of the City and County of San Francisco, State of California, do hereby report to you as follows:

The Board of Supervisors having transmitted to me the map and list constituting the assessment levied by the Board of Supervisors by Resolution No. 10545 (New Series), adopted November 25, 1913, and approved November 25, 1913, for defraying the costs, damages and expenses of the construction and completion of a tunnel with approaches and appurtenances thereto under the elevation known as the Twin Peaks Ridge in said City and County of San Francisco, and also to defray the damages and compensation allowed and awarded to the owner or owners or persons interested in the property to be acquired therefor:

I thereupon recorded the same in my office and thereupon fixed April 13th, 1914, as the last day for cash payments of such assessments and fixed May 22d, 1914, at my office, 1217 Market street, in said City and County, as the day and place for the sale of the various parcels of land within the districts assessed as aforesaid, and gave due notice thereof in accordance with law.

And after the 13th day of April, 1914, and before said May 22, 1914, I gave due and legal notice of said sale as required by law, and on said 22d day of May, 1914, at my office, and commencing at 11 o'clock a. m. of that day, I sold the respective parcels of land within the said districts, the assessments against which had not been paid (or agreed to be paid in installments) in accordance with law and in the manner directed in Section 16 of "The Tunnel Procedure Ordinance."

And having completed said sale, I now report to you the amount of cash collections and amount of installment agreements taken, in accord-

ance with Section 23 of said ordinance.

**Ordering Construction of Twin Peaks Tunnel.**

On motion of Supervisor Deasy:

Bill No. 3061, Ordinance No. — (New Series), as follows:

Ordering the construction of a tunnel with approaches and appurtenances thereto and the acquisition of lands and easements therefor under the elevation known as the Twin Peaks Ridge in the City and County of San Francisco, State of California, and authorizing and directing the Board of Public Works to enter into a contract or contracts for such construction and to purchase and acquire said lands and easements.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The construction and completion of a tunnel with approaches and appurtenances thereto under the elevation known as the Twin Peaks Ridge in the City and County of San Francisco, State of California, being the construction referred to in the Resolution of Intention of the Board of Supervisors of said City and County of San Francisco in that behalf, being Resolution No. 10020 (New Series), approved March 7th, 1913, is hereby ordered.

Said tunnel shall be constructed in the place and in the manner specified, delineated and shown in the "plans, post files, cross-sections and general specifications of the work required for the completion of such tunnel and appurtenances thereto" adopted and confirmed by the Board of Supervisors of said City and County by a resolution of said Board of Supervisors, being Resolution No. 10545 (New Series), adopted November 25, 1913, and approved by the Mayor of said City and County November 25, 1913, pursuant to the provisions of "The Tunnel Procedure Ordinance" of said City and County. Said construction shall be made under the direction of and to the satisfaction of the Board of Public Works of said City and County of San Francisco.

Section 2. The acquisition in fee simple of the lands declared necessary and convenient for the purpose

of said proposed tunnel construction by said resolution of intention and the acquisition of the easement or right of way declared necessary and convenient for the purpose of the said proposed tunnel construction by said resolution of intention which said acquisitions are more fully set forth in Parts II and V of the Report of the Board of Public Works to the Board of Supervisors filed in said matter by said Board of Public Works pursuant to Sections 6 and 45 of said "The Tunnel Procedure Ordinance" which said report was confirmed by said Board of Supervisors by said Resolution No. 10545 (New Series), are and each of them is hereby ordered.

Section 3. The said Board of Public Works is authorized and directed to enter into contract or contracts for such tunnel construction in accordance with the plans and specifications therefor, heretofore adopted by the Board of Supervisors of said City and County in that behalf and in the manner and by the proceedings provided in Chapter I, Article VI of the Charter of said City and County for the letting of contracts by said Board of Public Works; and progressive payments are hereby authorized to be made for such construction as provided in Section 21 of said Chapter and Article and in the manner and amounts as are provided for in said specifications heretofore adopted by the Board of Supervisors for said construction.

Section 4. The Board of Public Works is hereby authorized and directed to acquire, or purchase the said lands and rights of way incidental to and necessary for the construction of said tunnel as set forth in said Resolution of Intention and in said Part II and Part V of said Report of the Board of Public Works, so confirmed as aforesaid. But no such purchase shall be valid until ratified by the Board of Supervisors.

Section 5. This ordinance shall take effect immediately.

#### Blasting Permit.

On motion of Supervisor McCarthy: Resolution No. — (New Series), as follows:

Resolved, That Eaton & Smith be and are hereby granted permission, revocable at will of the Board of Supervisors to explode blasts during the construction of the Municipal Railway along the line of said railway on

Eleventh street, Division street and Potrero avenue, provided said permittee shall execute and file a good and sufficient bond in the sum of two thousand five hundred (2,500) dollars, as fixed by the Board of Public Works and approved by his Honor the Mayor, in accordance with Ordinance No. 1204; provided, also, that said blasts shall be exploded only between the hours of 7 a. m. and 6 p. m., and that the work of blasting shall be performed to the satisfaction and under the supervision of the Board of Public Works, and that if any of the conditions of this resolution be violated by the said Eaton & Smith, then the privileges and all rights accruing thereunder shall immediately become null and void.

#### Temporary Chute, Rice Mill.

The following resolution was introduced by Supervisor McCarthy and *refused passage* by the following vote:

Resolution No. — (New Series), as follows:

Resolved, That R. Satake be and is hereby granted permission to erect and maintain a temporary chute at the rice mill, No. 707 Battery street, between Broadway and Pacific street, same to be used in delivering goods from mezzanine floor of building to teams in the street; provided, the chute be removed from supports each night, or when not in actual use during the day hours; provided, also, the said chute is constructed under the supervision and to the satisfaction of the Board of Public Works.

Ayes—Supervisors Bancroft, Hayden, Jennings, McCarthy, Murdock, Payot, Suhr, Vogelsang—8.

Noes—Supervisors Deasy, Gallagher, Hilmer, Hocks, Kortick, McLeran, Nelson, Nolan, Power, Walsh—10.

#### Reconsideration.

Thereupon *Supervisor McCarthy* changed his vote from *aye* to *no* and moved a reconsideration of the vote whereby above resolution was *refused passage*.

The question being then taken the above action was *reconsidered* and on motion of Supervisor McCarthy the foregoing resolution was *ordered re-committed to the Streets Committee*.

#### Passed for Printing.

The following resolution was *passed for printing*:

#### Ammonia Feed Pipe Permit.

On motion of Supervisor McCarthy: Resolution No. — (New Series), as follows:

Resolved, That California Poultry Company is hereby granted permission, revocable at will of the Board of Supervisors, to lay down an ammonia feed pipe and return suction pipe from the building of the Central

Creamery Company, southwest corner of Merchant and Battery streets, easterly sixty-seven feet and along Merchant street, easterly 150 feet to the rear of the building known as 315 Washington street.

The said pipes shall be laid to the satisfaction and under the supervision of the Board of Public Works, in accordance with the provisions of Ordinance No. 2201 (New Series), entitled "Regulating the making and refilling of excavations in the public streets, alleys, sidewalks and other public places."

Adopted.

The following resolutions were adopted:

**Extension of Time.**

On motion of Supervisor McCarthy: Resolution No. 10930 (New Series), as follows:

Resolved, That State Improvement Company is hereby granted an extension of sixty days' time from and after June 12, 1914, within which to complete contract for grading and sewerage Edna street, from Sunnyside avenue to Hearst avenue, and the crossings of Sunnyside avenue and Hearst avenue, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the grading is under way and it is desired that the fill be allowed to set before the sewers are constructed.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

**Revoking Spur Track Permit.**

On motion of Supervisor McCarthy: Resolution No. 10931 (New Series), as follows:

Whereas, The maintenance of a spur track on Division street connecting with the tracks of the Southern Pacific Company, between Potrero avenue and Hampshire street, crossing Division street and extending to Bryant street, will interfere with the construction and operation of the Potrero avenue extension of the Municipal Railway; and

Whereas, It is agreeable to all parties concerned that said spur track be removed; therefore be it

Resolved, That the privilege heretofore granted for the construction and maintenance of a spur track on Division street connecting with the tracks of the Southern Pacific Company, between Potrero avenue and Hampshire street, crossing Division street and extending to Bryant street, be and the same is hereby revoked, with the consent of the Southern Pacific Company and N. Clark & Sons, for the reason

that said spur track will interfere with the construction and operation of the Potrero avenue extension of the Municipal Railway.

Three Can Route Wagons.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

Passed for Printing.

The following resolution was introduced under suspension of the rules and passed for printing:

Mayor to Execute Forestry Service Stipulations for Tunnel Aqueduct Line in Stanislaus National Forest.

Resolution No. — (New Series), as follows:

Whereas, The City and County of San Francisco is required by the Forestry Service of the United States Department of Agriculture to execute certain stipulations prepared by said Forestry Service in the matter of said City's application for a tunnel aqueduct line within the boundaries of Stanislaus National Forest (Sacramento Serial No. 07259), as shown by certain tracings executed by M. M. O'Shaughnessy, City Engineer, on March 31, 1914, and filed in the United States Land Office at Sacramento, California, on April 10, 1914; now therefore

Resolved, That the Mayor of this City and County be and he is hereby authorized on behalf of the City and County of San Francisco to so execute said stipulation so prepared by the Forestry Service of the United States Department of Agriculture.

Public Utilities Committee to Report on Feasibility of Constructing Extension of Municipal Railway on Mason Street.

Supervisor McLeran presented:

J. R. No. —

Resolved, That the Public Utilities

Committee be requested to investigate and report to the Board of Supervisors the feasibility of constructing and operating an extension of the Municipal Railway along Mason street from Geary to Market street, and the City Engineer be requested to submit an estimate of the probable cost of said extension.

*Referred to Public Utilities Committee.*

**Relative to Budget Appropriations for Teachers' Salaries.**

*Supervisor Power* introduced the following resolution under suspension of the rules and moved its adoption:

J. R. No. —

Whereas, The Board of Supervisors has allowed the School Department in the Budget of 1914-15 the sum of \$1,780,300 for teachers' salaries, janitors, rents, labor and new teachers, and

Whereas, The sum allowed for the previous fiscal year, 1913-14, was \$1,691,500, and

Whereas, The allowance for 1914-15 in these items show an increase of \$88,800, and

Whereas, The total increase in the allowance for the School Department for the fiscal year 1914-15 is \$361,360, itemized as follows:

General Fund .....	\$100,860
Repairs and new buildings...	94,000
Additional land .....	6,000
Kindergartens .....	3,500
Athletics and social centers..	7,000.
Completion of Polytechnic High .....	150,000

and  
Whereas, According to the salary schedule adopted by the Board of Education for the fiscal year 1914-15, some 200 teachers will suffer a reduction in their salaries, and

Whereas, This Board feels that none of the lower salaried employees of the City, and more especially the school teachers, should suffer a reduction in their salaries; therefore be it

Resolved, That this Board express itself to the Board of Education to the effect that it feels that ample money has been appropriated in the budget of 1914-15 to pay at least the existing salaries to the school teachers, and be it further

Resolved, That we respectfully recommend that they amend their salary schedule accordingly.

**Privilege of the Floor.**

*Geo. E. Gallagher*, President of the Board of Education, was granted the privilege of the floor and addressed the Board. He said that while the Board of Education could use a larger appropriation, it would try to get along with that allowed. He declared

that experience money was allowed as a bonus and could not be paid from the allowance made. The increasing necessity of more school facilities and a deficit of about \$30,000 from last year required the utmost economy in the expenditure of the money allowed.

**Refused Passage.**

Thereupon the foregoing resolution was *refused* passage by the following vote:

Ayes—Supervisors Deasy, Gallagher, Nelson, Nolan, Power, Walsh—6.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Murdock, Payot—9.

Absent—Supervisors McLeran, Suhr, Vogelsang—3.

**Adopted.**

The following resolution was introduced under suspension of the rules and *adopted*:

In Memory of Former Supervisor Thomas Magee.

On motion of Supervisor Murdock:  
J. R. No. 1300.

The members of the Board of Supervisors of the City and County of San Francisco would express their sincere respect for the character and services of Thomas Magee, whose sudden death comes as a sad shock to the entire community, and leaves a sense of severe loss.

Mr. Magee was one of our foremost and most enterprising citizens. Growing to manhood in this city, graduating from our State University, he joined his honored father in business, and on his death became the head of the firm he had established. Diligent in business, he achieved honorable success. But he was more than a successful business man. He always showed commendable public spirit, and a disposition to serve the city he loved.

When the great disaster came, he was, on April 18th, 1906, selected as one of the Committee of Fifty to act in the emergency. On May 3rd, he was appointed by the Mayor on the Committee of Forty on the Reconstruction of San Francisco, serving with assiduity on both committees.

When it was found necessary to displace sixteen members of the Board of Supervisors who resigned to escape trial for serious offenses, and Dr. Taylor was called upon to select successors in whom he had complete confidence, Thomas Magee was one of the number. As a member of the Board, he served on the Street Committee, the Artificial Light Committee, and the Committee on Charter Amendments.

Those who were associated with him knew how arduously he labored, es-

pecially in the restoration of the streets. His services in shaping legislation for the best interests of the water front and the harbor were of great value. He was always ready to do his part in any matter of interest to San Francisco.

He was greatly trusted and respected by all, as a type of sterling manhood and good citizenship. His loss will be deeply felt.

In expression of our sympathy with his family and of our regard for him as a citizen, be it

Resolved, That when we adjourn, it shall be in respect to his memory.

#### ADJOURNMENT.

Thereupon the Board, at the hour of 5 p. m., adjourned out of respect to the memory of former Supervisor Thomas Magee.

J. S. DUNNIGAN, Clerk.

Approved by the Board of Supervisors June 8, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing are true and correct copies of the Journal of Proceedings of said Board of the dates thereon stated, and approved, as above recited.

**J. S. DUNNIGAN,**

Clerk of the Board of Supervisors,  
City and County of San Francisco.

The Board of Supervisors, sitting as a Committee of the Whole, met at 2 o'clock p. m. this day, with Supervisor James E. Power in the chair, and resumed the investigation required by Charter, preliminary to fixing telephone rates for the fiscal year 1914-15.

A. H. Griswold and J. W. Gilkyson, representing the Pacific Telephone and Telegraph Company, were heard as witnesses in behalf of said company, and were examined by Paul J. Ost, representing the City and County regarding certain statements filed by the company.

At the conclusion of the hearing an adjournment was taken until Tuesday, June 9, 1914, at 2 o'clock p. m., when said investigation will be resumed.

Report of Registrar of Voters on Southern Pacific Terminal Franchise Referendum Petition.

The following was presented, read and ordered spread at length in the Journal:

Department of Elections,

San Francisco, June 5, 1914.

To the Honorable Board of Supervisors.

Gentlemen:—Enclosed herewith please find copies of Report and res-

olution of the Board of Election Commissioners in the matter of the Referendum Petition relative to Ordinance No. 2683 (New Series).

Respectfully,  
J. H. ZEMANSKY,  
Registrar of Voters.

Department of Elections, City Hall,  
San Francisco, June 4, 1914.

Commissioner Thomas V. Cator offered the following resolution and moved its adoption:

Whereas, There was filed with the Election Commissioners of the City and County of San Francisco, upon the 25th day of May, 1914, a Referendum Petition relating to Ordinance No. 2683 (New Series) of the City and County of San Francisco, State of California, approved March 26, 1914, entitled, "Providing for a grant and granting to the Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California"; and

Whereas, The Registrar of Voters of said City and County has made his report to the Board of Election Commissioners of said City and County dated June 3, 1914, showing that he has caused said petition to be examined and compared with affidavits of registration and indexes of this office and that such petition contains only the signatures of 3,456 qualified voters registered and entitled to vote in said City and County and authorized to sign the said petition, a copy of which report is hereto annexed and made a part hereof, therefore, be it

Resolved, That the said report of said Registrar of Voters is hereby adopted and approved and made a part of this resolution, and

Resolved, By the said Board of Election Commissioners of the said City and County, that it does hereby, on this fourth (4th) day of June, 1914, within ten (10) days after the filing of such petition finally determine from the records of registration of voters of said City and County, that said petition is signed only by three thousand four hundred and fifty-six (3,456) qualified voters, registered and entitled to vote in said City and County, and that said petition is not signed by the requisite number of electors entitled to vote. And the said Board does also further finally determine by and after an official investigation of said petition, made by said Board, that the said Referendum Petition is insufficient in that it does not contain the requisite number of signatures or signers, and

also that the said petition does not conform to all legal requirements, and that the said petition is insufficient and defective in form, because said petition does not contain the text of the Ordinance referred to in said petition, and that no election, or other or further action, is required thereon, or by reason of the filing of said petition. And be it further

Resolved, That a further and additional certificate by this Board certifying the complete and final result of said examination and official investigation of said petition be made by said Board of Election Commissioners, upon this fourth day of June, 1914, and that the certificate presented and dated this fourth day of June, 1914, be and the same is hereby adopted by said Board as and for such a further and additional certificate in this matter, and that such further and additional certificate be attached to said petition, and that a copy of such further and additional certificate be forthwith mailed by the Registrar of Voters to the persons filing said petition in the manner required by the Charter of said City and County, and be it further

Resolved, That such further and additional certificate so adopted by this Board this fourth day of June, 1914, be attested by the signatures of the members of the said Election Commissioners, or by a majority of said signatures and that the Secretary of this Board annex to said certificate his certification that the said further and additional certificate was adopted by said Board upon this fourth day of June, 1914, and that the same is signed by a majority of the members of the said Board of Election Commissioners. And be it further

Resolved, That this resolution be entered in the minutes of this Board, and that a copy thereof be mailed to the Board of Supervisors of said City and County.

State of California, City and County of San Francisco—ss.

I hereby certify that the foregoing is a true copy of a Resolution adopted by the Board of Election Commissioners of the City and County of San Francisco at a meeting duly held upon the 4th day of June, 1914.

J. H. ZEMANSKY,  
Registrar of Voters and Secretary of said Board.

Dated at San Francisco, Cal., June 4, 1914.

Department of Elections  
City Hall

San Francisco, June 3, 1914.

To the Honorable Board of Election Commissioners,

Gentlemen:

In the matter of the Referendum

Petition filed May 25, 1914, known as Ordinance No. 2683 (New Series), of the City and County of San Francisco, State of California, approved March 26, 1914, and entitled "Providing for a grant and granting to the Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California, as set forth in said petition;

I respectfully report that I have caused said petition to be examined and compared with the records of registration of this office and that such petition contains only the signatures of 3456 qualified voters registered and entitled to vote in the said City and County of San Francisco and authorized to sign the same, which is not five (5%) per cent of the entire vote for all candidates for the office of Mayor, cast at the last preceding regular municipal election.

Respectfully,

J. H. ZEMANSKY,  
Registrar of Voters.

Agreement with Ocean Shore Railroad Company As to Joint Use of Tracks on Potrero Avenue.

*Communication*—From City Engineer and City Attorney, transmitting proposed agreement between Ocean Shore Railroad Co. and the City and County of San Francisco in reference to the joint use of the tracks of said railroad company on Potrero avenue and requesting that Board pass necessary legislation to authorize Mayor to sign agreement.

Read and ordered *filed*.

Acceptance of Southern Pacific Terminal Franchise.

A *communication* from the Southern Pacific Company, dated May 14, 1914, filed with the Clerk June 8, 1914, containing formal acceptance of the Board of Directors of said Southern Pacific Company of Ordinance No. 2683 (New Series), granting to said Southern Pacific Company franchise to construct and maintain certain railroad tracks on certain streets in San Francisco in vicinity of Third and Townsend streets, known as Southern Pacific terminal franchise, was read and ordered *filed*.

Protest Against Raychester Company Boiler Permit.

The following matters were presented and read by the Clerk:

*Communication*—From Lillian M. Hall, protesting against granting or boiler permit to Raychester Company at Ninth and Dore streets, on account

of disease menace to residents and employees.

*Communication*—From Mrs. M. Bessing Duenck and others, against granting boiler permit to Raychester Co. for rag sterilizing establishment at Folsom and Dore streets.

Address of Bion J. Arnold.

Bion J. Arnold, traffic expert, who is in San Francisco on a visit, was invited to address the Board. He spoke in part as follows:

"I want to congratulate San Francisco on the success of municipal ownership of a street railway. It has been successful thus far and I believe it will continue to be. There is one thing I wish especially to commend you on. That is, you are setting aside a proper fund for the renewal of the property.

"There is one other thing I would like to say. Do not overload the property with the wages of unnecessary labor and thereby decrease its earnings and your power to extend it.

"To succeed you will do well also to resist the temptation to extend branches too freely into outlying districts, thereby loading up the system with non-productive properties.

"I have read the reports of your municipal system and the figures there have seemed to me to indicate a very sound condition of the system and a sound policy on your part."

#### REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Public Buildings Committee—By Supervisor Bancroft, Chairman.

Health Committee—By Supervisor Walsh, Chairman.

Fire Committee—By Supervisor McLeran, Chairman.

Streets Committee—By Supervisor McCarthy, Chairman.

Supplies Committee—By Supervisor Hilmer, Chairman.

Report of Public Utilities Committee on Acquisition of Properties of United Railroads.

Supervisor Vogelsang presented the following report and resolution:

San Francisco, June 8, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

The Public Utilities Committee respectfully recommends the adoption of resolutions pertaining to the subject matter of the acquisition of the properties of the United Railroads for municipal operation.

The matter was discussed at length

at last meeting and the committee feels that the Board should at this time authorize the committee to take this matter up for discussion with the officials of the United Railroads, therefore, the resolution proposes that the Utilities Committee shall be commissioned to make inquiry as to the method by which the United Railroads might be acquired, and to suggest a plan by which the project might be financed if negotiations are successful. The resolutions are self explanatory.

The committee also recommends for adoption a resolution authorizing the Mayor to enter into an agreement with the Ocean Shore Railroad, whereby the said railroad company obligates itself to pay to the City approximately \$32,000 for reconstruction of that portion of the railroad tracks over which the Municipal Street Railway extension is to operate.

The railroad company is not financially able at this time to make the improvements and it is necessary that the work be done in order to complete the Municipal Railway extension according to schedule.

The City Attorney and the City Engineer have advised in this matter and the City Attorney prepared the resolution which appears on the calendar.

The matter of rerouting the Ellis and O'Farrell street cars was deferred one week.

Respectfully submitted,  
ALEXANDER T. VOGELSANG,  
PAUL BANCROFT,  
FRED L. HILMER,  
ANDREW J. GALLAGHER.

(Approved except as to first paragraph.)

J. EMMET HAYDEN,  
Public Utilities Committee.

J. R. No. —

Whereas, Public announcement has been recently made by the President of the United Railroads of San Francisco that a fair offer from the city to purchase its transportation system would be readily and favorably entertained; and the Board of Directors of said corporation has publicly endorsed the declaration of its President; and

Whereas, The City and County of San Francisco is committed by its Charter to the principle of municipal ownership of all public utilities; and

Whereas, While this City and County is now engaged in the construction of numerous street railway extensions and many additional branches and extensions are necessary to the proper development of this city and to the convenience of its inhabitants; and

Whereas, Many such necessary extensions may be made more advantageously and economically if added to

the lines now operated by said United Railroads, rather than to the present municipal system; and

Whereas, It is manifestly desirable, in all respects, that the entire traction business of this city should be municipally owned and controlled, and that the necessary steps looking toward the acquisition of existing systems should be taken with the least possible delay; now therefore be it

Resolved, That the Public Utilities Committee of this Board be and it is hereby authorized:

1. To carefully examine and investigate all legal and financial questions involved in such acquisition;

2. To examine, investigate and value the physical properties and franchises of said United Railroads;

3. To confer with the President, or other officers of said United Railroads, whenever the same may be expedient or necessary;

4. To use and employ the services of the Board of Public Works, the Engineer Department and the City Attorney's office, so far as may be necessary and proper;

5. To report, upon completion of such investigation, its findings and conclusions to this Board.

ALEXANDER T. VOGELSANG,  
PAUL BANCROFT,  
FRED L. HILMER,  
J. EMMET HAYDEN,

Public Utilities Committee.

Substitute Resolution.

Supervisor Gallagher offered the following resolution as an amendment:

J. R. No. —

Whereas, The President of the United Railroads has publicly announced the willingness of himself and his company to sell their properties to the City and County of San Francisco, and

Whereas, The people of the City and County have frequently approved municipal ownership and operation of public utilities; be it

Resolved, That the United Railroads Company is hereby requested to submit to the Board of Supervisors through the Public Utilities Committee a proffer of its street railway properties, and the approximate price at which said properties will be sold to the City and County.

Be it further Resolved, That the Public Utilities Committee be hereby authorized by the Board of Supervisors to make such investigations as may be necessary to propose a plan for financing the purchase of the said United Railroads should a proper and acceptable offer be obtained.

Accepted.

Supervisor Vogelsang agreed to accept the subject matter of the fore-

going resolution and insert it as stipulation No. 4 of his resolution.

Adopted.

Thereupon Supervisor Vogelsang's resolution amended as follows was adopted by the following vote:

J. R. No. 1301.

Whereas, Public announcement has been recently made by the President of the United Railroads of San Francisco, that a fair offer from the city to purchase its transportation system would be readily and favorably entertained; and the Board of Directors of said corporation has publicly endorsed the declaration of its President; and

Whereas, The City and County of San Francisco is committed by its Charter to the principle of municipal ownership of all public utilities; and

Whereas, While this City and County is now engaged in the construction of numerous street railway extensions and many additional branches and extensions are necessary to the proper development of this city and to the convenience of its inhabitants; and

Whereas, Many such necessary extensions may be made more advantageously and economically if added to the lines now operated by said United Railroads, rather than to the present municipal system; and

Whereas, It is manifestly desirable, in all respects, that the entire traction business of this city should be municipally owned and controlled, and that the necessary steps looking toward the acquisition of existing systems should be taken with the least possible delay; now, therefore, be it

Resolved, That the Public Utilities Committee of this Board be and it is hereby authorized:

1. To carefully examine and investigate all legal and financial questions involved in such acquisition;

2. To examine, investigate and value the physical properties and franchises of said United Railroads;

3. To confer with the President, or other officers of said United Railroads, whenever the same may be expedient or necessary;

4. To request of the United Railroads the price and terms upon which it will sell and transfer its railway properties to the City and County of San Francisco;

5. To use and employ the services of the Board of Public Works, the Engineering Department and the City Attorney's office, so far as may be necessary and proper;

6. To report, upon completion of such investigation, its findings and conclusions to this Board.

Report of Committee on Publicity and Interurban Relations on Consolidation of Cities and Annexation of Adjacent Territory.

June 9, 1914.

Board of Supervisors:

Your Committee on Publicity and Interurban Relations respectfully reports that it met on Wednesday afternoon, June 3, to consider the proposed amendment to the State Constitution, whereby cities and counties may consolidate and, if desirable, annex additional territory.

There were present at the meeting: George C. Boardman and Robert Newton Lynch, representing the Chamber of Commerce; J. M. Kepner, representing the Civic League of Improvement Clubs; W. C. Sharpstein, representing the San Francisco Real Estate Board; Edgar Painter and Robert Behlow, representing the North Central Improvement Association; M. Van Vliet and A. W. Wilson, representing the Downtown Association; Dr. George W. Merritt, representing the Sutter Street Association; C. F. Adams, representing the Twin Peaks Improvement Association; W. W. Cooley, of Alameda; Assistant City Attorney Frank B. English; Assistant City Attorney Howard Robertson of Los Angeles; Miss Catherine Hittel and Hugo Newhouse.

It was the unanimous opinion of all the speakers that there was but one position for San Francisco to take and that is to neither endorse nor support any constitutional amendment that is not general in scope and does not assure to this city and county the same rights and privileges regarding annexation accorded to other communities.

The proposed amendment submitted to this committee for consideration contained a provision that would preclude San Francisco extending her territory other than by the annexation of San Mateo County and also would deprive her of the right to unite with other transbay cities, should such course be deemed expedient and advisable at some future time, unless such right was secured through another constitutional amendment. If the amendment proposed was adopted in the form in which it was submitted, San Francisco would be compelled to appeal to the State at a later date to give her permission to extend her limits in any direction other than down the peninsula.

It was unanimously agreed that the amendment should be revised in this regard, and accordingly the City At-

torney was asked to redraft the bill so that this city and county would be left free to act with all surrounding communities should, in the future, it be deemed wise and expedient for the transbay cities to consolidate with San Francisco.

Assistant City Attorney Robertson of Los Angeles said that his city would endorse any amendment satisfactory to the northern cities; whether the amendment submitted to the people is to be general or specific he said rested with San Francisco.

J. S. McDonnell of Alameda and W. Walker, secretary of the Merchants Exchange of Oakland, were present at the meeting, but did not take part in the discussion.

In conclusion, your Committee respectfully recommends that your honorable body do not endorse or support any constitutional amendment regarding annexation that is not general in character, as the right of this city and county can only be safeguarded and protected by such general enabling act.

Respectfully submitted,  
J. EMMET HAYDEN,  
J. O. WALSH,  
OSCAR HOCKS,

Publicity and Interurban Relations Committee.

**Adopted.**

Thereupon, the following resolution was introduced by Supervisor Hayden and *adopted*:

Resolution No. 10951 (New Series), as follows:

Whereas, it has been proposed at conferences held between the official representatives of the City of Los Angeles, the City of Oakland and the City and County of San Francisco, that a Constitutional Amendment be submitted by the initiative at the next election whose purpose shall be to permit of the creation of consolidated cities and counties and of the addition or annexation of territory thereto without regard to county lines and

Whereas, it has been suggested at these conferences that such an amendment be so drawn as to restrict the City and County of San Francisco to expansion down the peninsula, and

Whereas, in the opinion of this Board any such restriction would be unfair in that it would take from San Francisco certain privileges and rights granted to the other cities of the State and further would constitute a special enactment which properly has no place in the organic law of our State.

Resolved, That this Board does hereby declare its policy to be in favor of an amendment to the Con-

stitution which will not discriminate against any city or city and county, but which will permit any contiguous cities to consolidate one with the other upon the consent thereto of a majority of the qualified electors of any such city or city and county so proposed to be added or annexed and of any county affected.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

**Hearing of Appeal, Main Street Change of Grade.**

The hearing of the appeal of J. J. Lermen et al. to confirmation of the report of the Board of Public Works upon the damages and benefits resulting by reason of change of grade on Main street between Folsom and Bryant streets and on Harrison street, between Spear and Beale streets, laid over from a previous meeting and fixed for the hour of 3 p. m. this day, was taken up and on motion again *laid over one week*.

**UNFINISHED BUSINESS.**

**Final Passage.**

The following matters heretofore passed for printing were taken up and *finally passed* by the following vote:

**Amending Building Law, Garages.**

Bill No. 3042, Ordinance No. 2772 (New Series), as follows:

Adding a new section to be numbered 78a to Ordinance No. 1008 (New Series), entitled, "Regulating the construction, erection, enlargement, raising, alteration, repair, removal, maintenance, use and height of buildings; regulating character and use of materials in and for buildings; establishing fire limits, and repealing all ordinances in conflict with this ordinance."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. A new section numbered 78a is hereby added to Ordinance No. 1008 (New Series), the title to which is recited in the title to this ordinance, which said new section shall read as follows:

"Section 78a. One-story buildings with enclosing walls and roof of corrugated iron or galvanized sheet steel, supported on a frame of steel construction, not exceeding fifteen (15) feet in height and in area four hundred (400) square feet, may be built and be used for private garage purposes only, and may be erected only in the rear of any residence or in the rear of any lot in the City and County outside the fire limits."

Section 2. This ordinance shall be in force from and after its passage.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Power, Suhr—14.

Noes—Supervisors Jennings, Payot, Vogelsang, Walsh—4.

#### Boiler Permit.

Supervisor McLeran presented:  
Resolution No. — (New Series),  
as follows:

Resolved, That permission, revocable at will of the Board of Supervisors, is hereby granted The Raychester Co., Inc., to maintain a boiler of 150 horse-power to be used in furnishing power for the manufacture of sterilized wiping rags and to install and maintain an oil storage tank of 3000 gallons capacity, in premises to be constructed at the northeast corner of Folsom and Dore streets; said permits being granted on the express condition that there be no windows or other openings in the rear portion of said building.

#### Privilege of the Floor.

Jos. P. Lucy, attorney representing property owners, was granted the privilege of the floor and addressed the Board. He declared that while the applicant in the conduct of his business had certain rights under the constitution, property owners also had their rights, and inasmuch as they were there first and had their money invested, the Board of Supervisors should do nothing that would tend to depreciate their property or menace the health and comfort of such property owners in the use of it.

Rev. J. P. Mulligan, Pastor of St. Joseph's Church, also addressed the Board. He opposed the granting of the permit principally for the reason that such an establishment as it was proposed to conduct would be a menace to the health of over 500 school children attending St. Joseph's School. He said that the law protected schools from stables, garages, laundries, etc., and for the same reasons should prohibit such establishments in communi-

ties where they menace the health or depreciate the property of those surrounding it. He declared that he was saving the city \$50,000 a year in the education of the children in that district and believed that his efforts should be encouraged by the municipal authorities and not interfered with by the granting of such a permit.

J. West, representing the Raychester Company, also addressed the Board. He said that for over three years his client has been negotiating with all the large real estate firms of San Francisco for a site for this plant and that if this permit was refused it is likely that a place will have to be obtained in Oakland, which has offered a free site, or in some other town around the Bay. He added that every site is not desirable for the reason that the water required for the conduct of the business cannot be found in every location.

Mr. Harris, of the Raychester Company, addressed the Board to the same effect. He said he was born in San Francisco and believed he should be given an opportunity to do business here.

#### Motion.

Supervisor Gallagher moved that resolution be recommitted to Fire Committee and that it be the sense of the Board that applicant seek further for a new and less objectionable location.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Nolan, Payot, Power, Suhr, Walsh—14.

Noes—Supervisors McLeran, Murdock, Nelson, Vogelsang—4.

#### Ordering Construction of Twin Peaks Tunnel.

Bill No. 3061, Ordinance No. 2779 (New Series), as follows:

Ordering the construction of a tunnel with approaches and appurtenances thereto and the acquisition of lands and easements therefor under the elevation known as the Twin Peaks Ridge in the City and County of San Francisco, State of California, and authorizing and directing the Board of Public Works to enter into a contract or contracts for such construction and to purchase and acquire said lands and easements.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The construction and completion of a tunnel with approaches and appurtenances thereto under the elevation known as the Twin Peaks Ridge in the City and County of San Francisco, State of California, being the construction referred to in the Resolution of Intention of the Board of Supervisors of said City and County of San Francisco in that behalf, being Resolution No. 10020 (New Series), approved March 7th, 1913, is hereby ordered.

Said tunnel shall be constructed in the place and in the manner specified, delineated and shown in the "plans, post files, cross-sections and general specifications of the work required for the completion of such tunnel and appurtenances thereto" adopted and confirmed by the Board of Supervisors of said City and County by a resolution of said Board of Supervisors, being Resolution No. 10545 (New Series), adopted November 25, 1913, and approved by the Mayor of said City and County November 25, 1913, pursuant to the provisions of "The Tunnel Procedure Ordinance" of said City and County. Said construction shall be made under the direction of and to the satisfaction of the Board of Public Works of said City and County of San Francisco.

Section 2. The acquisition in fee

simple of the lands declared necessary and convenient for the purpose of said proposed tunnel construction by said resolution of intention and the acquisition of the easement or right of way declared necessary and convenient for the purpose of the said proposed tunnel construction by said resolution of intention which said acquisitions are more fully set forth in Parts II and V of the Report of the Board of Public Works to the Board of Supervisors filed in said matter by said Board of Public Works pursuant to Sections 6 and 45 of said "The Tunnel Procedure Ordinance" which said report was confirmed by said Board of Supervisors by said Resolution No. 10545 (New Series), are and each of them is hereby ordered.

Section 3. The said Board of Public Works is authorized and directed to enter into contract or contracts for such tunnel construction in accordance with the plans and specifications therefor, heretofore adopted by the Board of Supervisors of said City and County in that behalf and in the manner and by the proceedings provided in Chapter I, Article VI of the Charter of said City and County for the letting of contracts by said Board of Public Works; and progressive payments are hereby authorized to be made for such construction as provided in Section 21 of said Chapter and Article and in the manner and amounts as are provided for in said specifications heretofore adopted by the Board of Supervisors for said construction.

Section 4. The Board of Public Works is hereby authorized and directed to acquire, or purchase the said lands and rights of way incidental to and necessary for the construction of said tunnel as set forth in said Resolution of Intention and in said Part II and Part V of said Report of the Board of Public Works, so confirmed as aforesaid. But no such purchase shall be valid until ratified by the Board of Supervisors.

Section 5. This ordinance shall take effect immediately.

**Auctioneers' License Ordinance.**

On motion of Supervisor Hocks:

Bill No. 3071, Ordinance No. — (New Series), as follows:

Imposing a license on auctioneers and regulating the manner of the issuance of such license and prescribing a penalty for the violation thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. For the purposes of this ordinance, every person, firm or corporation who sells, offers for sale, or exposes for sale by public auction any property, real or personal, or who maintains, conducts or carries on any public auction-room or rooms shall be deemed to be an "Auctioneer" and shall pay a license as follows:

Those whose sales amount to two million (\$2,000,000) dollars or more per year, shall pay an annual license of four hundred (\$400) dollars.

Those whose sales amount to one million (\$1,000,000) dollars or more, and less than two million (\$2,000,000) dollars per year, shall pay an annual license of three hundred (\$300) dollars.

Those whose sales amount to five hundred thousand (\$500,000) dollars or more, and less than one million (\$1,000,000) dollars per year, shall pay an annual license of two hundred (\$200) dollars.

Those whose sales amount to less than five hundred thousand (\$500,000) dollars per year, shall pay an annual license of one hundred (\$100) dollars.

Section 2. All licenses issued under the provisions of this ordinance shall be known and designated as "Auctioneer's License" and the same shall be paid annually in advance from the date of the issuance of any such license.

Section 3. No "Auctioneer's License" is required for the sale of any goods at public sale belonging to the United States or to this state, or for the sale of property by virtue of any process issued by any state or federal court.

Section 4. Every original application for an "Auctioneer's License" must be accompanied with a verified statement of the amount of sales proposed to be made monthly, and the license charge must be for the first year classified thereby; and every auctioneer applying to the Tax Collector for a renewal of his license must accompany his application with a statement under oath setting forth that his average receipts per month on account of sales during the preceding year did not exceed the amount specified in the class of license for which he applies. The Tax Collector must provide blank forms of affidavit for that purpose and administer the oath required to such applicants without charge. No auctioneer must exceed the amount of sales of the class in which his license is fixed.

Section 5. No auctioneer is permitted to transfer his license to any other person for any part of the time for which his license is issued.

Section 6. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed five hundred (\$500) dollars or by imprisonment in the county jail for not more than

six (6) months or by both such fine and imprisonment.

Section 7. Ordinance No. 747 is hereby repealed.

Section 8. This ordinance shall take effect and be in force July 1, 1914.

Adopted.

The following resolutions were adopted:

Mayor to Enter Into Agreement with Ocean Shore Ry. Co. for Payment to City of Its Portion of Reconstruction of Tracks to be Jointly Used with Municipal Railway.

On motion of Supervisor Vogelsang:

J. R. No. 1305.

Resolved, That his Honor the Mayor be and he is hereby authorized to make and execute an agreement between the City and County of San Francisco, a municipal corporation, party of the first part, and Ocean Shore Railroad Company, a corporation, organized and existing under and by virtue of the laws of the State of California, the party of the second part, said agreement being as follows:

This agreement, made and entered into this.....day of..... 1914, by and between the City and County of San Francisco, a municipal corporation, party of the first part, and Ocean Shore Railroad Company, a corporation organized and existing under and by virtue of the laws of the State of California, party of the second part,

Witnesseth that:

Whereas, The said party of the second part is the owner of a railroad constructed pursuant to a franchise heretofore granted by the City and County of San Francisco along that portion of Potrero avenue in said City and County of San Francisco, extending from where said railroad as now constructed emerges from the property line of that certain block of land in said City bounded by Mariposa street, Potrero avenue, Eighteenth street and Hampshire street; thence extending southerly along said Potrero avenue to where the same intersects and crosses Twenty-fifth street; which said railroad as constructed at the present time is a single-track road and the rails used in such construction of said road are of the pattern known as "T" rail; and

Whereas, The said party of the first part is about to construct, maintain and operate a municipally owned street railroad upon, over and along that portion of Potrero avenue occupied by the above described single-track railroad belonging to the said party of the second part; and

Whereas, The party of the first part, under a contract, by Ordinance heretofore made and entered into between

the said party of the first part and the predecessor in interest of the said party of the second part, was granted the right to use free of cost to said party of the first part, the road, track and bed of the hereinbefore described railroad, for the operation of a municipally operated street railway; and

Whereas, The said party of the second part desires to have the above described railroad reconstructed upon the alignment now occupied upon the above described portion of Potrero avenue in harmony with all its details with the standard construction heretofore adopted by the City and County of San Francisco; and

Whereas, An additional single-track railroad will have to be constructed upon, over, along and across said Potrero avenue, parallel to the railroad tracks of the said party of the second part in order that said railroad tracks of the said party of the second part may be used by the party of the first part for the operation of a municipally owned street railroad, which additional single-track railroad said party of the first part proposes to construct at its own cost and expense; and

Whereas, The reconstruction of said portion of said railroad which the the said party of the second part desires to have reconstructed can be more efficiently and economically performed at the same time that the said party of the first part is constructing its railroad on Potrero avenue, to which end it has been agreed by and between the parties hereto that the said party of the first part at the time and in the manner it so constructs the said railroad on Potrero avenue, will reconstruct the railroad of the said party of the second part thereupon;

Now therefore, for and in consideration of the mutual promises and agreements herein contained, the parties hereto severally covenant and agree as follows: That the said party of the first part at the time it constructs its street railroad on Potrero avenue will reconstruct the line of railroad of the said party of the second part upon that portion of Potrero avenue hereinbefore described; that the same shall be constructed in all respects in harmony with the standard of construction of the above described additional track, paralleling the tracks of the said party of the second part, and that all of said material and all of said labor shall be furnished by the said party of the first part;

In consideration therefor the said party of the second part does hereby agree to pay to the said party of the first part on or before the first day of April, 1915, the sum of thirty-two

thousand six hundred and one and 48/100 (32,601.48) dollars, and if said sum is not so paid, then it shall bear interest from said date at the rate of seven (7) per cent per annum until paid.

It is further understood and agreed that the said party of the first part shall, at its own cost and expense, construct and install a second track parallel to the track of the said party of the second part on that portion of said Potrero avenue above referred to; that it will also install all track special work, turnouts, crossovers and overhead construction which may be necessary to enable trains of the said party of the second part to cross over from its own track to the tracks of the party of the first part, and from the tracks of the party of the first part back to the tracks of the party of the second part when completed, both at Eighteenth street and Potrero avenue and at Twenty-fifth street and Potrero avenue, as well as all crossings that may be necessary at all points where the track of the said party of the first part intersects and crosses over the said tracks of the said party of the second part, and all special work and switches and overhead construction necessary in connection therewith so as to enable and permit the road of the said party of the first part to cross over the track and line of the said party of the second part where found and deemed necessary for that purpose. Said double track, when constructed on Potrero avenue, shall be jointly used by the said party of the first part and the said party of the second part, under such reasonable regulations as to such operation as will be just and equitable.

It being further understood and agreed, that from time to time, as the reconstruction of the said railroad of the party of the second part progresses, the party of the first part will deliver to said party of the second part on Potrero avenue, alongside of the reconstructed tracks, such rails, rail joints, cross ties and other material removed from the present roadbed of the party of the second part, as may be of value.

It being further understood and agreed that the said party of the first part shall remove the 35 steel trolley poles now in use by the said party of the second part on Potrero avenue between Mariposa street and Twenty-fifth street, and shall set these poles, together with 47 new steel trolley poles of the same kind and character, which will be furnished by the said party of the second part, at the curb lines of Potrero avenue, and shall furnish and install span wires and other

overhead construction and shall support from said span wires the trolley wires of said party of the second part over the railroad belonging to the said party of the second part, and shall furnish and suspend from said span wires a trolley wire over the railroad belonging to said party of the first part; and the said party of the second part agrees that in the event all or any of said 35 steel trolley poles now standing on Potrero avenue shall be found to be so depreciated by rusting or otherwise, as to be unsuitable for further use in supporting the overhead trolley wires, to furnish, at its own cost and expense, suitable new steel trolley poles to replace said depreciated trolley poles.

It being further understood and agreed that in reconstructing the trolley wire of the party of the second part over the railroad belonging to said party of the second part, and in constructing a trolley wire over the railroad belonging to the said party of the first part, as aforesaid, the party of the first part will so arrange said trolley wires and the feeder cables therefor so that the said party of the second part can connect its trolley wire south of Twenty-fifth street to said trolley wires, and electric current may flow from said trolley wires on Potrero avenue to said trolley wire south of Twenty-fifth street, and said party of the first part will permit said party of the second part either to make such a connection between said trolley wires on Potrero avenue and said trolley wire south of Potrero avenue and to draw electric current from said trolley wires on Potrero avenue, for the purpose of operating its railroad south of Twenty-fifth street, under such terms and conditions as may be just and equitable, or, in the event that for any reason it shall be found undesirable to permit of this connection, will permit the party of the second part to use one of the underground ducts which said party of the first part proposes to install in Potrero avenue between Mariposa street and Twenty-fifth street for the purpose of installing an electric feeder cable which may be used to deliver electric current to said trolley wire south of Twenty-fifth street without expense to said party of the second part.

It being further understood and agreed that after completion said double-track roadbed, including the pavement between the rails and on two (2) feet on each side, and the overhead constructions necessary and appurtenant thereto shall be jointly maintained by the said party of the first part and the said party of the second part, each paying one-half of the cost of said maintenance.

In witness whereof, the said parties hereto have caused these presents to be executed the day and year first hereinabove written.

CITY AND COUNTY OF SAN FRANCISCO.

On San Jose avenue between Whipple avenue and Sadowa street and on Broad street between San Jose avenue and Plymouth avenue.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

#### Extension of Time.

On motion of Supervisor McCarthy: Resolution No. 10950 (New Series), as follows:

Resolved, That Flinn & Treacy are hereby granted an extension of thirty days' time from and after May 11, 1914, within which to complete contract for the curbing and paving on

Onondaga avenue, between Cayuga and Otsega avenues, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the work has been completed except the necessary cleaning up before the acceptance.

Thirty days' time from and after May 21, 1914, to complete the street work at the intersection of Charles and Chenery streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that contractor was delayed in the work by awaiting construction of the manholes by the city.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following resolution was introduced under suspension of the rules and adopted:

Adopting Location of Transportation Road to Hetch Hetchy Dam.

On motion of Supervisor Vogel-sang:

Resolution No. 10932 (New Series), as follows:

Whereas, for the successful consummation of the policy of the City and County of San Francisco of developing and completing a municipal water supply, with the Hetch Hetchy Valley, Lake Eleanor and the waters

of the Tuolumne River and its tributaries in Tuolumne County, California, as the source for obtaining said water supply, it is necessary that the hereinafter described transportation road for conveying materials to Hetch Hetchy Dam, aqueduct lines and appurtenant structures, be fully developed and constructed; therefor

Resolved, that the hereinafter described location be and the same hereby is adopted by the City and County of San Francisco as the definite location of said transportation road, and the Mayor of this City and County is hereby authorized to apply to the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture, and any other department of government on behalf of the City and County, for permission to construct and complete said transportation road. Said application is to be made under the Act of Congress approved on the 19th day of December, 1913, entitled, "Granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes," and in compliance with Section 2 and sub-section p of Section 9 of said Act, in order that the City and County may obtain the benefits of said Act. The Mayor is further authorized and directed to make on behalf of the City and County, any other applications under said Act of Congress, or under any law before any department of government, which may be necessary for the successful completion of the above described municipal water supply for the City and County of San Francisco.

The City Engineer is authorized and directed to prepare all the necessary surveys, maps, and field notes for said application, or for any other applications which it may be necessary to make under said Act of Congress, or under any law, for the successful completion of the above described municipal water supply.

The City Attorney is authorized and directed to appear before the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture, or any other departments of government, for and on behalf of the City and County in the matter of this application, or any other proceedings which may be necessary for the successful com-

pletion of the above described municipal water supply.

Following is a description of the definite location of the survey of the center line of a right of way 100 feet wide, 50 feet on each side of said center line of the said City and County's transportation road, 22 feet in width, above referred to.

Beginning at a point identical with a station marked 162+98° whence the corner common to sections 2, 3, 10 and 11, Township 1 South, Range 19 East, M. D. B. & M., bears S. 56° 16' 35" W., a distance of 2180.9 feet; thence in a northeasterly direction about 3.2 miles; thence in an easterly and northeasterly direction about 5.5 miles, with a maximum grade of 4 per cent, to the Hetch Hetchy Dam site, and at an elevation of 3825 feet, being a total length of transportation road about 8.7 miles.

Further, the Mayor is authorized to make the above described application either as one application for the entire road so above described or at different times for different portions of the said road as the survey of said different portions may be finally completed.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Western Pacific to Maintain Signal Men at Crossing of Seventeenth and De Haro Streets.

Supervisor Gallagher presented:

J. R. No. —.

Whereas, The Western Pacific Railway Company (a corporation) was by Ordinance No. 582 (New Series) approved October 23, 1908, granted the right, privilege, permission and franchise to construct, lay down, maintain and operate for the term of fifty (50) years in the City and County of San Francisco, State of California, a railroad of standard gauge, operated by steam or other lawful motive power, together with all the main tracks, spur tracks, slip tracks, switch tracks, crossings, slip switches, freight and passenger depots, and other appendages and adjuncts of said railroad as may be required for the convenient use and operation of the same along and over a certain route in said City and County of San Francisco; and

Whereas, The Western Pacific Railway Company under the terms of its franchise granted by Ordinance No. 582 (New Series) shall whenever so required by Resolution of the Board of Supervisors, station and maintain signalmen and gates or such means

of protection at such street crossings at grade by said railroad, as may be required and designated by said Board of Supervisors; now, therefore

Resolved, That the Western Pacific Railway Company is hereby directed to station and maintain signalmen at the crossing of Seventeenth and De Haro streets.

Approval of Constitutional Consolidation Amendment.

The following matter was presented by Supervisor Hayden and approved by unanimous vote:

Publicity and Interurban Relations Committee reports the following with their endorsement attached:

Section 8½ of Article XI of the Constitution to be amended by making Subdivision 1 read as follows:

"1. For the constitution, regulation, government and jurisdiction of police courts, and for the manner in which, the times at which, and the terms for which the judges of such courts shall be elected or appointed, and for the qualifications and compensation of said judges and of their clerks and attaches; and for the establishment, constitution, regulation, government and jurisdiction of municipal courts with such civil and criminal jurisdiction as by law may be conferred upon inferior courts; and for the manner in which, the times at which, and the terms for which the judges of such courts shall be elected or appointed, and for the qualifications and compensation of said judges and of their clerks and attaches; provided such municipal courts shall never be deprived of the jurisdiction given inferior courts created by general law.

"In any city or any city and county, when such municipal court has

been established, there shall be no other court inferior to the superior court; and pending actions, trials, and all pending business of inferior courts within the territory of such city or city and county, upon the establishment of any such municipal court, shall be and become pending in such municipal court, and all records of such inferior courts shall thereupon be and become the records of such municipal court."

Amend Section 8½, Article XI, Subdivision 4, the second portion of said subdivision, as follows:

"It shall be competent in any charter framed in accordance with the provisions of this section or Section 8 of this article for any city or consolidated city and county, and plenary authority is hereby granted, subject only to the restrictions of Article XI of this Constitution, to provide therein or by amendment thereto, the manner in which, the method by which, the times at which, and the terms for which the several county and municipal officers and employees whose compensation is paid by such city or city and county, excepting judges of the superior court, shall be elected or appointed, and for their recall and removal, and for their compensation, and for the number of deputies, clerks and other employees that each shall have, and for the compensation, method of appointment, qualifications, tenure of office and removal of such deputies, clerks and other employees. All provisions of any charter of any such city or consolidated city and county heretofore adopted, and amendments thereto, which are in accordance herewith, are hereby confirmed and declared valid."

Add to Section 8½ of Article XI a new subdivision to be numbered 5, to read as follows:

"5. It shall be competent in any charter or amendment thereof, which shall hereafter be framed by any city under the authority given by Section 8 of Article XI of this Constitution, provided such city has a population in excess of 175,000 ascertained as prescribed by said Section 8, to provide for the separation of said city from the county of which it has heretofore been a part and the formation of said city into a consolidated city and county to be governed by such charter, and to have the combined powers of a city and county, as provided in this Constitution for consolidated city and county government, and further to prescribe in said charter the date for the beginning of the official existence of said consolidated city and county.

"It shall also be competent for any such city, not having already con-

solidated as a city and county to hereafter frame, in the manner herein prescribed, a charter providing for a city and county government, in which charter there shall be prescribed territorial boundaries which may include territory not included in such city, which territory, however, must be included in the county within which such city is located. Such charter shall be prepared by the city initiating said movement for a city and county government, in the manner prescribed in Section 8 of this article.

"It shall be competent for any consolidated city and county now existing, or which shall hereafter be organized, to annex territory contiguous to such consolidated city and county, unincorporated or otherwise, whether situate wholly in one county, or parts thereof be situate in different counties, said annexed territory to be an integral part of such city and county.

"The territory of any city and county, either as originally established or as altered by subsequent annexation thereto, must be so selected as to form a contiguous area.

"If no additional territory is proposed to be added, then, upon the consent to the separation of any such city initiating the same from the county in which it is located, being given by a majority of the qualified electors voting thereon in such county and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city, and the approval thereof by the legislature, as prescribed in Section 8 of this article, said charter shall be deemed adopted and upon the date fixed in said charter said city shall be and become a consolidated city and county government.

"If additional territory not including an incorporated city or town is proposed to be added, then, upon the consent to such separation of such territory and to such separation of the city initiating the consolidation proposal being given by a majority of the qualified electors voting thereon in the county in which the city proposing such separation is located, and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city, and also upon the approval of the proposal hereinafter set forth by a majority of the qualified electors voting thereon in the whole of such additional territory, and the approval of said charter by the legislature, as prescribed in Section 8 of this article, said charter shall be deemed adopted, the indebtedness hereinafter referred to shall be deemed to have been as-

sumed, and upon the date fixed in said charter such territory and such city shall be and become one consolidated city and county government."

The proposal to be submitted to the territory proposed to be added shall be substantially, in the following form and submitted as one indivisible question:

"Shall the territory (herein insert in general terms description of territory to be added) consolidate with the city of (herein insert name of the city initiating the proposition to form a city and county government) in a consolidated city and county government, and shall the charter as prepared by the city of (herein insert the name of the city initiating the proposition to form a city and county government) be adopted as the charter of the consolidated city and county, and shall the said added territory assume its assessable proportion of the following indebtedness of said city of (herein insert name of the city initiating the proposition to form a city and county government), to-wit (herein insert in general terms reference to any debts to be assumed, and if none insert 'none')."

If additional territory is proposed to be added which includes one or more incorporated cities or towns, the consent of any such incorporated city or town shall be obtained by a majority vote of the qualified electors of any such incorporated city or town voting upon a proposal substantially as follows:

"Shall the city of (here insert the name of the city or town to be included in such additional territory) consent to be included in a district to be defined by the city of (herein insert the name of the city initiating the proposition to form a city and county government) which district shall, within two years from the date of this election, vote upon a proposal submitted as one indivisible question that such district to be then described and set forth shall consolidate with (herein insert name of the city initiating said consolidation proposition) in a consolidated city and county government, and also that a certain charter, to be prepared by the city of (herein insert name of the city initiating the proposition to form a city and county government) be adopted as the charter of such consolidated city and county, and that such district assume its assessable proportion of the following indebtedness of said city of (herein insert name of the city initiating the proposition to form a city and county government) to-wit: (herein insert in general terms, reference to any debts

to be assumed and if none insert 'none')."

Any and all incorporated cities or towns to which the foregoing proposal shall have been submitted and a majority of whose qualified electors voting thereon shall have voted in favor thereof, together with such unincorporated territory as the city initiating such consolidation proposal may desire to have included, the whole to form an area contiguous to said city, shall be created into a district by such city, and the proposal substantially as above described to be used in case no incorporated city or town is included within the territory proposed to be added, shall, within said two years, be submitted to the voters of said entire district as one indivisible question.

Upon consent to the separation of such district and to such separation of the city initiating the consolidation proposal being given by a majority of the qualified electors voting thereon in the county in which the city proposing such separation is located, and upon the ratification of such charter by a majority of the qualified electors voting thereon in such city initiating the adoption of said charter, and upon the approval of the proposal hereinbefore set forth by a majority of the qualified electors voting thereon in the whole of the said district so proposed to be added, and upon the approval of said charter by the legislature, as prescribed in Section 8 of this article, said charter shall be deemed adopted, the said indebtedness hereinbefore referred to shall be deemed to have been assumed, and upon the date fixed in said charter such district, and such city initiating the adoption of said charter, shall be and become one consolidated city and county.

If additional territory not including any incorporated city or town is proposed to be annexed to any consolidated city and county now existing or which shall hereafter be organized, then, upon the consent to any such annexation being given by a majority of the qualified electors voting thereon in any county or counties in which any such unincorporated territory proposed to be annexed to said city and county is located, and upon the approval of such annexation proposal by a majority of the qualified electors voting thereon in such city and county proposing said annexation, and also upon the approval of the proposal hereinafter set forth by a majority of the qualified electors voting thereon in the whole of such territory proposed to be annexed, the indebtedness hereinafter referred to shall be deemed to

have been assumed, and at the time stated in such proposal, such unincorporated territory and such city and county initiating such annexation proposal shall be and become one consolidated city and county.

The proposal to be submitted to the territory proposed to be annexed, shall be substantially in the following form and submitted as one indivisible question:

"Shall the territory (herein insert in general terms description of the territory to be annexed) consolidate with the city and county of (herein insert the name of the city and county initiating the annexation proposal) in a consolidated city and county government, said consolidation to take effect (herein insert date when such consolidation shall take effect) and shall the said annexed territory assume its assessable proportion of the following indebtedness of said city and county of (herein insert name of city and county initiating the annexation proposal) to-wit: (herein insert in general terms, reference to any debts to be assumed and if none insert 'none')."

If additional territory is proposed to be annexed to any consolidated city and county now existing or which shall hereafter be organized, which additional territory includes one or more incorporated cities, cities and counties, or towns, the consent of any such incorporated city, city and county, or town, shall be obtained by a majority vote of the electors of any such incorporated city, city and county, or town upon a proposal substantially as follows:

"Shall the city of (herein insert name of the city, city and county, or town, to be included in such annexed territory) consent to be included in a district to be defined by the city and county of (herein insert the name of the city and county initiating the annexation proposal) which district shall within two years from the date of this election vote upon a proposal submitted as one indivisible question, that such district to be then described and set forth shall consolidate with (herein insert name of the city and county initiating the annexation proposal) in a consolidated city and county government, and that such district assume its assessable proportion of the following indebtedness of said city and county of (herein insert name of the city and county initiating the annexation proposal) to-wit: (herein insert in general terms, reference to any debts to be assumed and if none insert 'none')."

Any and all incorporated cities,

cities and counties, or towns, to which the foregoing proposal shall have been submitted, and a majority of whose qualified electors voting thereon shall have voted in favor thereof, together with such unincorporated territory as the city and county initiating such annexation proposal may desire to have included, the whole to form an area contiguous to said city and county, shall be created into a district by said city and county, and the proposal substantially in the form above set forth to be used in case no incorporated city, city and county, or town, is included within the territory proposed to be annexed, shall, within said two years be submitted to the voters of said entire district as one indivisible question.

Upon consent to any such annexation being given by a majority of the qualified electors voting thereon in any county or counties in which any such territory proposed to be annexed to said city and county is located, and upon the approval of any such annexation proposal by a majority of the qualified electors voting thereon in such city and county proposing such annexation, and also upon the approval of the proposal hereinbefore set forth by a majority of the qualified electors voting thereon in the whole of the district so proposed to be annexed, then, the said indebtedness hereinbefore referred to shall be deemed to have been assumed, and at the time stated in such annexation proposal such district and such city and county initiating such annexation proposal shall be and become one consolidated city and county, to be governed by the charter of the city and county proposing such annexation, or by any subsequent amendment thereto.

Whenever any proposal is submitted to the electors of any county, territory, district, city, city and county, or town, as above provided, there shall be published, for at least five successive publications in a newspaper of general circulation, printed and published in any such county, territory, district, city, city and county, or town, the last publication to be not less than twenty days prior to any such election, a particular description of any territory or district to be separated, added, or annexed, together with a particular description of any debts to be assumed, as above referred to, unless such particular description is contained in the said proposal so submitted. If there be no such newspaper so printed and published in any such county, territory, district, city, city and county, or town,

then such publication may be made in any newspaper of general circulation printed and published in the nearest county, city, and county, or town, where there may be such a newspaper so printed and published.

If, by the adoption of any charter, or by annexation, any incorporated municipality become a portion of a city and county, its property, debts and liabilities of every description shall be and become the property, debts and liabilities of such city and county.

Every city and county which shall be formed, or the territory of which shall be enlarged as herein provided from territory taken from any county or counties, shall be liable for a just proportion of the debts and liabilities and be entitled to a just proportion of the property and assets of such county or counties, existing at the time such territory is so taken.

The provisions of this constitution applicable to cities, and cities and counties, and also those applicable to counties, so far as not inconsistent or prohibited to cities, or cities and counties, shall be applicable to such consolidated city and county government; and no provision of this subdivision 5 shall be construed as a restriction upon the plenary authority of any city or city and county having a freeholders' charter, as provided for in this constitution, to determine in said charter, any and all matters elsewhere in this constitution authorized and not inconsistent herewith.

The Legislature shall provide for the formation of one or more counties from the portion or portions of a county or counties remaining after the formation of or annexation to a consolidated city and county, or for the transfer of such portion or portions of such original county or counties to adjoining counties.

The provisions of Section 2 of Article XI, and also those provisions of Section 3 of said Article XI of this Constitution which refer to the passing of any county line within five miles of the exterior boundary of a city or town in which a county seat of any county proposed to be divided is situated, shall not apply to the formation of, nor to the extension of the territory of such consolidated cities and counties, nor to the formation of new counties, nor to the annexation to existing counties, as herein specified.

Any city and county formed under this provision shall have the right,

if it so desires, to be designated by the official name of the city initiating the consolidation as it existed immediately prior to its adoption of a charter providing for a consolidated city and county government, except that such city and county shall be known under the style of a city and county.

It shall be competent in any charter framed for a consolidated city and county, or by amendment thereof, to provide, in addition to those provisions allowed by this constitution and by the laws of the State, for the establishment of a borough system or government for the whole or any part of the territory of said city and county, by which one or more districts may be created therein, which districts shall be known as boroughs and which shall exercise such municipal powers as may be granted by such charter, and for the organization, regulation, government and jurisdiction of such borough.

No property in any territory hereafter consolidated with or annexed to any city or city and county consolidating or annexing territory as herein provided, shall be taxed for the payment of any indebtedness of such city or city and county outstanding at the date of such consolidation or annexation and for the payment of which the property in such territory was not, prior to such consolidation or annexation, subject to such taxation, unless there shall have been submitted to the qualified electors of such territory the proposition regarding the assumption of indebtedness as hereinbefore set forth and the same shall have been approved by a majority of such electors voting thereon.

The Legislature shall enact such general laws or special acts as may be necessary to carry out the provisions of this Subdivision 5.

San Francisco, June 8, 1914.

The above amendment to the constitution providing for consolidation of cities and counties is approved by Committee on Publicity and Interurban Relations in conformity with resolution adopted by Board of Supervisors on this date.

The following matters were presented and read by the Clerk:

Increased Assessment and Tax Reduction.

*Communication*—From the Assessor, stating that the assessment roll will be increased from \$536,000,000 to \$540,500,000 by reason of the discovery of certain personal property in warehouses, unassessed automobiles and estates which have heretofore escaped taxation, also on moneys deposited in banks by order of court in certain of our public service corporations pending the settlement of rates litigation, which increased assessment roll will operate to reduce the levy two cents.

Clerk directed to notify members to attend Monday's meeting, at which the above matter will be considered.

Extension of Municipal Street Railway in Potrero District.

Also, *Communication*—From Buena Vista Improvement Association, Southern Heights Improvement Association, McKinley Square Improvement Association, and Patrick Henry Improvement Association, inviting the Board to attend mass meeting of residents of

the Potrero Districts in the Patrick Henry School, on Tuesday evening, June 16, at 8 o'clock, for the purpose of securing an extension of the Municipal Street Railway in the Potrero District.

Leave of Absence, Supervisor Chas. A. Murdock.

The following matter was presented and read:

June 13, 1914.

Honorable Board of Supervisors, City Hall, San Francisco—

Gentlemen:

Application having been made to me by Hon. Charles A. Murdock, member of the Board of Supervisors, for leave of absence with permission to leave the State of California for a period of forty days, beginning June 17, 1914, I respectfully request that you concur with me in granting such leave of absence, and that you pass the necessary resolution, expressing such concurrence.

Yours respectfully,

(Signed) JAMES ROLPH, JR.,  
Mayor.

Adopted.

Thereupon, the following resolution was presented and adopted:

**Auctioneers' License Ordinance.**

Bill No. 3071, Ordinance No. 2798 (New Series), as follows:

Imposing a license on auctioneers and regulating the manner of the issuance of such license and prescribing a penalty for the violation thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. For the purposes of this ordinance, every person, firm or corporation who sells, offers for sale, or exposes for sale by public auction any property, real or personal, or who maintains, conducts or carries on any public auction-room or rooms shall be deemed to be an "Auctioneer" and shall pay a license as follows:

Those whose sales amount to two

million (\$2,000,000) dollars or more per year, shall pay an annual license of four hundred (\$400) dollars.

Those whose sales amount to one million (\$1,000,000) dollars or more, and less than two million (\$2,000,000) dollars per year, shall pay an annual license of three hundred (\$300) dollars.

Those whose sales amount to five hundred thousand (\$500,000) dollars or more, and less than one million (\$1,000,000) dollars per year, shall pay an annual license of two hundred (\$200) dollars.

Those whose sales amount to less than five hundred thousand (\$500,000) dollars per year, shall pay an annual license of one hundred (\$100) dollars.

Section 2. All licenses issued under the provisions of this ordinance shall be known and designated as "Auctioner's License" and the same shall be paid annually in advance from the date of the issuance of any such license.

Section 3. No "Auctioner's License" is required for the sale of any goods at public sale belonging to the United States or to this state, or for the sale of property by virtue of any process issued by any state or federal court.

Section 4. Every original application for an "Auctioneer's License" must be accompanied with a verified statement of the amount of sales proposed to be made monthly, and the license charge must be for the first year classified thereby; and every auctioneer applying to the Tax Collector for a renewal of his license must accompany his application with a statement under oath setting forth that his average receipts per month on account of sales during the preceding year did not exceed the amount specified in the class of license for which he applies. The Tax Collector must provide blank forms of affidavit for that purpose and administer the oath required to such applicants without charge. No auctioneer must exceed the amount of sales of the class in which his license is fixed.

Section 5. No auctioneer is permitted to transfer his license to any other person for any part of the time for which his license is issued.

Section 6. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not to exceed five hundred (\$500) dollars or by imprisonment in the county jail for not more than six (6) months or by both such fine and imprisonment.

Section 7. Ordinance No. 747 is hereby repealed.

Section 8. This ordinance shall take effect and be in force July 1, 1914.

#### ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

City Attorney to Commence Condemnation of Certain Land in Poopenaut Valley Required in Development of Hetch Hetchy Water Supply.

The following resolution was introduced under suspension of the rules and *adopted* by the following vote:

Resolution No. 10953 (New Series), Resolved, That public interest and

necessity and use require the acquisition by the City and County of San Francisco of the following described land, and of any and all rights and claims thereto, to-wit:

All of that certain lot, piece, parcel or tract of land situate, lying and being in the Poopenaut Valley, County of Tuolumne, State of California, and more particularly described as follows:

The west half of the northeast quarter (W.  $\frac{1}{2}$  of N. E.  $\frac{1}{4}$ ) of section 30, township 1 north, range 20 east, Mount Diablo Base and Meridian.

That all the land, rights and claims above described are suitable, adaptable and necessary for a public use, to-wit:

For the protecting and safe-guarding of the purity of the water supply to be brought to the City and County of San Francisco, for the use of the said City and County and the inhabitants thereof, from Lake Eleanor and the waters of the Tuolumne River and its tributaries in Tuolumne County, California; and that the said land, rights and claims are suitable, adaptable and necessary for a further public use, to-wit:

As a reservoir and dam site, at which shall be constructed a reservoir to store waters to be brought from Lake Eleanor, and the waters of the Tuolumne River and its tributaries in Tuolumne County, California, and from which reservoir the waters so stored shall be distributed to and for the use of the people of the City and County of San Francisco. The aforesaid protecting and safe-guarding of the purity of said water supply, and the construction of said reservoir on the land hereinabove described, are necessary to the final acquisition, construction and completion of a water supply and works to be owned and controlled by the City and County of San Francisco as described in Ordinance No. 924 (New Series), regularly adopted by the Board of Supervisors of the City and County of San Francisco on October 25, 1909, and regularly approved by the Mayor of said City and County on October 26, 1909, and in accordance with the plans for said water supply and works.

The City Attorney is hereby instructed to commence proceedings against the owners of said lot, parcel, piece or tract of land and any and all rights and claims thereto for the condemnation thereof and acquisition thereof in eminent domain proceedings for the use of the City and County of San Francisco, as aforesaid, and to prosecute such proceedings to a speedy termination.

**Experts Telephone Rates Report.**

The following reports were presented and read by the Clerk:

San Francisco, Cal., June 12, 1914

To the Honorable the Telephone Rates Committee, Board of Supervisors.

Sirs:

Pursuant to your instructions we have examined the statement filed with you by the Pacific Telephone and Telegraph Company covering the business of the Company for the year 1913. We have also examined the inventory of the property of the Pacific Telephone and Telegraph Company which was subsequently submitted to sustain their claimed valuation of the physical property.

This inventory was furnished piecemeal, the first nineteen sheets being received on March 27th, followed by forty sheets March 31st. These sheets covered only the enumeration of the physical property north of Market street. On April 22nd the Company furnished a copy of the preliminary summary of the inventory. This was the first information which showed the unit prices used in arriving at the value of the plant. These prices being of primary importance and warranting careful inspection a considerable amount of time was spent in making an analysis of them. Volumes Nos. II to XII, inclusive, together with atlas sheets covering the entire plant were not received until May 13th. Volume No. I was received on May 27th and Volumes XIII to XV have not as yet been supplied. Volumes X, XI and XII contain the final priced summary of the inventory.

This inventory is very exhaustive, comprising over eight hundred sectional plats showing the details of the underground and overhead distribution system, and also fifteen volumes of subject-matter and tabulation. Each of the twelve volumes received contain an average of almost six hundred pages. It will be readily appreciated that a complete check of such an inventory in the limited time was a physical impossibility. This is further substantiated by the fact that the Company employed a force, averaging over fifty in number, for more than a year in its preparation at an expense, we are informed, of about \$65,000.00.

In order to arrive at an idea as to the accuracy of the inventory count a number of sheets, selected at random, were checked. These were found to be correct within reasonable limits, only minor errors of a compensating character being detected.

After this check it was considered advisable to concentrate our efforts on the following:

Unit Prices.

Amount of Plant Necessary to Furnish Service.

The Present or Depreciated Condition of the Property.

Discussing these in order we submit the following:

#### *Unit Prices.*

The prices as applied to the quantities were carefully considered as to material, labor, supervision, and general expense. It was impossible to examine all of the prices but those affecting the major quantities were subjected to a careful analysis. Each item entering into the cost of the completed unit being compared with the cost of similar items on which we were informed. In a great many cases exception was taken to the price of the material and we believe that such deductions as were made may readily be substantiated. Particular exception was taken to the item of supply expense which applies to the greater part of the material. The company claims 13.1% above the purchase price on all material for store room charges, basing their contention on a percentage which has been determined as an average of their Central Division. Not having the opportunity to examine all of the charges that enter into such general accounts we felt justified in applying to the San Francisco plant a percentage more nearly in accordance with that taken from the practice and experience of similar corporations whose store expense ranges from 2½% to 5%. On account of the great number and small size of parts to be handled in telephone supplies, it was considered reasonable to use 6% as a fair figure. It was impossible to apply this new percentage to all of the items, but it was done as far as practicable.

The cost of labor was also adjusted to conform to present conditions and actual costs on similar work.

The item of supervision was considered as being susceptible to reduction but no revision was made.

General expense, while high, was with but a few exceptions allowed as claimed.

#### *Amount of Plant.*

The Home Telephone Company's plant was taken over by the Pacific Telephone and Telegraph Company during the year 1912. The Home Company operated an automatic system, while the Pacific Company operates a manual system. This means that the Home equipment at central offices and subscribers' stations was of no value as a part of the Pacific plant. This, however, did not apply to conduits, cables, poles, or wire, and only partially to buildings and real estate. However, the conduits, cables and poles of the Home Company were not laid out to reach the wire centers of the Pacific Company, in all cases. Being a competing company, the plant of the Home Company paral-

leled that of the Pacific Company throughout the territory covered by it. The problem was then to determine how much of the Home plant should be allowed in the present valuation, to take care of the immediate present requirements and a reasonable future development.

The inventory submitted does not segregate the Home plant, so it was impossible to determine how much of the claimed valuation represented property acquired from the Home Company. In this connection it might be noted that the claimed purchase price of the Home Company's plant was \$5,722,332.78, and that only \$745,065.00 has been eliminated as needless plant duplication in the preparation of the inventory by the Pacific Company. In view of the above, further deductions were made for estimated needless duplication and for plant which would not necessarily come into service for a considerable period of time.

The Pacific Company, in arriving at the used and useful plant, have included all plant now in place necessary to care for the development of the year 1925. We did not feel that the present subscribers should be burdened with this extra cost as under natural growth this plant would not have been installed for a number of years.

#### *Depreciated Condition of Property.*

Under the theory of straight line depreciation, which is the one adopted by the Pacific Company, it was necessary to arrive at a present value of the plant as a basis of return on the investment.

Following established precedents based on the testimony of the Pacific Company's engineers before the State Railroad Commission, we have considered the present value of the normal operating plant as being 85% of the reproduction value.

#### *Capital.*

The accompanying statement shows in the first column the value claimed for reproduction cost by the Pacific Company. The second column shows the deductions made from this claimed value. The third column shows the allowed value. The total reproduction value allowed for depreciable capital is \$10,555,171.00, as of January 1st, 1913.

To this has been added one-half of the additions made to the plant during the year 1913, this being the average amount of the additions in service throughout the year.

From this total 15% has been deducted, leaving \$9,219,073.00, as the present or 85% value of the depreciable capital for the year 1913.

In order to arrive at the total capital investment on which interest

should be earned, there was added to this sum the adjusted values of land, working capital, and material and supplies. This total of \$10,070,073.00 is the amount on which interest should be allowed.

No allowance was made for the cost of establishing business as no data was submitted indicating actual losses sustained in the development of the business. We further believe that the Company's claim of \$2,500,000 for this item is unreasonable. In allowing 85% for present value, we further believe that we have given full consideration to the element of going concern.

The total claimed capital of the company was \$16,832,171; our total deductions from capital amount to \$6,762,098, leaving an adjusted capital value of \$10,070,073.00.

#### *Expenses.*

The accompanying statement shows the expenses claimed by the Pacific Company for the year 1913, together with such deductions as we have felt justified in making and the adjusted expenses which we saw fit to allow.

A deduction of \$50,000.00 was made from the item of Station Removals and Changes, which represents the estimated cost of removing automatic company telephones, and which would not be a recurrent expense.

A deduction of \$151,189.27 was made from the claimed depreciation allowance. This deduction was due first to our adjusted valuation of depreciable property and secondly in a reduction in the rate of depreciation to 6%.

A deduction of \$2500.00 was made from General Expense due to the adjustment of capital values.

The total of the deductions from expense items amounts to \$203,689.27, leaving the adjusted expense for the year 1913 at \$3,102,737.77.

#### *Revenue.*

The gross revenues for the year 1913 as shown by the Pacific Company's statement was \$3,767,708.43. From this the Company deducts \$160,305.11 as the proportion of the revenue due the American Telephone and Telegraph Company, under their license contract. This amount was reduced by \$71,246.61 in accordance with the procedure of the State Railroad Commission in the San Jose telephone rate hearing. After a careful consideration of the testimony presented in this case it was felt that the deduction was justified. This deduction reduces the license revenue to \$89,058.50, giving an adjusted revenue for the year 1913 of \$3,678,649.93.

#### *Net Income.*

The difference between the Revenue and Expenses or the Net Income

for the year 1913, as claimed by the Company, was \$300,976.28. The effect of the adjustments as indicated above is to increase the net income to \$575,912.16.

The net income claimed by the Company gives a return of 1.78% on the capital claimed by them; while our adjusted net income gives a return of 5.75% on the adjusted capital.

With the exception of the adjustments on Revenue and Expense accounts above indicated, the Company's figures for these items have been accepted. To warrant further adjustments it would be necessary to make a complete audit of the Company's accounts for the year 1913.

The apparent increased expense per year per station of 1913 over 1912, even after making the expense adjustments previously indicated, is accounted for by the Company's officials as being due; first, to wage increases; second, to an increase in the tax rate, and third, to the inauguration of an Employees' Pension and Benefit Plan. In addition, it is generally conceded that an increase in expense per station attends an increased development of the telephone business.

#### *Adjustment of Rates.*

Our figures as above indicate that the 1912 schedule of rates gives a return of only 5.75%. Believing that a public utility of this character should be allowed a higher rate of return, we respectfully submit suggested changes in five of the rates included in the 1912 schedule. We believe that these changes in the schedule will tend toward balancing the rates, rendering the charges commensurate with the services and affording the Company a sufficient increase in revenue to produce a return of 6.9% on a reasonable capital.

The proposed changes are as follows:

Rate No. 24—Four-party business prepayment, \$1.00 per month, no calls included with a charge of 5 cents per call for all calls. 2327 subscribers. Average revenue per month per station \$1.64. It is recommended that this rate be eliminated, for the reason that the revenue is not commensurate with the service rendered; also it gives a telephone for business purposes with a minimum guarantee of \$1.00 while the minimum guarantee for residential telephones is \$1.50 per month. Rate No. 23 gives the same class of service and allows 60 calls per month for a guarantee of \$3.00.

Rate No. 31—One-party residence telephone, unlimited switching, 6431 subscribers, \$5.50 per month.

Rate No. 32—Two-party, residence

telephone, unlimited switching; 4170 subscribers; \$3.00 per month.

Rate No. 33—Four-party, residence telephone, unlimited switching; 764 subscribers; \$2.50 per month.

The average calling rate of this class of service is 8.4 calls per day. It is immediately apparent that this class of subscribers receives telephone services at a much lower cost per call than any other class of residence subscriber. We believe that an increase of 50 cents per month on each of the above rates is warranted.

Rate No. 29—One-party, business prepayment, guarantee five calls per day at 5 cents, with excess calls at 4 cents per call. 1257 subscribers.

Rate No. 24—\$1.00 business.....	\$45,000	per year
“ “ 31— 3.50 residence.....	38,586	“ “
“ “ 32— 3.00 “ .....	25,020	“ “
“ “ 33— 2.50 “ .....	4,584	“ “
“ “ 20— 7.50 business.....	5,576	“ “

Total increase in revenue.....	\$118,766
Adjusted revenue under 1912 rate.....	575,912

Revised estimated revenue.....\$694,678, or 6.9% on investment.

We recommend that the 1912 rates modified as above be adopted for the year 1914-15.

It is further respectfully suggested that an ordinance uniform with Ordinance No. 504, making it unlawful to defraud a public service corporation by causing a gas or electric meter to register incorrectly, be passed, protecting the telephone company from similar abuse.

By the passage of such an ordinance it is believed that the telephone company will be in position to increase

This rate is used by cigar stands, saloons, drug stores and grocery stores where a large portion of the calls are made by parties other than the subscriber. These parties deposit 5 cents in the coin box and a refund of one cent is made on all excess calls to the subscriber. The only change proposed in this rate is to increase the excess message rate to 5 cents in place of 4 cents. This does not increase the cost of service to the users, but eliminates the rebate which is practically a commission to the subscriber.

The effect of these changes is estimated to provide an increase in the revenue as follows:

its revenue to such an extent as to make the return on the investment a full 7%.

We take this opportunity of expressing our appreciation of the co-operation of the telephone company's officials in obtaining the information necessary for our analysis of the business.

Respectfully submitted,

PAUL J. OST,  
N. RANDALL ELLIS,  
Engineers.

## TELEPHONE RATES COMMITTEE REPORT.

San Francisco, June 22, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: Your Committee on Telephones and Telephone Rates herewith submits an ordinance fixing the maximum rates to be collected for telephone service in the City and County of San Francisco during the fiscal year commencing July 1, 1914, and ending June 30, 1915, and respectfully recommends its passage by your Honorable Body.

This ordinance is based upon the recommendations of Paul J. Ost and N. Randall Ellis, electrical engineers, engaged as experts by your Board to assist your committee in determining the physical value of the properties of the Pacific Telephone and Telegraph Company to be used as a basis in fixing the telephone rates to be collected during the coming fiscal year.

Together with the rate fixing ordinance is submitted an ordinance to protect the telephone company against fraud practiced by some subscribers. This ordinance is intended to give the telephone company the same protection afforded the gas and water companies by like ordinances.

The report submitted by the experts is concurred in with the following exceptions:

The recommendation to increase the rates for residence service for one party and two-party lines from \$3.50 and \$3.00 respectively to \$4.00 and \$3.50 per month;

The recommendation to increase the rate for four-party residence telephones, unlimited switches from \$2.50 to \$3.00 per month;

The recommendation to increase the rate for the one-party business telephone furnished at \$7.50 per month with an allowance of 5 switches daily, so as to permit of the collection of 5 cents for excess messages instead of 4 cents, as at present. This proposed increase in the price for excess messages would take from the subscriber the 20 per cent commission now received by him from the company without any advantage being gained by the user of the telephone.

Your committee further recommends the elimination of the four-party residence unlimited switching telephone at \$2.50 per month as complaint has been made of the general abuse of this class of service. The present subscribers to this service can either revert to the four-party measured service at \$1.50 per month or the two-party unlimited service residence phone at \$3.00 per month.

While the ordinance submitted by your committee may slightly add to the company's revenue, it does not in any way increase the rates at present being paid by subscribers. The amount of the increased revenue of the company will depend entirely on the class of service selected by the subscriber in lieu of the service eliminated.

It will be noted in the report of the experts of the Board (copies of which have been furnished you) that the plant valuation of \$16,832,171.00 made by the company has been reduced to \$10,070,073.00. The estimated adjusted revenue would be \$694,678.00, which would give a return of 6.9 per cent based on the valuation of the experts. That return is based on an estimated additional revenue of \$118,766.00. This amount having been reduced \$65,000 by your committee, will give the company a net return of 6.25 per cent on the \$10,070,073.00 valuation.

In view of the fact that the proposed ordinance to protect the company against fraud will likely be the means of adding to the revenue of the company and consequently somewhat increase the net rate of return of 6.25 per cent, your committee feels that they have allowed the company a reasonable return upon its investment.

It is the intention of your committee to make an investigation in the near future into the possibility of securing a measured service for all classes of telephones, believing that it is the only fair and equitable way to charge for service rendered.

In conclusion your committee deems it advisable for your Honorable Body to make some provision to continue the work of checking and veri-

fyng the inventory submitted by the telephone company and so recommends. This inventory, as stated by the experts in their report, is very exhaustive and it was utterly impossible for them to attempt to verify all of the items in the time allowed them.

While your committee has not fully concurred in the recommendations of experts Ost and Ellis, we feel that they have worked in a careful, conscientious and painstaking manner and we therefore wish to express our appreciation to them.

Respectfully submitted,

JAMES E. POWER,  
FRED L. HILMER,  
OSCAR HOCKS,

Telephones and Telephone Rates Committee.

#### Lighting Rates Report.

San Francisco, Calif., May 11th, 1914.  
To the Honorable the Lighting and Rates Committee of the Board of Supervisors, San Francisco, Calif. Gentlemen:

At your request, the statement submitted by the Pacific Gas & Electric Co., pursuant to a resolution No. 10608 (New Series), has been examined and adjustments made to bring the figures to a fair basis for the purpose of fixing the rate to be charged for gas during the year 1914-1915.

In preparing these figures, the work done by the City Attorney's office in the rate suit instituted by the Pacific Gas & Electric Co. has been carefully considered. Mr. N. Randall Ellis, C. E., who has been working with the City Attorney's office, rendered very valuable assistance in the preparation of the figures submitted and to him thanks is due.

#### Non-Landed Capital.

In order that there might be no chance for duplicating deductions or considering deductions against figures which had already been modified, the statement of the Pacific Gas & Electric Co., covering the gas department, as shown on page 25 of the statement submitted by them, was taken as the foundation.

The first item on the attached statement is \$13,446,667.00, being the total non-landed capital as of December 31st, 1913. This amount includes, among other things, an item of \$64,906.66 as unclassified, which has in it such amounts as had been expended up to December 31st, 1913, on uncompleted work. From this figure has been deducted various items as shown on the statement. The reasons for making these deductions are as follows:

#### North Beach Plant—Office and Store-room.

This building is now in use as an electric sub-station, furnishing power to the Panama-Pacific Exposition and Union street line of the Municipal Railway; therefore, is not connected with the gas business. While there are

steam producers and accessories together with fuel oil tanks and accessory gas plant equipment at this station, there are no steam engines to be operated by the steam producers and only such accessory gas plant equipment as is connected to motor drive has been considered used and useful. The deduction of \$54,147.00 for the 75,000 cubic feet gas holder is made because this gas holder was damaged at the foundation by the earthquake. The larger holder at the North Beach Plant was repaired, but this small one has never been repaired and is not in condition to be operated. The total deduction for North Beach Plant is \$85,814.00.

#### Metropolitan Plant.

The Pacific Gas & Electric Co's. figures were made up from the inventory of J. G. White Co., which includes a number of coke ovens at this plant. These coke ovens are bricked up and are not in operative condition and, further, the Gas Company is not making coke or coal gas.

#### Potrero Plant.

It is estimated from the J. G. White Co. figures and additions that the total cost of the Potrero Plant, as of December 31st, 1913, was \$2,639,000.00. 3.9% of the gas generated at the Potrero Plant was delivered to the Peninsula lines; therefore, the sale of gas to these lines should pay the interest on the proportion of the plant necessary to generate the gas sold.

#### Martin Station.

The Martin Station Gas Plant has been entirely eliminated for the reason that this plant is not operated and with a sufficient allowance at Potrero Plant for extra generators should never be called into use.

#### Mains.

The J. G. White Co., in making their inventory, included as used and useful plant a considerable number of mains which should have been classed as non-useful, due to the fact that they were either disconnected at the time of the inventory or have since been disconnected from the rest of the system. These mains amount to \$344,-

651.00. This figure was furnished in an affidavit filed in the gas rate case by the Pacific Gas & Electric Co.

As the Pacific Gas & Electric Co. has been built up through the acquisition of various companies, there is a considerable amount of duplication of facilities. Mr. Ellis, in his investigation, has considered that where three (3) mains exist in a street, the smallest has been needless duplication. No deduction was made for feeder mains in the case where the third main in the street was a feeder. The figure arrived at by this method amounts to \$283,000.00.

J. G. White Co., in making their valuation, allowed the full value of paving where it existed at the time of their appraisal regardless of whether the mains were or were not laid in the street prior to the surface being paved.

It is eminently unfair, and has so been decided by the courts, for a public service corporation to claim interest on the cost of pavement placed over mains after the main was laid and without cost to the company. The cost of such pavement over the gas mains in this city amounts to a considerable sum as the Gas Company have always tried to get down a main of sufficient size prior to the pavement of the street. Considering the incomplete conditions of the records due to the destruction of a vast amount of data in the fire, it is deemed inadvisable to deduct more than \$422,000.00 for such pavement, although estimates would indicate that this sum is very modest. In view of the fact that this figure is so small, it was considered by the City Attorney's office that further deductions might be made where the data necessary for securing the figure was available.

Where two mains have been run in one street by competing companies finally merged into the Pacific Gas & Electric Co. and where one main of slightly larger size would give equivalent service, a portion of the cost of the pavement over one of the mains has been deducted. This amounts to \$199,000.00. The above deductions for mains make a total of \$1,248,651.00.

#### *Commercial Arcs.*

The company has been expending a considerable sum for the purpose of installing gas arc lamps which are rented to the consumer. This rental charge should be sufficient to cover depreciation and interest on the investment; therefore, it is unnecessary to take care of them in considering the cost of gas.

#### *Overhead.*

As the valuation made by the J.

G. White Co. includes an overhead percentage amounting to 24.3%, which is excessive, it was necessary to make a deduction in order to make the overhead allowance come within proper limits. It is, therefore, considered that of the valuation submitted by the company, \$10,000,000.00 was made up by the J. G. White Co., this \$10,000,000.00 including an average overhead percentage of 24.3%. Reducing this overhead percentage to 15%, which is a very liberal figure, considering that in Los Angeles, Wisconsin and a number of other places the percentage allowed for overhead has been reduced as low as 12%, a deduction of \$748,190.00 was made.

The total of all of the above deductions amounts to \$2,880,286.00. This taken from the figure submitted by the Gas Company leaves a net reproduction cost new of non-landed capital of \$10,566,381.00. The data submitted in the rate case indicates that this property has depreciated from the reproduction cost and it is believed that the amount of this depreciation may be considered as 20% without doing the company any injustice. The deduction for depreciation is, therefore, 20% of the reproduction cost and amounts to \$2,113,276.00, leaving a net present value of non-landed capital of \$8,453,105.00.

#### *Landed Capital.*

The figure given by the Pacific Gas & Electric Co. for landed capital was taken and the following deductions made: For Martin Station \$14,000.00. Due to a revaluation by the City Attorney, it was determined that the valuation placed on the property by the J. G. White Co. was \$16,138.00 too high. These two items make a total deduction of \$30,139.00 from the Gas Co's figure, leaving \$723,747.00 as the present value of real estate used by the gas department. A portion of the landed capital is made up of all departments' real estate. This also was revalued by the City Attorney and a difference of \$41,933.00 was made between the valuation placed on the property by J. G. White Co. and the City Attorney. Deducting this from the figure for all departments submitted by the Gas Co., \$114,891.00 is arrived at as the figure for the present value of all department real estate applicable to the gas department. These two items added together make a total landed capital of \$838,638.00.

#### *Working Capital.*

The Pacific Gas & Electric Co's. figure for working capital has been entirely disregarded, due to the fact that it is so high compared with the expenditures as to be out of reason. In other instances it has been considered

by railway commissions and engineers perfectly equitable to allow for working capital a sum equivalent to two months' expenses. This method has been used here, the expenses for the year, exclusive of taxes and reserve accounts, uncollectible accounts and floating debt interest, is \$2,059,367.00. One-sixth of this is close to \$345,000.00, which is the amount allowed. This gives a total value of capital on which interest is payable of \$9,636,743.00.

#### *Intangible Values.*

The company makes a claim for organization and development expenses, going concern value and franchise. It is believed that your committee will agree that the company has no franchise value as far as rate fixing purposes are concerned. The development expenses have been ignored, due to the fact that the Pacific Gas & Electric Co. has not brought forward any evidence to show that they incurred any development expenses for which they were not reimbursed in the earlier history of their predecessors, who, for a long period, were not subject to rate regulation. While it is admitted that the Pacific Gas & Electric Co. has a going concern value for sale purposes, it is not admitted that they have a going concern value for the purpose of rate fixing, as this has been amply cared for by allowing the company the present value of the plant. If the plant had no going concern value, it would be worth its net salvage value and, admitting that the plant has an 80% present value, gives ample evidence that the going concern has been provided for.

#### *Expenses.*

The expenses of the company as shown on page 1 of their statement have been used without question except as noted hereinafter. As a portion of the gas generated in San Francisco is sent to Palo Alto and Redwood City, it is necessary to use two different dividers in order to secure the actual cost per 1000 cubic feet of gas. The first divider of 4,447,804 represents the number of thousands of cubic feet of gas actually sold to San Francisco consumers and sent out of the city to the Redwood City District, the company's figures being accepted and no exception being taken to the amount of leakage asked for by the company.

The maintenance of generating capital and generating expense has been divided by this divider. All other expenses have been divided by the actual amount of gas sold to San Francisco consumers. The expense as given by the company was taken with the exception of fire insurance, which was reduced from \$33,513.10 to \$8,700.00. This was due to the fact that the com-

pany carries its own insurance and makes its own rates. When compared with the rates which would be charged by a fire insurance company and making deductions for commissions and expense of securing a business, it was found that \$8,700.00 was ample to cover all risk. Other deductions made from the figures were due to items being included which did not enter into the cost of manufacturing and distributing gas, namely, the maintenance of commercial arc lamps, the maintenance of street lamps and the trimming of commercial arcs. These deductions amount to \$128,967.09. Further deductions, due to the fact that they were a credit to expense, were meter rental—\$25,733.51, and the sale of by-products—\$4,454.41, leaving a total expense, to be divided by the number of thousands of cubic feet of gas sold to San Francisco consumers, of \$1,391,630.14.

The cost of generating amounts to 24.14c and the amount of distribution and general expense comes to 32.31c.

In arriving at these figures depreciation was allowed on a straight line basis and amounts to 3% of the net reproduction cost of the depreciable property.

The City pays a rate of 60c for its gas used in buildings and considering that it pays a rate of 60c for the gas used in street lights, it would indicate that the difference between 56.45c, which is the total cost of manufacturing and distributing the gas and the rate paid by the City was 3.55c per thousand cubic feet of gas. Estimating that this amount of gas sold at 60c was 157,200 thousand cubic feet, the rate paid would net the company \$5,580.60. Considering that all of the other gas sold in San Francisco might be charged for at 75c per thousand cubic feet, \$769,693.30 would be the net earnings. This would give a net profit of \$775,273.90 or 8.045% on a total capital valuation of \$9,636,743.00 as above shown.

The figures submitted do not include any allowance for additions which may be made during the coming year. This is a matter which should be taken into consideration in discussing rates, but the interest percentage shown above is sufficiently high to insure that a very liberal rate of return will be possible after the plant additions have been taken into consideration. Further figures were made to determine what rate of return would be allowed the company with a maximum rate of 70c per 1000 cubic feet of gas. This comes to 5.892%. This is a rate of interest which might not be declared confiscatory in court, but is a rate of return too low to be considered in the fixing of rates.

It is not necessary for me to discuss the rate of interest which a public service corporation should be allowed to earn. It is, however, suggested that 8.045% is a very liberal rate and, without injustice to the corporation or putting in effect a rate which would not be sustained in court, a lower rate might be made. However, in view of the fact that the gas case is still in the courts, and feeling that whatever rate the City sets other than the 85c, now being charged by the company, would be enjoined, it is recommended that 75c be fixed as the maximum rate to be charged for gas during the ensuing fiscal year. By so doing, as quickly as the present suit is settled, the City will be on a firm basis and entirely out of litigation as far as gas is concerned. No compromise should be made with the company looking toward the early settlement of the suit at a rate higher than the 75c fixed last year as this rate, to the best of my knowledge and belief, was entirely fair and can easily be substantiated in any court.

It is further recommended that, in drawing up the ordinance specifying the quality of gas, the clause relating to candle power be modified. The present ordinance stipulates that the gas shall contain an average of 600 B. T. U.

per cubic foot and that the average candle power shall not fall below 19. The candle power rating is being ignored all over the country and it is recommended by the U. S. Bureau of Standards that the heat unit basis be the only one considered. All but a very small percentage of the gas used is for the purpose of supplying heat, either for industrial, cooking or warming purposes and for lighting by incandescent mantles, which is also dependent upon heat units; and the only use of gas which is dependent upon candle power is the old type of open flame burner in which not over 3% or 4% of the total is consumed.

It is, therefore, recommended that, in drawing up the ordinance for this year, it be stated that the average heat units of the gas shall not fall below 600 B. T. U. per cubic foot. In order to give the consumers, using the small percentage of gas, mentioned above, in open flame burners, a chance to replace them gradually and not greatly inconvenience them for the present, if not replaced immediately, it is recommended that the ordinance should read that the minimum candle power shall not fall below 15.

Respectfully submitted,

Report of Water Service and Rates Committee.

June 22, 1914.

Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

Your Committee on Water Service and Rates having under consideration the preparation of an ordinance fixing and determining water rates for the fiscal year 1914-15, begs leave to submit the following report thereon, together with an ordinance fixing and determining the rates aforesaid.

*Valuation.*

Judge Farrington's decision in the

rates case, determined upon a valuation of \$25,771,984 as a proper basis for rate fixing purposes for the year 1903. Last year's report of the City Engineer using this basis brought this valuation to date. By adding to this the valuation of property acquired during the past year, and deducting depreciation of physical properties and the values of lands deemed unnecessary for water supply purposes, your Committee arrives at the following valuation for determining rates for the ensuing fiscal year, to-wit:

Value, 1903 (Judge Farrington's decision) . . . . . \$25,771,984.00

Add:

Value of properties acquired since 1903, as follows:

214 acres reservoir lands created by raising height of Crystal Springs dam, at \$900 per acre. . . . .	192,600.00
25,274.707 acres watershed lands. . . . .	2,439,662.39
165.5 acres Lake Merced property. . . . .	190,526.85
Water rights . . . . .	56,271.60
Rights of way. . . . .	348,170.90
City reservoir sites . . . . .	4,170.30
Pump tracts . . . . .	17,587.50
Street assessments in San Francisco. . . . .	3,342.84
Physical improvements . . . . .	2,278,343.45

Total . . . . . \$31,302,659.83

Deduct:

Value of properties gone out of use since Farrington decision as follows:

Office lot and building. . . . .	\$179,217.00
Pilarcitos pipe line . . . . .	303,235.00
Lake Honda tank . . . . .	4,000.00

Ocean House flume .....	9,233.00	
College Hill aerator .....	1,772.00	
City pipe system, estimated.....	200,000.00	
Damage by earthquake (see Municipal Reports 1905-6 and 1906-7, page 822.)		697,457.00
Depreciation .....		2,564,419.04
Leaving .....		\$28,040,783.79
There should also be deducted the value of the following lands not necessary for furnishing water to the City and County of San Francisco (testimony of W. B. Bourne before the Water Rates Committee of the Board of Supervisors, at meeting held Monday, May 19, 1913), which are computed at the rate per acre allowed in the Farrington decision:		
Lake Merced lands, 2,026 acres at \$1,250 per acre...	\$2,532,500.00	
Crystal Springs land, Howard Tract, 209 acres, at \$100 per acre.....	20,900.00	
Being a portion of the Howard Tract east of Crystal Springs watershed and north of San Mateo Creek.		
Polhemus Tract, 861 acres, at \$100 per acre.....	86,100.00	
Being a portion of the Polhemus Tract, east of Crystal Springs watershed and south of San Mateo Creek.		
		2,639,500.00
Leaving .....		\$25,401,283.79

as the total value, for rate fixing purposes, of the properties owned by the Spring Valley Water Company and in use and useful for supplying water to the City and County of San Francisco and its inhabitants.

This valuation is, in the opinion of your Committee, extremely liberal, for the deductions on account of property no longer used or useful are not the only deductions that can be made on this score. The Locks Creek system, valued in the Farrington decision at nearly \$300,000, is no longer used in supplying water to San Francisco, and other large tracts of land, included in the Farrington valuation, which could be eliminated without injury to the water supply of this city. Insufficient information, however, deters your Committee from making any recommendation, in this respect, until more accurate data are available.

#### Appreciation.

In arriving at this valuation, no allowance has been made for appreciation in the value of property appraised by Judge Farrington, nor any allowance over original cost for properties purchased since 1903-1904. In declining to make an allowance for appreciation of such properties, your Committee has followed the uniform practice of the City Engineer's office in determining valuations for rate fixing purposes, and there is ample authority for refusing to depart from that practice at this time. It is the accepted

theory of authorities on rate regulation that public utility corporations stand in the relation of agents to the public, and are not entitled to appreciation in the value of lands dedicated to public use.

"Applying these principles to the relationship between the public and the public utilities," says Max Thelen, California State Railroad Commissioner, in his paper before a recent convention of railroad commissioners at Washington, D. C., "it seems clear that the public utilities are entitled to a reasonable return upon such money as they honestly and wisely expend for the public, but that they should not be allowed a return on the increased value of the property used in the agency."

Mr. Thelen in his argument cites the following case:

"In the *Western Advance Rate Case*, decided by the Interstate Commerce Commission on February 22, 1911, the Burlington claimed a return on a present value of \$530,000,000. Commissioner Lane found that the original investment was only \$258,000,000, and that approximately \$150,000,000 of the Burlington claim represented an increase in land values.

In this connection witness the statement of W. B. Bourne, President of the Spring Valley Water Company, in his request for an allowance for appreciation (letter May 23, 1913): "If this increase in value is given due

consideration, it would require a water rate in excess of that which we would be willing to accept."

If carried to its logical conclusion, the theory that a public utility should be given a return on its property measured by the market value of contiguous lands, water rates in this community would be three or four times what is now charged, proving an unbearable tax on the community and proving the absurdity of the theory. The company whose representatives hold to the appreciation theory would want an ever-increasing rate as population grows, reversing in effect the operation of the well-known principle of business "the larger the number of consumers, the cheaper the cost of production, the lower the rate."

#### *Operating Expenses Excessive.*

The operating expenses of the company are burdened with numerous items that should be charged up to capital expenditure, omitted, or otherwise disposed of.

Your Committee is advised that item is overloaded to the amount of nearly \$100,000 per year.

The following are some of the items that are not allowed: Lobos Creek expense (not in use), water rates lit-

Gross income under 1913 rates (company's estimate).....		\$3,096,000
Operating expenses and contingency.....	\$800,000	
Taxes, estimated, after elimination of properties.....	451,000	
Depreciation .....	260,000	
Reduction in shipping rate estimate.....	40,000	
Reduction in meter rate estimate .....	25,000	
Reduction in building rate estimate.....	20,000	1,596,000
Net income .....		<u>\$1,500,000</u>

This allows a return of nearly 6 per cent on the valuation of \$25,401,283.70 arrived at by your Committee.

The reductions made are as follows:  
Minimum meter rates from \$1.80 to \$1.50.

Shipping rates, from 50 per cent above meter rates to regular meter rates.

Building rates: Per bbl. of lime or cement, from 14 cents to 11 cents.; per thousand brick, from 9 cents to 7 cents.

These reductions place the rates for the same character of service on an equal footing with the City of Oakland.

#### *Conclusion.*

In conclusion your Committee wishes to say that it is a significant fact that if the present value of the Merced lands which affords the city but 3,000,000 gallons daily was applied to the development of the company's Alameda properties a supply adequate

igation (not allowed by Judge Farrington), condemnation suit expense (same reason), Calaveras expense (not in use).

#### *Taxes.*

The taxes on the properties of the Spring Valley Water Company amounting last year to over \$450,000, are fully one-third of the net receipts derived from the water rate payers of this city. They are paid largely on properties which in the opinion of your Committee are wholly unnecessary for water supply purposes and which serve to inflate the valuation for rate fixing purposes, while at the same time affording a splendid speculation in the event of sale to the city.

Note the Merced, Crystal Springs and Pleasanton lands it is now proposed to eliminate as unnecessary in the acquisition of the plant, but which heretofore entered into the valuation for rate fixing purposes.

Note also in this connection that the City of New York, equipped to supply 7,000,000 population, has a tax charge of only \$118,000 as against San Francisco's \$450,000.

Based on the company's estimate of receipts for 1914-1915, your Committee makes the following recommendations:

for a population of 1,000,000 people could be developed costing seven or eight million dollars and requiring about two years for its completion.

Inasmuch as the city has been paying rates for years on the valuation of unnecessary lands, as well as taxes and other charges, is it not proper and within our power to require such a readjustment of the company's properties as will afford service adequate to our needs?

Your Committee wishes to here testify to the splendid and efficient service rendered in the preparation of this report by Clerk David A. Barry, who made the painstaking detailed investigation required by your Committee.

Respectfully submitted,

ANDREW J. GALLAGHER,  
JAMES E. POWER,  
C. J. DEASY,

Water Rates Committee.

## NEW BUSINESS (Out of Order).

Passed for Printing.

The following matters were passed for printing:

## Telephone Rates Committee.

On motion of Supervisor Power:

Bill No. 3084, Ordinance No. — (New Series), entitled, "Fixing and determining the maximum rates or compensation to be collected for telephonic service in the City and County of San Francisco for the year commencing July 1, 1914, and ending June 30, 1915, and prescribing the quality of said telephonic service during said year."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The maximum rates or compensation to be collected by any person, company or corporation for telephonic service supplied to the City and County of San Francisco, or to the inhabitants thereof, for the year commencing July 1, 1914, and ending June 30, 1915, shall be as follows:

*Business and Professional Rates.*

The following maximum charges shall be made for business or professional measured service:

For a single party line telephone, business or professional, including 80 exchange switches, \$5.00 per month, and for all exchange switches in excess of the number included in this rate a sum not to exceed 5 cents each.

For a single party line telephone, business or professional, including 185 exchange switches, \$7.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 4 cents each.

For a single party line telephone, business or professional, including 250 exchange switches, \$9.15 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3½ cents each.

For a single party line telephone, business or professional, including 390 exchange switches, \$12.47 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3 cents each.

For a single party line telephone, business or professional, including 540 exchange switches, \$15.00 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 2½ cents each.

For a single party line telephone, business or professional, including 780 exchange switches, \$17.48 per month, and for all exchange switches in excess of the number included in this

rate, a sum not to exceed 2 cents each.

For a single party line telephone, business or professional, including 1100 exchange switches, \$19.57 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 1½ cents each.

*Business or Professional Service, with Coin-Collecting Attachment.*

The following maximum charges shall be made for business or professional measured service with coin or token-collecting attachment:

For a single party line telephone, business or professional, including 60 exchange switches, \$5.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a two-party line telephone, business or professional, including 60 exchange switches, \$4.50 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a single party line telephone, business or professional, including 5 exchange switches per day, 25 cents per day, and for each exchange switch in excess of the number included in this rate, a sum not to exceed 4 cents each.

For a two-party line telephone, business or professional, including 4 exchange switches per day, 20 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a four-party line telephone, business or professional, including 2 exchange switches per day, 10 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

*Extension Telephones.*

For each extension telephone on a business or professional line the maximum charge shall be a sum not to exceed 50 cents per month.

*Private Branch Exchange and Extension Service.*

The following charges shall be made for private branch exchanges and for extension telephones connected with said exchanges and equipped and installed:

*Monthly Rental Rates*—For each switchboard and operator telephone, a sum not to exceed \$5 per month.

For each trunk line connecting a private exchange with the telephone company exchange, a sum not to exceed \$2.50 per month.

For each additional telephone connected with a private exchange and

installed in the same premises (except in hotels), a sum not to exceed 50 cents per month.

For each additional telephone installed in hotels and connected with the private exchange therein:

50 cents per month each for the first 50 telephones or less.

25 cents per month each for telephones over 50.

For each desk set in place of wall set, 10 cents per month in addition to the above rates.

*Monthly Switching Rates*—For exchange switching over trunk lines of private branch exchanges, a sum not to exceed  $2\frac{1}{2}$  cents per month for the first 1000 exchange switches, or less, made in any one month; for the second and third thousand exchange switches, or less, made in any one month, a sum not to exceed 2 cents per switch; and for all exchange switches in excess of 3000 made in any one month, a sum not to exceed  $1\frac{1}{2}$  cents per switch, except that in the case of hotels the charge shall not exceed  $2\frac{1}{2}$  cents for each and every exchange switch.

*Public Telephone Service.*

The charge for a single exchange switch from any telephone located in the City and County shall not exceed 5 cents, and all persons, companies or corporations engaged in the business of supplying telephonic service in the City and County are hereby expressly forbidden to authorize or permit any of their lessees, subscribers or patrons to charge any person more than the rate above described; provided, however, that from any telephone in a hotel room connected with a hotel private branch exchange the charge for a single exchange switch shall not exceed 10 cents.

*Residence Rates—Unlimited Exchange Switching.*

The following maximum charges shall be made for residence flat rate service:

For a single-party line residence telephone, including unlimited exchange switching, \$3.50 per month.

For a two-party line residence telephone, including unlimited exchange switching, \$3 per month.

*Residence Measured Service.*

For a single-party line residence telephone, including 125 exchange switches, \$3 per month, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 3 cents each.

*Residence Service with Coin-Collecting Attachment.*

The following maximum charges shall be made for residence measured service with coin or token-collecting attachment:

For a two-party line residence telephone, including two exchange switches per day,  $7\frac{1}{2}$  cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

For a four-party line residence telephone, including one exchange switch per day, 5 cents per day, and for all exchange switches in excess of the number included in this rate, a sum not to exceed 5 cents each.

*Extension Telephones.*

For each extension telephone on a residence telephone line the maximum charge shall be a sum not to exceed 50 cents per month.

*Names in Telephone Directory.*

Any person, company or corporation supplying telephonic service in this City and County shall at least three times a year furnish free of charge to each subscriber a complete directory of all subscribers in San Francisco, and an additional copy of said directory for each extension telephone; provided, however, that for every name listed in said directory under the telephone number of a subscriber in excess of the number of main and extension telephones installed on the premises of the subscriber, a sum not to exceed 25 cents per month for each such name shall be charged.

*Private Lines.*

The following maximum charges shall be made for private telephones and lines not connected with a telephone exchange:

For private line telephones, a sum not to exceed 50 cents per month each.

For private lines, a sum not to exceed \$2.50 per mile per month.

*Quality of Service.*

Section 2. The term "Telephone" as used in this ordinance is hereby defined to mean both a transmitter and a receiver. It shall be optional with the person demanding telephonic service to elect to take or use either portable or stationary telephonic apparatus and it shall be the duty of the person, company or corporation supplying telephonic service in the City and County to furnish such apparatus without additional cost, except as in this ordinance provided.

The term "Exchange Switch," as used in this ordinance, is hereby defined to mean an availing call, that is to say, a call whereby an outgoing conversation or message is transmitted from one telephone station within the City and County and received at another telephone station within the City and County.

No switching charge shall be made for an unavailing call, and when a nickel or token is deposited in the

coin-collecting attachment for an un-availing call the same shall be returned to the person by whom it was deposited. Single conversations, on party lines shall not exceed five minutes.

Upon the application in writing of the owner or occupant of any building or premises distant not more than 300 feet from any underground conduit or pole line of the person, company or corporation furnishing telephonic service, and payment by the applicant of all money due from him, the person, company or corporation must within 30 days supply telephonic service as required for such building or premises, and cannot refuse on the ground of any indebtedness of any former owner or occupant thereof, unless the applicant has undertaken to pay the same.

No restriction shall be placed by any company, person or corporation supplying telephonic service upon the right of subscribers to employ operators, provided that any operator or substitute operator to be employed and paid by the subscriber shall conform to the reasonable rules and regulations pertaining to the service of such person, company or corporation.

No contract shall be exacted, made or enforced that will exclude or in any manner prohibit or restrict any patron or subscriber from receiving telephonic service from any other person or corporation engaged in such business, or from installing and using in any manner that may be desired the telephones or instruments of two or more different telephone systems; nor shall telephonic service be refused for the reason that the person requesting same is a patron of another person or corporation, or using another or different telephone system.

The telephone company shall print on the reverse side of their billheads their schedules, showing the various grades of monthly rental, contract switching and excess switching, so the same can easily be understood by their subscribers, and on the front of such billheads shall appear in large type the words, "See Schedule of Rates on Other Side."

Upon demand of any person, company or corporation using business or professional measured telephonic service (excepting prepayment service) every person, company or corporation supplying telephonic service within the City and County shall install and maintain in connection with each such measured service line, a meter which shall prove effective in actual use for accurately and correctly recording the number of outgoing messages and conversations over said line,

and said meter shall be subject to inspection at all reasonable times by the subscriber upon whose line the same is installed.

Section 3. Any person, company or corporation, or any officer or agent of any person, company or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, company or corporation, or officer or agent of any such person, company or corporation, shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 4. This ordinance shall take effect and be in force from and after July 1, 1914.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Prohibiting Fraudulent Use of Telephones.

Also Bill No. 3085, Ordinance No. — (New Series), entitled, "Making it unlawful for any person, with intent to injure or defraud, to possess any contrivance for preventing the correct registration of any telephone call registering apparatus, and prescribing a penalty therefor."

#### Gas Rates Ordinance.

Supervisor Nolan presented:

Bill No. 3087, Ordinance No. — (New Series), as follows:

Fixing the minimum standard quality and illuminating power of gas and the maximum rate and price to be charged therefor, for the year commencing July 1, 1914, and ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The minimum standard quality and illuminating and heating power of gas to be furnished by any person, firm or corporation, to be used in the City and County of San Francisco, is hereby established at nineteen (19) candles, with a minimum heat value of 600 British thermal units.

The pressure shall not be less than two (2) inches nor more than nine (9) inches of water in height against the atmospheric pressure, said candle and heating power and pressure to be determined by the Board of Public Works

of the City and County of San Francisco.

Section 2. The maximum rate and price to be charged and collected therefrom from consumers by any such person, firm or corporation for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed and established at seventy-five (75) cents per one thousand cubic feet.

Section 3. The maximum rate and price to be charged by any person, firm or corporation for furnishing gas for heating purposes for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at seventy-five (75) cents per one thousand cubic feet.

Section 4. The maximum rate and price to be charged by any person, firm or corporation for furnishing incandescent gas lamps for lighting the public streets, parks or squares for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at eight (8) cents per lamp per night, including care, lighting and extinguishing, each lamp to be kept burning from thirty (30) minutes after sunset until thirty (30) minutes before sunrise on the next day, and the number of such gas lamps may be increased or diminished by the Board of Supervisors, and subject to any moonlight schedule the Board may adopt, provided that the price of incandescent gas lamps of three lights each is hereby fixed at fifteen (15) cents a cluster lamp per night.

Section 5. The maximum rate and price to be charged by any person, firm or corporation for furnishing gas for lighting public buildings for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at seventy-five (75) cents per one thousand cubic feet.

Section 6. A charge of fifty (50) cents for the maintenance of a meter during any month may be made to any consumer whose bill for the gas furnished during such month does not exceed fifty (50) cents, but in the event of such charge being made, no further charge shall be made for current furnished during said month to said consumer.

Section 7. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 8. Any person, firm or corporation, or any officer or agent of any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and im-

prisonment, and such person, firm or corporation shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 9. This ordinance shall take effect and be in force on the first day of July, 1914.

#### Privilege of the Floor.

*John A. Britton*, President of the Pacific Gas and Electric Company, was granted the privilege of the floor. He said that he did not understand that Mr. Ost had recommended a 75-cent rate, the copy of the report he received indicated that Mr. Ost was non-committal. He said that the master in chancery found a valuation of \$12,000,000 and a rate of nearly six per cent which he could not say was confiscatory, but on arithmetical error bringing it down to 5.14 per cent was found and since this valuation was accepted report should be revised. He stated further that money cannot be obtained for less than eight, nine, ten and even eleven per cent. In 1912, he said, \$425,000 was spent in labor alone. He agreed that if the eighty-cent rate was granted and the impounded money split that he would use company's portion for making extensions and employing men who had been laid off. He subsequently made the same statement in regard to a seventy-nine-cent rate.

*J. Driscoll*, representing Gas Workers' Union, urged that Board adopt the eighty-cent rate. He said that four hundred more men were employed last year than this and if the eighty-cent rate is allowed the men will be returned to work.

*N. Breslin*, representing the same organization, said that over 542 men were laid off in the last four months because the company was not making any extensions.

*T. J. White*, *John Helison* and *John Sullivan* spoke to the same effect.

#### Refused Passage.

Thereupon, the question being taken, the foregoing bill providing for a 75-cent rate for gas, was refused passage by the following vote:

Ayes—Supervisors Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—9.

Noes—Supervisors Deasy, Hayden, Hilmer, McLeran, Power, Vogelsang—6.

#### Call of the House.

*Supervisor Gallagher* moved that further consideration of the Gas Rates Ordinance be laid over until 4 p. m., and that there be a call of the house.

At 4 p. m. the following members were noted present:

Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Reconsideration.**

Thereupon, the following proceedings were had:

**Motion.**

Supervisor Gallagher moved that the foregoing bill providing for a 75-cent gas rate be passed for printing:

**Amendment.**

Supervisor Power moved to amend by providing for an 80-cent gas rate.

Motion lost by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, McLeran, Power, Suhr, Vogelsang—8.

Noes—Supervisors Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—9.

**Motion Lost.**

Whereupon, the question being taken on Supervisor Gallagher's motion—a 75-cent rate—the motion was lost by the following vote:

Ayes—Supervisors Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—9.

Noes—Supervisors Bancroft, Deasy, Hayden, Hilmer, McLeran, Power, Suhr, Vogelsang—8.

**Motion.**

Supervisor Vogelsang moved to amend by providing for a 78-cent gas rate.

Motion lost by the following vote:

Ayes—Supervisors Hilmer, McLeran, Power, Suhr, Vogelsang—5.

Noes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—12.

**Reconsideration.**

By unanimous consent the question of determining gas rates for the ensuing fiscal year was reconsidered and the following proceedings were had:

**Motion.**

Supervisor Power moved to amend bill by providing for a 79-cent gas rate.

Motion lost by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, McLeran, Power, Suhr, Vogelsang—8.

Noes—Supervisors Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—9.

**Motion.**

Supervisor Gallagher moved that the 75-cent rate be passed for printing:

Ayes—Supervisors Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Payot, Walsh—9.

Noes—Supervisors Bancroft, Deasy, Hayden, Hilmer, McLeran, Power, Suhr, Vogelsang—8.

Supervisor Vogelsang thereupon de-

clared that although the 75-cent rate did not appeal to his sense of fairness, the fact that the Board was deadlocked in the matter and the passage of the bill should not be delayed any longer, he felt impelled to agree to the 75-cent rate, and therefore moved the passage to print of the bill as presented.

Motion carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Electricity Rates.**

On motion of Supervisor Nolan:

Bill No. 3086, Ordinance No. — (New Series), as follows:

Fixing the maximum rate and price to be charged for furnishing electricity for heat, light or power purposes to the City and County of San Francisco and the inhabitants thereof, and prescribing the quality of the service, for year commencing July 1, 1914, and ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The maximum rate and price to be charged by any person, firm or corporation for furnishing electricity for heat, light and power purposes to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed on the unit basis of 1000 watt hours or one (1) kilowatt hour as follows:

For the first fifty (50) kilowatt hours consumed during a month 7c cents per kilowatt hour:

For the next fifty (50) kilowatt hours consumed during a month 6c per kilowatt hour.

For the next one hundred (100) kilowatt hours consumed during a month 5½c per kilowatt hour.

For the next one hundred (100) kilowatt hours consumed during a month 5c per kilowatt hour.

For the next two hundred (200) kilowatt hours consumed during a month 4c per kilowatt hour.

For all electricity consumed during a month in excess of five hundred (500) kilowatt hours 3½c per kilowatt hour.

Section 2. The charge of 75c for the first eleven (11) kilowatt hours or less shall be made to all consumers whose bill for electric lighting current furnished during a month does not exceed 75c, but, in the event of such charge being made, no further charge shall be made for electric current furnished during said month to said consumer. This shall apply to all consumers to whom current for

lighting is regularly furnished.

In the event that a stand-by service only is required for lighting, a charge of \$1 per month may be made for each kilowatt or fraction of a kilowatt of connected load. In arriving at the kilowatt rating, each outlet shall be considered as consuming 50 watts.

For furnishing electric current for power purposes under the above schedule a charge of 75c per month per horsepower installed may be made as a service charge where the consumer's bill for electric current consumed during a month does not exceed 75c for each horsepower connected.

In the event that such service charge is made, no further charge shall be made for current furnished to the consumer during the said month.

Section 3. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 4. Any person, firm or corporation, or any officer or agent of any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, firm, or corporation shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 5. This ordinance shall take effect and be in force on the first day of July, 1914.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nolan, Payot, Power, Suhr, Vogelsang—14.

Noes—Supervisors Gallagher, Nelson, Walsh—3.

Absent—Supervisor Murdock—1.

Indefinitely Postponed.

Thereupon, the following bill, submitted in connection with the above, was indefinitely postponed:

Bill No. —, Ordinance No. — (New Series), entitled, "Fixing the maximum rate and price to be charged for furnishing electricity for heat, light and power purposes to the City and County of San Francisco and the inhabitants thereof, and prescribing the quality of the service, for the year commencing July 1, 1914, and ending June 30, 1915," the provisions of which fix a basic rate of 6c per kilowatt hour.

Passed for Printing.

The following bill was passed for printing:

**Water Rates.**

Bill No. 3088, Ordinance No. — (New Series), Regulating the monthly rate of compensation to be collected by any person, company or corporation engaged in the business of supplying water to the inhabitants of the City and County of San Francisco for family uses, for private purposes, for municipal uses and for all public purposes of said City and County for the year commencing July 1, 1914, and ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

That the monthly rates of compensation for supplying water shall be as follows:

*General Rates.*

Stores, banks, bakeries, offices, warehouses, saloons, groceries, eating houses, barber shops, butchers shops, book binderies, blacksmith shops, confectioneries, hotels, lodging houses, boarding houses, churches, halls, laundries, photograph galleries, printing offices, steam engines, greenhouses, markets, market stalls, horse troughs, soda fountains and other places of business, each to be charged according to the estimated quantity used,

from eighty-one cents (\$0.81) to five and 40/100 dollars (\$5.40), or by meter at meter rates.

*Fire Pipes.*

Section 9. Meters shall be applied to all pipes used specially for fire protection, and monthly bills shall be charged for the same at regular meter rates, provided, however, that the monthly bill shall not be less than fifty (50) cents for each one-half ( $\frac{1}{2}$ ) inch of diameter of pipe used.

*Meter Rates.*

Section 10. Water furnished for any and all purposes not embraced in the above shall be supplied by meter at the following rates:

The first 2,000 cubic feet used (between 0 and 2,000 cubic feet) shall be charged for at the rate of twenty-five (25) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 2,000 and 4,000 cubic feet) shall be charged for at the rate of twenty-four (24) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 4,000 and 6,000 cubic feet) shall be charged for at the rate of twenty-two (22) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 6,000 and 8,000 cubic feet) shall be charged for at the rate of twenty-one (21) cents per 100 cubic feet.

The next 2,000 cubic feet used (between 8,000 and 10,000 cubic feet) shall be charged for at the rate of twenty (20) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 10,000 and 15,000 cubic feet) shall be charged for at the rate of nineteen (19) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 15,000 and 20,000 cubic feet) shall be charged for at the rate of eighteen (18) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 20,000 and 25,000 cubic feet) shall be charged for at the rate of seventeen (17) cents per 100 cubic feet.

The next 5,000 cubic feet used (between 25,000 and 30,000 cubic feet) shall be charged for at the rate of sixteen (16) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 30,000 and 40,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 40,000 and 50,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 50,000 and 60,000 cubic feet) shall be charged for at the rate of fourteen (14) cents per 100 cubic feet.

The next 10,000 cubic feet used (be-

tween 60,000 and 70,000 cubic feet) shall be charged for at the rate of thirteen (13) cents per 100 cubic feet.

All the water used in excess of 70,000 cubic feet per month to be charged for at the rate of twelve (12) cents per 100 cubic feet.

No monthly meter bill to be less than one and 50/100 dollars (\$1.50), except as hereinafter provided.

Upon application of any ratepayer the Board of Supervisors shall reserve the right, upon a proper showing of cause, to require the company to put in a meter and charge meter rates for any consumer of water, on such conditions as the Board may impose as to the rental when meter is not actually used.

#### *Meter Rates for Shipping.*

Water shall be furnished and delivered by meter measurement to shipping lying alongside of the bulkhead or any of the wharves on the water front where water pipes or mains are laid, between the hours of 6 o'clock a. m. and 6 o'clock p. m., daily, upon application being made therefor, at the following rates: When supplied by reel and hose cart, \$1.50 per 1,000 gallons. When supplied by connection with water pipes, at regular meter rates established by Section 10. The minimum charge for each separate delivery to be fifty (50) cents.

No water boat furnishing and supplying water to shipping lying at anchor within the limits of the wharves of the City and County of San Francisco shall charge a rate to exceed three dollars (\$3.00) per 1,000 gallons.

#### *Hydrant Rates.*

Section 11. The rates of compensation to be collected for water supplied by and through hydrants to the City and County of San Francisco shall be two dollars and fifty cents (\$2.50) per month for each hydrant for fire purposes and flushing of sewers.

#### *Prevention of Waste.*

Section 12. Prevention of waste or excessive use:

In no case where the fixed rates above provided other than meter rates, are applicable, shall any charge for water be made by meter rates, it being the purpose of this ordinance to provide for all dwelling houses a fixed monthly rate which shall not be increased by the person, company or corporation supplying water.

Provided, however, that for the purpose of discovering and repressing waste or excessive use, all persons, companies or corporations shall have the right in all cases to apply and maintain meters to measure the water used or consumed, and to charge and collect for waste or excessive use un-

der the condition and to the extent hereafter provided in this section, and not otherwise.

No consumer shall be deemed guilty of waste or excessive use unless the water used or consumed upon his premises in any month shall exceed by fifty (50) per cent the number of cubic feet which at regular meter rates amount to his rated bill, in which case such excess shall be deemed waste or excessive use.

Immediately after the discovery of any waste or excessive use, the consumer shall be notified thereof by the person, company or corporation supplying water by notice mailed to his address or to the agent or person to whom his water bills are presented for collection.

After such notice the consumer may be charged and there may be collected from him for any waste or excessive use thereafter occurring upon his premises at regular meter rates, but such charge or collection shall not exceed for the first month the sum of two dollars (\$2.00), for the second month the sum of four dollars (\$4.00), or for any following month the sum of five dollars (\$5.00).

#### *Board of Public Works to Examine Complaints, Etc.*

It shall be the duty of the Board of Public Works, by its Gas, Water and Electrical Inspector of this City and County, to inquire into all cases of complaints by water consumers as to charges made against them for waste or excessive use under the foregoing provisions of this section, and to adjust such charge as follows:

Any water consumer against whom a water bill is presented containing a charge for waste or excessive use of water may within five days after such bill is presented to him (provided that he first pay the fixed rate charged on such bill, exclusive of the charge made for such alleged waste or excessive use) make complaint to said inspector that such charge is incorrect, whereupon the said inspector shall promptly inspect the premises of the consumer so complaining and cause a test to be made of the water meter upon said premises, and from such inspection and test and subsequent inspection and test as said inspector may see fit and proper to make shall determine as near as can be the amount of water used, consumed or wasted upon said premises during the period covered by said bill. As soon as such determination is made and within twenty (20) days after the said complaint is made said inspector shall make a certificate stating the amount of water so determined to have been used, consumed or wasted, and showing the true and

correct amount, if anything, which may be charged against and collected from said consumer under the foregoing provisions of this section for waste or excessive use, and shall immediately transmit such certificate to the person, company or corporation supplying water, and also a copy thereof by mail to the water consumer.

The said certificate shall be conclusive between the water consumer and said person, company or corporation as to the amount, if anything, which said person, company or corporation shall be entitled to collect from the consumer for waste or excessive use of water during the period covered by the bill of which complaint is made, provided, however, that if either the consumer or the water company is dissatisfied with the certificate of the water inspector appeal may be taken within five (5) days to the Committee on Water Rates of the Board of Supervisors, which shall, within five (5) days after such appeal, hear and finally determine the matter in dispute.

The said inspector shall keep in his office a proper record or records, showing the date of each complaint made to him, the name of the consumer complaining, the location of his premises, and stating briefly the inspection made by him of the premises and the tests applied to the meter, the time or times of such inspection and tests and the results thereof, with the reading of the meter at each test or inspection and all other material facts connected therewith. Such records so kept to be open for public examination in his office.

#### *Rates—When Payable.*

Section 13. All water rates, except meter rates and City and County rates, are due and payable monthly in advance.

Meter and City and County rates are due and payable at the end of each month, and upon meter rates a deposit not exceeding three-fourths ( $\frac{3}{4}$ ) of the value of the estimated quantity of water to be consumed may be required.

#### *Notice of Discontinuance.*

Section 14. Any consumer may at any time, upon payment of accrued rates, notify the company in writing to cut off or discontinue the water supply upon his premises, after which no charge shall be made for water for said premises until the use of water is resumed.

#### *Maximum Rates Fixed.*

Section 15. This Ordinance fixes the maximum beyond which no person, company or corporation shall be

permitted to charge for water supplied.

Section 16. This Ordinance shall take effect and be in force on and from July 1, 1914, to June 30, 1915.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Suspension of Dollar Limit.

Also, Bill No. 3092, Ordinance No.— (New Series), Determining and declaring that a great necessity and emergency exists within the City and County of San Francisco, and setting forth the character of such necessity and emergency, which requires that the limitation of taxation contained in Section 11, of Chapter I, of Article III, of the Charter of the City and County of San Francisco, be temporarily suspended; temporarily suspending such limitation so as to enable the Supervisors to provide for such necessity and emergency, and increasing the rate of taxation for fiscal year ending June 30, 1915, and above that authorized to be levied by said Section 11, of Chapter I, of Article III, of said Charter; and authorizing and levying a tax of sixty-six and four tenths cents upon each one hundred dollars of the assessed value of property within said City and County in excess of the sum and rate provided for in said Section II, of Chapter I, of Article III, of said Charter for the purpose of providing funds for the conduct of the City and County govern-

ment, such tax to be for the benefit of the General Fund.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited, determined and declared that a great necessity and emergency exists within the City and County of San Francisco, which requires that the limitation of taxation contained in Section 11 of Chapter I of Article III of the Charter of said City and County be temporarily suspended, and that the character of such necessity and emergency is as follows, to-wit:

That on the 18th day of April, 1906, and days following, a fire destroyed a vast amount of the taxable property within the City of the approximate value of \$150,000,000.00.

That the assessment roll for the year 1905-6 aggregated \$525,000,000.00; that the value of taxable property as shown by the last assessment roll was but slightly in excess of that sum and the estimated value of taxable property for the ensuing fiscal year will not exceed \$540,000,000.00; that said fire checked the normal increase of said assessment roll, and its restoration to the former amount has been extremely slow and difficult and at a less ratio than has been the increase of necessary governmental expenses; that in addition to the loss of taxable property aforesaid the adoption of Senate Constitutional Amendment No. 1 by the voters on November 8, 1910, still further reduced the amount of taxable property of said City and County by approximately \$97,000,000.00, and at the same time deprived the City of certain license tax revenues amounting to a large sum; furthermore, by amendments made to the Charter in 1907, the salaries in the Police and Fire Departments were increased by the amount of more than \$1,000,000.00; also that by Charter amendments adopted November 15, 1910, additional expenses were added to the expenses of the City in the aggregate of approximately \$100,000.00; that at the several sessions of the Legislature since 1905, including the session of 1913, large additional expenses and financial burdens were laid upon the County of San Francisco, including expenditures on account of the so-called "mothers' pension act," the so-called "employer's compensation act" and "tenement house act," which expenses and burdens could not be anticipated and provided for under the provisions of the Charter of said City and County when adopted in 1898; that furthermore, the Legislature, by various enactments, has materially reduced the sums heretofore received

from the State in support of the Public School system, which reductions could not be foreseen and provided for at the time of the adoption of said Charter; that industrial, financial and economic conditions existing throughout the country have resulted in a rapid advance in the prices of commodities and of labor and that such advance has been proportionately greater than the value of property subject to taxation; that the necessity of meeting such advanced costs is urgent and imperative and is beyond the power of the City and County and its officers to control; that the City and County of San Francisco faces a certain and unexpected shortage of funds, and that it will be impossible to conduct the government of the City and County and meet its essential expenses unless the limitation prescribed in Chapter 1 of Article III of the Charter be temporarily suspended.

That the demands due to the rapid growth of the City, particularly in new districts of the City and County, developed as a result of shifting of population caused by the fire aforesaid, for additional public institutions, services and necessities have been great, which demands and necessities could not be reasonably foreseen; that the revenue of the City and County from licenses has decreased by approximately the sum of \$250,000.00 since 1908-9.

That the estimated and necessary expenditures of the City and County of San Francisco for the fiscal year ending June 30, 1915, will be \$14,900,000, of which sum approximately \$3,600,000 must be raised in excess of the limitation contained in the Charter.

That a great necessity or emergency exists for the suspension of the limitation in Section 11 of Chapter I of Article III upon the rate of taxation, because of the inadequacy of a tax of \$1.00 on each \$100.00 upon the assessed valuation of property in the City and County of San Francisco arising from the conditions, acts, happenings and things above recited, and such limitation is hereby suspended for the purpose of providing for such emergency and necessity.

Section 2. There is hereby levied a tax of sixty-six and four tenths cents upon each one hundred dollars as assessed valuation of property within said City and County of San Francisco as the same appears, or will appear, upon the assessment roll of said City and County for the fiscal year ending June 30, 1915, and the proceeds of such tax shall be part of the General Fund of said City and County.

Such tax is and shall be an increase of and an addition to the rate of one dollar taxation on each one hundred dollars of assessed valuation of property within the City and County of San Francisco, and an addition to and increase of all taxes of every amount and kind authorized to be levied under and by virtue of the provisions of Section 11 of Chapter I of Article III of the Charter of the City and County of San Francisco.

Section 3. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLerran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

*(Owing to leave of absence on trip to Hawaii, Supervisor Murdock was not present to vote on foregoing.)*

**Tax Levy—1914-1915.**

Also, Bill No. 3093, Ordinance No.—(New Series), as follows:

Providing revenue and levying taxes for municipal purposes for the fiscal year ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Under and pursuant to the provisions of the Charter of the City and County of San Francisco, and in conformity thereto, a tax is hereby levied for City and County purposes for the fiscal year ending June 30, 1915, on all property real and personal in the City and County of San Francisco, except such property as is by law exempt from taxation, the sum of two and twenty-five one-hundredths dollars on each one hundred dollars valuation of said taxable property, as the same appears, or will appear, upon the assessment roll for said fiscal year, which said sum of two and twenty-five one-hundredths dollars tax on each one hundred dollars valuation as aforesaid is hereby apportioned to the funds and accounts known and designated as follows:

Consenting to Abandonment of Tracks of United Railroads on Stockton Street.

On motion of Supervisor Vogelsang: Bill No. 3095, Ordinance No. — (New Series).

Whereas, United Railroads of San

San Francisco is the owner and successor in interest of the street railroad franchises heretofore granted to Omnibus Railroad Company of San Francisco by Order No. 1532, to Adolph Sutro and his associates by Order No. 2781; to W. H. Martin and his associates by Order No. 2385; to W. H. Martin and his associates by Order No. 1926; and to W. H. Martin and his associates by Order No. 1871; and

Whereas, In the building and establishment by the City and County of San Francisco of what is known as the "Municipal Railway System" public convenience, interest and necessity require that said United Railroads of San Francisco agree and consent to the surrender of a portion of its franchises and rights granted under Orders Nos. 1532, 2871, 2385, 1926 and 1871, as aforesaid; and

Whereas, Said United Railroads of San Francisco, by agreement with the City and County of San Francisco dated June 16, 1914, has agreed under the terms and conditions contained in said agreement to cease operating its street railroad over and along Stockton street from Broadway to Union street, thence over and along Union street to Columbus avenue (formerly Montgomery avenue), thence over and along Columbus avenue (formerly Montgomery avenue) to Powell street; also over and along Presidio avenue (formerly Central avenue) between Geary street and a point 40 feet north of the north line of Post street; and also over and along Stockton street between Sacramento and Clay streets; and on Stockton between Clay and Washington streets; and also over and along Washington street between Powell and Stockton streets;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the abandonment by the United Railroads of San Francisco of those portions of the routes heretofore granted under Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, and of which it is the owner and successor in interest, and which said routes are hereinafter referred to, be, and the same is hereby, consented to; and the said United Railroads of San Francisco is hereby granted the right and permission to cease operating its said street railroad over and along Stockton street from Broadway to Union street, thence over and along Union street to Columbus avenue (formerly Montgomery avenue), thence over and along Columbus avenue (formerly Montgomery avenue) to Powell street; and also over and along

Presidio avenue (formerly Central avenue) between Geary street and a point 40 feet north of the north line of Post street; and also over and along Stockton street between Sacramento and Clay streets, and over and along Stockton street between Clay and Washington streets; and also over and along Washington street between Powell and Stockton streets; all in said City and County of San Francisco.

Section 2. In consideration of the cessation of the maintenance of said tracks and the operation of said street railway by United Railroads of San Francisco over, along and upon the streets referred to in Section one (1) of this Ordinance, and the surrender of a portion of its said franchises under said Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, the City and County of San Francisco does hereby grant to United Railroads of San Francisco, its successors or assigns, the right to connect its single track railroad on Clay street with its double track railroad on Powell street at the intersection of Clay and Powell streets; and does likewise grant to said United Railroads of San Francisco the right to construct a blind channel, with the necessary pits, on Mason street from Sacramento street to its power house at the northwest corner of Mason and Washington streets, and for this purpose permission is hereby granted to open up the said streets at said points for the installation of such crossings and connections and the construction of said blind channel, with necessary pits, as may be necessary to carry out the purpose and intent of this ordinance and to keep the same in repair.

Section 3. The cessation of operation of the cars of United Railroads of San Francisco over the streets and portions of the streets referred to in Section one (1) of this Ordinance, and the surrender by said United Railroads of San Francisco of a portion of its said franchises under Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, and the change in routing of said cars of United Railroads of San Francisco over and along the streets herein referred to, and the tearing up the tracks on the streets herein referred to, shall in no wise prejudice any of the rights of said United Railroads of San Francisco under said Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, but said cessation of operation and change of route of said cars of said United Railroads of San Francisco, and the removal of said tracks shall be without prejudice to any of the rights of said company, its suc-

cessors and assigns, under said Ordinances numbered 1532, 2781, 2385, 1926 and 1871, respectively.

Section 4. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Absent—Supervisor Murdock—1.

### Abatement of Nuisance in Islais Creek.

*Communication* — From Acting Health Officer William C. Hassler, transmitting correspondence relating to the abatement of sewage nuisance in Islais Creek, and urging the completion of the unfinished portion of the bond sewer from Lake Geneva to Otsego and Cuyuga streets, in order to close up the existing gap at this point and also to provide for a continuance of said bond sewer from the viaduct to a proper outlet.

### Relative to Labor Organizations Protesting Rate Regulation.

The following communication was presented, read by the Clerk and ordered spread at length in the Journal:

San Francisco, June 29, 1914.  
Hon. Board of Supervisors, J. S. Dunigan, Clerk, City Hall, City.

Gentlemen: At the last regular meeting of the San Francisco Labor Council, held Friday evening, June 26, there was called to the attention of this council the fact that representatives of an affiliated union, namely, Gas and Water Workers Union No. 9840, had appeared before you on the matter of rates to be allowed for

gas for the year 1914-15, with the result that the following motion was adopted by an almost unanimous vote:

"That it be the sense of this council that in the future, before any organization affiliated with this council or any of its members appear before any Board or Commission for the purpose of increasing the rates of any commodity that their case shall be submitted to this council and if time does not permit that it shall be submitted to the officers of the council."

In accordance with the above, this council trusts that if organizations appear before you representing themselves in the future, on the matter of rates allowed corporations or other fundamental legislation of this character, that you will give them only such attention as their loneliness in the premises indicates. In other words, if they have not been willing to place whatever grievance they have before the rest of the organized workmen as represented in this council, you would be justified in refusing to give their statements or grievances the credence that they should hope to have you give them. Incidentally, I desire to say that this council trusts that there will never be a repetition of the occurrence of Monday, June 22, in this regard. We beg to be,

Respectfully yours,  
SAN FRANCISCO LABOR COUNCIL,  
JNO. A. O'CONNELL,  
Secretary.

Leave of Absence, Frank J. Klimm, Member Board of Health.

The following communication was presented and read by the Clerk:  
June 25, 1914.

Honorable Board of Supervisors, City Hall, San Francisco.

Gentlemen: Application having been made to me by Hon. Frank J. Klimm of the Board of Public Health, for leave of absence, with permission to leave the State of California for a period of thirty days, beginning July 9, 1914, I respectfully request that you concur with me in granting such leave of absence, and that you pass the necessary resolution, expressing such concurrence.

Yours respectfully,  
JAMES ROLPH, JR.,  
Mayor.

Adopted.

Thereupon, the following resolution was introduced under suspension of the rules and adopted:

Leave of Absence, Frank J. Klimm, Member of Board of Health.

J. R. No. 1319.

Resolved, That Frank J. Klimm, member of the Board of Public

Health, be and he is hereby granted a leave of absence with permission to leave the state for a period of thirty days beginning July 9, 1914, in accordance with the recommendation of his Honor, the Mayor, dated June 25, 1914.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

#### REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Health Committee—By Supervisor Walsh, Chairman.

Fire Committee—By Supervisor McLeran, Chairman.

Streets Committee—By Supervisor McCarthy, Chairman.

Supplies Committee—By Supervisor Hilmer, Chairman.

Police Committee—By Supervisor Hocks, Chairman.

Public Welfare Committee—By Supervisor Payot, Chairman.

Publicity Committee—By Supervisor Hayden, Chairman.

Report of Finance Committee on Motor Vehicles for Battalion Chiefs of the Fire Department.

The following report was presented, read and ordered spread at length in the Journal:

San Francisco, June, 29, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen: Your Finance Committee deems it proper to advise you at this time that a controversy is likely to arise between the Honorable Board of Fire Commissioners and the Committee regarding the payment for certain automobiles reported to have been contracted for by the Fire Commissioners.

Some time ago the President of the Fire Commission and the Chairman of the Finance Committee discussed equipping the Battalion Chiefs with runabouts. It was agreed that the best equipment, economy, service and usability considered, would be Ford runabouts. After this understanding was reached the Fire Commission proceeded to advertise for bids for nine runabouts for Battalion Chiefs. It has recently been reported that contracts were awarded for three Ford cars and three each of two other makes, the cost of the latter two being double the cost of the Ford cars.

Upon being informed of this the Finance Committee directed the Clerk to inform the Fire Commission by

letter that the Committee will not approve the demands for the payment of these cars which cost more than \$650—the latter being the price of the Ford cars.

To this communication the Fire Commission has replied that it has made the awards and will consider any refusal to approve the demands as an abuse of discretion on the part of the Board of Supervisors.

The Committee reports this matter so that the Board may be fully advised in advance of any discussion which may arise when bills are presented.

The Committee feels that it is entirely justified in seeking to save all the money possible and at the same time give the Fire Department proper equipment. There is no desire to encourage the purchase of any particular make of automobile, but from all reports received from Eastern fire departments, commercial houses and other sources, the Committee is convinced that the Ford machine is the proper equipment for Battalion Chiefs. The original cost and maintenance is certainly much less than other cars and the service is equally sure.

Respectfully submitted,  
THOS. JENNINGS,  
WM. H. McCARTHY,  
HENRY PAYOT,  
Finance Committee.

#### Prohibition of Obscene Language Over Telephones.

The report of the Telephone Rates Committee submitting ordinance prohibiting use of profane or obscene language by persons engaged in telephonic conversations, laid over from last meeting, was taken up and on motion of Supervisor Vogelsang ordered referred to the District Attorney for an opinion as to the sufficiency of the proposed ordinance.

##### Final Passage.

The following matters heretofore passed for printing were taken up and finally passed by the following vote:

##### Suspension of Dollar Limit.

Bill No. 3092, Ordinance No. 2803 (New Series), Determining and declaring that a great necessity and emergency exists within the City and County of San Francisco, and setting forth the character of such necessity and emergency, which requires that the limitation of taxation contained in Section 11, of Chapter I, of Article III, of the Charter of the City and County of San Francisco, be temporarily suspended; temporarily suspending such limitation so as to enable the Supervisors to provide for such necessity and emergency, and increasing the rate of taxation for fiscal year ending June 30, 1915, and above that authorized to be levied by said Section 11, of Chapter I, of Article III, of said Charter; and authorizing and levying a tax of sixty-six and four tenths cents upon each one hundred dollars of the assessed value of property within

said City and County in excess of the sum and rate provided for in said Section II, of Chapter I, of Article III, of said Charter for the purpose of providing funds for the conduct of the City and County government, such tax to be for the benefit of the General Fund.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It is hereby recited, determined and declared that a great necessity and emergency exists within the City and County of San Francisco, which requires that the limitation of taxation contained in Section 11 of Chapter I of Article III of the Charter of said City and County be temporarily suspended, and that the character of such necessity and emergency is as follows, to-wit:

That on the 18th day of April, 1906, and days following, a fire destroyed a vast amount of the taxable property within the City of the approximate value of \$150,000,000.00.

That the assessment roll for the year 1905-6 aggregated \$525,000,000.00; that the value of taxable property as shown by the last assessment roll was but slightly in excess of that sum and the estimated value of taxable property for the ensuing fiscal year will not exceed \$540,000,000; that said fire checked the normal increase of said assessment roll, and its restoration to the former amount has been extremely slow and difficult and at a less ratio than has been the increase of necessary governmental expenses; that in addition to the loss of taxable property aforesaid the adoption of Senate Constitutional Amendment No. 1 by the voters on November 8, 1910, still further reduced the amount of taxable property of said City and County by approximately \$97,000,000.00, and at the same time deprived the City of certain license tax revenues amounting to a large sum; furthermore, by amendments made to the Charter in 1907, the salaries in the Police and Fire Departments were increased by the amount of more than \$1,000,000.00; also that by Charter amendments adopted November 15, 1910, additional expenses were added to the expenses of the City in the aggregate of approximately \$100,000.00; that at the several sessions of the Legislature since 1905, including the session of 1913, large additional expenses and financial burdens were laid upon the County of San Francisco, including expenditures on account of the so-called "mothers' pension act," the so-called "employer's compensation act" and "tenement house act." which expenses and burdens could not be anticipated and provided for under the

provisions of the Charter of said City and County when adopted in 1898; that furthermore, the Legislature, by various enactments, has materially reduced the sums heretofore received from the State in support of the Public School system, which reductions could not be foreseen and provided for at the time of the adoption of said Charter; that industrial, financial and economic conditions existing throughout the country have resulted in a rapid advance in the prices of commodities and of labor and that such advance has been proportionately greater than the value of property subject to taxation; that the necessity of meeting such advanced costs is urgent and imperative and is beyond the power of the City and County and its officers to control; that the City and County of San Francisco faces a certain and unexpected shortage of funds, and that it will be impossible to conduct the government of the City and County and meet its essential expenses unless the limitation prescribed in Chapter 1 of Article III of the Charter be temporarily suspended.

That the demands due to the rapid growth of the City, particularly in new districts of the City and County, developed as a result of shifting of population caused by the fire aforesaid, for additional public institutions, services and necessities have been great, which demands and necessities could not be reasonably foreseen; that the revenue of the City and County from licenses has decreased by approximately the sum of \$250,000.00 since 1908-9.

That the estimated and necessary expenditures of the City and County of San Francisco for the fiscal year ending June 30, 1915, will be \$14,900,000, of which sum approximately \$3,600,000 must be raised in excess of the limitation contained in the Charter.

That a great necessity or emergency exists for the suspension of the limitation in Section 11 of Chapter I of Article III upon the rate of taxation, because of the inadequacy of a tax of \$1.00 on each \$100.00 upon the assessed valuation of property in the City and County of San Francisco arising from the conditions, acts, happenings and things above recited, and such limitation is hereby suspended for the purpose of providing for such emergency and necessity.

Section 2. There is hereby levied a tax of sixty-six and four tenths cents upon each one hundred dollars as assessed valuation of property within said City and County of San Francisco as the same appears, or will appear, upon the assessment roll of said City and County for the fiscal

year ending June 30, 1915, and the proceeds of such tax shall be part of the General Fund of said City and County.

Such tax is and shall be an increase of and an addition to the rate of one dollar taxation on each one hundred dollars of assessed valuation of property within the City and County of San Francisco, and an addition to and increase of all taxes of every amount and kind authorized to be levied under and by virtue of the provisions of Section 11 of Chapter I of Article III of the Charter of the City and County of San Francisco.

Section 3. This ordinance shall take effect immediately.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Absent — Supervisors Bancroft, Hocks, Murdock—3.

*(Owing to leave of absence on trip to Hawaii. Supervisor Murdock was not present to vote on the foregoing bill. Being out of the city Supervisors Bancroft and Hocks were also unable to attend and vote on the foregoing matter.)*

#### Tax Levy—1914-1915.

Bill No. 3093, Ordinance No. 2809 (New Series), as follows:

Providing revenue and levying taxes for municipal purposes for the fiscal year ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Under and pursuant to the provisions of the Charter of the City and County of San Francisco, and in conformity thereto, a tax is hereby levied for City and County purposes for the fiscal year ending June 30, 1915, on all property real and personal in the City and County of San Francisco, except such property as is by law exempt from taxation, the sum of two and twenty-five one-hundredths dollars on each one hundred dollars valuation of said taxable property, as the same appears, or will appear, upon the assessment roll for said fiscal year, which said sum of two and twenty-five one-hundredths dollars tax on each one hundred dollars valuation as aforesaid is hereby apportioned to the funds and accounts known and designated as follows:

#### Electricity Rates.

Bill No. 3086, Ordinance No. 2813 (New Series), as follows:

Fixing the maximum rate and price to be charged for furnishing electricity for heat, light or power purposes to the City and County of San Francisco and the inhabitants thereof, and prescribing the quality of the service, for year commencing July 1, 1914, and ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The maximum rate and price to be charged by any person, firm or corporation for furnishing electricity for heat, light and power purposes to the City and County of San Francisco and the inhabitants thereof for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed on the unit basis of 1000 watt hours or one (1) kilowatt hour as follows:

For the first fifty (50) kilowatt hours consumed during a month 7c cents per kilowatt hour.

For the next fifty (50) kilowatt hours consumed during a month 6c per kilowatt hour.

For the next one hundred (100) kilowatt hours consumed during a month 5½c per kilowatt hour.

For the next one hundred (100) kilowatt hours consumed during a month 5c per kilowatt hour.

For the next two hundred (200) kilowatt hours consumed during a month 4c per kilowatt hour.

For all electricity consumed during a month in excess of five hundred (500) kilowatt hours 3½c per kilowatt hour.

Section 2. The charge of 75c for the first eleven (11) kilowatt hours or less shall be made to all consumers whose bill for electric lighting current furnished during a month does not exceed 75c, but, in the event of such charge being made, no further charge shall be made for electric

current furnished during said month to said consumer. This shall apply to all consumers to whom current for lighting is regularly furnished.

In the event that a stand-by service only is required for lighting, a charge of \$1 per month may be made for each kilowatt or fraction of a kilowatt of connected load. In arriving at the kilowatt rating, each outlet shall be considered as consuming 50 watts.

For furnishing electric current for power purposes under the above schedule a charge of 75c per month per horsepower installed may be made as a service charge where the consumer's bill for electric current consumed during a month does not exceed 75c for each horsepower connected.

In the event that such service charge is made, no further charge shall be made for current furnished to the consumer during the said month.

Section 3. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 4. Any person, firm or corporation, or any officer or agent of any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, firm or corporation shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 5. This ordinance shall take effect and be in force on the first day of July, 1914.

#### Gas Rates Ordinance.

Bill No. 3087, Ordinance No. 2814 (New Series), as follows:

Fixing the minimum standard quality and illuminating power of gas and the maximum rate and price to be charged therefor, for the year commencing July 1, 1914, and ending June 30, 1915.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The minimum standard quality and illuminating and heating power of gas to be furnished by any person, firm or corporation, to be used in the City and County of San Francisco, is hereby established at nineteen (19) candles, with a minimum heat value of 600 British thermal units.

The pressure shall not be less than two (2) inches nor more than nine (9) inches of water in height against the atmospheric pressure, said candle and heating power and pressure to be determined by the Board of Public Works of the City and County of San Francisco.

Section 2. The maximum rate and price to be charged and collected therefrom from consumers by any such person, firm or corporation for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed and established at seventy-five (75) cents per one thousand cubic feet.

Section 3. The maximum rate and price to be charged by any person, firm or corporation for furnishing gas for heating purposes for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at seventy-five (75) cents per one thousand cubic feet.

Section 4. The maximum rate and price to be charged by any person, firm or corporation for furnishing incandescent gas lamps for lighting the public streets, parks or squares for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at eight (8) cents per lamp per night, including care, lighting and extinguishing, each lamp to be kept burning from thirty (30) minutes after sunset until thirty (30) minutes before sunrise on the next day, and the number of such gas lamps may be increased or diminished by the Board of Supervisors, and subject to any moonlight schedule the Board may adopt, provided that the price of incandescent gas lamps of three lights each is hereby fixed at fifteen (15) cents a cluster lamp per night.

Section 5. The maximum rate and price to be charged by any person, firm or corporation for furnishing gas for lighting public buildings for the year commencing July 1, 1914, and ending June 30, 1915, is hereby fixed at seventy-five (75) cents per one thousand cubic feet.

Section 6. A charge of fifty (50) cents for the maintenance of a meter during any month may be made to any consumer whose bill for the gas furnished during such month does not exceed fifty (50) cents, but in the event of such charge being made, no further charge shall be made for current furnished during said month to said consumer.

Section 7. All ordinances or parts of ordinances in conflict with the provisions of this ordinance are hereby repealed.

Section 8. Any person, firm or corporation, or any officer or agent of any person, firm or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, firm or corporation shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 9. This ordinance shall take effect and be in force on the first day of July, 1914.

Consenting to Abandonment of Tracks of United Railroads on Stockton Street.

Bill No. 3095, Ordinance No. 2816 (New Series).

Whereas, United Railroads of San Francisco is the owner and successor in interest of the street railroad franchises heretofore granted to Omnibus Railroad Company of San Francisco by Order No. 1532, to Adolph Sutro and his associates by Order No. 2781; to W. H. Martin and his associates by Order No. 2385; to W. H. Martin and his associates by Order No. 1926; and to W. H. Martin and his associates by Order No. 1871; and

Whereas, In the building and establishment by the City and County of San Francisco of what is known as the "Municipal Railway System" public convenience, interest and necessity require that said United Railroads of San Francisco agree and consent to the surrender of a portion of its franchises and rights granted under Orders Nos. 1532, 2871, 2385, 1926 and 1871, as aforesaid; and

Whereas, Said United Railroads of San Francisco, by agreement with the City and County of San Francisco dated June 16, 1914, has agreed under the terms and conditions contained in said agreement to cease operating its street railroad over and along Stockton street from Broadway to Union street, thence over and along Union street to Columbus avenue (formerly Montgomery avenue), thence over and along Columbus avenue (formerly Montgomery avenue) to Powell street; also over and along Presidio avenue (formerly Central avenue) between Geary street and a point 40 feet north of the north line of Post street; and also over and along Stockton street between Sacramento and Clay streets; and on Stockton between Clay and Washington streets; and also over and along Washington street between Powell and Stockton streets;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the abandonment by the United Railroads of San Francisco of those portions of the routes heretofore granted under Orders numbered 1532, 2781, 2385, 1926 and 1871,

respectively, and of which it is the owner and successor in interest, and which said routes are hereinafter referred to, be, and the same is hereby, consented to; and the said United Railroads of San Francisco is hereby granted the right and permission to cease operating its said street railroad over and along Stockton street from Broadway to Union street, thence over and along Union street to Columbus avenue (formerly Montgomery avenue), thence over and along Columbus avenue (formerly Montgomery avenue) to Powell street; and also over and along Presidio avenue (formerly Central avenue) between Geary street and a point 40 feet north of the north line of Post street; and also over and along Stockton street between Sacramento and Clay streets, and over and along Stockton street between Clay and Washington streets; and also over and along Washington street between Powell and Stockton streets; all in said City and County of San Francisco.

Section 2. In consideration of the cessation of the maintenance of said tracks and the operation of said street railway by United Railroads of San Francisco over, along and upon the streets referred to in Section one (1) of this Ordinance, and the surrender of a portion of its said franchises under said Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, the City and County of San Francisco does hereby grant to United Railroads of San Francisco, its successors or assigns, the right to connect its single track railroad on Clay street with its double track railroad on Powell street at the intersection of Clay and Powell streets; and does likewise grant to said United Railroads of San Francisco the right to construct a blind channel, with the necessary pits, on Mason street from Sacramento street to its power house at the northwest corner of Mason and Washington streets, and for this purpose permission is hereby granted to open up the said streets at said points for the installation of such crossings and connections and the construction of said blind channel, with necessary pits, as may be necessary to carry out the purpose and intent of this ordinance and to keep the same in repair.

Section 3. The cessation of operation of the cars of United Railroads of San Francisco over the streets and portions of the streets referred to in Section one (1) of this Ordinance, and the surrender by said United Railroads of San Francisco of a portion of its said franchises under Orders numbered 1532, 2781, 2385, 1926 and

1871, respectively, and the change in routing of said cars of United Railroads of San Francisco over and along the streets herein referred to, and the tearing up the tracks on the streets herein referred to, shall in no wise prejudice any of the rights of said United Railroads of San Francisco under said Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively, but said cessation of operation and change of route of said cars of said United Railroads of San Francisco, and the removal of said tracks shall be without prejudice to any of the rights of said company, its successors and assigns, under said Orders numbered 1532, 2781, 2385, 1926 and 1871, respectively.

Section 4. This Ordinance shall take effect immediately.

For each extension telephone on a residence telephone line the maximum charge shall be a sum not to exceed 50 cents per month.

*Names in Telephone Directory.*

Any person, company or corporation supplying telephonic service in this City and County shall at least three times a year furnish free of charge to each subscriber a complete directory of all subscribers in San Francisco, and an additional copy of said directory for each extension telephone; provided, however, that for every name listed in said directory under the telephone number of a subscriber in excess of the number of main and extension telephones installed on the premises of the subscriber, a sum not to exceed 25 cents per month for each such name shall be charged.

*Private Lines.*

The following maximum charges shall be made for private telephones and lines not connected with a telephone exchange:

For private line telephones, a sum not to exceed 50 cents per month each.

For private lines, a sum not to exceed \$2.50 per mile per month.

*Quality of Service.*

Section 2. The term "Telephone" as used in this ordinance is hereby defined to mean both a transmitter and a receiver. It shall be optional with the person demanding telephonic service to elect to take or use either portable or stationary telephonic apparatus and it shall be the duty of the person, company or corporation supplying telephonic service in the City and County to furnish such apparatus without additional cost, except as in this ordinance provided.

The term "Exchange Switch," as used in this ordinance, is hereby defined to mean an availing call, that is to say, a call whereby an outgoing conversation or message is transmitted from one telephone station within the City and County and received at another telephone station within the City and County.

No switching charge shall be made for an unavailing call, and when a nickel or token is deposited in the coin-collecting attachment for an unavailing call the same shall be returned to the person by whom it was deposited. Single conversations, on party lines shall not exceed five minutes.

Upon the application in writing of the owner or occupant of any building or premises distant not more than 300 feet from any underground conduit or pole line of the person, company or corporation furnishing telephonic service, and payment by the applicant of all money due from him, the person, company or corporation must within 30 days supply telephonic service as required for such building or premises, and cannot refuse on the ground of any indebtedness of any former owner or occupant thereof, unless the applicant has undertaken to pay the same.

No restriction shall be placed by any company, person or corporation supplying telephonic service upon the right of subscribers to employ operators, provided that any operator or substitute operator to be employed and paid by the subscriber shall conform to the reasonable rules and regulations pertaining to the service of such person, company or corporation. No contract shall be exacted, made or enforced that will exclude or in any manner prohibit or restrict any

patron or subscriber from receiving telephonic service from any other person or corporation engaged in such business, or from installing and using in any manner that may be desired the telephones or instruments of two or more different telephone systems; nor shall telephonic service be refused for the reason that the person requesting same is a patron of another person or corporation, or using another or different telephone system.

The telephone company shall print on the reverse side of their billheads their schedules, showing the various grades of monthly rental, contract switching and excess switching, so the same can easily be understood by their subscribers, and on the front of such billheads shall appear in large type the words, "See Schedule of Rates on Other Side."

Upon demand of any person, company or corporation using business or professional measured telephonic service (excepting prepayment service) every person, company or corporation supplying telephonic service within the City and County shall install and maintain in connection with each such measured service line, a meter which shall prove effective in actual use for accurately and correctly recording the number of outgoing messages and conversations over said line, and said meter shall be subject to inspection at all reasonable times by the subscriber upon whose line the same is installed.

Section 3. Any person, company or corporation, or any officer or agent of any person, company or corporation, violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred (\$500) dollars, or by imprisonment not exceeding six (6) months, or by both such fine and imprisonment, and such person, company or corporation, or officer or agent of any such person, company or corporation, shall be guilty of a separate offense for every day that such violation shall continue, and shall be subject to the penalty imposed by this section for each and every separate offense.

Section 4. This ordinance shall take effect and be in force from and after July 1, 1914.

The next 5,000 cubic feet used (between 25,000 and 30,000 cubic feet) shall be charged for at the rate of sixteen (16) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 30,000 and 40,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 40,000 and 50,000 cubic feet) shall be charged for at the rate of fifteen (15) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 50,000 and 60,000 cubic feet) shall be charged for at the rate of fourteen (14) cents per 100 cubic feet.

The next 10,000 cubic feet used (between 60,000 and 70,000 cubic feet) shall be charged for at the rate of thirteen (13) cents per 100 cubic feet.

All the water used in excess of 70,000 cubic feet per month to be charged for at the rate of twelve (12) cents per 100 cubic feet.

No monthly meter bill to be less than one and 50/100 dollars (\$1.50), except as hereinafter provided.

Upon application of any ratepayer the Board of Supervisors shall reserve the right, upon a proper showing of cause, to require the company to put in a meter and charge meter rates for any consumer of water, on such conditions as the Board may impose as to the rental when meter is not actually used.

#### *Meter Rates for Shipping.*

Water shall be furnished and delivered by meter measurement to shipping lying alongside of the bulkhead or any of the wharves on the water front where water pipes or mains are laid, between the hours of 6 o'clock a. m. and 6 o'clock p. m., daily, upon application being made therefor, at the following rates: When supplied by reel and hose cart, \$1.50 per 1,000 gallons. When supplied by connection with water pipes, at regular meter rates established by Section 10. The minimum charge for each separate delivery to be fifty (50) cents.

No water boat furnishing and supplying water to shipping lying at anchor within the limits of the wharves of the City and County of San Francisco shall charge a rate to exceed three dollars (\$3.00) per 1,000 gallons.

#### *Hydrant Rates.*

Section 11. The rates of compensation to be collected for water supplied by and through hydrants to the City and County of San Francisco shall be two dollars and fifty cents (\$2.50) per month for each hydrant for fire purposes and flushing of sewers.

#### *Prevention of Waste.*

Section 12. Prevention of waste or excessive use:

In no case where the fixed rates above provided other than meter rates, are applicable, shall any charge for water be made by meter rates, if being the purpose of this ordinance to provide for all dwelling houses a fixed monthly rate which shall not be

increased by the person, company or corporation supplying water.

Provided, however, that for the purpose of discovering and repressing waste or excessive use, all persons, companies or corporations shall have the right in all cases to apply and maintain meters to measure the water used or consumed, and to charge and collect for waste or excessive use under the condition and to the extent hereafter provided in this section, and not otherwise.

No consumer shall be deemed guilty of waste or excessive use unless the water used or consumed upon his premises in any month shall exceed by fifty (50) per cent the number of cubic feet which at regular meter rates amount to his rated bill, in which case such excess shall be deemed waste or excessive use.

Immediately after the discovery of any waste or excessive use, the consumer shall be notified thereof by the person, company or corporation supplying water by notice mailed to his address or to the agent or person to whom his water bills are presented for collection.

After such notice the consumer may be charged and there may be collected from him for any waste or excessive use thereafter occurring upon his premises at regular meter rates, but such charge or collection shall not exceed for the first month the sum of two dollars (\$2.00), for the second month the sum of four dollars (\$4.00), or for any following month the sum of five dollars (\$5.00).

#### *Board of Public Works to Examine Complaints, Etc.*

It shall be the duty of the Board of Public Works, by its Gas, Water and Electrical Inspector of this City and County, to inquire into all cases of complaints by water consumers as to charges made against them for waste or excessive use under the foregoing provisions of this section, and to adjust such charge as follows:

Any water consumer against whom a water bill is presented containing a charge for waste or excessive use of water may within five days after such bill is presented to him (provided that he first pay the fixed rate charged on such bill, exclusive of the charge made for such alleged waste or excessive use) make complaint to said inspector that such charge is incorrect, whereupon the said inspector shall promptly inspect the premises of the consumer so complaining and cause a test to be made of the water meter upon said premises, and from such inspection and test and subsequent inspection and test as said inspector may see fit and proper to make shall determine as near as can

be the amount of water used, consumed or wasted upon said premises during the period covered by said bill. As soon as such determination is made and within twenty (20) days after the said complaint is made said inspector shall make a certificate stating the amount of water so determined to have been used, consumed or wasted, and showing the true and correct amount, if anything, which may be charged against and collected from said consumer under the foregoing provisions of this section for waste or excessive use, and shall immediately transmit such certificate to the person, company or corporation supplying water, and also a copy thereof by mail to the water consumer.

The said certificate shall be conclusive between the water consumer and said person, company or corporation as to the amount, if anything, which said person, company or corporation shall be entitled to collect from the consumer for waste or excessive use of water during the period covered by the bill of which complaint is made, provided, however, that if either the consumer or the water company is dissatisfied with the certificate of the water inspector appeal may be taken within five (5) days to the Committee on Water Rates of the Board of Supervisors, which shall, within five (5) days after such appeal, hear and finally determine the matter in dispute.

The said inspector shall keep in his office a proper record or records, showing the date of each complaint made to him, the name of the consumer complaining, the location of his premises, and stating briefly the inspection made by him of the premises and the tests applied to the meter, the time or times of such inspection and tests and the results thereof, with the reading of the meter at each test or inspection and all other material facts connected therewith. Such records so kept to be open for public examination in his office.

#### *Rates—When Payable.*

Section 13. All water rates, except meter rates and City and County rates, are due and payable monthly in advance.

Meter and City and County rates are due and payable at the end of each month, and upon meter rates a deposit not exceeding three-fourths ( $\frac{3}{4}$ ) of the value of the estimated quantity of water to be consumed may be required.

#### *Notice of Discontinuance.*

Section 14. Any consumer may at any time, upon payment of accrued rates, notify the company in writing

to cut off or discontinue the water supply upon his premises, after which no charge shall be made for water for said premises until the use of water is resumed.

#### *Maximum Rates Fixed.*

Section 15. This Ordinance fixes the maximum beyond which no person, company or corporation shall be permitted to charge for water supplied.

Section 16. This Ordinance shall take effect and be in force on and from July 1, 1914, to June 30, 1915.

**Privilege of the Floor.**

*J. Brennan*, attorney, representing Teamsters' Union No. 218 and various other labor organizations, was granted the privilege of the floor. He protested against reduction of item for street repairs from \$60,000 per month as heretofore allowed to \$40,000 as provided in foregoing resolution. He said it was a proposition to favor contract labor as against day labor. He declared better results could be obtained and a greater degree of efficiency achieved if the work were done by the city. The Saturday half holiday, he said, provided for municipal employes, was a condition favorable to labor that should be considered.

**Amendment.**

*Supervisor Suhr* moved to amend by increasing item "for repairs to streets during July, 1914," by increasing from \$40,000 to \$60,000.

Motion carried by the following vote:

Ocean Shore Railroad to Operate Steam Locomotives on Potrero Avenue During Reconstruction of Trolley Wires.

Supervisor McCarthy presented:  
Resolution No. 10989 (New Series),  
as follows:

Whereas, At the request of property owners on Potrero avenue and vicinity, it has been decided to remove the existing center poles on Potrero avenue to the curb lines on Potrero avenue at the same time that the tracks of the Ocean Shore Railroad Company on Potrero avenue are reconstructed; and

Whereas, The manner in which this work is to be performed is fully set forth in the contract heretofore made to that end between the City and County of San Francisco and the Ocean Shore Railroad Company and in the contracts made by and between the City and County of San Francisco and Eaton & Smith and between the City and County of San Francisco and H. S. Tittle; and

Whereas, In the actual prosecution of said work it will be necessary not to prevent the operation of the trains and cars of the Ocean Shore Railroad Company; and

Whereas, In moving the aforesaid trolley poles and reconstructing the trolley wire over the tracks of the Ocean Shore Railroad Company, it will be necessary to seriously interfere with the operation of the trains and cars of the said Ocean Shore Railroad Company or to arrange for the operation of these trains and cars by means of a steam locomotive for a period of not more than fifteen days; and

Whereas, Said Ocean Shore Railroad Company has expressed its willingness to operate its trains with steam instead of electric power until said poles and wires can be readjusted in conformity with said contracts, provided that its franchise rights shall not thereby be affected;

Now, therefore, be it Resolved, That the Ocean Shore Railroad Company is hereby requested to make arrangements to operate its trains over said Potrero avenue tracks by means of steam locomotives during the period when said reconstruction of said trolley wires on Potrero avenue is being prosecuted, said period not to exceed fifteen days, provided that at the expiration of said period, said company shall at once discontinue the use of steam locomotives and resume operation with electric power; and further provided that nothing in this request shall be construed as in anywise affecting, enlarging or curtailing any rights or duties which said Ocean Shore Railroad Company may possess under its regular franchise for operating said road.

### Privilege of the Floor.

**Chas. Minert**, representing property owners and residents on Potrero avenue, protested against granting permission for operation of steam locomotives on Potrero avenue.

**Assistant City Engineer Ransome** addressed the Board and stated that in the past, owing to the poorly ballasted roadbed, the operation of steam locomotives on Potrero avenue was a grievous nuisance, but that with the new roadbed such cause for complaint, in his opinion, would not be present. The permit, he added, would only be required for about ten days.

Adopted.

Whereupon, the foregoing resolution was adopted by the following vote:

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—14.

No—Supervisor Nolan—1.

Absent—Supervisors Bancroft, Hocks, Murdock—3.

Adopted.

The following resolutions were adopted:

#### Intention to Change Grades.

Resolution No. 10990 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works filed June 19, 1914, to-wit:

On De Haro street, between Mariposa street and points 61 feet southerly from Seventeenth street.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

This change is desirable, as it will facilitate the construction of a spur track from the Western Pacific Railway Company's main line to the Fishbeck Soap Factory.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification is contemplated, notice of the passage of this resolution of intention.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10991 (New Series), as follows:

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10992 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above City base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works, filed June 19, 1914, to-wit: On Joost avenue, between the northerly line of, and a line parallel with and 15 feet southerly therefrom, between Genesee and Hamburg streets.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10993 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following

named streets, at the points herein-after specified and at the elevations above City base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works, filed June 19, 1914, to-wit: On Galvez avenue, between Keith and Mendell streets, and on Lane street, between Hudson avenue and the northeasterly line of Galvez avenue.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing street improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

#### SPECIAL ORDER, 3:00 P. M.

##### Opening Streets in City Land Association.

The hearing of objections to the confirmation of the report of the Board of Public Works fixing assessments, damages, etc., for the purchase of land for the opening and extension of Bright, Head, Victoria, Ramsell, Orizaba, Bixby, Beverly, Arch, Monticello, Ralston and Vernon streets, fixed for the hour of 3 p. m., this day, was proceeded with.

##### Privilege of the Floor.

*Henry Feige*, representing his sister, *Ella Feige*, who owns property on Vernon and Arch streets, was granted the privilege of the floor and protested against the assessment on the ground that the property owners in the City Land Association Tract were poor people and already heavily assessed for the Twin Peaks tunnel.

*Berend Joost*, property owner, also protested against assessment on the ground that the Ingleside Terraces should be obliged to open the streets and conform to the adjacent streets in the City Land Association Tract.

Both protestants were advised that inasmuch as they had not filed written protests heretofore that they could not legally do so now.

##### Motion.

Thereupon, Supervisor McCarthy moved that protests be denied and reports of Board of Public Works confirmed.

##### Adopted.

Whereupon, the following resolutions were adopted:

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Passed for Printing.

The following bill was introduced by Supervisor Deasy under suspension of the rules and passed for printing:

Amending Tunnel Procedure Ordinance.

Bill No. 3106, Ordinance No. — (New Series), entitled, "Amending Section 22 of Ordinance No. 2186 (New Series), known as 'The Tunnel Procedure Ordinance'."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 22 of Ordinance No. 2186, known as "The Tunnel Procedure Ordinance" is hereby amended so that said Section 22 shall read as follows:

Section 22. The said funds collected by the Tax Collector under the proceedings herein provided for, either upon voluntary payment or as the result of sales, shall be paid by said Tax Collector to the Treasurer of the City and County, who shall enter the same in a special fund to be appropriately designated by reference to the proceeding, and shall be paid out only for purposes provided for in this ordinance. Moneys paid for interest shall be kept in an "interest account" and used exclusively for payment of interest. Whenever there shall be a surplus in said "interest account" which shall not be required for the payment of interest on the certificates issued pursuant to Section 25 of this ordinance the Board of Supervisors may, by resolution, order said surplus, or any part thereof, transferred to said special fund, which sum so transferred may

be paid out for any of the purposes provided in this ordinance.

Section 2. This ordinance shall take effect immediately.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang—14.

No—Supervisor Walsh—1.

Absent—Supervisors Bancroft, Hocks, Murdock—3.

#### Remission of Penalties Twin Peaks Tunnel Assessments.

On motion of Supervisor Deasy:

Resolution No. — (New Series), as follows:

Whereas, in the matter of the construction of the Twin Peaks Ridge tunnel an assessment was levied upon the property belonging to Charles F. Schultz in the sum of \$67.50, said assessment being numbered 11595; and

Whereas, an assessment in the same matter was levied against the property belonging to Florence A. Brown in the sum of \$105.98, said assessment being numbered 495; and

Whereas, in the same matter an assessment was levied against property belonging to Cora Twombly in the sum of \$38, said assessment being numbered 327; and

Whereas, in the same matter an assessment was levied against property belonging to F. V. O'Gorman in the sum of \$202.50, said assessment being numbered 11515; and

Whereas, said assessments were not paid within the time provided by the Tunnel Procedure Ordinance and the proceedings taken and had thereunder in the matter of the construction of the Twin Peaks Ridge tunnel; and

Whereas, pursuant to said tunnel procedure ordinance there was added to each of said assessments the sum of 25 cents to defer advertising expenses; and

Whereas, the Tax Collector did, pursuant to the provisions of said tunnel procedure ordinance, sell the various parcels of property belonging to the aforesaid mentioned persons, and against which said assessments were levied, to the City and County of San Francisco; and

Whereas, it appears that the persons above mentioned had no knowledge of the levying of said assessments against said properties by reason of the fact that said parties were absent from the City and County of San Francisco; and

Whereas, said tunnel procedure ordinance provides that a penalty of 25 per cent of the amount of the assessments shall be added to said assessments before said parties may redeem said properties so sold pursuant

to the provisions of said tunnel procedure ordinance; and

Whereas, it appears to the Board of Supervisors that said infliction of said penalties would be an unjust hardship upon said parties by reason of the facts recited above; and

Whereas, The City Attorney does recommend that said penalties be remitted; now therefore, be it

Resolved, That said penalties of 25 per cent of the amount of said assessments be remitted upon condition that said parties forthwith pay in cash the total amount of their respective assessments, that is to say, the amount assessed against their respective properties plus 25 cents on each assessment added to said assessments to defer advertising charges.

Adopted.

The following resolution was introduced under suspension of the rules and adopted:

Geary Street, Park and Ocean Railroad to Remove Tracks from Fifth Avenue.

On motion of Supervisor McCarthy, Resolution No. 10986 (New Series), as follows:

Resolved, That the cable railway tracks now maintained by the Geary Street, Park and Ocean Railroad Company on Fifth avenue, between Point Lobos avenue and Fulton street, on Fulton street at its intersection with Fifth avenue, and on Point Lobos avenue in the vicinity of the carbarn at the northwest corner of Point Lobos and Second avenues, constitute an obstruction and hindrance to traffic on said streets, and an annoyance to all persons residing upon or owning property which abuts on said streets in the vicinity of said tracks, and that said cable railway tracks constitute and are hereby declared to be a public nuisance; and be it further

Resolved, That the said Geary Street, Park and Ocean Railroad Company is hereby ordered to commence the removal of said cable railway tracks from said streets within ten days from date of this order and to prosecute such removal with due diligence until all of said tracks are removed from said streets; and be it further

Resolved, That the Clerk of the Board of Supervisors is hereby directed to forthwith serve a copy of this order upon said corporation; that the City Attorney and District Attorney of this City and County are hereby requested to co-operate in taking such procedure of a civil or criminal nature, or both, as may be necessary to insure the removal of said tracks from said streets with the least possible delay.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

SPECIAL ORDER—4 P. M.

*Church Street Extension Municipal Railways.*

The consideration of plans for proposed extension of Municipal Railway on Church street, fixed for the hour of 4 p. m., was proceeded with:

The following communication was presented and read by the Clerk:

Church Street Extension for the Municipal Railway System.

June 29, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen: At a meeting of your Board, held on the evening of June 18th, for the purpose of discussing the proposed extension of the Municipal Railway System along Church street, four plans of overcoming the steep grades on Church street, between Eighteenth and Twenty-second streets, were submitted for your consideration. Plans Nos. 1, 2 and 3 showed methods of improving the street without departing from the present boundaries of Church street. Plan No. 4 proposed the construction of a new street having a minimum width of 50 feet, between Eighteenth and Twenty-second streets, Church and Dolores streets.

The cost of Plan No. 1 was estimated at \$210,000, that of Nos. 2 and 3 at \$230,000, and No. 4 at \$330,000.

Protests against the adoption of Plans Nos. 1, 2 or 3 have been filed with your Board by property owners residing on Church street, between Dorland and Twenty-second streets. During the discussion which followed the presentation of these plans it appeared that no plan will meet the approval of all of the interested parties. There seems, however, to be a strong sentiment in favor of the

adoption of Plan No. 4, and were it not for the cost of this plan, I believe it would be the most desirable.

Plan No. 4 was prepared on the assumption that the residents living south of Eighteenth street were desirous not only of having a street railroad, but also of securing a street which would provide access to the district by means of teams or automobiles. It appeared at the meeting of June 18 that these residents do not at the present time fully realize the desirability of such a street and I have therefore had a fifth plan prepared, similar to No. 4, but contemplating the acquisition of only sufficient property to provide a right of way for the proposed street railway, leaving the provision of a street for foot and vehicular traffic for future consideration. The estimated cost of providing this right of way is \$200,000. The plan contemplates the construction of a bridge at Nineteenth street having a span of 50 feet which will permit of the widening of the right of way at some future time when the interested property owners desire to have a street constructed, but beyond this no provision whatever is made for traffic other than street cars, and should your Board decide to adopt this plan it will be advisable, in this case, as in the event of the adoption of Plans 1, 2 or 3, to exclude all traffic except street cars from the right of way.

This Plan No. 5 is superior to Plans Nos. 1, 2 and 3 in that it will permit the construction at some future time of a suitable street. It is superior to Plan No. 4 in that the estimated cost is \$130,000 less.

Respectfully,  
M. M. O'SHAUGHNESSY,  
City Engineer.

#### Privilege of the Floor.

Thereupon *Mrs. F. J. Walsh*, property owner, was granted the privilege of the floor and addressed the Board. She opposed any plan that would injure the property of the people on Church street by deep cuts or viaducts or cutting diagonally through property between Eighteenth and Twenty-second streets on Church street. She urged that the original plan of going over or under Church street be adhered to.

*Mrs. M. E. Lynch* also addressed the Board to the same effect.

*Mr. Ungermann*, representing property owners on Church street between Eighteenth and Twenty-second streets. He opposed any plan providing a viaduct, tunnel or cut of any kind on Church street, but would agree to

any plan that will not destroy property. He declared that he was willing to leave the solution of the problem to the City Engineer.

*Alexander George* also addressed the Board. He presented a modification of the plan heretofore submitted by him which by increasing grade to between ten and twelve per cent lessens the damage and decreases the cost.

#### Motion.

Supervisor Nelson moved that Mr. George's proposition be submitted to the City Engineer for the preparation of a plan and estimate of cost.

Motion carried.

#### Motion.

Supervisor McCarthy thereupon moved that the subject matter of the Church street extension of the Municipal Railway be made a special order of business for 4 p. m., July 20, 1914.

Motion carried.

#### Action Deferred.

Whereupon, the following resolution was introduced by Supervisor Power and laid over three weeks:

Providing for Partial Construction of Church Street Extension.

J. R. No. —.

Whereas, Some difficulty has been experienced in preparing satisfactory plans for the construction of the Church Street Municipal Railroad, and

Whereas, The residents of that section of the City to be benefited by the construction of this road are desirous of having the construction work begun as soon as possible, and

Whereas, The difficulty in preparing plans only affects that section of the road between Dorland street and Twenty-second street, therefore be it

Resolved, That the Board of Public Works be and is hereby directed to prepare plans and specifications for the construction of the Church Street Municipal Railway from Market street and Van Ness avenue to Dorland and Church streets, giving due consideration to the use of the tracks of the United Railroads, and from Twenty-second and Church streets to Thirtieth and Church streets, and be it

Further Resolved, That the construction of said units be proceeded with as soon as possible.

#### ADJOURNMENT.

There being no further business the Board at the hour of 6:50 p. m. adjourned.

J. S. DUNNIGAN,  
Clerk.

Approved by the Board of Supervisors July 6, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

Accepting Offer of The O'Neil Estate to Sell Certain Land at Mariposa and York Streets Required for Municipal Car Barn Purposes.

On motion of Supervisor Vogel-sang:

Resolution No. 11007 (New Series), as follows:

Whereas, an offer has been received from the O'Neil Estate Co., and John J. and Alice T. McDade by communication from the City Attorney, filed July 2, 1914, to convey to the City and County of San Francisco certain land, being a portion of Potrero Block No. 48, the said land being required for municipal car barn purposes; and

Whereas, the price at which said parcel of land is offered in accordance with the appraised value; there-  
for, be it

Resolved, That the offer of the above-named owner to convey to the City and County of San Francisco a good and sufficient fee simple title to the following described land, free of all incumbrances including taxes, for the sum of \$44,750 is hereby accepted; the said land being described as follows, to-wit:

Commencing at the point of inter-section of the northerly line of Mariposa street with the easterly line of York street, running thence northerly and along said easterly line of York street 300 feet; thence at right angle easterly 100 feet; thence at a right angle southerly 75 feet; thence at a right angle easterly 100 feet to the westerly line of Hampshire street; thence at a right angle southerly and along said westerly line of Hampshire street 225 feet to the northerly line of Mariposa street; thence at a right angle westerly and along said northerly line of Mariposa street 200 feet to the easterly line of York street and the point of commencement.

Being a part of Potrero Block No. 48.

The City Attorney is hereby directed to examine the title to said land, and if the same is found to be vested in the aforesaid owner, free from all incumbrances, and that the taxes for the current fiscal year are paid, and that the so-called McEnerney title has been procured, or sufficient money reserved for the procuring of the same, to report the result of his examination to the Board of Supervisors, and also to cause a good and sufficient deed to be executed and delivered to the City and County upon the payment of the agreed purchase price as aforesaid.

#### Action Deferred.

The following Resolution, laid over from last meeting, was taken up, and on motion laid over until September 7, 1914:

#### Abolishment of Water Rates Committee.

J. R. No. —.

Resolved, That Rule 1 of this Board be amended by striking out the name of the Committee on "Water Service and Rates."

That Rule 2 of this Board be amended by striking out the duties assigned to the Committee on Water Service and Rates and adding the same to the duties of the Committee on Public Utilities.

#### ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Supervisor Vogelsang presented:

Board of Public Works to Submit Preliminary Plans and Estimates of Cost for Certain Extensions of the Municipal Railways.

J. R. No. —.

Whereas, There is urgent necessity for the construction of branches of the Municipal Railway System into the Potrero and Sunset districts, which are now without adequate transportation; and

Whereas, Such extensions can be made economically from the existing municipal system; and

Whereas, This Board should be ad-

vised, in the near future, of the proper route and probable cost of such lines,

Therefore, be it resolved, That the Board of Public Works be requested to submit to this Board preliminary plans, with approximate estimates of costs, for the extension of the Municipal Railway:

1. From a point on the Potrero avenue line, near Seventeenth street, thence easterly and southerly to a suitable terminal in the Potrero hills.

2. From the Tenth avenue terminal of the Geary street system, thence southwesterly through Golden Gate Park into the Sunset District and thence to a convenient terminal at or near the Ocean Beach.

ALEXANDER T. VOGELSANG,  
J. EMMET HAYDEN,  
FRED L. HILMER,  
PAUL BANCROFT,  
ANDREW J. GALLAGHER,  
Public Utilities Committee.

#### Substitute Resolution.

Supervisor Power offered the following as a substitute for the foregoing Resolution:

J. R. No. —.

Whereas, It is the policy of this Board to order the construction of extensions to our Municipal Railway System wherever the same seem to be advisable, and

Whereas, The Potrero avenue line is now being constructed and the Church street line proposed; therefore be it

Resolved, That the Board of Public Works be and is hereby requested to furnish to this Board the estimated cost of constructing an extension from Twenty-second and Potrero avenue to Twenty-second and Church streets.

#### Motion.

Supervisor Nelson moved that the Oakdale avenue extension be also considered.

#### Referred.

Whereupon, the entire matter was ordered referred to the Public Utilities Committee.

United Railroads to Operate Over Kentucky Street Viaduct.

Supervisor Vogelsang presented:

Resolution No. — (New Series), as follows:

Whereas, Under the provisions of Order No. 2469, the United Railroads of San Francisco is operating a street railway line over and along Kentucky street, between Eighteenth street and Fourth street; and

Whereas, The Southern Pacific Company, under the provisions of Ordinance No. 1095, has erected a viaduct along Kentucky street, between Alameda and Mariposa streets, over which street railroad traffic can be safely and properly operated; and

Whereas, It will greatly conduce to the safety and rapidity and eliminate the existing delay and dangers due to grade crossings of numerous steam railroad tracks if said Kentucky street railroad line is operated over said viaduct instead of along the surface of the street and over said grade crossings.

Now, therefore, be it Resolved, That the United Railroads of San Francisco is hereby authorized and directed to remove its tracks, poles and wires from its present position on Kentucky street and relay and erect the same upon and over said viaduct, and as soon as said removal is effected to operate said street railroad line over said viaduct instead of on the street grade as at present.

Provided, that nothing in this Resolution contained, nor compliance with its provisions, shall be construed as in any way affecting any franchise rights on Kentucky street which the United Railroads of San Francisco may possess at the date of this order.

#### Privilege of the Floor.

*M. O'Donnell*, property owner, protested against the adoption of the foregoing Resolution, for the reason that its result would be to divert traffic from his place of business and would practically be a confiscation of his property.

*Mrs. Roberts*, also representing property owners in the Reis Tract and other sections, urged the adoption of the Resolution, which she said would result in great convenience to the districts she represented as well as affording safety to life and limb at grade crossings.

#### Passed for Printing.

Whereupon, the question being taken, the foregoing Resolution was passed for printing.

#### Opening and Extension of Eleventh Street.

The following communications were presented and read by the clerk:

July 6, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco—

Gentlemen:

In constructing the Potrero avenue extension to the Municipal Railway System, it will be necessary to extend Eleventh street in a straight line from Bryant street to Division street and to widen Division street from its present width of 50 feet to 80 feet between Bryant street and Potrero avenue.

Division street is at present 80 feet wide from Channel street to Ninth street, and while we are widening it between Potrero avenue and Bryant street it is advisable that it also be

widened between Ninth street and Potrero avenue in order to provide a street available for vehicular traffic between the Channel street section and the Mission.

To accomplish this widening by an assessment district seems impossible at the present time. Fortunately, however, the city owns an irregular shaped piece of property in the block bounded by Tenth, Bryant and Division streets, which gives them control of the principal frontage on Division street. The remaining pieces of property fronting on Division street, between Bryant and Ninth streets, are property of Mr. F. E. Knowles.

We have taken up with Mr. Knowles the proposition of exchanging property between himself and the city, so as to straighten the lines and concentrate the property of each party in one holding, and Mr. Knowles has finally agreed to the proposition contained in a letter which he has addressed to this office, a copy of which is attached hereto. This letter, I believe, is self-explanatory.

The property belonging to the city, of which it is proposed to straighten the lines, is now used by the Fire Department for stables and a fire house. The proposed exchange will enable the city to secure a piece of property of a better shape than that which they now own and one which will be more available for the uses of the Fire Department. At the same time it will enable Division street to be widened between Bryant and Ninth streets without expense.

This matter has been taken up with the City Attorney, who approves of the proposed change and believes, with this office, that it will be of advantage to the city. The first legal step to be taken in consummation of the proposed change is the passage of the accompanying ordinance, which has been drawn up by the City Attorney.

It is hereby recommended that the Board of Supervisors pass this ordinance at the earliest possible moment, as the construction of the Potrero avenue line is now being delayed by the necessity of widening Division street, and the sooner this matter is finished the sooner we will be able to complete and place in operation the Potrero avenue line.

Respectfully,

M. M. O'SHAUGHNESSY,  
City Engineer.

San Francisco, July 2, 1914.

Mr. M. M. O'Shaughnessy, City Engineer, San Francisco—

Dear Sir:

Confirming my verbal agreement with you, I am willing to sell to the

city, upon terms to be hereafter agreed to, the following pieces of property:

Commencing at the northeast corner of Division and Bryant streets, thence easterly along Division street approximately 200 feet; thence northerly approximately 60 feet; thence westerly approximately 200 feet; thence to Bryant street; thence southerly on Bryant street to Division street approximately 60 feet.

Commencing on the northwest corner of Division and Tenth streets, westerly on Division street approximately 68 feet; thence northerly approximately 60 feet; thence westerly approximately 18 feet to Tenth street; thence southeasterly along Tenth street to the point of commencement.

Commencing on the northeast corner of Division street and Potrero avenue; thence easterly on Potrero avenue approximately 200 feet to Utah street; thence northerly on Utah street approximately 30 feet; thence westerly to Brannan street; thence southwesterly along Brannan street to the point of commencement.

Commencing on the northwest corner of Division and Utah streets; thence westerly on a curved line approximately 114 feet to Division and Ninth streets; thence northwesterly along Ninth street approximately 30 feet; thence on a curved line parallel to Division street approximately 93 feet to Utah street; thence southerly on Utah street approximately 30 feet to the point of commencement on Division street.

I also agree to purchase at the same price as may be agreed upon for the sale of the above properties the following piece of property:

Commencing on Tenth street approximately 30 feet northerly from the present northerly line of Division street; thence westerly approximately 280 feet; thence northerly approximately 115 feet; thence easterly approximately 186 feet to Tenth street; thence along Tenth street to the point of commencement.

It being further understood that the city shall extend Eleventh street in a straight line through the block at present bounded by Bryant, Division, Tenth and Bryant streets, to Division street; shall widen Division street, between Ninth and Bryant streets, to 80 feet in width; and shall close that portion of Utah street lying north of the proposed new line of Division street, permitting the property therein to revert to me.

I will agree to remove, within a reasonable time, at my own expense, such buildings as may be on the property which I propose to sell to the

city, and the city on its part is to remove, within a reasonable time, such buildings as may be at the present time on the property which it is proposed to sell to me.

I understand that this extension of Eleventh street and the widening of Division street are desirable in order to facilitate the construction of the Potrero avenue extension of the Municipal Railway System, and in order not to delay this work we will authorize the city to take possession of such portion of the lot on Bryant and Division streets as may be necessary to permit of the immediate construction of this street railroad, without the waiting for the formal conclusion of the agreement outlined above.

Yours truly,

(Signed) F. E. KNOWLES.

Adopted.

Whereupon, the following resolution was adopted:

Accepting Offer of F. E. Knowles.

On motion of Supervisor Vogel-sang:

thence westerly on a curved line approximately 114 feet to Division street and Ninth street; thence northwest-erly along Ninth street approximately 30 feet; thence on a curved line parallel to Division street approximately 93 feet to Utah street; thence south-erly on Utah street approximately 30 feet to the point of commencement on Division street.

"I also agree to purchase at the same price as may be agreed upon for the sale of the above properties, the following piece of property:

"Commencing on Tenth street approx-imately 30 feet northerly from the present northerly line of Division street, thence westerly approximately 280 feet; thence northerly approx-imately 115 feet; thence easterly approx-imately 186 feet to Tenth street; thence along Tenth street to the point of commencement.

"It being further understood that the City shall extend Eleventh street in a straight line through the block at present bounded by Bryant, Divi-sion, Tenth and Bryant streets, to Division street; shall widen Division street, between Ninth and Bryant streets, to 80 feet in width; and shall close that portion of Utah street lying north of the proposed new line of Division street, permitting the prop-erty therein to revert to me.

"I will agree to remove, within a reasonable time, at my own expense, such buildings as may be on the prop-erty which I propose to sell to the city and the city on its part is to remove, within a reasonable time, such buildings as may be at the pres-ent time on the property which it is proposed to sell to me.

"I understand that this extension of Eleventh street and the widening of Division street are desirable in order to facilitate the construction of the Potrero avenue extension of the Mun-icipal Railway System, and in order not to delay this work we will au-thorize the city to take possession of such portion of the lot on Bryant and Division streets as may be neces-sary to permit of the immediate con-struction of this street railroad, with-out waiting for the formal conclusion of the agreement outlined above.

"Yours truly,

"(Signed) F. E. KNOWLES."

And Whereas, it is for the best in-terests of the public that said offer be accepted according to its terms; now, therefore, be it

Resolved, That the City and County of San Francisco does hereby accept the offer of said F. E. Knowles made to said City and County of San Fran-cisco through the City Engineer; and be it further

Resolved, That such further pro-ceedings as are necessary to carry out the performance of the conditions therein named by the city to be per-formed be taken forthwith and that the Clerk of this Board be and he is hereby directed to notify said F. E. Knowles of the acceptance of his offer and of the pendency of the pro-ceedings necessary to be taken by the city government as aforesaid.

Private Sale of City Lands.

Bill No. 3111, Ordinance No. — (New Series), entitled, "Providing for the disposal at private sale of cer-tain lands belonging to the City and County of San Francisco, in the dis-trict between Ninth street and Eight-teenth street, in accordance with the provisions of Article II, Chapter II, Section 9 of the Charter."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That public interest and necessity demands the sale of the following lands owned and held by the City and County of San Francisco, situated within the district between Ninth street and Eighteenth street, lying in what was former Mission Creek and being more particularly de-scribed as follows, to-wit:

Beginning at a point on the south-westerly line of Tenth street, distant thereon thirty-five and three hundred eighty-one thousandths. (35.381) feet northwesterly from the point of inter-section of the southwesterly line of Tenth street with the northerly line of Division street, and running thence northwesterly along the southwesterly line of Tenth street one hundred forty-six and nine hundred twenty-three thousandths (146.923) feet; thence deflecting 49° 28' 07" to the left and running one hundred eighty-four and three hundred seventy-seven thousandths (184.377) feet; thence de-flecting 90° 00' 23" to the left and running one hundred seventeen and two hundred twenty-three thousandths (117.223) feet thence deflecting 91° 07' 50" to the left and running two hundred seventy-nine and eight hun-dred ninety-nine thousandths (279.899) feet to the point of beginning; being a portion of Mission Block No. 42½.

Section 2. Said lands shall be sold in one parcel for cash, in United

States gold coin, at a private sale to be held on or after the 30th day of July, 1914. Written bids or offers for the purchase of such lands will be received by the Mayor, at his office, on or before said date.

Section 3. The Clerk of the Board of Supervisors is hereby directed to publish in the official newspaper and in one other daily newspaper published in this City and County for two weeks successively next before the day on or after which the sale is to be made, a notice of such sale, describing the lands to be sold with common certainty.

Section 4. The Mayor, Assessor and the Chairman of the Finance Committee of the Board of Supervisors are hereby directed to appraise said lands within three weeks after the final passage of this ordinance, as required by Article II, Chapter II, Section 9 of the Charter.

Section 5. Upon receipt and examination of bids or offers for said lands as aforesaid, the Mayor shall accept the highest bid made, provided said bid be for at least ninety per cent of the value found by said appraisers, and shall immediately thereafter, at the next meeting of the Supervisors, report the fact of such sale to the Supervisors, with a statement of the sum bid and the name of the highest bidder, with a request that the Board confirm such sale.

#### Declaration of Policy With Regard to Exhibits Outside Exposition Grounds.

Supervisor Gallagher presented:

Resolved, That in response to a request from the International Panama-Pacific Exposition Company for a declaration of policy on the subject matter of concessions outside the Exposition grounds during the Exposition period; this Board declares its policy as follows:

1st. Except for permanent amusement buildings such as theaters, restaurants and other permanent structures and businesses, no concession of an Exposition period type will be permitted within a distance of ten blocks from said Exposition grounds.

2d. The Board will deal with requested permits for concessions as applied for—it will, except in the limits above stated, favor a liberal policy in the matter of granting permits for all requested legitimate amusements.

3d. It will require each permittee to furnish in detail all information required as to whether there will be one general concession or a combined number of same; and of what character.

The Board will co-operate with the International Panama-Pacific Exposi-

tion Company to the end that this policy shall operate for the general good of San Francisco and the Exposition.

4th. The Police Committee is directed to make an immediate study of this matter, to the end that when such permits are applied for and granted there shall be a full measure of financial return to the City and County, the protection of its morals, and the insurance that such permits as are granted shall be with cognizance of our mutual interest in the Exposition.

#### Substitute Resolution.

Supervisor Kortick presented the following as a substitute for the foregoing resolution:

Resolution No. — (New Series), as follows:

Whereas, the City and County of San Francisco is contributing the sum of five million (5,000,000) dollars to the construction, development and success of the Panama-Pacific International Exposition to be held in what are commonly known as the Exposition grounds in the City and County of San Francisco during the year 1915; and

Whereas, the City and County of San Francisco is desirous of aiding and insuring the success of said Exposition so to be held next year in every possible way, both as educational and entertaining; and

Whereas, it is necessary to protect the City and County of San Francisco against amusement concessions of an inferior, improper or immoral character, and to maintain during the Exposition period in this city only such amusement characters as are worthy, instructive and entertaining in a high class; and

Whereas, it is likewise necessary, in order to insure the financial success of the Exposition, that rival or competing amusement concessions be kept from the proximity of the Exposition grounds; and

Whereas, it is the desire of the Board of Supervisors to protect the people of San Francisco, as well as to protect the Exposition, from amusement concessions that are likely to work an imposition and fraud upon the people of San Francisco; and

Whereas, it is the desire of the Board of Supervisors of the City and County of San Francisco to formulate a policy for granting permits or amusement concessions from now on until the close of the Exposition to be held in 1915; now, therefore, be it

Resolved, By the Board of Supervisors of the City and County of San Francisco, that the following policy be and the same is hereby adopted:

1st. That no permits for amusement concessions of any kind or character be granted to any one to be conducted within a distance of five blocks of the exterior lines of what are commonly called the "Exposition Grounds." This provision, however, shall not apply to hotels, cafes or restaurants where musical or other entertainment is furnished, or to dancing academies or halls or theaters constructed and maintained in accordance with the requirements of the existing ordinances of the City and County of San Francisco.

2d. That no amusement concession be granted unless the same shall appear to this Board to be instructive and shall furnish amusement of a clean, wholesome character, it being the express policy of this Board to permit no amusement concessions for any immoral shows, or where any fraud, misrepresentation or deceit is practiced.

3d. That in carrying out the letter and spirit of this resolution, this Board shall at all times, until the close of said Exposition, co-operate with the directors of the Panama-Pacific International Exposition Company.

*Supervisor Power's Amendment.*

4th. And that all requests for permits to conduct said exhibitions shall be referred to the Exposition Committee for consideration and action.

Referred.

*Supervisor Power* moved the reference of the foregoing resolutions to the Public Welfare and Exposition Committees.

*So ordered.*

Consideration of Protest Against Operation of Steam Railroad on Potrero Avenue.

*Mrs. McDonald*, representing property owners on Potrero avenue, was granted the privilege of the floor. She requested the Board to revoke the action heretofore taken granting the Ocean Shore Railroad Company temporary permission to operate a steam railroad on Potrero avenue pending reconstruction of its tracks. She said she was advised that by the expenditure of \$400 the company could continue to operate by electricity and she requested that that amount be spent rather than put the property owners to inconvenience and liability of damage to their property by cracking of the plaster due to the vibration caused by the operation of the road.

*T. W. Ransome*, Assistant City Engineer, stated that the City Engineer's office was responsible for the recommendation that the Ocean Shore be permitted to operate by steam for seven or eight days for the reason that such an arrangement would en-

able the Board to accomplish its work in half the time otherwise required. Inasmuch as the steam locomotive would be operated on a new roadbed he did not believe there would be any vibration to speak of. He agreed to a test run of the steam railroad to determine this fact.

Motion.

*Supervisor Power* moved that if test proved any vibration that permit be revoked.

*Motion carried.*

Adopted.

The following resolutions were introduced under suspension of the rules and adopted:

Clearing Aisles in Nickelodeons.

J. R. No. 1338.

Whereas, The patrons of nickelodeons and moving picture theaters are inconvenienced and discomforted by lack of sufficient seating capacity and people are compelled to stand in line for indefinite periods of time to gain entrance to said theaters, and after gaining entrance are compelled to stand during the performance for which they have paid the price of admission, and often leave the premises of a theater without having had unused tickets redeemed,

Resolved, That the Chief of Police is hereby directed to enforce the ordinance requiring aisles to be kept open and no standing room in crowded theaters; and be it further

Resolved, That the Police Committee of the Board of Supervisors be requested to immediately investigate this matter and recommend to the Board such remedial legislation as may provide for the comfort and convenience of patrons of shows where these abuses are occurring.

Temporary Crossings of Municipal Railway on Van Ness Avenue to be Put In Safe Condition.

J. R. No. 1339.

Whereas, Numerous complaints are made of the condition of the temporary crossings along Van Ness avenue while the Municipal Railway is being constructed, and said crossings are dangerous to vehicular traffic and an inconvenience to the public, be it

Resolved, That the Board of Works is hereby requested to require the contractor on the Van Ness Avenue Municipal Railway to immediately put the temporary crossings in a usable and safe condition.

**DELIVERY OF ASSESSMENT ROLL AND MILITARY ROLL—1914-1915.**

The Clerk announced that the Assessor, John Ginty, had this day delivered to the Clerk of the Board of Supervisors the Assessment Roll of the fiscal year 1914-1915, consisting of forty-two volumes describing real estate and personal property, eighteen volumes describing unsecured personal property and four volumes of indexes.

Also, that the Assessor had filed on the 1st day of July, 1914, the list of arbitrary assessments, separate from the Assessment Book, as required by Section 3633 of the Political Code of the State of California.

Also, that the Tax Collector, pursuant to the provisions of Section 1897 of the Political Code, had filed the Military Roll of 1914.

**REPORT OF ASSESSOR ON ASSESSMENT ROLL OF 1914-1915.**

Thereupon, the following communication was read by the clerk: City and County of San Francisco. Assessor's Office.

July 6, 1914.

Honorable Board of Supervisors, San Francisco, Cal.—  
Gentlemen:

I have this day delivered to the clerk of your Board the assessment rolls of the City and County of San Francisco, to-wit: 42 volumes of assessments of real estate and personal property secured by real estate; 18 volumes of assessment of unsecured personal property and 4 volumes of indexes.

The assessment of property for city taxation is as follows:

On land .....	\$304,661,024
Improvements .....	165,556,757
Personal property .....	71,393,672
<b>Total .....</b>	<b>\$541,611,453</b>

This is an increase over last year's assessment of \$763,849 on land; \$8,177,780 on improvements and \$6,425,401 on personal property; total increase, \$15,367,030.

As will be seen, land pays 56.25 per cent of the total tax; improvements 30.57 per cent, and personal property 13.18 per cent.

The increase on lands has been almost entirely confined to acreage tracts that have been subdivided, and where new improvements have in-

creased values, as evidenced by frequent sales.

The assessment of personal property is conceded by all tax experts to be the most complicated and difficult of an Assessor's duties. It calls for a wide experience in business affairs and a thorough knowledge of the courts' interpretation of the technicalities of taxation laws. There are twenty-four sections of taxation laws in the State Constitution; ninety-six sections in the general laws and two hundred and forty sections in the Political Code. The Supreme Court of the State of California has rendered 1320 decisions interpreting these laws, and the Appellate Court 150 decisions; the majority of them are on personal property assessments.

The large increase in assessment of personal property has made it possible to reduce the tax rate two cents from figures arrived at on the basis of estimates of the total rolls on June 1st. Since that time \$3,367,992 of impounded money in the courts was discovered, and the newly discovered assessable personal property last year and this year, due to a study of the laws and close investigation, is equivalent to \$220,000 additional taxes collected last year and to be collected this year. As the total expense of this office is only \$101,200 per year, and has not been increased since 1900, it might be stated that the expenses of this office for the last two years have not cost the taxpayers a cent, as extra diligence in the work has resulted in the increase of the city's income from taxation of over \$200,000.

I have collected since March 3d of this year in personal property taxes on unsecured personal property assessments and poll taxes \$1,054,243.27, which is \$300,000 more than was collected in 1912.

The assessment of operative property for 1914, taxed exclusively for State purposes, is \$105,088,612, an increase of \$7,488,419 over that of 1913. Total assessed value of all property in San Francisco, \$646,700,065, an increase over 1913 of \$22,855,449.

Respectfully submitted,  
JOHN GINTY, Assessor.

**PROCEEDINGS OF THE BOARD OF EQUALIZATION.**

The Board then proceeded to and examined the assessment roll as received from the Assessor and the military roll as received from the Tax Collector.

Adopted.

Whereupon, the following resolutions were introduced and *adopted* by the following vote:

**Fixing Date of Meeting of Board of Equalization.**

Resolved, That this Board shall meet on Thursday, July 9, 1914, at 2 o'clock p. m., as a Board of Equalization, to examine applicants for reduction of assessments who have filed sworn applications as required by law, and to perform such other duties as may come before said Board.

**Rule for Notification.**

Resolution No. — (New Series), as follows:

Adopting a rule as to the manner in which persons, firms, companies and corporations are to be notified why their assessments for the fiscal year 1914-15 should not be increased by the Board of Supervisors sitting as a Board of Equalization.

Resolved, That it is hereby adopted as a rule of this Board that the notice required to be given under the provisions of Section 3673 of the Political Code to corporations or persons to show cause why their assessments on the assessment book of real and personal property for the fiscal year 1914-15 shall not be increased, will be as follows:

To corporations: A written or printed notice addressed to the president, secretary or managing agent of each corporation, and delivered by the

sergeant at arms of this Board at the office of each corporation in this city.

To persons, firms or companies: A written or printed notice, postage prepaid and mailed to their address.

The clerk is hereby directed to be caused to be delivered or mailed to the several corporations, persons, firms or companies, when designated by this Board, the said notice at least twelve (12) hours prior to the time set for hearing said parties as aforesaid.

**Sessions of the Board of Equalization.**

Resolution No. — (New Series), as follows:

Resolved, That the Board of Supervisors, having met on this (Monday) afternoon, July 6, 1914, and examined the Assessment Books of Real and Personal property for the year 1914, will thereafter be in session as a Board of Equalization from time to time until Monday, July 20, 1914, at 12 o'clock noon, for the purpose of hearing applications, verified by oath, for the correction of assessments on said assessment books.

**ADJOURNMENT.**

There being no further business the Board at the hour of 5:20 p. m. adjourned.

J. S. DUNNIGAN,  
Clerk.

Approved by the Board of Supervisors July 13, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

#### Amending Tunnel Procedure Ordinance.

Bill No. 3106, Ordinance No. — (New Series), entitled, "Amending Section 22 of Ordinance No. 2186 (New Series), known as 'The Tunnel Procedure Ordinance'."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 22 of Ordinance No. 2186, known as "The Tunnel Procedure Ordinance" is hereby amended

so that said Section 22 shall read as follows:

Section 22. The said funds collected by the Tax Collector under the proceedings herein provided for, either upon voluntary payment or as the result of sales, shall be paid by said Tax Collector to the Treasurer of the City and County, who shall enter the same in a special fund to be appropriately designated by reference to the proceeding, and shall be paid out only for purposes provided for in this ordinance. Moneys paid for interest shall be kept in an "interest account" and used exclusively for payment of interest. Whenever there shall be a surplus in said "interest account" which shall not be required for the payment of interest on the certificates issued pursuant to Section 25 of this ordinance the Board of Supervisors may, by resolution, order said surplus, or any part thereof, transferred to said special fund, which sum so transferred may be paid out for any of the purposes provided in this ordinance.

Section 2. This ordinance shall take effect immediately.

#### Remission of Penalties Twin Peaks Tunnel Assessments.

Resolution No. — (New Series), as follows:

Whereas, In the matter of the construction of the Twin Peaks Ridge tunnel an assessment was levied upon the property belonging to Charles F. Schultz in the sum of \$67.50, said assessment being numbered 11595; and

Whereas, An assessment in the same matter was levied against the property belonging to Florence A. Brown in the sum of \$105.98, said assessment being numbered 495; and

Whereas, In the same matter an assessment was levied against property belonging to Cora Twombly in the sum of \$88, said assessment being numbered 327; and

Whereas, In the same manner an assessment was levied against property belonging to F. V. O'Gorman in the sum of \$202.50, said assessment being numbered 11515; and

Whereas, said assessments were not paid within the time provided by the Tunnel Procedure Ordinance and the proceedings taken and had thereunder in the matter of the construction of the Twin Peaks Ridge tunnel; and

Whereas, Pursuant to said tunnel procedure ordinance there was added to each of said assessments the sum of 25 cents to defer advertising expenses; and

Whereas, The Tax Collector did, pursuant to the provisions of said tunnel procedure ordinance, sell the various parcels of property belonging to the aforesaid mentioned persons, and against which said assessments:

were levied, to the City and County of San Francisco; and

Whereas, It appears that the persons above mentioned had no knowledge of the levying of said assessments against said properties by reason of the fact that said parties were absent from the City and County of San Francisco; and

Whereas, Said tunnel procedure ordinance provides that a penalty of 25 per cent of the amount of the assessments shall be added to said assessments before said parties may redeem said properties so sold pursuant to the provisions of said tunnel procedure ordinance; and

Whereas, It appears to the Board of Supervisors that said infliction of said penalties would be an unjust hardship upon said parties by reason of the facts recited above; and

Whereas, The City Attorney does recommend that said penalties be remitted; now therefore be it

Resolved, That said penalties of 25 per cent of the amount of said assessments be remitted upon condition that said parties forthwith pay in cash the total amount of their respective assessments, that is to say, the amount assessed against their respective properties plus 25 cents on each assessment added to said assessment to defer advertising charges.

## BOARD OF SUPERVISORS

MONDAY, JULY 13, 1914.

In Board of Supervisors, San Francisco, Monday, July 13, 1914, at 2 p. m.

The Board of Supervisors met in regular session.

### CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Deasy, Gallagher, Hocks, Jennings, Kortick, McCarthy, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—12.

Quorum present.

His Honor Mayor Rolph presiding.

### READING THE JOURNAL.

The Journal of the meeting of July 6, 1914, was read and approved.

### ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matter was presented and read by the Clerk:

#### Sewer in Liberty Street.

*Communication*—From Wm. L. Mulrenin and others, requesting installation of sewer in Liberty street, between Sanchez and Noe streets.

*Referred to Streets Committee.*

### REPORTS OF COMMITTEES.

The following Committees, by their respective chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Fire Committee, by Supervisor McLeran, chairman.

Health Committee, by Supervisor Walsh, chairman.

Streets Committee, by Supervisor McCarthy, chairman.

Prohibiting Use of Profane Language Over Telephone.

Consideration of Telephone Rates Committee's report, submitting ordinance prohibiting use of profane or obscene language by persons engaged in telephonic conversations, laid over from last meeting, was taken up and the following bill was *passed for printing*:

Bill No. 3112, Ordinance No. — (New Series), entitled, "Prohibiting the use of profane or obscene language by persons engaged in telephone conversations."

### SPECIAL ORDER, 3:00 P. M.

#### Liberty Street.

The hearing of appeal of M. F. Schaltenbrandt, M. D., from decision of Board of Public Works in overruling his protest against improvement of Liberty street, between Sanchez and Noe streets, was taken up.

#### Privilege of the Floor.

*Otto tum Suden*, attorney, representing M. F. Schaltenbrandt, M. D., was granted the privilege of the floor. He protested that his client's property would be seriously damaged by the proposed change of grade, and unless provision for adequate compensation was made before ordering the work his client would seek an injunction in the courts.

*Mrs. M. O'Neill*, property owner, protested against the proposed grading of Liberty street for the reason that she was unable to pay for it at this time. Owing to the pressmen's strike, she has been idle for many months, the property is heavily mortgaged, and any additional burden will result in foreclosure.

Messrs. Clark, Lang and Fitzwater declared that the neighborhood was dangerous to health by reason of lack of sewer, and that the only way a sewer could be installed was by grading the street first. They urged that work be permitted to proceed.

#### Adopted.

Whereupon, the following resolution was introduced by Supervisor McCarthy and *adopted* by the following vote:

Denial of Appeal of M. F. Schaltenbrandt, M. D.

Resolution No. 11040 (New Series), as follows:

Resolved, That the appeal of M. F. Schaltenbrandt, M. D., from the decision of the Board of Public Works in overruling the protest filed against the improvement of Liberty street, between Noe and Sanchez streets, as set forth in Resolution of Intention, No.

30190 (Second Series), of the Board of Public Works, be and the same is hereby denied.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—15.

#### Action Deferred.

Whereupon, the following Bill, was on motion of Supervisor McCarthy, laid over for ninety days:

Bill No. 3119, Ordinance No. — (New Series), entitled, "Ordering the improvement of Liberty street." Invitation to Participate in Exposition

#### Automobile Parade.

M. DeBille, representing the Exposition Company, was granted the privilege of the floor and addressed the Board. He invited the members and his Honor the Mayor to head the Exposition automobile parade starting from the north side of The Embarcadero on Wednesday, July 15, 1914, at 12:45 p. m.

Invitation accepted with thanks.

#### Amending Tunnel Procedure Ordinance.

Bill No. 3106, Ordinance No. 2827 (New Series), entitled, "Amending Section 22 of Ordinance No. 2186 (New Series), known as 'The Tunnel Procedure Ordinance'."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 22 of Ordinance No. 2186, known as "The Tunnel Procedure Ordinance" is hereby amended so that said Section 22 shall read as follows:

Section 22. The said funds collected by the Tax Collector under the proceedings herein provided for, either upon voluntary payment or as the result of sales, shall be paid by said Tax

Collector to the Treasurer of the City and County, who shall enter the same in a special fund to be appropriately designated by reference to the proceeding, and shall be paid out only for purposes provided for in this ordinance. Moneys paid for interest shall be kept in an "interest account" and used exclusively for payment of interest. Whenever there shall be a surplus in said "interest account" which shall not be required for the payment of interest on the certificates issued pursuant to Section 25 of this ordinance the Board of Supervisors may, by resolution, order said surplus, or any part thereof, transferred to said special fund, which sum so transferred may be paid out for any of the purposes provided in this ordinance.

Section 2. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh —15.

#### Remission of Penalties Twin Peaks Tunnel Assessments.

Resolution No. 11027 (New Series), as follows:

Whereas, in the matter of the construction of the Twin Peaks Ridge tunnel an assessment was levied upon the property belonging to Charles F. Schultz in the sum of \$67.50, said assessment being numbered 11595; and

Whereas, an assessment in the same matter was levied against the property belonging to Florence A. Brown in the sum of \$105.98, said assessment being numbered 495; and

Whereas, in the same matter an assessment was levied against property belonging to Cora Twombly in the sum of \$38, said assessment being numbered 327; and

Whereas, in the same matter an assessment was levied against property belonging to F. V. O'Gorman in the sum of \$202.50, said assessment being numbered 11515; and

Whereas, said assessments were not paid within the time provided by the Tunnel Procedure Ordinance and the proceedings taken and had thereunder in the matter of the construction of the Twin Peaks Ridge tunnel; and

Whereas, pursuant to said tunnel procedure ordinance there was added to each of said assessments the sum of 25 cents to defer advertising expenses; and

Whereas, the Tax Collector did, pursuant to the provisions of said tunnel procedure ordinance, sell the various parcels of property belonging to the aforesaid mentioned persons, and against which said assessments

were levied, to the City and County of San Francisco; and

Whereas, it appears that the persons above mentioned had no knowledge of the levying of said assessments against said properties by reason of the fact that said parties were absent from the City and County of San Francisco; and

Whereas, said tunnel procedure ordinance provides that a penalty of 25 per cent of the amount of the assessments shall be added to said assessments before said parties may redeem said properties so sold pursuant to the provisions of said tunnel procedure ordinance; and

Whereas, it appears to the Board of Supervisors that said infliction of said penalties would be an unjust hardship upon said parties by reason of the facts recited above; and

Whereas, The City Attorney does recommend that said penalties be remitted; now therefore, be it

Resolved, That said penalties of 25 per cent of the amount of said assessments be remitted upon condition that said parties forthwith pay in cash the total amount of their respective assessments, that is to say, the amount assessed against their respective properties plus 25 cents on each assessment added to said assessments to defer advertising charges.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh —15.

#### Action Deferred.

The following resolution heretofore passed for printing was taken up and on motion *laid over one week*:

Providing \$5,000 for Lighting Arches on Mission Street.

Resolution No. — (New Series), as follows:

Resolved, That the sum of five thousand dollars be and the same is hereby set aside, appropriated and authorized to be expended out of the appropriation in the budget for the fiscal year 1913-1914, for "Lighting Streets and Public Buildings," for the purpose of lighting arches on Mission street, between Sixteenth and Twenty-fourth streets, that are proposed to be erected by property owners.

#### Final Passage.

**United Railroads to Operate Over Kentucky Street Viaduct.**

Resolution No. 11029 (New Series), follows:

Whereas, Under the provisions of Order No. 2469, the United Railroads of San Francisco is operating a street railway line over and along Kentucky street, between Eighteenth street and Fourth street; and

Whereas, The Southern Pacific Company, under the provisions of Ordinance No. 1095, has erected a viaduct along Kentucky street, between Alameda and Mariposa streets, over which street railroad traffic can be safely and properly operated; and

Whereas, It will greatly conduce to the safety and rapidity and eliminate the existing delay and dangers due to grade crossings of numerous steam railroad tracks if said Kentucky street railroad line is operated over said viaduct instead of along the surface of the street and over said grade crossings.

Now, therefore, be it Resolved, That the United Railroads of San Francisco is hereby authorized and directed to remove its tracks, poles and wires from its present position on Kentucky street and relay and erect the same upon and over said viaduct, and as soon as said removal is effected to operate said street railroad line over said viaduct instead of on the street grade as at present.

Provided, that nothing in this Resolution contained, nor compliance with its provisions, shall be construed as in any way affecting any franchise rights on Kentucky street which the United Railroads of San Francisco may possess at the date of this order.

Resolved, That Flinn & Treacy are hereby granted the following extensions of time to complete street work, to-wit:

Fifteen days' time from and after July 1, 1914, within which to complete the contract for the improvement of the crossing of Twenty-first and Noe streets. This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the grading has been done and curbs have been set.

Fifteen days' time from and after July 1, 1914, within which to complete the contract for the improvement of Poplar alley, between Twenty-fourth and Twenty-fifth streets. This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the curbs and concrete foundation for pavement have been laid and petitioners have started on the covering. June 25, 1914.

Fifteen days' time from and after July 1, 1914, within which to complete the contract for the intersection of Twenty-first and Quane streets. This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the work has not been started, owing to the difficulty in obtaining the curb, which has to be cut specially.

#### Intention to Change Grades.

Resolution No. 11036 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works filed June 26, 1914, to-wit:

On Ripley street, between Alabama street and Peralta avenue.

On Peralta avenue, between Rutledge street and a point 180 feet southerly from Ripley street.

On Somerset street, between Peralta avenue and a point 105 feet northwesterly from Franconia street.

On Cabot street, between Peralta avenue and Franconia street.

The Board of Supervisors hereby declares that no assessment district is necessary as no damage will result from said change of grades, inasmuch as the streets are ungraded and there are no existing improvements.

In the preparation of plans for a sewer in this block it was found that the present official grade did not in any respect conform to the ground.

There are many improvements fronting on Ripley street which would be damaged by grading to grade.

There will be no damage caused by this proposed change of grade so there will be no need of an assessment district.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Closing and Abandoning Corbett Avenue in Part, as Described in Resolution of Intention No. 10875, New Series.

Also, Resolution No. 11037 (New Series), as follows:

Whereas, this Board of Supervisors, by Resolution No. 10875 (New Series), declared its intention to close and abandon Corbett avenue in part, as described in Resolution of Intention No. 10875 (New Series); and

Whereas, the notice of said resolution and of said proposed closing up of said portion of Corbett avenue, as described in Resolution of Intention No. 10875 (New Series), was duly given by the Board of Public Works of this City and County by publication and posting in the manner provided by Section 3 of Chapter 3 of Article VI of the Charter of this City and County; and

Whereas, more than ten days have elapsed since the expiration of the time of publication of said notice; and

Whereas, no objection or protest has been made to the closing up and abandonment of said portion of Corbett avenue, described in Resolution of Intention No. 10875 (New Series), as provided in the Charter, or otherwise, or at all; and,

Whereas, it is the opinion of this Board that the public interest and convenience require the closing up and abandonment of said portion of Corbett avenue as described in Reso-

lution of Intention No. 10875 (New Series); and

Whereas, said work is for closing up said portion of said street and it appears that no assessment is necessary therefor; now, therefore, be it

Resolved, That the said closing up and abandonment of said portion of Corbett avenue, as described in Resolution of Intention No. 10875 (New Series), is hereby ordered, and said portion of Corbett avenue, as described in Resolution of Intention No. 10875 (New Series), is hereby closed and abandoned as a public street.

Relative to "Fighting the Flames" Permit.

Supervisor Nolan presented:

Resolution No. — (New Series), as follows:

Resolved, That permission is hereby granted to the owners or their lessees to build, maintain and operate an amusement enterprise known as "Fighting the Flames" on the vacant lot bounded by Van Ness avenue, Grove, Franklin and Hayes streets, from August 4, 1914, to December 4, 1915, under the following conditions, to-wit:

The grandstand to be well and suitably constructed of wood, and in a thoroughly workmanlike manner, from plans approved by the Board of Public Works, and to be adequately provided with aisles and exits. The said lot to be surrounded by a 20-foot board fence on which lithographic paper can be posted; that in conjunction with said performance the grantees are hereby allowed to operate amusement and selling concessions in booths and buildings, all of which will be built and decorated in a substantial manner satisfactory to the Board of

Public Works and in conformity with the general architectural scheme of the structure, and that these concessions are to be unobjectionable, clean and moral in every way and to consist of only the regular regulation concessions as are operated at indoor and outdoor exhibitions and carnivals, such as soft drinks, peanuts and popcorn, candies, cane and knife racks, ball-throwing games, rides, freaks (not repulsive or objectionable), ice cream, souvenirs, games of skill; that no intoxicating liquor is to be sold or offered for sale on the grounds; that the amusements and concessions are not to be operated except between the hours of 8 a. m. and 12 o'clock midnight, and are all to be conducted in an orderly and legitimate manner under the supervision of the Police Committee of the Board of Supervisors and the Police Department of San Francisco; that a license fee of \$— per annum be charged, payable quarterly in advance, for operating the "Fighting the Flames" and a license fee of \$— per quarter be charged for each and every concession operated within said enclosure.

*Referred to the Police Committee.*

Relative to Extension of Dance Privileges in Cafes and Restaurants.

Supervisor Deasy presented:

J. R. No. —.

Whereas, A great number of our citizens enjoy the pleasure of dancing, and

Whereas, Dancing is an enjoyable and healthful amusement when indulged in under proper supervision and regulation, and

Whereas, Some of our prominent cafes and restaurants have been granted permission to have dancing in their places of business, therefore be it

Resolved, That we hereby declare it to be the sense of this Board that the citizens of our city should not be restrained from enjoying such pleasure, and we therefore recommend to the Board of Police Commissioners of this city and county that permission be granted to restaurants and cafes, other than those located in the residential districts and those located on Pacific street in that section of the city commonly known as the "Barbary Coast," to have dancing in their respective places during evenings under such regulations as said Board of Police Commissioners may deem necessary and advisable to make.

Motion.

*Supervisor Bancroft* moved reference to Police Committee for the purpose of wording resolution in satisfactory manner.

Motion *carried*.

City Engineer's Report on the George Plan.

The following report was presented and read by the Clerk:

July 20, 1914.

Board of Supervisors, City and County of San Francisco.  
Gentlemen:

During a discussion of the most advisable manner of providing for the construction of the Church street extension of the Municipal Railway system between Eighteenth and Twenty-second streets, on June 29th, Mr. George suggested that the problem of providing a suitable grade might be solved by regrading Church street, between Dorland street and 45 feet south of Twenty-first street. Your Board thereupon requested the City Engineer to make an estimate of the cost of improving Church street in this way and to have the same ready to submit to your Board on July 20th.

The following estimate has been made in accordance with that request. Mr. George's plans contemplate:

Raising the grade of Eighteenth and Church streets 8 feet.

Raising the grade at the south line of Hancock street 1.26 feet.

Lowering the grade at the north line of Nineteenth street 4 feet.

Leaving the grade from the south line of Nineteenth street to the center line of Cumberland street as it is at present.

Raising the grade at the north line of Twentieth street  $12\frac{1}{2}$  feet and at the south line 17 feet.

Leaving the grade at the north line of Liberty street as it is and raising the grade at the south line of Liberty street 5 feet.

Lowering the grade at the north side of Twenty-first street 10 feet and lowering the grade at the south line of Twenty-first street 5 feet, and leaving the grade 45 feet south of Twenty-first street as it is.

By regrading the street we would then have the following grades:

Dorland to Eighteenth streets, 4.7%.

Eighteenth to north line of Nineteenth streets, 12.1%.

Crossing at Nineteenth street, 7.3%.

South line of Nineteenth street to center line of Cumberland street, 61.6%.

Center line of Cumberland street to north line of Twentieth street, 6%.

Crossing at Twentieth street, 7.8%.

South line of Twentieth street to north line of Liberty street, 11.9%.

Crossing of Liberty street, 7.8%.

South line of Liberty street to north line of Twenty-first street, 7.8%.

South line of Twenty-first street to 45 feet south of Twenty-first street, 0%.

45 feet south of Twenty-first street, 11.15%.

These changes of grade would involve the following changes in the east and west streets crossing Church street:

Eighteenth street to be regraded for 280 feet east and west of Church street, making the grade on the west side of Church street 1.8% and on the east side 1.9%.

Hancock street to be regraded for 100 feet west of Church street, making the new grade 4.4%.

Nineteenth street to be regraded for 150 feet east and west of Church street, making the new grade 10.28% east of Church street and 8.4% west of Church street.

Cumberland street would not be changed.

Twentieth street would be regraded for 100 feet east and west of Church street, making the new grade east of Church street 7.2% and west of Church street 13%.

Liberty street would be regraded for 100 feet east and west of Church

street, making the new grade east of Church street 7.05% and west of Church street 16.9%.

Twenty-first street would be regraded for a distance of 280 feet west of Church street and 250 feet east of Church street, making the new grade east of Church street 6.73% and west of Church street 21.2%.

The total cost of grading the street, including the cost of replacing paving, curbs, sidewalks and sewers, and putting the abutting property in the same condition as regards the street as its present condition, is estimated at \$200,099.

Respectfully yours,

M. M. O'SHAUGHNESSY,  
City Engineer.

#### Privilege of the Floor.

*Kenneth McLeod*, representing the Church Street Municipal Railway Non-Assessment League, was granted the privilege of the floor and addressed the Board. He submitted a new plan for a combination cable and electric road over Church street without any change in the grade. He declared that the road could be constructed for \$41,410 less than original estimate and nobody's property would be injured.

*Mrs. Walsh* also addressed the Board. She opposed any plan that would necessitate the building of the road through private property.

*Mr. Ungerman*, representing the Mission Heights Improvement Association, recommended the elimination of plans Nos. 3 and 5 and the adoption of plan No. 4, recommended by the City Engineer's office as the only feasible plan for overcoming steep grades on Church street in the construction of the Municipal Railway over said street.

#### Motion.

*Supervisor Power* moved that plan submitted by Mr. McLeod be submitted to the City Engineer for report and that matter be taken up for a final decision on September 7, 1914, at 3 p. m.

*So ordered.*

#### UNFINISHED BUSINESS.

Adopted.

The following Resolutions were adopted:

**Transfer of Funds, Stockton Street Tunnel Account.**

On motion of Supervisor Jennings: Resolution No. 11049 (New Series), as follows:

Whereas, There is a surplus in the "Interest Account" of the Stockton Street Tunnel Assessment Fund which shall not be required for the payment of interest on the certificates issued pursuant to section 25 of the tunnel procedure ordinance which surplus at the present time amounts to \$18,000; and

Whereas, Said surplus of \$18,000 can be safely transferred to the Special Fund and be paid out for the purposes provided in the tunnel procedure ordinance; now therefore be it

Resolved, In pursuance of Section 22 of the Tunnel Procedure Ordinance, as amended by Ordinance No. 2327 (New Series), approved July 15, 1914, that the sum of \$15,000 be transferred from the "Interest Account" of the Stockton Street Tunnel Assessment Fund to the General Fund of said Tunnel Fund to be used for the purposes of paying any sums of money due the contractor having the contract for the construction of the Stockton street tunnel, and be it further

Resolved, That the sum of \$3,000 be transferred from said "Interest Account" to the General Fund of said Stockton Street Tunnel Assessment Fund to be used for engineering and inspection expenses in the matter of the construction of the said Stockton street tunnel.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—14.

**Recorder to Cancel Certificates of Sale of Property Sold to State.**

On motion of Supervisor Jennings: J. R. No. 1354.

Whereas, The property hereinafter described was erroneously sold for delinquent taxes for the year 1913-14, and certificate of sale No. 712 issued and recorded therefor; and

Whereas, Such taxes were actually paid; therefore,

Resolved, That the Recorder be and is directed to cancel said certificate of sale of the following described property:

Lot southeast line of Brunswick street, 208 feet northeast from Lowell street; thence southeast 213 feet by 29 feet; Vol. 49, page 173, Sub. 121¼, assessed to Mary Brady.

**Providing for Increase of "Dollar Limit."**

On motion of Supervisor Jennings: J. R. No. 1355.

Whereas, The appropriations required for the support of the city and county for the ensuing fiscal year as set forth in the budget adopted by this Board aggregate the sum of more than \$14,900,000, of which more than \$12,000,000 must be raised by taxation, and that for many years to come it will be impossible to conduct the affairs of the city and county with an expenditure that will be materially less than that heretofore appropriated; and

Whereas, The so-called "dollar limit" imposed by the charter will be necessarily exceeded this year, and will doubtless be exceeded for many years hereafter; and

Whereas, This Board is informed and believes that property is assessed for purposes of taxation at about fifty per cent of its real value; and

Whereas, The means that will secure the necessary revenue in the future for the support of the city and county is by amendment to the charter that will permit an adequate sum to be

raised by taxation, or in the event that such amendment fails of ratification by the voters, by the assessment of all property for the purposes of taxation at its full cash value; therefore,

Resolved, That the Finance Committee be directed to prepare a proposed amendment to the Charter that will provide for the modification of the so-called "dollar limit" that will authorize the collection of a tax that will be adequate to meet the necessary expenses of the city and county government; also,

Resolved, That in the event of the failure of the adoption of the Charter amendment the only alternative will be to request the Assessor to make such increases as may be necessary to make the assessment conform to the true value of the property assessed, and in the event of the failure of the Assessor to make such assessment the Board of Supervisors, as a Board of Equalization, will be compelled to consider the necessity of making such raises of the entire roll to the full value of the property as may be necessary for the conduct of the city within the prescribed "dollar limit."

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—14.

#### Licensing Dance Halls.

Bill No. —, Ordinance No. — (New Series), as follows:

Imposing a license on owners, lessees, keepers or conductors of public dance halls and ball rooms, and regulating the conducting thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. *Definitions.* The term "dance," for the purpose of this ordinance, shall include:

Every dance not held in a private home or residence.

Any class in which instruction in dancing is given for hire.

The term "dance hall" shall mean any hall, room, pavilion or place in which a dance, as above defined, is to be held.

Section 2. For the purposes of this ordinance dances, as herein defined, shall be classified in divisions as follows:

Division "A" shall include: (1) all dances for bona fide social character to which admission is limited strictly on invitation of the person, organization, society or corporation, acting as host and for which no fee, either by way of admission or in any other manner is charged; (2) classes in which instruction in dancing is given for hire.

Division "B" shall include any dance given by any bona fide fraternal, charitable, religious or benevolent organization having a regular membership associated primarily for mutual social, physical and mental welfare, to which admission is limited to members and guests, but for which a fee is charged and the revenue accruing to such organization.

Division "C" includes all dances for which admission is or is not charged and to which the public is promiscuously invited, and all other dances within the scope of this ordinance not classified in Divisions "A" and "B".

Section 3. Every person, firm, corporation, association or club who owns, leases, maintains, conducts or keeps a dance hall, as in Section 1 described, shall pay a license as follows, to-wit:

Dances included in Division "A", as above specified, no license fee.

Dances included in Division "B", as above defined, two (2) dollars per night, or twenty-five (25) dollars per quarter.

Dances included in Division "C", as above defined, two and one-half (2.50) dollars per night or fifty (50) dollars per quarter.

Section 4. The Tax Collector shall not issue any license for dances included in Division "C" unless the person, firm, corporation, association or club applying therefor has first obtained a permit to conduct said dance from the Police Committee of the Board of Supervisors.

Section 5. It shall be unlawful after 10 o'clock p. m. to permit any person to attend or take part in public dances who has not reached the age of eighteen (18) years, unless such person be in company with a parent or natural guardian or guardian designated by the parent of such child.

Section 6. Any person violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not exceeding five hundred (500) dollars, or by imprisonment in the County Jail not exceeding six (6) months, or by both such fine and imprisonment.

Section 7. Ordinance No. 754 is hereby repealed.

Section 8. This Ordinance shall take effect immediately.

**Extensions of Time.**

On motion of Supervisor McCarthy: Resolution No. 11050 (New Series), as follows:

Resolved, That Church & Clark are hereby granted an extension of 15 days' time from and after July 4, 1914, within which to complete the

contract for the paving of Bosworth street beneath the Southern Pacific Company's viaduct, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the work is nearly completed, there remaining a portion of the asphalt covering to be done.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—14.

Also, Resolution No. 11051 (New Series), as follows:

Resolved, That Raisch Improvement Company is hereby granted an extension of 60 days' time from and after July 30, 1914, within which to complete contract for the curbing and paving of Seventh avenue, between Kirkham and Lawton streets.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that there has been some question of the validity of the assessment, which is to be issued for the work, and the matter has only recently been settled.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—14.

**Extension and Widening of Diamond Street.**

On motion of Supervisor McCarthy: Resolution No. 11052 (New Series), as follows:

Whereas, on the 20th day of April, 1914, the Board of Supervisors of the City and County of San Francisco duly and regularly and finally adopted Resolution No. 10835 (New Series), which resolution was on the 23rd day of April, 1914, regularly and duly approved by the Mayor of the City and County of San Francisco, and which said resolution declared the intention of the Board of Supervisors of the City and County of San Francisco to order an extension of Diamond street as therein specified; and

Whereas, the Clerk of the Board of

Supervisors did transmit to the Board of Public Works of the City and County of San Francisco a certified copy of said Resolution No. 10835 (New Series), and the said Board of Public Works did, upon receipt of said resolution, cause to be passed in the manner and as required by law notices of the passage of said resolution, and did also cause in the manner and as required by law a notice similar in substance to be published for a period of ten days in the official newspaper of the City and County of San Francisco; and

Whereas, no person or persons within the time limited by law or otherwise, or at all, objected to said work and improvement, nor did any person or persons within the time limited by law or otherwise, or at all, make written objections to the same; and

Whereas, the public interest and convenience requires said improvement to be done as specifically described in said Resolution No. 10835 (New Series); and

Whereas, the Supervisors have acquired jurisdiction to order that Diamond street be extended as follows: That said Diamond street be extended northerly and opened to a uniform width of 60 feet from a point 125.48 feet, more or less, northerly from the northerly line of Berkshire street, to the southerly line of Wilder street, as said streets are laid out and delineated on the map of Fairmount Extension Homestead, recorded August 2, 1872, in Book of Maps C & D, at page 93, in the Recorder's office of the City and County of San Francisco, State of California; be it

Resolved, That the lands and property described in said Resolution No. 10835 (New Series) and declared to be deemed necessary to be taken for the said extension of said street, be taken for said extension; and, be it further

Resolved, That the damages, costs and expenses of said extension are nominal and no assessment district is necessary to be formed for the purposes of paying the damages, costs and expenses thereof and the Board of Supervisors hereby declares and determines that the whole damage, cost and expense of such extension shall be paid out of the revenues of the City and County of San Francisco; and, be it further

Resolved, That the said extension of Diamond street, as provided for in Resolution No. 10835 (New Series), be done in pursuance of Chapter III, Article VI, of the Charter of the City and County of San Francisco and in the manner laid down in and in accordance with the provisions of Sec-

tion 2 and the sections following Section 2 of said Chapter III, Article VI, of said Charter.

**Accepting Offer of Julian H. Biddle to Sell Certain Land for Boulevard Purposes.**

Resolution No. 11054 (New Series), as follows:

Whereas, an offer has been received from Julian H. Biddle to convey to the City and County of San Francisco certain land under condemnation for boulevard purposes in the Bakers Beach Land Company's tract upon certain conditions expressed in said offer, to-wit: (1) That the following described portion of Thirty-second avenue adjoining the property of said Julian H. Biddle, and which portion is without the lines of said boulevard as surveyed by the City Engineer, be closed as a public street, a more particular description of the portion of

the said street to be closed being as follows:

Commencing at a point on the southerly line of Thirty-second avenue 2.25 feet southeasterly from the northwesterly corner of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; running thence along said southerly line of Thirty-second avenue on a curve with a radius of 29.5 feet, 30 feet  $2\frac{1}{8}$  inches to a point on said southerly line of Thirty-second avenue, distant thereon 6 feet  $7\frac{1}{2}$  inches westerly from the northeasterly corner of said Lot No. 9; running thence northwesterly into Thirty-second avenue (on the prolongation of a straight line drawn from a point on the boundary line between Lots Nos. 8 and 9 of said subdivision, said point being located 12.387 feet southeasterly on said boundary line from the northeasterly corner of Lot No. 9 to a point on the southerly line of Thirty-second avenue, located 6 feet  $7\frac{1}{2}$  inches westerly thereon from the northeasterly corner of Lot No. 9, as aforesaid) 14.14x feet to a point; thence continuing northwesterly on a curve to the left with a radius of 19.916 feet, 14.541x feet to the point of commencement; being a portion of the public street delineated on said map of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company, as Thirty-second avenue;

(2) That a quit-claim deed be obtained from the Bakers Beach Land Company, or its trustees, releasing unto said Julian H. Biddle any claim for the reversion to the said portion of said street; (3) The payment of fifty (50) dollars gold coin of the United States.

And Whereas, the Bakers Beach Land Company and its trustees have agreed to execute and deliver said quit-claim deed.

And Whereas, the value of the land contained in said portion of Thirty-second avenue, plus the sum of fifty (50) dollars to be paid as aforesaid, does not exceed the appraised value of the property to be conveyed by said Julian H. Biddle, as aforesaid; now therefore, be it

Resolved. That the said offer of Julian H. Biddle to convey said property to the City and County of San Francisco be accepted in accordance with the terms thereof, said land to be so conveyed being described as follows:

Commencing at a point on the southerly line of Thirty-second avenue, said point being the northeasterly corner of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; thence westerly on a curve with a radius of

38 feet, and along the southerly line of Thirty-second avenue for a distance of 5.146 feet to a point; thence westerly on a curve with a radius of 29.5 feet, and along the southerly line of Thirty-second avenue for a distance of 1.484 feet to a point; thence southeasterly 15.966 feet to a point on the dividing line between Lots Nos. 8 and 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; and 12.307 feet southeasterly from the northeasterly corner of aforesaid Lot No. 9; thence northwesterly along the dividing line between aforesaid Lots Nos. 8 and 9, 12.307 feet to the northeasterly corner of aforesaid Lot No. 9 and point of commencement; being a part of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; also that fractional triangle at the northwest corner of Lot No. 9, described as follows, to-wit:

Commencing at the northwesterly corner of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company, running thence southerly along the dividing line between Lots 9 and 10, 1.75 feet, more or less, to a point; thence on a curve easterly with a radius of 118.52 feet to a point on the southerly line of Thirty-second avenue, distant 2.25 feet from said northwesterly corner of Lot No. 9; thence on a curve northwesterly with a radius of 29.5 feet to the point of commencement.

The City Attorney is hereby directed to examine the title to said land and if the same is found to be vested in said Julian H. Biddle, free of all encumbrances, as aforesaid, to cause to be delivered to the City and County of San Francisco a deed in fee absolute upon compliance by said City and County with the above expressed conditions of said offer.

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Jennings, Kortick, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—14.

The following matters were *passed for printing*:

Closing Portion of Thirty-second Avenue. Resolution No. — (New Series), as follows:

Whereas, by resolution heretofore duly adopted, this Board accepted the offer of Julian H. Biddle to convey to the City and County of San Francisco certain property situate in Bakers Beach Land Company's tract fronting on Thirty-second avenue for boulevard purposes;

And Whereas, it was a condition of said offer that the portion of Thirty-second avenue herein after described, which said portion will not be needed for the purposes of a public street

upon the completion of said boulevard, should be closed as a public street;

And Whereas, said portion of Thirty-second avenue to be closed as aforesaid is more particularly described as follows, to-wit:

Commencing at a point on the southerly line of Thirty-second avenue 2.25 feet southeasterly from the northwesterly corner of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; running thence along said southerly line of Thirty-second avenue on a curve with a radius of 29.5 feet, 30 feet  $2\frac{1}{8}$  inches to a point on said southerly line of Thirty-second avenue, distant thereon 6 feet  $7\frac{1}{2}$  inches westerly from the northeasterly corner of said Lot No. 9; running thence northwesterly into Thirty-second avenue (on the prolongation of a straight line drawn from a point on the boundary line between Lots Nos. 8 and 9 of said subdivision, said point being located 12.387 feet southeasterly on said boundary line from the northeasterly corner of Lot No. 9 to a point on the southerly line of Thirty-second avenue, located 6 feet  $7\frac{1}{2}$  inches westerly thereon from the northeasterly corner of Lot No. 9, as aforesaid) 14.14x feet to a point; thence continuing northwesterly on a curve to the left with a radius of 19.916 feet, 14.541x feet to the point of commencement; being a portion of the public street delineated on said map of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company, as Thirty-second avenue.

Now, therefore, be it Resolved, That the above described portion of Thirty-second avenue be and it is hereby forever closed as a public street and that the City and County of San Francisco, in consideration of the conveyance to be made, as in said offer provided, does hereby abandon said described portion of Thirty-second avenue and authorizes said Julian H. Biddle to take possession of the same as soon as said boulevard shall be constructed.

#### Wild West Show Permit.

On motion of Supervisor Hilmer:

Resolution No. — (New Series), as follows:

Resolved, That G. G. Briggs, Ambrose Walker and William Radcliff are hereby granted permission to hold an outdoor exhibition in the nature of breaking horses, fancy roping and shooting at Forty-eighth avenue and Fulton street, in the City and County of San Francisco, upon payment of the license fee required by Ordinance No. 69. This permit shall continue during the pleasure of the Board of

Supervisors, but in no event shall exceed six months from the date of the passage of this resolution.

#### "Fighting the Flames" Permit.

On motion of Supervisor Nolan:  
Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted to the owners or lessees of the property bounded by Van Ness avenue, Grove, Franklin and Hayes streets, to build, maintain and operate an amusement enterprise known as "Fighting the Flames" from August 4, 1914, to December 4, 1915, under the following conditions, to-wit:

The grand stand to be well and suitably constructed of wood, and in a thoroughly workmanlike manner, from plans approved by the Board of Public Works, and to be adequately provided with aisles and exits. That in conjunction with said performance the grantees are hereby allowed to operate amusement and selling concessions in booths and buildings, all of which will be built and decorated in a substantial manner, satisfactory to the Board of Public Works and in conformity with the general architectural scheme of the structure, and that these concessions are to be unobjectionable, clean and moral in every way and to consist of only the regular regulation concessions as are operated at indoor and outdoor expositions and carnivals, such as soft drinks, peanuts and popcorn, candies, cane and knife racks, ball-throwing games, rides, freaks (not repulsive or objectionable), ice cream, souvenirs, games of skill; that no intoxicating liquor is to be sold or offered for sale on the grounds; that the amusements and concessions are not to be operated except between the hours of 8 a. m. and 12 o'clock midnight, and are all to be conducted in an orderly and legitimate manner, under the supervision of the Police Committee of the Board of Supervisors and the Police Department of San Francisco; that a license fee of \$1000 per annum be charged, payable quarterly in advance, for operating the "Fighting the Flames", and a license fee of \$50 per quarter be charged for each and every concession operated within said enclosure.

# JOURNAL OF PROCEEDINGS BOARD OF SUPERVISORS

MONDAY, JULY 27, 1914.

In Board of Supervisors, San Francisco, Monday, July 27, 1914, at 2 p. m. The Board of Supervisors met in regular session.

## CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Murdock, Nolan, Payot, Suhr, Walsh—14.

Quorum present.

His Honor Mayor Rolph presiding.

## READING THE JOURNAL.

The Journal of the meeting of July 20, 1914, was read and approved.

## ROLL CALL FOR PÉTITIONS FROM MEMBERS.

The following matters were presented and read by the Clerk:

City Attorney to Confess Judgment in Action Involving Southerly End of Steuart Street.

*Communication*—From City Attorney, requesting permission to confess judgment in behalf of City in action brought by the State of California to property on Steuart street, between the southerly end thereof and the water front.

Read and ordered *filed*.

Impassable Crossings on Clay Street at Sacramento and Sansome Streets.

Supervisor Hayden presented:

*Communication* — From George Vranizan, calling attention to the impassable condition of the streets at the crossings of Clay and Sansome and Clay and Sacramento streets, and requesting that same be remedied.

*Referred to the Streets Committee.*

## REPORTS OF COMMITTEES.

The following committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Electricity Committee, by Supervisor Suhr, Chairman.

Fire Committee, by Supervisor McLeran, Chairman.

Public Buildings Committee, by Supervisor Bancroft, Chairman.

Health Committee, by Supervisor Walsh, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

## Widening of Virginia Avenue.

*Mr. Ellis*, representing property owners in the vicinity of Virginia avenue, was granted the privilege of the floor. He opposed the recommendation of the Streets Committee, that the matter of widening Virginia avenue be denied. He declared that the operation of cars on Virginia avenue in its present condition is a menace to life and limb.

*M. Riley*, property owner, also addressed the Board. He declared that most of the property owners were poor and could not afford to pay the assessment. They were already burdened with sewer and street work and the great majority of them were opposed to the assessment for the widening of Virginia avenue.

## Motion.

Whereupon, on motion of Supervisor McCarthy, the recommendation of the Streets Committee that the petition for the widening of Virginia avenue be denied was *adopted*.

Preventive Measures Against Potato Moth.

## Privilege of the Floor.

*Mr. Dunbar* was granted the privilege of the floor and stated that he wished to interest the Board and secure its co-operation in the passage of legislation deemed necessary to prevent the spread of a pest that is prevalent at this time in California, known as the potato moth. He proposed that measures be taken to guarantee to other states where California potatoes are shipped that all potatoes that leave this State have been inspected by properly qualified experts and are not affected by the pest. He introduced Dr. Cook, State Horticulturist.

*Dr. Cook*, State Horticulturist, declared that it was a matter of grave importance to the merchants of San Francisco that immediate steps be taken to assure those states that ship

potatoes from California that adequate steps have been taken to prevent the shipment of infected potatoes to such states. Quarantine against California potatoes is already under way in Idaho, Colorado, Texas and New Mexico. These states are heavy importers of California potatoes and unless something is done at once to prevent this quarantine this trade will be lost to the farmers and merchants of California. He suggested the appointment of a County Commissioner at a salary of \$1800 per annum and the passage of a county ordinance penalizing the shipment of infected potatoes.

*Supervisor McCarthy* advised the speakers that there would be no necessity for appointing a County Commissioner inasmuch as San Francisco has fourteen market inspectors who are efficient and qualified for just that kind of work, and who, working under direction of the State Horticulturist, can do considerably more work of this character than one County Commissioner.

*Dr. Cook and Mr. Dunbar* agreed that that plan would be satisfactory and requested that ordinance on subject be drafted.

#### Motion.

Whereupon, *Supervisor McCarthy* moved that the Health Committee and the Board of Health co-operating with *Dr. Cook* be requested to draft such ordinance.

Motion carried.

**Closing Portion of Thirty-second Avenue.**

Resolution No. 11065 (New Series), as follows:

Whereas, by resolution heretofore duly adopted, this Board accepted the offer of Julian H. Bidde to convey to the City and County of San Francisco certain property situate in Bakers Beach Land Company's tract fronting on Thirty-second avenue for boulevard purposes;

And Whereas, it was a condition of said offer that the portion of Thirty-second avenue hereinafter described, which said portion will not be needed for the purposes of a public street upon the completion of said boulevard, should be closed as a public street;

And Whereas, said portion of Thir-

ty-second avenue to be closed as aforesaid is more particularly described as follows, to-wit:

Commencing at a point on the southerly line of Thirty-second avenue 2.25 feet southeasterly from the northwesterly corner of Lot No. 9 of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company; running thence along said southerly line of Thirty-second avenue on a curve with a radius of 29.5 feet, 30 feet  $2\frac{1}{8}$  inches to a point on said southerly line of Thirty-second avenue, distant thereon 6 feet  $7\frac{1}{2}$ x inches westerly from the northeasterly corner of said Lot No. 9; running thence northwesterly into Thirty-second avenue (on the prolongation of a straight line drawn from a point on the boundary line between Lots Nos. 8 and 9 of said subdivision, said point being located 12.387 feet southeasterly on said boundary line from the northeasterly corner of Lot No. 9 to a point on the southerly line of Thirty-second avenue, located 6 feet  $7\frac{1}{2}$ x inches westerly thereon from the northeasterly corner of Lot No. 9, as aforesaid) 14.14x feet to a point; thence continuing northwesterly on a curve to the left with a radius of 19.916 feet, 14.541x feet to the point of commencement; being a portion of the public street delineated on said map of Lyon & Hoag's subdivision of the property of Bakers Beach Land Company, as Thirty-second avenue.

Now, therefore, be it Resolved, That the above described portion of Thirty-second avenue be and it is hereby forever closed as a public street and that the City and County of San Francisco, in consideration of the conveyance to be made, as in said offer provided, does hereby abandon said described portion of Thirty-second avenue and authorizes said Julian H. Bidde to take possession of the same as soon as said boulevard shall be constructed.

Investment of Surplus Funds of Geary Street Municipal Railway.

Also, Resolution No. 11068 (New Series), as follows:

Whereas, by Resolution No. 10342 (New Series), the sum of two hundred thousand dollars, constituting a part of the Geary Street Railway Construction Fund, was declared to be not required for immediate expenditure and the Treasurer was directed to invest the same in certain interest bearing bonds of the City and County, and

Whereas, it is now necessary to expend the funds so ordered invested, and

Whereas, the sum of \$200,000, constituting a part of the Municipal Railway Fund (Geary Street Division), remains unappropriated and unexpended and is not required for immediate expenditure, therefore, for the purpose of continuing in effect the terms of Resolution No. 10342 (New Series), be it

Resolved, That the Treasurer be directed to restore to the Geary Street Railway Construction Fund the said \$200,000 authorized to be invested as provided in said Resolution No. 10342 (New Series);

Also Resolved, And it is hereby declared that \$200,000, constituting a part of Municipal Railway Fund (Geary Street Division) remaining unappropriated and unexpended therein, constitutes surplus moneys not needed for immediate expenditure and that the said sum or any portion thereof be invested in bonds of the

City and County of San Francisco in accordance with the provisions of Chapter 73 of the Statutes of the State of California for the year 1913. That the Treasurer of the City and County is hereby authorized to purchase any bonds of said City and County that may mature on or before July 1, 1915, provided that the price to be paid therefor shall not exceed par and accrued interest thereon at the time of delivery. All interest on bonds thus purchased shall be credited to the Municipal Railway Fund (Geary Street Division) and become a part of said fund.

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors July 17, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Divisadero street, from Lombard street to a line 137½ feet northerly therefrom, by the construction of granite curbs and artificial stone sidewalks of the full official width, by paving the roadway thereof with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2½-inch asphaltic wearing surface; and by the construction of an 8-inch vitrified, salt-glazed, iron-stone pipe sewer with 6 Y branches and side sewers and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Divisadero street from a point 20 feet northerly from Lombard street to a point 137½ feet northerly from Lombard street.

The improvement of the intersec-

tion of Lyon and Lombard streets and of Lyon street opposite the intersection of Lombard street, where not already improved, by the construction of granite curbs and artificial stone sidewalks on the angular corners thereof; an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof; and by the construction of brick catch-basins with cast-iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, iron-stone pipe culverts, one on the southeasterly angular corner of the intersection of Lyon and Lombard streets, and one on the westerly side of Lyon street opposite the intersection of Lombard street.

The improvement of Van Ness avenue, between Bay and Chestnut streets, by the construction of artificial stone sidewalks, of the full official width, on the westerly side thereof from Bay street to a point 237½ feet southerly therefrom; on the easterly side thereof from Francisco street to a point 137½ feet northerly therefrom; on the north-easterly, northwesterly and south-westerly angular corners of the crossing of Van Ness avenue and Francisco street; and on the westerly side thereof from Chestnut street to a point 92½ feet northerly therefrom.

#### Spur Track Permit.

Also, Bill No. 3142, Ordinance No. — (New Series), entitled, "Granting to Daniel O'Day Company permission, revocable at will of the Board of Supervisors, to lay down, construct and operate cars thereon with electricity by means of the overhead trolley system on the northerly side of Mariposa street, from the easterly line of York street, to connect with the main line of the Ocean Shore Railroad beyond the easterly line of Hampshire street and to lay a temporary spur track on the westerly line of Hampshire street from a connection with the aforesaid temporary spur track on Mariposa street, running thence northerly 350 feet into the lot of the Municipal car barn site."

Accepting Deed From John Brickell and S. A. Born Building Company for Sewer Right of Way in Sea Cliff.

Born Building Company (a corporation) to the City and County of San Francisco (a municipal corporation) of a sewer right of way through their properties lying between Twenty-fifth avenue north and Twenty-fifth avenue in Sea Cliff."

#### Adopted.

The following resolutions were adopted:

#### Extension of Time.

On motion of Supervisor McCarthy: Resolution No. 11070 (New Series), as follows:

Resolved, That G. W. McGinn & Co. is hereby granted an extension of thirty days' time from and after June 30, 1914, within which to complete the contract for the improvement of the crossing of Eighth avenue and Moraga street, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that much of the work has been done, the concrete foundation for the pavement having been laid.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—17.

Also, Resolution No. 11071 (New Series), as follows:

Resolved, That City Street Improvement Company is hereby granted an extension of ninety days' time from and after July 19, 1914, within which to complete contract for paving of Junipero Serra boulevard from Ocean avenue to the County Line, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that work was delayed on account of extra grading and concrete lined ditch laid.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—17.

#### Intention to Change Grades on Certain Streets.

Also, Resolution No. 11072 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors to change and establish grades on the following named streets, at the points hereinafter specified and at the elevations above city base, as hereinafter stated, in accordance with the written recommendation of the Board of Public Works filed July 17, 1914, to-wit:

On Wisconsin street, 433 feet southerly from Army street, present grade be abolished.

On Carolina street, 433 feet southerly from Army street, present grade be abolished.

On De Haro street, 433 feet southerly from Army street, present grade be abolished.

On Army street, between the westerly line of Mississippi street and the westerly line of Carolina street; Carolina, Wisconsin, Arkansas, Connecticut, Missouri and Texas streets, between the southerly line of Twenty-fifth street and the northerly line of Tulare street, and on De Haro street, between the southerly line of Army street and the northerly line of Tulare street, be changed and established to conform to true gradients between the grade elevations above given therefor, and the present official grade of De Haro street at Tulare street, and Carolina, Wisconsin, Arkansas, Connecticut, Missouri and Texas streets, at Twenty-fifth street and at Tulare street.

It is further declared to be the intention of the Board of Supervisors to order the following street work to be done on the said portions of the above mentioned streets, to-wit:

The regrading of Army street, between Carolina and Mississippi streets.

The district to be benefited by such changes of grades and to be assessed for the payment of damages caused thereby and also the expenses of regrading the above mentioned streets as above specified is hereby defined and established as follows:

Those certain tracts, pieces or parcels of land situate, lying and being in the City and County of San Fran-

cisco, State of California, and bounded and particularly described as follows, to-wit:

*Description of Lands to Be Benefited by and to Be Assessed to Pay for the Regrading of Army Street, from the Westerly Line of Carolina Street to the Westerly Line of Mississippi Street, to the Proposed Change of Official Grade.*

Commencing at the intersection of the center line of De Haro street with the center line of Twenty-fifth street, running thence easterly and along the center line of Twenty-fifth street to the center line of Mississippi street; thence northerly and along the center line of Mississippi street to the center line of Twenty-second street; thence easterly and along the center line of Twenty-second street to the center line of Illinois street; thence northerly and along the center line of Illinois street to the center line of Twentieth street; thence easterly and along the center line of Twentieth street to the westerly line of Massachusetts street; thence southerly and along the westerly line of Massachusetts street to the southerly line of Twenty-fourth street; thence easterly and along the southerly line of Twenty-fourth street to the westerly line of New York street; thence southerly along the westerly line of New York street to the southerly line of Water Front street, produced westerly; thence easterly and along the southerly line of Water Front street, produced westerly, and Water Front street to the westerly line of Wyoming street; thence southerly and along said westerly line of Wyoming street to the center line of Islais Creek Channel; thence southeasterly to the intersection of the center line of Amador street with the center line of Dakota street, produced northerly; thence southerly along the center line of Dakota street, produced northerly, and center line of Dakota street to its intersection with the center line of Ingalls street, produced northeasterly; thence southwesterly and along the center line of Ingalls street, produced northeasterly, and the center line of Ingalls street to the center line of Custer avenue; thence northwesterly along the center line of Custer avenue to the center line of Islais Creek Channel; thence southwesterly along the center line of Islais Creek Channel to the center line of Arkansas street, produced southerly; thence northerly and along the center line of Arkansas street, produced southerly, and of Arkansas street to a point thereon distant 433 feet southerly from the southerly line of Army street; thence westerly and parallel to the southerly line of Army street

to the center line of Vermont street, produced southerly; thence northerly and along the center line of Vermont street, produced southerly, and the center line of Vermont street to a point thereon 433 feet southerly from the southerly line of Twenty-fifth street; thence easterly and parallel to the southerly line of Twenty-fifth street to the center line of De Haro street; thence northerly along the center line of De Haro street to the intersection of the center line of Twenty-fifth street and the point of commencement.

The actual cost of performing the work of regrading said portions of said streets as above specified shall be assessed upon the said district which is above declared to be benefited by such changed or modified grade (except that the Board of Supervisors reserves the right in its discretion to order by ordinance that the whole or any part of the cost and expense of the work aforesaid or the damages resulting therefrom be paid out of the Treasury of the City and County of San Francisco, from such funds as the Board of Supervisors may designate).

Any person owning property fronting upon said portions of the street or streets where such grade is to be changed and such street work is to be done may file a petition with the Board of Public Works within sixty (60) days after the first publication of this Resolution of Intention, showing the fact of such ownership, a description and situation of the property claimed to be damaged, its market value and the estimated amount of damages over and above all benefits which the property would sustain by the proposed change if completed. Such petition shall be verified by the oath of the petitioner or his agent, and failure so to petition shall be deemed and treated as a waiver of any claim for such damage or damages. The Board of Public Works shall cause to be conspicuously posted along all streets within the district defined in this resolution, notices of the passage of this resolution, in the manner and in the form as required by the Charter of the City and County of San Francisco.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—17.

Also, Resolution No. 11073 (New Series), Declaring it to be the intention of the Board of Supervisors to change and establish grades on the following named streets, at certain points and elevations above city base, in accordance with the written recommenda-

tion of the Board of Public Works, filed July 22, 1914, to-wit:

On Buena Vista avenue, between Central avenue and Frederick street.

The Board of Supervisors hereby declares that no assessment is necessary as no damage will result from said change of grade.

This change of grade is desirable as lowering the street to the present official grade would damage the existing improvements.

The Board of Public Works is hereby directed to cause to be conspicuously posted along the street or streets upon which such change or modification of grade or grades is contemplated, notice of the passage of this Resolution of Intention.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—17.

The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors July 27, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City

and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Leland avenue between Rutland street and San Bruno avenue, including the intersections of Leland avenue with Desmond, Alpha and Peabody streets and San Bruno avenue, by the construction of the following vitrified, salt-glazed, iron-stone pipe sewers and appurtenances: a 12-inch with 61 Y branches and 3 brick manholes with cast-iron frames and covers and galvanized wrought-iron steps along the center line of Leland avenue from the center line of San Bruno avenue to a point 12 feet easterly from the westerly line of Peabody street produced; an 8-inch with 16 Y branches and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps from the last described point to a line at right angles with the southerly line of Leland avenue at a point 20 feet easterly from the easterly line of Rutland street; and an 8-inch along the center line of Alpha street produced between the center and northerly lines of Leland avenue.

The improvement of Schwerin street between Visitacion and Sunnysdale avenues and the crossing of Schwerin street and Sunnysdale avenue, by the construction of an 8-inch vitrified, salt-glazed, ironstone pipe sewer with 34 Y branches and two (2) brick manholes with cast-iron frames and covers and galvanized wrought-iron steps along the center line of Schwerin street from a point 20 feet southerly from Visitacion avenue to the center line of Sunnysdale avenue.

**Fixing and Abolishing Sidewalk Widths.**

Also, Bill No. 3159, Ordinance No. — (New Series), as follows:

Amending Ordinance No. 1061, entitled, "Regulating the width of sidewalks," approved December 18th, 1903, by adding thereto a new section to be numbered Five Hundred and Forty-five.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 1061, entitled, "Regulating the widths of sidewalks," approved December 18th, 1903, be and is hereby amended in accordance with the communication of the Board of Public Works, filed in this office July 28, 1914, by adding thereto a new section to be numbered Five Hundred and Forty-five, and to read as follows:

Section 545. The width of sidewalks on Beach street (northerly side of), between Leavenworth street and Hyde street are hereby dispensed with and abolished.

The width of sidewalks on Beach street (southerly side of) between Leavenworth street and Hyde street shall be fifteen (15) feet.

Section 2. Any expense caused by the above change of walk widths shall be borne by the property owners.

Section 3. This Ordinance shall take effect and be in force from and after its passage.

Also, Bill No. 3160, Ordinance No. — (New Series), as follows:

Amending Ordinance No. 1061, entitled, "Regulating the width of sidewalks," approved December 18, 1903, by amending Section Fourteen thereof.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Ordinance No. 1061, entitled, "Regulating the width of sidewalks," approved December 18, 1903, be and is hereby amended in accordance with the communication of the Board of Public Works, filed in this office July 25, 1914, by amending Section 14 thereof to read as follows:

Section 14. The width of sidewalks on Army street, between Valencia street and San Bruno avenue shall be twelve (12) feet.

The width of sidewalks on Army street, between San Bruno avenue and Water Front street shall be eight (8) feet.

Section 2. Any expense caused by the above change of walk widths shall be borne by the property owners.

Section 5. This Ordinance shall take effect and be in force from and after its passage.

**Adopted.**

The following Resolutions were adopted:

**Extension of Time.**

On motion of Supervisor McCarthy: Resolution No. 11082 (New Series), as follows:

Resolved, That G. W. McGinn & Company is hereby granted an extension of ninety days' time from and after August 11, 1914, within which to complete contract for the improvement of Fifteenth avenue, between the northerly line of Judah and the southerly line of Kirkham streets.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the grading has been completed and the curbing and concrete base for the pavement laid.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following Resolutions were introduced under suspension of the rules and adopted:

Extension of Time.

On motion of Supervisor Bancroft: Resolution No. 11083 (New Series), as follows:

Resolved, That the C. A. Blume Construction Company be and is hereby granted an extension of 21 days' time from and after June 6, 1914, within which to complete its contract for the erection of the structural steel of the City Hall.

This extension of time is granted for the reason that the contractor encountered considerable rainy weather, and also the actual tonnage erected by him exceeded the original estimate by over 600 tons.

City Attorney to Condemn Certain Land Required for Opening New Street From The Embarcadero.

Supervisor Kortick presented the following resolution under suspension of the rules and moved its adoption: Resolution No. — (New Series), as follows:

Resolved by the Board of Supervisors of the City and County of San Francisco that the immediate acquisition by the said City and County of San Francisco of the lands hereinafter described is an imperative necessity for the purpose of opening a new street in the said City and County of San Francisco, a municipal corporation, and that public necessity demands such acquisition by the said City and County of San Francisco for public use and purposes.

That the lands so to be acquired for the public use are situated in the said City and County of San Francisco and bounded and described as follows, to-wit:

1. Commencing at a point on the northeasterly line of Steuart street, distant thereon one hundred thirty-seven (137) feet six (6) inches southeasterly from the southeasterly line of Market street, running thence southeasterly along the northeasterly line of Steuart street ninety-one (91) feet eight (8) inches; thence at right angles northeasterly one hundred thirty-seven (137) feet six (6) inches to the southwesterly line of The Embarcadero; thence northwesterly along the southwesterly line of The Embarcadero ninety-one (91) feet eight (8) inches; thence at right angles southwest-

erly one hundred thirty-seven (137) feet six (6) inches to the northeasterly line of Steuart street and point of commencement. Being a portion of 100 Vara Block No. 317.

2. Commencing at a point on the northeasterly line of Spear street, distant thereon one hundred thirty-seven (137) feet six (6) inches southeasterly from the southeasterly line of Market street, running thence southeasterly along the northeasterly line of Spear street ninety-one (91) feet eight (8) inches; thence at a right angle northeasterly two hundred seventy-five (275) feet to the southwesterly line of Steuart street; thence northwesterly along the southwesterly line of Steuart street ninety-one (91) feet eight (8) inches; thence at right angles southwesterly two hundred seventy-five (275) feet to the northeasterly line of Spear street and point of commencement. Being a portion of One Hundred Vara Block No. 318.

That the City Attorney of the City and County of San Francisco is hereby authorized and directed to forthwith institute in the Superior Court of the State of California, in and for the City and County of San Francisco, proceedings in eminent domain for the condemnation of such land against the owners of, and all persons having or claiming to have an interest in the lands hereinabove described or any part or portion thereof for the purpose of acquiring the title and fee of said described lands for the City and County of San Francisco, a municipal corporation, for the public use and purposes herein set forth.

**Hall of Records to be Retained as a Part of Civic Center.**

J. R. No. —.

Whereas, as a result of the great catastrophe of 1906, our glorious city has none of its landmarks remaining with the possible exception of Mission Dolores, and

Whereas, every city in the world points with pride and admiration to its landmarks and historical buildings, and

Whereas, the Recorder has in his report called attention to the advisability of allowing the Hall of Records to remain as part of the Civic Center, pointing out that it will not in its present position interfere with the continuation of streets, and further, that the present plans do not contemplate the erection of any building on said site; therefore, be it

Resolved, That we request the Board of Public Works to so plan the Civic Center that the Hall of Records may be allowed to remain, and, if necessary, that they arrange to have the exterior of same conform to the architecture of the Civic Center buildings.

**Refused Passage.**

The following resolutions were introduced under suspension of the rules by Supervisor Power and refused adoption by the following vote:

**Relative to Dismissal of School Janitors.**

J. R. No. —.

Whereas, the Board of Education at a recent meeting dismissed without cause seven deserving janitors, and

Whereas, never before in the history of the City have janitors of the School Department been dismissed in order to make places for others; therefore, be it

Resolved, That we inform the members of the Board of Education that we deplore such petty politics, and recommend that they restore the seven janitors that have been dismissed to their respective positions.

Relative to Appointment of Physical Training and Athletic Expert.

J. R. No. —.

Whereas, the sum of \$7000.00 was appropriated in the Budget of 1914-15 for Physical Training and Athletics in the School Department, and \$5000.00 was appropriated for Social Center work, and

Whereas, at a recent meeting of the Board of Education \$4000.00, or one-third of the above total, was designated as the salary of a gentleman who was to be brought from the East to supervise said work, and

Whereas, a special effort was made to increase the items of \$3000.00 and \$2000.00 respectively (as recommended by the Finance Committee for the above work), in order to have as large a sum as possible to use for the proper instruction and training of the school children, and

Whereas, by the use of one-third of the total appropriation for the payment of the salary of the supervisor of these subjects, we feel that the real object of having these appropriations increased, namely, direct instruction to the pupils, will be defeated; therefore, be it

Resolved, That we advise the Board of Education that we feel that a bet-

ter plan could have been devised to carry out the intent of this Board when we increased said appropriations, and that we also advise them that we feel that we have in the City of San Francisco plenty of citizens with the proper ability to carry out the intent of this Board on said appropriations, and that there is no need to select a non-resident to carry on the work.

## REPORTS OF ADVISORY WATER COMMITTEE.

San Francisco, August 10, 1914.

To the Honorable, the Board of Supervisors  
of the City and County of San Francisco.

Gentlemen: On the 24th day of February, 1913, your Honorable Board passed Resolution No. 639, requesting the City Engineer to transmit to you a list of properties belonging to the Spring Valley Water Company necessary, available and usable for a source of water supply for the City and County of San Francisco, which properties, including a distributing system, would be made an integral part of the Sierra water supply. Thereafter, on the 19th day of November, 1913, the City Engineer, pursuant to your request, transmitted to your Board his report, together with a list containing specific descriptions of the properties which in his judgment the city should acquire for the purposes aforesaid. Accompanying this report and list was also an atlas containing maps delineating said properties. Reference to the list and atlas, now on file in the office of the clerk of your Honorable Board, is hereby made.

On the 31st day of December, 1913, pursuant to resolution of your Honorable Board, the City and County of San Francisco, through the City Attorney, commenced an action in the Superior Court of this city and county, to condemn said properties. The action is now pending and is numbered on the register of the Superior Court, No. 53708.

Pending the action and during the course of preparation for trial thereof, the City Engineer and experts employed by the city examined all of the properties described in the complaint in said action, for the purpose of ascertaining the value thereof.

While preparing for the trial of the case the City Attorney and his assistants entered into negotiations with representatives of the Spring Valley Water Company, with the desire to avoid, if possible, the inevitable delays incident to litigation, and with a view of coming to an understanding as to the amount which the company would accept for the properties sought to be condemned. After the negotiations had been opened, the City Engineer made a further examination of the "Pleasanton Lands" in Alameda county, belonging to the company, which were included in the condemnation proceedings. These lands comprise about 5,614 acres, and if purchased would be valuable to city only for waters under their surface, which now yield the Spring Valley Water Company 10,000,000 gallons daily, or about one-fourth of the total daily supply delivered to San Francisco. After careful examination by the City Engineer, he concluded, and so reported to the Advisory Committee, that the only part of said "Pleasanton Lands" necessary for the city's purposes was that part south of County Road No. 2000, containing 654 acres, and certain strips of land in that part of the tract north of the county road, containing 86 acres, provided the city had the right to pump water from its wells to the extent of fifteen million gallons daily, regardless of the effect of operation of the wells on the water plane under the adjoining lands retained by the company. During the negotiations it was stipulated by the City Attorney and the representatives of the company that in the event of purchase by the city of the properties mentioned, the city would buy 654 acres of the "Pleasanton Lands" south of County Road No. 2000, and the strips of land mentioned in the tract north of the county road, and that the city should have the right to take waters to the extent of 15,000,000 gallons daily, or 5,000,000 gallons more than have ever yet been taken in one day from the property, without hindrance or conditions of any sort, the company agreeing on behalf of itself, its successors and assigns, to waive all right to object to or enjoin the taking of waters up to the limit mentioned, either upon the ground that the pumping from the city's wells to the extent of said limit lowered the water plane under the land retained by the Spring Valley Water Company, or drained the waters beneath the lands so retained, or upon any other ground whatever. In due time the City Attorney reported to your Advisory Water Committee that the Water Company was willing to sell to the city for the sum of \$34,500,000 and payments of capital expenditures made by the company since January 1, 1913, with interest, upon certain terms and conditions fully set forth in letter from

your committee to the Spring Valley Water Company, dated July 27, 1914, and hereinafter referred to, all of the properties described in the condemnation proceedings, with this exception, however, that the city should take only 654 acres of the "Pleasanton Lands" south of the County Road No. 2000, and the strips of land hereinabove mentioned, containing 86 acres situated north of said county road. These strips to be selected by the City Engineer, to insure the maximum possibilities of the entire water-bearing region.

On the 15th day of June, 1914, your committee and a majority of the members of the Board of Supervisors met in the office of the Mayor and considered the proposition. At the meeting the Advisory Water Committee was instructed by those present to send to the Spring Valley Water Company a communication requesting them to state in writing its willingness to accept for its properties required by the city the said sum of \$34,500,000.00 and said capital expenditures, with interest, on the terms and conditions hereinabove and in said letter of July 27, 1914, referred to. Thereafter, to-wit, on the 27th day of July, 1914, your Advisory Committee signed and sent the Spring Valley Water Company a letter requesting it to state in writing whether or not it was willing to sell its properties under the terms and conditions which were set forth in said letter. A full, true and correct copy of said letter of July 27, 1914, from the Advisory Water Committee to said Spring Valley Water Company is hereto annexed and marked "Exhibit A," and made part of this report.

On the 30th day of July, 1914, said Spring Valley Water Company answered said letter, and in its answer stated its willingness to sell the properties under the terms and conditions set forth in said letter of July 27, 1914. A copy of said answer is annexed hereto and marked "Exhibit B," and made a part of this report.

The lands and other properties offered by the Spring Valley Water Company to the city include everything of value required by the city for a water supply.

The city wants water—not land.

For that reason your committee deemed it advisable to exclude all lands not used or usable for producing, conserving, impounding, or transmitting water.

The proposal of the Spring Valley Water Company involves a sale to the city of 823.67 acres of Lake Merced Rancho, the remainder of the tract, embracing 1,253.69 acres in San Francisco county and 779.07 acres in San Mateo county, would be of no value to the city for water supply purposes, and if purchased by the city would entail a very heavy additional expense and would withdraw from settlement a large area of land which, in the near future, will be improved and yield an increased revenue to the city in the way of taxes.

The Alviso or South Bay lands are excluded from the offer of the Spring Valley Water Company, and contain 5,283.63 acres. These are marsh lands and situated at the southern extremity of San Francisco Bay, having been originally acquired by the Spring Valley Water Company for the purpose of development of water by wells. All plans looking toward the utilization of them have been abandoned for the reason that the withdrawal of water from the area would seriously affect the water supply of the surrounding country, including Palo Alto. This is shown by the fact that the proposal so to do early resulted in an attack by the communities which would be affected, after which development ceased. In addition to this it is doubtful if water from the lands in such close proximity to tidewater can be withdrawn in sufficient quantity for a supply for San Francisco without deteriorating the quality. Notwithstanding the fact that these lands are in immediate proximity to the supply main of the Spring Valley Water Company no attempt has been made to transmit this water to San Francisco, which is the best evidence of the value placed upon them by the Spring Valley Water Company. The experts for the city have appraised these lands at \$114,040.

The Coyote Creek lands contain 11,977.96 acres, and are not included in the offer of the Spring Valley Water Company. These lands are tributary to the Coyote creek and Pajaro river. They cover an underground source of

supply, all of which is needed to satisfy the farming interests below. These lands were bought by the Spring Valley Water Company many years ago, presumably for the purpose of heading off competition in this territory by the Bay Cities Water Company, and any attempted withdrawal of water by the Spring Valley Water Company, or by the city would be resisted by the Bay Cities Water Company on the one hand, and by the land owners in the valley on the other. Any attempted withdrawal of such water would be immediately followed by litigation. A permanent injunction has already been granted in the Superior Court of Santa Clara county against the Bay Cities Water Company, and said injunction against the withdrawal of water has been affirmed by the Supreme Court of this State. Even if the project to utilize these lands for water supply for San Francisco was not clouded with doubt as to the right to do so, it would be indefensible upon the ground of expense of development and transmission. These lands have been appraised by the experts for the city at \$134,469.50.

San Benito lands. These lands are in the same general region as the lands noted above, and contain 691 acres. These lands, also, are not included in the offer made by the Spring Valley Water Company. They lie on the other side of the ridge from the Coyote creek proper and drain into the Pacific Ocean. The same general statement applying to the Coyote lands applies to this property. While possibly somewhat more valuable for other purposes it lacks value to the city of San Francisco as a source of supply for the reason that the expense of development and transmission, as well as the uncertainty of results, are beyond reason. The city experts have appraised the market value of these lands at \$72,725.00.

All of the other tracts of land retained by the Spring Valley Water Company are of no value for water supply purposes to San Francisco except in certain cases, and in such tracts the water rights appurtenant to the land are to be conveyed to the city, thus giving to San Francisco all the value that can attach to them as water supply lands.

Annexed hereto and made a part of this report is exhibit marked "Exhibit C," showing all lands and location of lands owned by the Spring Valley Water Company, and also water rights and rights of way to be acquired by the city in the event of purchase of the Spring Valley Company's properties.

Annexed hereto and made part of this report is exhibit marked "Exhibit D," showing location and acreage and character of all the lands belonging to the Spring Valley Water Company, and not included in the offer of sale to the city.

Annexed hereto and made part of this report is exhibit marked "Exhibit E," showing gross operating revenue, the operating expenses and taxes, and the net operating surplus under the following conditions as applying to Spring Valley Water Company:

1st: With the operating revenues as collected by the Spring Valley Water Company for the calendar year 1913;

2nd: With the works of the Spring Valley Water Company under the management of the city for the same year, collecting the same rate, but operating the properties offered for sale to the city;

3rd: With the works of the Spring Valley Water Company operated as above, but collecting the ordinance rate of 1913-14.

Included in operating expenses in 2 and 3 above, are taxes on property inside the City and County of San Francisco, which are included in the offer of sale.

Your committee recommends that the city, subject to the approval of the people, offer to purchase from the Spring Valley Water Company its properties described in said "Exhibit A," hereunto annexed, for the consideration and upon the terms and conditions mentioned in said exhibit; that the proposition to acquire said properties and incur a bonded indebtedness to pay for the same be submitted to the voters at a date hereafter to be determined by your Honorable Board.

The following is a statement of reasons which have impelled your Advisory Water Committee to make this recommendation:

*Reasons Why the City and County of San Francisco Should Purchase the Properties of the Spring Valley Water Company.*

1. The properties offered for sale include all necessary lands, watersheds, water rights, and everything else of value belonging to the Spring Valley Water Company required by the city for its water system, and are substantially the same properties sought to be condemned in the pending condemnation suit.

2. The price which the company is willing to accept, to-wit, \$34,500,000 and capital expenditures made by the company since January 1, 1913, not to exceed \$595,000, approximates the valuation placed upon the properties by the City Engineer and experts employed by the city to ascertain values for the purposes of condemnation.

3. The prosecution of the condemnation suit now pending may result in delay that will postpone indefinitely the acquisition of the properties by the city, and may cause the city to pay a higher price ultimately.

4. The system of the Spring Valley Water Company, if purchased, will be self-supporting from the start.

5. The purchase and operation of the plant by the city, and the necessary extension of the distributing system, will not increase taxation.

6. As the gross revenue collected by the company in the year 1913 from the properties offered for sale amounted to \$3,322,048.10 (rates, rentals, etc., including increase over rates fixed by ordinance), and as the city will certainly derive from the plant, without additions to or extensions thereof, an annual net income in excess of \$2,000,000, at present ordinance rates, the offer made by the Spring Valley Water Company must be deemed reasonable.

7. The completion of the Calaveras dam and reservoir, now in course of construction, will cause an increase in the city's water supply to the extent of at least 50 per cent, and a corresponding increase in revenues.

8. The increased supply resulting from the completion of the Calaveras dam and reservoir will be sufficient to meet the demands of the city until the population exceeds in number 750,000, and until the completion of the Hetch Hetchy system.

9. The net income to be derived from the properties after the completion of the Calaveras dam and reservoir and from the use of the additional waters obtained from that source, will be sufficient to pay interest on all bonds issued to pay the purchase price, and interest on additional bonds required to defray the cost of extending the distributing system, and to provide a sinking fund to redeem the bonds.

10. The unsettled portions of the city—Richmond, Sunset, University Mound, Excelsior Homestead, Sunnyside, Ocean View, Holly Park, and other districts now sparsely settled by reason of an inadequate supply or entire absence of water, will rapidly improve.

11. The present supply of water is absolutely insufficient. Immediate steps to increase the supply should be taken. The Spring Valley Water Company will not expend the capital necessary to increase the supply or extend its mains, and the city cannot wait seven or eight years for the completion of the Hetch Hetchy system.

12. The reservoirs of the Spring Valley Water Company in San Mateo county, and its reservoirs and distributing system in San Francisco, will be required for the storage and distribution of water from Hetch Hetchy.

13. The growth of San Francisco has been retarded in the past and will, unless the city acquires and promptly extends the present system, be retarded in the future by reason of its inadequate supply of water for domestic purposes and fire protection. At least forty per cent of the territory of San Francisco is now unimproved, and will remain unimproved until San Francisco acquires its own water supply.

14. Unless the properties are acquired, few of the hundreds of thousands, perhaps millions, of home seekers who will come to California within the next few years after the completion of the Panama Canal, will settle in this city. Being unable to get water for domestic purposes, they will seek homes elsewhere.

15. Upon the completion of the Hetch Hetchy system seven or eight years hence, the City, with its anticipated growth, will need the additional supply

from that source, and the net income thereafter derived from the combined systems, including the proceeds of sale of electric power developed at Hetch Hetchy, will be sufficient to pay interest on all bonds issued to acquire both plants, and to provide a sinking fund to redeem the bonds at maturity.

16. During the construction of the Hetch Hetchy system, assuming that construction will take eight years, the interest on the bonds required to construct the same during the period of construction will exceed nine million dollars. In addition to the interest two millions must be paid to redeem maturing bonds, commencing with the year 1920. Every dollar paid for interest and on account of principal before completion of the work, must be paid by taxation if the city does not acquire the properties of the Spring Valley Water Company in the meantime. If, however, the city buys the properties of the Spring Valley Water Company, the surplus over and above the amount required to pay interest on the bonds issued to make the purchase from the company can be used to pay, or assist in paying of interest on the Hetch Hetchy bonds.

17. The operation of a municipal plant separate and distinct from that of the Spring Valley Water Company's will necessitate an expensive duplication of a distributing system by the city, rendering it necessary to tear up streets and dig trenches in the business and residential districts, thereby damaging the pavements, interfering with traffic, and causing injury to business, persons and property.

18. The acquisition of the distributing system within the city and the impounding reservoirs on the peninsula, and the rights-of-way for conduit lines owned by the Spring Valley Water Company, will, in the judgment of the City Engineer and other competent authorities, save the city, in the ultimate cost of the Hetch Hetchy system, at least \$20,000,000.

19. As practically all of the available reservoir sites on the peninsula and those in the city are owned by the Spring Valley Water Company, unless the city buys from that company it will be impossible, without the expenditure of a vast amount of money, to secure or construct reservoirs of adequate capacity or in suitable localities to hold the waters that will come from the Hetch Hetchy.

20. Upon the completion of the Hetch Hetchy system, unless these properties are acquired, San Francisco must compete with the Spring Valley Water Company in the business of selling water. Such competition will seriously affect the value of the city's bonds, will, on account of the divided business, reduce the expected revenue of the city, and increase taxation, by reason of insufficient income to pay the interest on the bonds and to redeem the same.

21. All litigation between the city and the Spring Valley Water Company will cease, thereby saving to the city directly a large sum of money and saving indirectly to the rate payers the expenses of litigation paid by the company, which are usually allowed by courts in fixing rates.

22. The increase in the assessed valuation of land in the districts benefited by the extension of the distributing system, will yield an additional tax income which, to a great extent, will help to pay the interest upon the bonds.

23. In the event of the purchase by the city of the properties of the Spring Valley Water Company, approximately \$1,000,000 of the moneys now impounded by reason of the pending injunction suits against the city will be returned to the rate payers.

24. With the Spring Valley Water Company's properties and the Hetch Hetchy system combined, San Francisco will own the best water system in the world, and one sufficient to meet the requirements of the metropolis of the Pacific Coast for all future time.

August 10th, 1914.

Respectfully submitted,

ADVISORY WATER COMMITTEE,

By MATT I. SULLIVAN, Chairman.

## EXHIBIT "A."

MAYOR'S OFFICE, San Francisco.

July 27, 1914.

Spring Valley Water Company,  
San Francisco, California.

Gentlemen:—

On the 15th day of June, 1914, a meeting was held at the office of the Mayor of the City and County of San Francisco, at which there were present a majority of the members of the Board of Supervisors of the City and County of San Francisco. At this meeting the undersigned Advisory Water Committee was requested to secure from the Spring Valley Water Company a statement as to whether or not it would accept an offer, if made by the City and County of San Francisco, to purchase certain of its properties hereinafter named for \$34,500,000, upon the terms and conditions hereinafter named:

"The properties hereinabove referred to and to be included in said offer of purchase are:

"(a) All franchises (other than corporate franchise), all licenses, privileges and easements connected with the property purchased, or in connection with the Spring Valley Water Company's water business, and all service connections.

"(b) All supplies and materials on hand owned by the Spring Valley Water Company; all vehicles of every description, horses, tools, furniture and fixtures outside of the directors' and president's offices; all maps and records relating to the Water Company's plant and system to be purchased; all other similar equipment; and all other personal property appertaining to or incidental to the company's water business or used or held for use in connection with that business or the property taken, expressly excepting, however, cash and bills and accounts receivable.

"(c) All property included in and covered in that certain condemnation proceeding heretofore commenced by the City and County of San Francisco against the Spring Valley Water Company on December 31, 1913, and now pending in the Superior Court of the State of California, in and for the City and County of San Francisco, except that

"1st: As to a certain tract of land included in said condemnation proceedings and known as the Nussbaumer Tract, situate in Alameda County, the city under its offer, will take only such portion thereof as may be determined by City Engineer O'Shaughnessy to be necessary for a right of way for the present pipe line of the Spring Valley Water Company wherever the same crosses said tract, and also such additional portions of said Nussbaumer Tract as may be determined by City Engineer O'Shaughnessy to be necessary to protect the waters in the creek flowing through same.

"2nd: The Spring Valley Water Company is to retain title to the lands known as the Pleasanton Lands included in said condemnation proceedings and located north of County Road No. 2000 in Alameda County, with the exception of the said lands located north of said County Road 2000 the City and County of San Francisco is to secure title to the following:

"(a) A strip of land 200 feet in width, the center line of which is the line of the wells of the Spring Valley Water Company, known as the G line, and a strip of land 200 feet in width, the center line of which is the line of the wells of the Spring Valley Water Company, known as the N line, said lines of wells being the wells connected with the pumping plant of the company on the tract immediately to the north of said County Road No. 2000. Said strip, of which the center line is the G line of wells, shall extend at each end 100 feet beyond the last well of the line; said strip, the center line of which is the N line of wells, shall extend from a point 100 feet northerly of the most northerly well of said line of wells southerly to said County Road No. 2000.

"(b) Two strips of land, one 100 feet wide and the other 50 feet wide, one extending approximately easterly and westerly across the entire width of the Company's Pleasanton lands north of County Road No. 2000, and the other extending approximately northerly and southerly across the entire width in that direction of the same lands. The exact location of these last mentioned two strips and the determination as to which shall be 100 feet wide and which shall be 50 feet wide, shall be made by City Engineer O'Shaughnessy. These two strips are to be located so as to avoid any buildings or other improvements, so far as the same can be done in the opinion of City Engineer O'Shaughnessy consistently with the interests of the city. The company will have the right to remove any buildings or improvements not a part of its water plant which are located on said strips as finally located.

"3rd: The City and County of San Francisco is to have and shall be given the right to take water from the Pleasanton lands conveyed to it to the amount of, but not in excess of 15,000,000 gallons during any one day. The said right to take such water is to be the right without hindrance or conditions of any sort, and the Spring Valley Water Company, for and on behalf of itself, its successors and assigns, shall waive any and all rights to object to, or enjoin the taking of such water from said lands so conveyed to said City and County of San Francisco up to said 15,000,000 gallons during any one day, either upon the ground that the pumping from said wells up to said limit of 15,000,000 gallons daily on the lands so conveyed

to the City and County of San Francisco lowers the subterranean water plane under the said lands retained by the Spring Valley Water Company, or drains the water from beneath the said retained lands, or upon any other ground whatsoever, whether herein specifically enumerated or otherwise. The right to take said water up to said amount of 15,000,000 gallons daily is to be a right and easement running in favor of the land purchased by the City and County of San Francisco and against the lands retained by the Spring Valley Water Company. The Spring Valley Water Company is to have the right to take water from the land retained by it for use on those lands, but not elsewhere or otherwise.

"The terms and conditions to be attached to said offer, if made, are

"1st: The company shall convey to the City and County a good and sufficient title to the company's lands and the City and County shall assume the obligations of the company to supply water under the company's existing contracts, a list of which has been furnished by the company to the City and County. Subject to provisions of paragraph 7 hereof, the company's properties are to be conveyed to the City and County free and clear of the lien of any mortgage, deed of trust, attachment, judgment, execution, mechanic's lien, or any other lien, except the lien for taxes for the current year, created or suffered by the company or subject to which the company bought the property. This provision, however, does not apply to lands held under option or lease by the company, but, as to such last mentioned lands, the company is to convey to the City and County such title as the company has.

"The term 'good and sufficient title' herein shall be interpreted to mean such a title as is necessary to assure the City and County of the absolute right, in case of purchase, to take hold and use the lands purchased without interference or hindrance, but shall not be interpreted to mean a title free and clear of trivial defects and imperfections when in fact the company is the actual and exclusive owner of the property, or free and clear of rights of way or easements appearing of record which do not prevent the use of lands for water purposes. In case there are any lands as to which a good and sufficient title, as above defined, cannot be given by the company, the value of such lands shall be deducted from the purchase price, such value to be determined by arbitration in case the same cannot be agreed upon between the City and County and the company. As to any such lands the company shall be allowed a reasonable time to procure title by legal proceedings or otherwise, and, when title is so procured, the land shall be taken over by the City and County at the amount by which the purchase price was reduced by reason of the absence of such title thereto. With reference to the rights of way, the City and County is to take such title as the company has and is to perform all legal and binding covenants and conditions heretofore assumed by the company with reference to such rights of way.

"The company shall convey its real property to the City and County by grant, bargain and sale deed, subject to existing leases, rights of way, obligations of the company which are assumed by the City and County, and the lien for taxes for the current fiscal year. Nothing herein being intended to conflict with the prorating of taxes as hereinafter provided.

"2nd: Wherever, because of the retention of certain lands by the Spring Valley Water Company, or wherever, by reason of the fact that the city purchases only portions of the land held by the Spring Valley Water Company, rights of way to either party are necessary over the lands of the other, such rights of way are to be given.

"3rd: Taxes on property purchased by the city are to be prorated as of date of conveyance. Lands taken over by the city which are subject to Twin Peaks Tunnel Assessment are to be taken subject to such assessment and the amount which the company has paid or shall pay on account of such assessment on the lands taken by the city shall be deemed a capital expenditure for which the company is to be reimbursed under the conditions of paragraph 4. Accounts receivable from customers and rents on property taken are to be prorated as of date of conveyance.

"4th: The City and County of San Francisco is to reimburse the company for capital expenditures other than investment in land, rights of way or water rights made since January 1, 1913, up to the date of the making of any offer by the City and County of San Francisco, and the acceptance thereof by the Spring Valley Water Company, with interest at the rate of six (6) per cent per annum. The Spring Valley Water Company has presented to the city a statement of its said capital expenditures showing the same to be \$595,000.00. It is understood that the city under this paragraph shall not be called upon to reimburse the Spring Valley Water Company for more than this amount together with interest thereon and that the correctness of this claim is to be passed upon by City Engineer O'Shaughnessy and a representative of the company; and in case they cannot agree by a third person to be chosen by them.

"5th: The City and County of San Francisco is to reimburse the Spring Valley Water Company for capital expenditures from and after the date of making any offer by the City and County of San Francisco and the acceptance thereof by the Spring Valley Water Company, with interest at the rate of six (6) per cent per annum; such capital expenditures, however,

are to be made and incurred subject to the approval of the City Engineer, and all work involving capital expenditures shall be done subject to his approval.

"6th: Judgment is to be entered in the rate suits now pending in the District Court of the United States between the Spring Valley Water Company and the City and County of San Francisco in such a way as to provide that the company shall take but one-half of the moneys impounded therein and that the balance shall be returned to the rate-payers, and that any portion of such balance which cannot be so returned to the rate-payers shall be turned over to the City and County of San Francisco; it is at all times to be understood, however, that the provisions of this paragraph are wholly conditioned upon and in consideration of the consummation of the final purchase of the Spring Valley Water Company's properties upon the terms herein set forth.

"7th: The city is willing to agree that it will, in case any bondholder of the Spring Valley Water Company refuses to receive payment of his bond so as to enable the trustees under the deed of trust securing such bond, to make reconveyance and clear the property from the lien of said bond issue, take the property subject to such lien, and so far as it can do so without detriment to itself, retaining, however, such portion of the purchase price as is equal to the par value plus the interest accrued on said bond, the owner of which so refuses to accept payment. The city will pay to the trustee of the deed of trust, as a part of purchase price, the amount necessary to pay off at par, with accrued interest, those bonds whose owners are willing to accept such payment.

"8th: Acceptance of the offer if made by the City and County shall be consented to by stockholders of the Spring Valley Water Company holding of record at least two-thirds of its issued capital stock."

Pursuant to the authority vested in it, the Advisory Water Committee requests of the Spring Valley Water Company a statement as to whether or not it will accept the above offer if made to it by the Board of Supervisors of the City and County of San Francisco.

Respectfully,

(Signed)

JAMES ROLPH, JR.,

Executive Department, Spring Valley Water Company,

San Francisco, Cal., July 30, 1914.

To Messrs. James Rolph, Jr., Matt I. Sullivan, Alex. T. Vogelsang, Percy V. Long, Thos. Jennings, Advisory Water Committee; M. M. O'Shaughnessy, City Engineer—

Dear Sirs:

The Spring Valley Water Company, acknowledges receipt of your letter of July 27, 1914, in which you request a statement as to whether or not it will accept an offer, if one is made to it by the Board of Supervisors of the City and County of San Francisco, in the terms set forth in your said letter.

In response thereto the company hands you herewith a certified copy of a resolution passed by its Board of Directors at a meeting held on this date, and in accordance with the terms of that resolution, notifies you that if an offer is made to it, setting forth and embodying the terms contained in your letter hereinabove referred to, the Board of Directors will, by appropriate resolution under the authority heretofore conferred upon it by the stockholders, accept the offer and will also call a meeting of the stockholders of the company and recommend that they consent to and approve the sale to the City and County of San Francisco of the properties of this corporation referred to in said letter at the price and upon the terms and conditions set forth therein.

Very truly yours,

SPRING VALLEY WATER COMPANY,  
By A. H. PAYSON, Vice-President.

Whereas, James Rolph, Jr., Matt I. Sullivan, Alexander Vogelsang, Percy V. Long and Thomas Jennings, comprising the City Advisory Water Committee, and M. M. O'Shaughnessy, City Engineer, did, on the twenty-seventh day of July, 1914, address to this corporation a letter reading as follows:

(Here follows copy of the letter of the Advisory Water Committee to the Spring Valley Water Company, as set out in the foregoing letter marked Exhibit "A".)

Now, therefore, be it Resolved, That the Vice-President of this corporation be and he is, hereby authorized and instructed for and on its behalf to notify the men-

bers of said City Advisory Water Committee, and the said City Engineer, that if an offer is made by the Board of Supervisors of the City and County of San Francisco to this company, embodying the terms set forth in said letter, that this board will, by appropriate resolution under the authority heretofore conferred upon it by the stockholders, accept said offer, and will call a meeting of the stockholders and recommend that they consent to and approve the sale to the City and County of San Francisco of the property of this corporation, referred to in said letter, at the price and upon the terms and conditions therein set forth.

(Seal)

SPRING VALLEY WATER COMPANY,  
By (Signed) A. H. PAYSON, Vice-President.  
By (Signed) JOHN E. BEHAN, Secretary.

I, John E. Behan, Secretary of the Spring Valley Water Company, a corporation, duly organized and existing under and by virtue of the laws of the State of California, do hereby certify that the foregoing is a full, true and correct copy of preamble and resolution duly and regularly passed and adopted at a special meeting of the Board of Directors of the corporation duly convened and held on the thirtieth day of July, 1914.

Witness my hand and seal of this corporation this thirtieth day of July, 1914.  
(Seal) (Signed) JOHN E. BEHAN, Secretary.

#### WATER RIGHTS OWNED BY THE SPRING VALLEY WATER COMPANY TO BE ACQUIRED BY THE CITY AND COUNTY OF SAN FRANCISCO.

(Note: The expression "Lands to be Acquired" as used below, means lands now owned by the Spring Valley Water Company to be acquired by the City.)

##### I. WATER RIGHTS IN SAN MATEO COUNTY.

Riparian rights on San Mateo, Creek, from Crystal Springs Dam through the town of San Mateo to the City of San Francisco.

Riparian rights on Locks Creek and Pilarcitos Creek from the boundaries of the lands to be acquired to the Pacific Ocean.

Riparian rights on San Pedro Creek in Section 3, Township 4, South, Range 6 West.

##### II. WATER RIGHTS IN ALAMEDA COUNTY.

Riparian rights on Alameda Creek from the boundaries of the lands to be acquired, near Niles, westerly to the Bay of San Francisco.

Riparian rights covering the portions of Laguna Creek between Pleasanton and Sunol not covered by lands to be acquired in fee by the City.

Riparian rights in certain sections of Township 4 South, Range 1 East; Township 5 South, Range 1 East; and Township 5 South, Range 2 East, in the drainage area of Alameda Creek.

The right to withdraw underground waters in the vicinity of Pleasanton to the amount of 15,000,000 gallons in any one day, without interference by the Spring Valley Water Company, or its successors, by virtue of their interest in the lands not to be acquired by the City.

##### III. WATER RIGHTS IN SANTA CLARA COUNTY.

Riparian rights in certain sections of Township 5 South,

Range 2 East; Township 5 South, Range 3 East; Township 6 South, Range 2 East; and Township 6 South, Range 3 East, in the drainage areas of Alameda Creek, Calaveras Creek, and Arroyo del Valle.

The lengths of right of way easements given above include rights of way through the lands now held in fee by the Spring Valley Water Company, but not to be acquired by the City; the rights of way now held by the Spring Valley Water Company through the lands of other corporations and individuals. They do not include the lengths of pipe lines in lands now held in fee by the Water Company to be acquired by the City, nor the lengths of pipe lines laid in public streets and county roads.

**EXHIBIT "D".**

**LANDS HELD IN FEE BY THE SPRING VALLEY WATER COMPANY NOT TO BE ACQUIRED BY THE CITY AND COUNTY OF SAN FRANCISCO.**

The following lands of the Spring Valley Water Company are omitted from the list of lands to be purchased by the City and County of San Francisco as in the

judgment of the City Engineer they are not necessary for use in connection with either the present water supply system of the City or the future development of the water supply.

**In San Francisco—**

1. Lobos Creek lands adjoining the Presidio Reservation: "Lobos Creek, a small stream running westerly from Mountain Lake, was secured by the Company through purchase of the San Francisco Water Works, and was used as a source of supply to the extent of about 2,000,000 gallons a day, until the year 1901, when, the waters being considered unfit for domestic purposes by the Health Department on account of the growing population in its watershed, its use was discontinued."

(John R. Freeman, Report on Hetch Hetchy Water Supply for San Francisco, 1912, page 387.)

The waters of Lobos Creek are now being used for the purpose of supplying the Presidio Reservation, being purified by filtration. The amount of water to which the Presidio is entitled is in dispute between the Water Company and the Military authorities, the latter claiming all of the flow of the stream and the Company half of it.

2. Market Street Reservoir Property (so-called), bounded by Market, Buchanan, Herman and Church streets.

There was formerly a small distributing reservoir on this property which was destroyed when the streets were cut through. There is no further possible use for the property in connection with the water supply of San Francisco.

3. Strip of land 100 feet in depth fronting on Bay street, from Larkin to Hyde.

This is a portion of tract known as Francisco Street Reservoir Tract, but is not in use for reservoir purposes, or any other purpose in connection with the water supply except that a small portion of it is occupied by a keeper's cottage. The cottage is very old and of little value. The rear line of the strip is approximately the line of the bottom of the reservoir embankment.

4. Six entire blocks bounded by Sloat Boulevard, Great Highway, Vicente street and Forty-fifth avenue. (Outside lands, Blocks Nos. 1221, 1222, 1223, 1285, 1286 and 1287.)

These blocks never were, are not now, and will not be used in connection with the water supply.

5. 1253.69 acres of Lake Merced Lands lying outside of the boundary selected by the City Engineer for the lands to be acquired by the City.

The lands within this boundary so selected by the City Engineer include 823.67 acres (being partly within San Francisco County and partly within San Mateo County, of which 6.06 acres are for pump station grounds, 6.48 acres are for Serra Boulevard widening, 336 acres are lake area and 475.13 acres may be devoted to park and pleasure purposes.

In the event of purchase by the City other and ample safeguards against contamination of water are planned by parking and boulevarding the lake boundary, and by building restrictions. No useful purpose would be accomplished by taking a larger area.

**In San Mateo County—**

6. 779.07 acres of Lake Merced Lands. (Same remarks as under item 5.)
7. Lot in Ning Yung Cemetery.
8. Lot in Chinese Christian Cemetery.
9. Lot in Edward Kelly Cemetery Tract.

Items 7, 8 and 9 are lots which were purchased to form part of right of way of the old Pilarcitos Pipe Line, which was partially destroyed by the earthquake of 1906, and was abandoned. No pipe line would ever be constructed along the same route again, and therefore these lots are of no use to the City.

10. 209.16 acres of the so-called Howard Tract, lying on the east side of the ridge east of Crystal Springs Reservoir, and north of San Mateo Creek. This land is not a part of the watershed tributary to the reservoir, and the City can gain nothing by owning it. The riparian rights appurtenant to the land and also a right of way for the Crystal Springs pipe line which crosses it are to be acquired.
11. 861.35 acres of the Polhemus Tract, lying on the east side of the ridge, east of Crystal Springs Reservoir and south of San Mateo Creek. This is not a portion of the watershed of Crystal Springs Reservoir, and is of no use in connection with the water supply of the City.
12. Lands adjacent to the Crystal Springs watershed on the south side of the ridge between Crystal Springs Reservoir and West Union Creek. This area, 1322 acres, forms a part of the watershed tributary to Portola Reservoir, mentioned below.

13. Searsville Tunnel Tract, 30.38 acres.

14. Portola or Searsville Lands, 831.82 acres.

Items 12, 13 and 14 are lands tributary to the Portola Reservoir. The water obtainable from these sources is not sufficient to justify the expense of construction, and of acquiring additional lands and riparian rights that would be necessary before it could be developed. A portion of the water derived from this source is used for Stanford University.

15. Lands on Pescadero Creek, 680 acres, lying on the west side of the main ridge of the Peninsula. The water from these lands flows to the ocean and its

utilization would necessitate very expensive work which the quantity of water would not justify.

**In Alameda County—**

16. Poorman Tract, 533.77 acres, south of Alvarado, purchased for the purpose of development of water by wells, but never used for that purpose. It is now used by Salt Works. The quality of the water obtainable is questionable and furthermore it is improbable that the Spring Valley Water Company would be allowed to withdraw any water, as farmers in the neighborhood would be damaged by such action.
17. Beard Tract, 164.36 acres, southwest of Decoto, fronting on Alameda Creek. This tract lies below the points of diversion of water from Alameda Creek and it is therefore sufficient for the City to obtain riparian rights appurtenant to the land, but it is unnecessary to acquire the land in fee.
18. Overacker Tract, 133.68 acres, near Centerville, on Alameda Creek. The remarks on item 17 apply to this tract also. The City is to acquire the riparian rights and also a strip of land 25 feet wide through the tract for use as a future pipe line right of way.
19. The Stone Ranch, 1159.88 acres, west of Sunol, and north of Alameda Creek. A strip of land along Alameda Creek is to be acquired out of this tract in order to guard the riparian rights. The balance is hillside land and in no way useful for water supply purposes. It lies below Sunol, the point of diversion of water from Alameda Creek for the supply of San Francisco.
20. A portion of the Nussbaumer Tract on Laguna Creek, between Pleasanton and Sunol, 509.59 acres. The City will acquire a narrow strip of land in the Nussbaumer Tract sufficient to guard the riparian rights and to cover the pipe line from Pleasanton Wells. Balance is unnecessary for water supply purposes.
21. 4875 acres of land in the vicinity of Pleasanton. The City is to acquire 738.73 acres which includes all of the land south of the County Road No. 2000, amounting to 654 acres, and an additional area of 84.7 acres, which has been selected by the City Engineer to insure the maximum possibilities of the entire water bearing region.

Upon this area additional wells may be sunk, if necessary to further develop the underground water supply to a limit of 15,000,000 gallons per day, which is 50% more than the wells have so far been known to yield. This limit has been set high enough to cover the maximum requirements of the City for water from the vicinity of Pleasanton.

The City acquires, in addition to the land, the absolute right to withdraw this amount of water per day without protest from the Spring Valley Water Company, as owners of the balance of the land, or from its successors in interest.

22. Alviso, or South Bay Lands, 5283.63 acres. These are marsh lands and are situated at the southern extremity of San Francisco Bay. They were originally acquired for the purpose of development of water by wells, but it is doubtful if water from lands so close to tidewater can be withdrawn in sufficient quantity for a supply for San Francisco without deteriorating the quality.

Also it would affect the water supply of the surrounding country as evidenced by attacks already made against the proposals to withdraw the underground waters for use elsewhere. The entire project as a water supply for San Francisco is clouded by doubt as to quantity and quality and title.

Notwithstanding the proximity of these lands to the supply mains the Spring Valley Water Company has never attempted to utilize them for the reasons above given. The value of these lands has been appraised by the City Expert at \$114,000.00. These lands are of no value to the City as a source of supply.

23. Coyote and Pajaro River lands in the vicinity of Gilroy, 11,977.96 acres.

The lands are tributary to Coyote Creek and Pajaro River and cover an underground source of supply, all of which is needed to supply farming interests who claim a prior right to same. The lands were originally bought by Spring Valley Water Company presumably to head off competition of Bay Cities Water Company.

Any attempted withdrawal by the City would be resisted by that Company as well as by land owners in the valley who depend upon that source for irrigation.

That litigation would immediately follow attempted withdrawal of water is shown by a permanent injunction heretofore granted by judgment of the Superior Court of Santa Clara County and affirmed by the Supreme Court of this State enjoining the Bay Cities Water Company from taking water from its land in the same region.

If for no other reason, the attempt to use this supply by San Francisco, would be indefensible on the ground of expense of development and transmission.

The Spring Valley Water Company has never used or attempted to use this source of supply and the lands have been appraised by experts employed by the City at \$134,469.50.

If purchased by the City they would be absolutely worthless as a source of water supply.

**In Santa Clara County—**

24. Stevens Creek Lands, 240 acres, situated about ten miles west of San Jose, entirely disconnected from the San Francisco water supply and of no use in connection with it.

**In San Benito County—**

25. The Pajaro River lands, 690.97 acres, adjacent to the Pajaro lands mentioned under item 23 and drain into the Pacific Ocean. In location these lands are similar to the Coyote Creek lands, and the same statement as to remoteness of supply, uncertainty of results and expense of development and transmission for a water supply for San Francisco applies to these as to the Coyote Creek lands. The experts for the City have appraised these lands at \$72,725.00.

**In Marin County—**

26. Four lots in the town of Sausalito.  
 "Previous to 1851, all water used in San Francisco was secured from small streams and wells inside the city, and from springs across the Bay, at Sausalito, in Marin County, the latter supply being brought to the City by boat."  
 (John R. Freeman Report on Hetch Hetchy Water Supply, for San Francisco for 1912, page 386.)

**EXHIBIT E.**

San Francisco, Cal., August 8th, 1914.

Honorable Matt. I. Sullivan, Chairman, Advisory Water Committee, Humboldt Bank Building, San Francisco, California.

Sir:

As Consulting Engineer to the City Attorney of San Francisco in connection with the rate and condemnation suits under preparation I have made a careful examination of the books and accounts of the Spring Valley Water Company for the several years preceding 1914. Mr. J. M. Bailhache, Expert Accountant, was associated therewith.

This examination was made specially for the purpose of determining the proper operating revenues of said corporation, and also the normal operating expense. In connection with this task and for the purpose of fuller information I have made an analysis of the essential data which leads to a proper conclusion as to the results to be expected in the event the City of San Francisco takes over the property of the Spring Valley Water Company and operates it.

In pursuit of such information the operating expenses, including tax account and the operating revenue accounts, have been recast in detail for the year 1913, assuming,

(a) That the corporation salary roll will be modified to fit the conditions of municipal ownership;

(b) That the wage scale of the City of San Francisco for employees will obtain;  
 (c) That certain expenses peculiar to the corporation will be eliminated;  
 (d) That certain earnings, namely, land rentals, will be lessened by reason of the elimination of lands now owned by the Spring Valley Water Company but not to be acquired by the City;

(e) That water revenues will be those obtained under the same rate as was collected by the Spring Valley Water Company, and also as though collected under ordinance rate;

(f) That while taxes on property to be acquired by the City and County of San Francisco will be charged as an operating expense because such taxes will be lost to the City, yet the State and Federal taxes and taxes on property outside of the City and County of San Francisco will be avoided, as well as taxes on certain lands not to be acquired by the City;

(g) That certain other saving will accrue to the benefit of the City.

All of the above is set out in a detailed manner in this office, 625 City Hall, and to which you are referred for more specific information—the following being a recapitulation:

#### GROSS OPERATING REVENUE.

The gross operating revenue of the Spring Valley Water Company as collected for the calendar year 1913 was:

From water sales.....	\$3,251,411.00	
From rents of lands and sale of crops.....	132,092.64	
From miscellaneous .....	37,463.84	
Total . . . . .		\$3,420,967.48

By reason of the fact that the city is not to take over all of the properties, certain deductions must be made, as follows:

From land rents and crops sales on lands not to be acquired .....	\$ 68,087.24	
Miscellaneous .....	30,832.14	
Total .....		98,919.38

Leaving as gross operating revenue under municipal ownership, 1913, under rates as collected by Spring Valley Water Company .....

\$3,322,048.10

If the amount collected is assumed to be that under the Ordinance rate (which is 15% less for certain classes of consumers), a further reduction should be made for the year of.....

358,554.17

Leaving gross revenue, which would have been obtained by the city under Ordinance rate.....

\$2,963,493.93

#### OPERATING EXPENSES AND TAXES.

The operating expenses of the Spring Valley Water Company, as shown in their statement for the year 1913, was:

Operating expenses .....	\$ 805,611.40	
Taxes .....	445,968.19	
Total .....		\$1,251,579.59

As assumed above, if the plant was operated by the city for the same period, the following deductions from the operating expenses would have obtained:

Deductions for certain corporation expenses not necessary under municipal ownership.....	\$ 127,185.28	
Also a net saving to the city by deducting certain corporation salaries, and adding thereto for increased wage schedule; also saving in rent, etc...	34,941.00	
Saving in taxes on property not taken over by the city .....	60,740.85	
Also a saving in State and Federal taxes.....	41,812.93	
Also a saving in county and other taxes in counties outside of the City of San Francisco.....	128,175.19	

Making a total deduction from operating expenses due to city ownership.....

\$ 392,855.25

Leaving operating expenses and taxes under city ownership on properties to be acquired.....

\$ 858,724.34

However, if the Constitutional Amendment bearing on the subject is adopted in the fall election, to this will have to be added the taxes in the counties of San Mateo, Alameda and Santa Clara on the properties to be taken over and amounting to .....

\$ 128,175.19

In which event the operating expenses will be increased to .....

\$ 986,899.53

The following table exhibits in brief tabular form the results of water operation of the Spring Valley Water Company for 1913, together with the net operating surplus if the plant had been operated by San Francisco, modified as above outlined:

## RECAPITULATION.

	Gross Operating Revenue.	Operating Expenses and Taxes.	Net Operating Surplus.
As collected by Spring Valley Water Company .....	\$3,420,967.48	\$1,251,579.59	\$2,168,387.89
(A) Under city ownership, rates as collected .....	3,322,048.10	858,724.34	2,463,323.76
(B) Under city ownership, at ordinance rates .....	2,963,493.93	858,724.34	2,104,769.59

In the last named column of the above table called "Net Operating Surplus" will be found the results to be expected under municipal ownership under the conditions shown, namely, if the revenues are those obtained under present rates collected by Spring Valley Water Company, and also the net revenue to be expected under the ordinance rate, which is 15% less than that collected by the Spring Valley Water Company. These amounts are the sums applicable to depreciation, interest on bonds, or other proper uses.

From the above table it will be noted that the Net Operating Surplus applicable to depreciation, interest on bonds, etc., is 74.2% and 71.2% of the Gross Operating Revenue under the two conditions named, "A" and "B", respectively.

The ratio of Surplus to Gross Revenue can not only be maintained without difficulty, but the amount of Operating Surplus will continue to increase for the next several years, providing the rate of growth of the City continues, but the rate of growth of the city is determined to a degree by water available for service to the inhabitants. An increased supply and a wider distribution of water to areas now wholly without or insufficiently supplied will greatly increase the population, the gross income from water sales, and the net profits applicable to extensions and betterments.

Respectfully submitted,

BURDETT MOODY,  
Consulting Engineer.

## MAYOR'S VETO.

"Fighting the Flames" Permit.

The following communications from his Honor, the Mayor, were presented, read, ordered spread in the Journal, and laid over one week:

August 6, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco, San Francisco, Cal.:

Gentlemen—I hereby return to you, without my approval, Resolution No. 11062 (New Series), granting permission to the owners or lessees of the property bounded by Van Ness avenue, Grove, Franklin and Hayes streets, to build, maintain and operate an amusement enterprise known as "Fighting the Flames," under conditions therein prescribed.

The reason for my returning this resolution without approval is the opinion of the City Attorney, Hon. Percy V. Long, of August 4th, in reply to a communication of mine of July 30th, copies of both of which letters are here attached.

In view of this opinion of the city's legal adviser, I have disapproved Resolution No. 11062, which I am returning to your Honorable Board.

Respectfully,

JAMES ROLPH, JR.,  
Mayor.

July 30, 1914.

Hon. Percy V. Long, City Attorney,  
City Hall, San Francisco.

Dear Sir: I am enclosing herewith copy of a resolution, No. 11062 (New

Series), and would request that you kindly examine this resolution and advise me whether it is in legal and proper form.

My attention has been called to the granting of permit to owners or lessees of property without mentioning the name of the person who is to conduct the privilege granted under the resolution. I would like to know if this is sufficient in form for the city to retain proper control over the entertainment proposed to be given by the terms of this permit.

I should like to be informed, also, if the fees required are in accordance with existing laws and ordinances; also, if the conditions required comply with the requirements of the charter and the building law.

Yours very truly,

JAMES ROLPH, JR.,  
Mayor.

Opinion of City Attorney.

August 4, 1914.

Subject: Validity of Resolution No. 11062 (New Series).

Sir: I am in receipt of your communication of the 30th ult., as follows:

"I am enclosing herewith copy of a resolution, No. 11062 (New Series), and would request that you kindly examine this resolution and advise me whether it is in legal and proper form.

"My attention has been called to the granting of permit to owners or lessees of property without mentioning the name of the person who is to conduct the privilege granted under the resolution. I would like to know if this is

sufficient in form for the city to retain proper control over the entertainment proposed to be given by the terms of this permit.

"I should like to be informed, also, if the fees required are in accordance with existing laws and ordinances; also, if the conditions required comply with the requirements of the charter and the building law."

*Opinion.*

Resolution No. 11062 (New Series), is as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted to the owners or lessees of the property bounded by Van Ness avenue, Grove, Franklin and Hayes streets, to build, maintain and operate an amusement enterprise known as "Fighting the Flames," from August 4, 1914, to December 4, 1915, under the following conditions, to-wit:

"The grandstand to be well and suitably constructed of wood, and in a thoroughly workmanlike manner, from plans approved by the Board of Public Works, and to be adequately provided with aisles and exits: That in conjunction with said performance the grantees are hereby allowed to operate amusement and selling concessions in booths and buildings all of which will be built and decorated in a substantial manner satisfactory to the Board of Public Works and in conformity with the general architectural scheme of the structure, and that these concessions are to be unobjectionable, clean and moral in every way and to consist of only the regular regulation concessions as are operated at indoor and outdoor expositions and carnivals, such as soft drinks, peanuts and popcorn, candies, cane and knife racks, ball throwing games, rides, freaks (not repulsive or objectionable), ice cream, souvenirs, games of skill; that no intoxicating liquor is to be sold or offered for sale on the grounds; that the amusements and concessions are not to be operated except between the hours of 8 a. m. and 12 o'clock midnight, and are all to be conducted in an orderly and legitimate manner under the supervision of the police committee of the Board of Supervisors and the Police Department of San Francisco; that a license fee of \$1,000.00 per annum be charged, payable quarterly in advance, for operating the 'Fighting the Flames' and a license fee of \$50.00 per quarter be charged for each and every concession operated within said enclosure."

I find on examination of the ordinance of the City and County of San Francisco, that there exists Ordinance No. 72, approved May 16, 1900, entitled, "Imposing a License on Keepers of Ball or Ring-Throwing Games or Cane Racks." Section 1 of said ordinance imposes a license of \$5.00 per quarter

on every keeper of a ball or ring-throwing game or cane rack. Resolution No. 11062 (New Series), imposes a license fee of \$50.00 per quarter for every concession contemplated to be operated under said resolution, and among the concessions named in said resolution are cane racks and ball throwing games, and in that particular the fee required for the concessions named is in conflict with Ordinance No. 72.

It is impossible to tell from the resolution the nature or character of the amusement enterprise as "Fighting the Flames," but in this connection I desire to draw your attention to Ordinance No. 777, approved May 28, 1903, entitled, "Imposing a License on Public Roller Skating Rinks, Revolving Wheels, Chutes, Toboggan Slides, Museums, Kinetoscope and Phonograph Parlors, Panorama and Cyclorama." Said ordinance imposes a license fee of \$25.00 per quarter on every person, firm or corporation maintaining or conducting panorama or cyclorama; and it further provides that the Tax Collector shall not issue a license to conduct any such panorama or cyclorama until the applicant therefor shall have first obtained from the Board of Police Commissioners a permit to conduct the same.

If it should develop that the amusement enterprise, known as "Fighting the Flames," comes within the purview of said ordinance and is, as a matter of fact, a panorama or cyclorama, then Resolution No. 11062 (New Series), is in conflict with said ordinance, for the reasons: First, that the ordinance prohibits the Tax Collector from issuing a license to conduct such an amusement enterprise unless the applicant for such license shall have first obtained a permit to conduct the same from the Board of Police Commissioners, and second, there is a variance in the license fees imposed.

I am not advised as to the extent of the control desired to be retained by the city over the entertainment proposed to be given by the terms of the permit, and therefore, I am unable to say whether the resolution is sufficient in form for the city to retain proper control over said entertainment.

Resolution No. 11062 (New Series), makes no attempt to define the manner of construction of the buildings to be used in the conduct of said enterprise, other than to provide that the grandstand shall be built of wood from plans approved by the Board of Public Works. In advance of being informed as to the said plans, it cannot be determined whether or not the conditions comply with the building law. However, that point is of no consequence, because, in so far as Resolution No. 11062 grants permission to

build the grandstand and booths to be used in the amusement enterprise named therein, it is in conflict with Ordinance No. 1008, section 5 of which provides that:

"Before the erection, construction, alteration, enlargement, repair, removal or demolition of any building or structure or part thereof, the person, firm or corporation performing the work shall obtain a permit for doing the same from the Board of Public Works."

Section 9 of chapter I, article VI of the Charter provides that the Board of Public Works shall have charge, superintendence and control under such ordinances as may from time to time be adopted by the Supervisors; 5. "Of the supervision of any and all buildings constructed in the city and county." The Supervisors, having enacted Ordinance No. 1008 (New Series), giving to the Board of Public Works the power to issue permits for the construction of any building or structure, has not the power to set aside the provisions of said ordinance in favor of any person, firm or corporation, for the reason that it would be a special privilege granted under the resolution, and in my opinion Resolution No. 11062 discriminates between individuals similarly situated, and for that reason is invalid.

Respectfully,

(Signed): PERCY V. LONG,  
City Attorney.

By D. S. O'BRIEN,  
Assistant City Attorney.

*Improvement of Fulton Street.*

On motion of Supervisor Jennings: Bill No. 3161, Ordinance No. — (New Series), entitled, "Ordering the improvement of the southerly one-half of Fulton street westerly from the

westerly line of Twenty-fifth avenue, by the construction of granite curbs and an asphalt pavement; authorizing and directing the Board of Public Works to enter into contract for said improvement, approving plans and specifications therefor, and permitting progressive payments to be made during the progress of said work."

**Approving Plans for Equipment of Central Fire Alarm Station.**

Bill No. 3162, Ordinance No. — (New Series), entitled, "Approving plans submitted by the Board of Public Works for the equipment of the Central Fire Alarm Station in Jefferson square, authorizing the Department of Electricity to construct certain parts of the switchboard for said Fire Alarm Station, setting aside the sum of ten thousand (10,000) dollars to be expended by the Department of Electricity in said work, and directing the Board of Public Works to prepare specifications and contracts and advertise for bids for supplying material and labor necessary to the construction and installation of said equipment, and permitting progressive payments to be made during the progress of said work."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The plans for the mechanical and electrical equipment of the Central Fire Alarm Station in Jefferson square, which have been prepared by the City Engineer and submitted to this Board by the Board of Public Works, which plans are on file in this office and have been approved by the Joint Board of Fire and Police Commissioners, are hereby approved.

Section 2. The Board of Public Works is hereby authorized, instructed and empowered to immediately prepare specifications and contracts and advertise for bids for furnishing, delivering and installing the marble and metal work for the switchboard of said equipment, the engines, generators and motors, the storage batteries and accessories, the special transmitting and recording instruments, the underground conduit and manholes necessary to connect the existing fire alarm circuits of the Fire Department to the said Central Fire Alarm Station; such parts of the switchboard equipment as cannot be reasonably manufactured in San Francisco, and such incidental instruments, material and labor as may be necessary to complete said equipment.

Section 3. Said Board of Public Works is hereby authorized and permitted to incorporate into the contracts for furnishing, delivering and installing said parts of said mechan-

ical and electrical equipment provisions to the effect that progress payments shall be made as provided by Section 21, Article VI, Chapter I of the Charter.

Section 4. The Department of Electricity is hereby authorized, instructed and empowered to proceed with the manufacture and installation of such parts of said mechanical and electrical equipment as can be reasonably manufactured by said department.

Section 5. The sum of ten thousand (10,000) dollars is hereby set aside from Budget Item No. 63 in the Budget of 1914-15 for the purpose of constructing and equipping said Central Fire Alarm Station in Jefferson square to be expended by the Department of Electricity in performing the work hereby authorized in Section 4 of this Ordinance.

Section 6. This Ordinance shall take effect immediately.

**Laundry, Oil and Boiler Permits.**

On motion of Supervisor McLeran: Resolution No. — (New Series), as follows:

Resolved, That the following revocable permits are hereby granted:

*Laundry.*

P. Lahaderne, at 1861-1863 O'Farrell street.

*Oil Storage Tanks.*

E. H. Garin, at northeast corner of Clay and Leavenworth streets, 1,500 gallons capacity.

Mrs. Eugene Lent, at 2810 Pacific avenue, 1,500 gallons capacity.

*Boiler.*

**Recommended.**

The following resolution, laid over from a previous meeting, was taken up and on motion ordered *recommended to Fire Committee.*

**Public Garage Permit, T. T. Cox.**

Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at will of the Board of Supervisors, is hereby granted to T. T. Cox to maintain a public garage at the northeast corner of Powell and Post streets on the express condition that the requirements of Ordinance No. 746 (New Series) be strictly complied with and that the entrance to said garage be on the Post street side of the property.

**Adopted.**

The following resolution was *adopted:*

**Extension of Time.**

On motion of Supervisor McLeran:

Resolution No. 11091 (New Series), as follows:

Resolved, That the Sunset Construction Company is hereby granted an extension of 6 months' time from August 10, 1914, within which to explode blasts while grading on Seventeenth and Eighteenth avenues, between "K" and "L" streets, and on the private property bounded by said streets.

The bonds furnished by said Sunset Construction Company when granted the original permit to blast by Resolution No. 6326 (New Series) are to be renewed to cover the permit of said extension.

Automobile Supply Station Permit.

Supervisor McLeran presented:

Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted the Omen Oil Company to maintain an automobile supply station at the northeast corner of Hermann and Steiner streets; also to store not more than 900 gallons of gasoline on premises at any one time.

Privilege of the Floor.

W. R. Haggerty, attorney representing protesting property owners, was granted the privilege of the floor. He opposed the permit on the ground that its tendency would be to depreciate property values, that the auto traffic would be a menace to children attending school in the neighborhood and on the further ground that it would increase the fire hazard.

Frank V. Bell, attorney representing applicant, also addressed the Board. He urged the passage of the resolution.

Recommended.

Whereupon, on motion of Supervisor McLeran, the foregoing resolution was *recommended to the Fire Committee* by the following vote:

Ayes—Supervisors Bancroft, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr—9.

Noes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Hocks, Nolan, Walsh—7.

Amending Tunnel Procedure Ordinance.

On motion of Supervisor Deasy:

Bill No. 3164, Ordinance No. —, Amending Section 18 of "The Tunnel Procedure Ordinance" of the City and County of San Francisco providing for the times when installments of principal shall be made in cases where agreements have been made therefor, and when and how interest on all said installments unpaid shall be paid.

Be it Ordained by the People of the City and County of San Francisco as follows:

Section One. Section 18 of "The Tunnel Procedure Ordinance" of the City and County of San Francisco, being Ordinance No. 2186, New Series, approved February 19th, 1913, is hereby amended so as to read as follows:

Section 18. The times when installments of principal shall be made in cases where agreements have been made therefor, are hereby fixed as follows:

The first installment shall be paid at the time of the application to the Tax Collector for such agreement.

The second installment shall be paid on or before the last Monday in December in the next fiscal year and subsequent installments shall be paid annually thereafter, one each year on or before said last Monday in December.

Interest on all installments unpaid shall be paid at the rate fixed in the proceedings as follows: At the time of the execution and delivery of the agreement interest shall be paid on the unpaid principal until the first day of July next after.

At the time the second installment of principal is paid, as above provided, interest shall be paid for six months from the first day of July last past to the first day of January ensuing, on the principal remaining unpaid after the last preceding payment.

At the time each subsequent installment of principal is paid as above provided, interest shall be paid for one year from the first day of January last past to the first day of January ensuing on the principal remaining unpaid after the last preceding payment.

Section Two. This ordinance shall take effect immediately.

Dancing in Cafes and Restaurants Where Liquor is Sold.

The following resolution, heretofore presented by Supervisor Deasy, referred to the Police and returned by said Committee with the recommendation that same be adopted, was taken up:

J. R. No. —.

Whereas, A great number of our citizens enjoy the pleasure of dancing; and

Whereas, Dancing is an enjoyable and healthful amusement when indulged in under proper supervision and regulation; and

Whereas, Some of our prominent cafes and restaurants have been granted permission to have dancing in their places of business; therefore, be it

Resolved, That we hereby declare it to be the sense of this Board that the citizens of our city should not be restrained from enjoying such pleasure, and we therefore recommend to the Board of Police Commissioners of this City and County that permission be granted to restaurants and cafes, other than those located in the residential districts and those located on Pacific street in that section of the city commonly known as the "Barbary Coast" to have dancing in their respective places during evening under such regulations as said Board of Police Commissioners may deem necessary and advisable to make.

Amending Street Excavation Ordinance.

On motion of Supervisor McCarthy:

Bill No. 3165, Ordinance No. —

(New Series), amending Sections Two, Three, Four, Five, Six, Nine,

Eleven, Twelve, Seventeen and Twenty-one of Ordinance No. 2201, entitled, "An Ordinance Regulating the Making and Refilling of Excavations in the Public Streets, Alleys, Sidewalks and Other Public Places, and Repealing Ordinance No. 658 (New Series) and Ordinance No. 2109 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Sections two, three, four, five, six, nine, eleven, twelve, seventeen and twenty-one of Ordinance No. 2201 (New Series) entitled, "An ordinance regulating the making and refilling of excavations in the public streets, alleys, sidewalks and other public places, and repealing Ordinance No. 658 (New Series), and Ordinance No. 2109 (New Series), are hereby amended to read as follows:

Section 2. It shall be unlawful for any person, firm or corporation to make, or to cause or permit to be made, any excavation, or to install, or cause or permit to be installed any tank, pipe, conduit, duct or tunnel, except side sewers and sub-sidewalk areas, in or under the surface of any public street, alley, sidewalk or other public place at any location, other than that described in the application and shown on the plats filed by such person, firm or corporation, as required by the provisions of this ordinance.

Section 3. When the application to excavate and the details shown upon the accompanying duplicate plats, when such plats are required, comply with the terms of this ordinance and the regulations of the Board of Public Works, the application and duplicate plats shall be approved by the City Engineer's office. After such approval one of the duplicate plats shall be filed in the office of the City Engineer as a public record. The application and the other duplicate plat shall be filed with the Board of Public Works, together with special deposits as follows, to-wit: A sum equal to thirty cents per square foot of surface of each such excavation to be made in the streets or other public places which have been paved; a sum equal to twenty cents for each square foot of surface of each such excavation to be made in streets or other public places which have been macadamized; and a sum equal to ten cents for each square foot of surface of each such excavation to be made in streets or other public places which are neither macadamized nor paved; provided, that no deposit shall be less than five dollars; and provided further, that any person, firm or corporation intending to make ex-

cavations in public streets, allies or other public places may make and maintain with the said Board of Public Works a general deposit in the sum of twenty-five hundred dollars, which general deposit shall be used for the same purpose as the special deposits described hereinbefore in this section, and while such general deposit is maintained at the said sum of twenty-five hundred dollars such person, firm or corporation shall not be required to make the special deposits hereinbefore in this section provided for, but shall be required to file a written application for a permit for each such excavation and duplicate plats showing the location thereof, as in this ordinance provided, and to comply with all of the other provisions of this ordinance. If a general deposit is made the Board of Public Works shall deduct from the same all amounts due under the provisions of this ordinance for each calendar month from the person, firm or corporation maintaining the same and shall render a statement of such deductions at the end of each month to said person, firm or corporation, who must, within five days, restore said deposit to its original amount.

Section 4. Upon receiving a written application, as provided in Section 1 of this ordinance, and one of the duplicate plats, when such plats are required, each bearing the approval of the City Engineer, and the general or special deposit required by Section 3 hereof, the Board of Public Works in regular session shall issue a certificate in writing, which shall be evidence of the right of the person, firm or corporation therein named to make such excavation, and shall open and keep an account thereof; provided, however, that the Board of Public Works shall not issue such certificate unless the applicant has legal authority to occupy and use, for the purpose mentioned in the application, the streets, alleys, sidewalks or other public places covered by said application.

Such certificate shall state whether the work to be done is covered by a general or a special deposit and, if a special deposit, shall state the amount thereof and shall be a receipt therefor. It shall also specify the person, firm or corporation to whom the same is issued, the street, alley or other public place and the particular portion or portions thereof to be excavated and the approximate extent of such excavation. No certificate shall be transferable. The certificate shall state a time when all of the work to be done thereunder shall be completed and every such certificate shall become and be void unless

the excavation to be made pursuant thereto is commenced within six months from the date of issuance of such certificate and the work diligently prosecuted as in this ordinance required; provided, however, that the Board of Public Works may grant not to exceed one extension of time for a period not exceeding thirty days, such extension to be granted in the same manner as the original certificate. In case any excavation made in accordance with any certificate shall not be refilled and the pavement restored within the time stated therein, or within the time as extended as herein permitted, then the sum of five dollars for each day such work is thereafter incompleated shall be deducted from the deposit made as required by Section 3.

If work is not commenced pursuant to any such certificate within six months after the date thereof, such certificate shall be canceled and the City shall retain the following amounts from any general or special deposit of the person, firm or corporation to whom such certificate was issued: \$1.25 if such certificate was issued for an excavation in a paved or macadamized street, alley or other public place, and 50 cents if such certificate was issued for an excavation in a street, alley or other public place that has not been paved or macadamized.

Section 5. In every case the street or thoroughfare so opened or torn up shall be restored by the person, firm or corporation opening or tearing up the same with the same kind of pavement and to as good a condition as it was in before the opening or tearing up thereof.

In cases where the pavements are composed of concrete and asphalt or bituminous rock, the said pavements shall be restored with new asphalt or bituminous rock in accordance with the standard specifications of the City and County.

The person, firm or corporation opening or tearing up any pavement shall assume the full responsibility for all reconstruction and repairs as aforesaid, and shall be subject to the penalties hereinafter provided in case the work of such repairs and reconstruction was not properly performed.

Section 6. No trench shall be opened in any graded street or thoroughfare for the purpose of laying pipes or conduits more than six hundred feet in advance of the pipe or conduit placed therein except in case of emergency and by consent of the Board of Public Works. All such trenches shall be backfilled and the old torn-up pavements (except basalt blocks, cobbles or old concrete) shall

be removed from the street, together with the surplus excavated material, within three working days from the time such material is placed upon the street, except by the written consent of the Board of Public Works.

In case the street or road way is paved with broken rock, or macadam or basalt blocks, or cobbles, on a sand foundation, said pavement shall be restored within three working days from the time the trench was back-filled.

In case the street or thoroughfare is paved with bitumen or asphalt, and a binder course on a block or cobble foundation, or bitumen or asphalt on a concrete foundation, or a concrete foundation and basalt blocks with grouted joints, said pavements shall be restored within not less than seven nor more than twelve days from the time the trench was refilled, five of which days are to be allowed for the concrete to set and harden. This shall be the rule in all cases where concrete is used as a foundation for pavement. During the period following the laying of the concrete base to the relaying of the wearing surface such concrete shall be covered with planks and sand flush with the surface of the contiguous pavement.

Whenever any caving occurs in the side walls of any excavation, the pavement above such caving shall be cut away, and in no case shall any void under a pavement be filled by any side or lateral tamping.

In every case, the work of repaving over all trenches must commence immediately after said trenches are back-filled, and the work of clearing up the streets is to be considered a part of the repaving work, and shall be finished within the same time allowed in all cases for said repaving and to the satisfaction of the Board of Public Works.

When a street is opened for the purpose of what is known as prospecting or for the purpose of making repairs or alterations to pipes or conduits, as soon as the work of such repairs and alterations is finished, the trench shall be backfilled and pavement restored within the time allowed for the restoration of the same kind and character of pavements over main or service trenches.

In every case and at all times the work of removal from the streets of all obstructions, surplus materials and debris or waste matter of every description caused and accumulated by said work of opening and restoring public streets and thoroughfares, shall be kept up jointly with the work of backfilling and repaving either over "main" or "service" trenches, and all

finished together—or nearly so and within the time herein allowed in Section 6 of this ordinance, and in all cases the surface of the street shall be restored to as good a condition as it was in before the work of opening commenced.

When any of the work required to be done by Section 6 of this ordinance is necessarily delayed by any strike or strikes, such delay shall be added to the time limits therein prescribed.

Section 9. The said City and County shall deduct from the deposit made for any excavation under the provisions of this ordinance the following sums for each certificate under the authority of which the excavation was made to cover the cost of inspection, viz.: one dollar for each excavation in a street paved with materials acceptable under the street paving ordinance and regulations of the City and County; fifty cents for each excavation in a street graded but not acceptably paved, and in macadamized streets; no charge shall be made for excavations in streets which are neither graded nor paved.

For the purpose of this ordinance an excavation shall be defined as an opening in the street two hundred feet or less in length, and each two hundred feet or fraction thereof in excess of the first two hundred feet shall be considered as a separate excavation for which a separate permit shall be required and a separate charge made. Excavations for service connections made at the same time as and connecting with excavations for mains shall be charged for as an extension of the main excavation with which they connect, and the calculation of charges based upon the aggregate length of main and connecting services. Service excavations not connecting with main excavations, however, shall be charged for as separate to openings.

The balance of each such deposit, after the deductions hereinbefore provided for have been made, shall be retained by the City and County of San Francisco for two years from the date of the completion of the work.

The said City and County shall also deduct the cost of any work done or repairs made by the Board of Public Works as provided for in this ordinance from any and all deposits then on hand, belonging to or that may thereafter be made by any person, firm or corporation required by this ordinance to do any work or to make any repairs under the provisions of Sections 7 and 8 of this ordinance, and who shall have failed, refused or neglected to perform such work or to make such repairs.

Section 11. The decision of the Board of Public Works as to the cost of any work done or repairs made by it or under its direction pursuant to the provisions of Section 7 or Section 8 of this ordinance shall be final and conclusive as to such cost.

Section 12. All the moneys paid to the Board of Public Works under the provisions of Section 9 of this ordinance shall be deposited with the Treasurer to the credit of a special fund hereby created and designated "Excavation Fund," to be used to defray the cost of inspection made necessary by reason of such excavations and repairs.

All costs of inspection shall be paid from said last named fund, on a warrant drawn by the Auditor on demands approved by the Board of Public Works and returns of any deposit shall be made in like manner.

The cost of all repairs made to pavements by the Board of Public Works by reason of the failure of any person, firm or corporation to make the same when required to do so under the provisions of this ordinance shall also be paid out of said fund and charged against the general or special deposit made by said person, firm or corporation.

Section 17. For the purpose of interpreting the provisions of this ordinance, the term "service connection" as herein used shall be taken to mean a branch pipe or conduit between a main pipe or conduit and a building or buildings which are to be supplied with heat, light, power, water or telephonic, telegraphic or signal service from said main pipe or conduit.

Section 21. Nothing in this ordinance contained shall be construed to prevent any person, firm or corporation maintaining any pipe or conduit in any public street, alley or other public place, by virtue of any law, ordinance or permit, from making such excavation as may be necessary for the preservation of life or property when such necessity arises during such hours as the offices of the city are closed; provided that the person, firm or corporation making such excavation shall apply for a certificate therefor as herein required within four hours after the offices of the city are first opened subsequent to the making of such excavation. Provided, further, that in making the charges for such emergency prospect holes all the holes within 200 feet of street length shall be charged for as one excavation.

Section 2. This ordinance shall take effect immediately.

**Establishing Grades, Certain Streets.**

On motion of Supervisor McCarthy:  
Bill No. 3166, Ordinance No. —

(New Series), entitled, "Establishing grades on Cross, Morse, Brunswick, Hanover, Lowell, Guttenberg, Concord, Allison, Pope, Curtis and Newton streets, and on Watt avenue."

**Ordering Street Work.**

On motion of Supervisor McCarthy:  
Bill No. 3167, Ordinance No. —  
(New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. The Board of Public Works in communication filed in the office of the Clerk of the Board of Supervisors August 3, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of the crossing of Alameda street and San Bruno avenue, by the construction of granite curbs and artificial stone sidewalks on the angular corners thereof, a basalt block pavement on a 6-inch concrete foundation with basalt block gutters on the roadway thereof, except that portion required by law to be paved by the railroad company having tracks thereon; and brick catchbasins with castiron frames, gratings and traps and 10-inch, vitrified, salt-glazed, iron-stone pipe culverts on the northwesterly, southwesterly and southeasterly angular corners thereof.

The improvement of the crossing of Nineteenth and Douglass streets, by resetting to official line and grade the granite curbs which are not already at official line and grade; by the construction of artificial stone sidewalks on the four (4) angular corners; by the construction of 10-inch, vitrified, salt-glazed, iron-stone pipe culverts connecting the existing catchbasins and the existing manhole in the center of the crossing; and by the construction of an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof.

The improvement of Silver avenue, between Boutwell street and San Bruno avenue, including the intersections of Silver avenue and Boutwell street and Silver avenue and San Bruno avenue, by the construction of the following vitrified, salt-glazed, ironstone pipe sewers and appurtenances: An 8-inch along the center line of Boutwell street, produced, between the northerly and center lines of Silver avenue; an 18-inch with 1 Y branch and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Silver avenue, between a line at right angles with the northerly line of Silver avenue at its point of intersection with the easterly line of Boutwell street and a line at right angles with the northerly line of Silver avenue at its point of intersection with the westerly line of Boutwell street; an 18-inch with 12 Y branches and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Silver avenue from the last-described line to the easterly line of San Bruno avenue; and an 18-inch from the last-described line to the existing manhole in the intersection of San Bruno avenue and Silver avenue.

Also, Bill No. 3168, Ordinance No. — (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors August 4, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Rey street, between Leland and Visitacion avenues, by the construction of an 8-inch vitrified, salt-glazed, ironstone pipe sewer with 16 Y branches and 1 brick manhole with cast-iron frame and cover

and galvanized, wrought-iron steps along the center line of Rey street from a point 20 feet southerly from Leland avenue to the northerly line of Visitacion avenue.

Also, Bill No. 3169, Ordinance No. — (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors August 4, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Woolsey street from the westerly line of San Bruno avenue to the easterly line of Somerset street, including the crossings of Girard, Berlin and Goettingen streets, by grading to official line and grade; by the construction of concrete curbs; by the construction of artificial stone sidewalks on each of the angular corners of the crossings; by the construction of the following brick catchbasins with cast-iron frames, gratings and traps and 10-inch vitrified, salt-glazed, ironstone pipe culverts: three (3) on the crossing of Woolsey and Goettingen streets; three (3) on the crossing of Woolsey and Berlin streets, and four (4) on the crossing of Woolsey and Girard streets; and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof.

Adopted.

The following resolutions were adopted:

Relative to the Sewering of Twenty-eighth Street and Postponement of the Grading Thereon.

On motion of Supervisor McCarthy:  
J. R. No. 1379.

Whereas, The property owners on Twenty-eighth street, between Diamond and Castro streets, have ap-

pealed from the decision of the Board of Public Works in overruling their protest against the grading and sewer-ing of Twenty-eighth street, between Diamond and Castro streets, as provided in Resolution of Intention No. 30997 (Second Series), for the reason that the character of the ground to be excavated will make the grading very expensive; and

Whereas, A petition has been filed by the property owners requesting the construction of a sewer and the post-ponement of the grading of said street; therefore,

Resolved, That the Board of Public Works is hereby requested to grant the petition of the property owners and recommend the construction of the sewer in accordance with the petition of the property owners.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

#### Smooth Pavement on Embarcadero.

Supervisor McCarthy presented:

Resolution No. 11092 (New Series), as follows:

Whereas, A representative body of citizens, including a large number of the most prominent financial and commercial interests of this city, has appealed to the Supervisors, as the official representatives of the City and County of San Francisco, to use their influence with the Board of State Harbor Commissioners for the purpose of securing the construction of a strip of smooth pavement twenty feet wide around the water front along The Embarcadero, for the benefit and necessity of the commercial interests of this city, to transact business with economy and dispatch, auto trucks, automobiles and light vehicles now being unable to use the present rough stone block pavement without discomfort and financial disadvantage; and

Whereas, The roadway on The Embarcadero is fully 85 feet wide in most places and at the narrowest point 65 feet wide from any car track clear to the curb, and

Whereas, The subtraction of twenty feet from this entire width will leave a sufficiently clear roadway for the use of heavy teaming; therefore, be it

Hereby Resolved, That this Board of Supervisors respectively petitions the Honorable Board of State Harbor Commissioners to pave a roadway twenty feet wide with asphalt or vitrified brick around the water front on The Embarcadero.

#### Privilege of the Floor.

Geo. Renner, representing the Draymen's Association, was granted the privilege of the floor and opposed strip

of smooth pavement on Embarcadero on the ground that it was unsuitable for teams doing heavy hauling on the water front. He recommended basalt block with asphalt filler on concrete base, similar to that on Third street.

H. A. Campbell, representing Chamber of Commerce, spoke in favor of the resolution.

Geo. Gerhardt, representing Civic League, also spoke in favor of the resolution.

#### Adopted.

Thereupon, the foregoing resolution was adopted by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Walsh—13.

Noes—Supervisors Gallagher, Jennings, Nolan—3.

Absent—Supervisors Kortick, Vogel-sang—2.

#### Adopted

The following resolutions were adopted:

#### Extensions of Time.

On motion of Supervisor McCarthy: Resolution No. 11093 (New Series), as follows:

Resolved, That State Improvement Company is hereby granted an extension of ninety days' time from and after August 20, 1914, within which to complete the grading and curbing of Revere avenue, between Keith and Lane streets, under private contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractor was delayed in procuring the proper material for the work.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

Also, Resolution No. 11094 (New Series), as follows:

Resolved, That Owen McHugh is hereby granted an extension of ninety days' time from and after August 16, 1914, within which to complete contract for the improvement of Cabrillo street, between Eighteenth and Nineteenth avenues, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractor asked to be released from this contract on the grounds that the proceedings were defective, but was unsuccessful; consequently the work was delayed.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

Also, Resolution No. 11095 (New Series), as follows:

Resolved, That Sunset Construction Company is hereby granted an extension of sixty days' time from and after August 12, 1914, within which to complete contract for the grading and sewerage of Twenty-first avenue, between Balboa and Cabrillo streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractor had difficulty in obtaining the required amount of material for the filling.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

Also, Resolution No. 11096 (New Series), as follows:

Resolved, That W. E. Gruver is hereby granted an extension of twenty days' time from and after July 27, 1914, within which to complete contract for the improvement of Rhode Island street, between Eighteenth and Nineteenth streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that contractor encountered very hard rock, which made the progress of the work slow.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

Also, Resolution No. 11097 (New Series), as follows:

Resolved, That G. W. McGinn & Co., is hereby granted an extension of ninety days' time from and after August 11, 1914, within which to complete contract for the improvement of the crossing of Iowa and Twentieth streets under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that contractors are undecided as to the legality of the contract.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

#### Award of Contract, Lumber.

On motion of Supervisor Hilmer:

Resolution No. 11098 (New Series), as follows:

Resolved, That a contract for furnishing lumber required by the various public institutions and departments of the City and County of San Francisco during the fiscal year 1914-

15 be and the same is hereby awarded to Tiernan & Beronio in strict conformity with their proposal submitted therefor July 27, 1914, at the prices quoted in list dated November 14, 1912, and known as "Retail Lumber Price List I" less a reduction of ten (\$10.00) dollars per thousand feet from said list.

Resolved, That said Tiernan & Beronio shall furnish a surety bond in the sum of two thousand (\$2,000) dollars for the faithful performance of said contract, the sufficiency of the sureties on said bond to be subject to the approval of the Mayor; and be it

Resolved, That all other bids for the foregoing article are hereby rejected.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

#### Award of Contract, Street Repair and Cleaning Equipment.

On motion of Supervisor Hilmer:

Resolution No. 11099 (New Series), as follows:

Resolved, That contracts for furnishing and delivering street repair and street cleaning equipment be and are hereby awarded to the persons, firms or corporations here below named, in strict accordance with their proposals therefor, submitted July 27, 1914, for the articles enumerated after their respective names, to-wit:

The Austin-Western Road Machinery Company (bond fixed at \$200), four machine brooms at \$437.50 each.

A. L. Young Machinery Company (bond fixed at \$500), one 5-ton roller at \$1873.50.

Edward R. Bacon Company (bond fixed at \$100), one pick-up street sweeping machine at \$469.50.

H. E. Holmes & Company (bond fixed at \$200 each), three can route wagons at \$223 each).

Resolved, That said persons, firms or corporations shall furnish surety bonds in the sums set after their respective names for the faithful performance of said contracts, the sufficiency of the sureties of said bonds to be subject to the approval of the Mayor; and be it

Resolved, That all other bids on the foregoing articles are hereby rejected.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

#### Award of Contract, Gas Ranges, County Jails.

On motion of Supervisor Hilmer:

Resolution No. 11100 (New Series), as follows:

Resolved, That the contract for furnishing and installing, complete, with connections, six gas ranges in the County Jails, is hereby awarded to Albert Pick & Company for the sum of one thousand seven hundred seventy-five (\$1,775.00) dollars, in strict accordance with their proposal submitted therefor on July 27, 1914; further

Resolved, That the said Albert Pick & Company are hereby required to furnish a surety bond in the sum of five hundred (\$500.00) dollars for the faithful performance of said contract, the sufficiency of the sureties upon said surety bond to be subject to the approval of the Mayor; and be it

Resolved, That all other bids for the foregoing articles are hereby rejected.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—16.

#### Bill Board Permit.

On motion of Supervisor Nolan:  
J. R. No. 1380.

Resolved, That the firm of J. Charles Green Company be and is hereby granted permission, revocable at the will of the Board of Supervisors, to erect and maintain a billboard 137½ feet long by 20 feet high on property situate on the west line of the Embarcadero, 137½ feet south from Market street, subject to the provisions of Ordinance No. 2107 (New Series).

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Hocks, McCarthy, McLeran, Nelson, Nolan, Power, Suhr, Walsh—12.

Noes—Supervisors Bancroft, Jennings, Murdock, Payot—4.

Absent—Supervisors Kortick, Vogel-sang—2.

Gentlemen:

Please be advised that in accordance with Section IX of Chapter II, Article II, of the Charter, James Rolph, Jr.,

Mayor, John Ginty, Assessor, and Thomas Jennings, Chairman of the Finance Committee of the Board of Supervisors, met in the office of the Mayor on Thursday, August 13th, as a Board of Appraisal for the purpose of appraising the value of certain property described in Ordinance No. 2834 (New Series), proposed to be sold by the Mayor at private sale on or after August 15th, 1914.

The Board of Appraisal has fixed \$30,000 as the appraised value of the land described in Ordinance No. 2834, New Series, and you are so advised in accordance with Section IX of Chapter II of Article II of the Charter, requiring that an appraisal of such land shall be made and filed with the Board of Supervisors within three weeks after the passage of the ordinance offering such land for sale.

(Signed)

JAMES ROLPH, JR., Mayor.  
JOHN GINTY, Assessor.

By N. W. CROSKY, Chief Deputy Assessor.

THOMAS JENNINGS,  
Chairman Finance Committee.

SPECIAL ORDER, 3:00 P. M.

*Food Ordinance.*

Bill No. —, Ordinance No. — (New Series), Regulating the manufacturing, handling, care and sale of foodstuffs within the City and County of San Francisco, laid over from last meeting and made a special order of business for 3 p. m. this day, was taken up and on motion, *laid over until September 14, 1914.*

CONSIDERATION OF MAYOR'S VETO.

"Fighting the Flames" Permit.

The following matter, laid over from last meeting, was taken up:

Resolution No. 11062 (New Series), is as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted to the owners or lessees of the property bounded by Van Ness avenue, Grove, Franklin and Hayes streets, to build, maintain and operate an amusement enterprise known as "Fighting the Flames," from August 4, 1914, to December 4, 1915, under the following conditions, to-wit:

"The grandstand to be well and suitably constructed of wood, and in a thoroughly workmanlike manner, from plans approved by the Board of Public Works, and to be adequately provided with aisles and exits: That in conjunction with said performance the grantees are hereby allowed to operate amusement and selling concessions in booths and buildings all of which will be built and decorated in a substantial manner satisfactory to the Board of Public Works and in conformity with

the general architectural scheme of the structure, and that these concessions are to be unobjectionable, clean and moral in every way and to consist of only the regular regulation concessions as are operated at indoor and outdoor expositions and carnivals, such as soft drinks, peanuts and popcorn, candies, cane and knife racks, ball throwing games, rides, freaks (not repulsive or objectionable), ice cream, souvenirs games of skill; that no intoxicating liquor is to be sold or offered for sale on the grounds; that the amusements and concessions are not to be operated except between the hours of 8 a. m. and 12 o'clock midnight, and are all to be conducted in an orderly and legitimate manner under the supervision of the police committee of the Board of Supervisors and the Police Department of San Francisco; that a license fee of \$1,000.00 per annum be charged, payable quarterly in advance, for operating the 'Fighting the Flames' and a license fee of \$50.00 per quarter be charged for each and every concession operated within said enclosure."

Veto Sustained.

The question being "Shall Resolution No. 11062 (New Series) finally pass, notwithstanding the objections of his Honor the Mayor," the roll was called, with the following result:

Noes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Murdock, Nelson, Payot, Walsh—10.

Whereupon, the Chair declared the motion *lost* and the Mayor's *veto sustained*.

**Endorsement of Oakland Consolidation Constitutional Amendment.**

**Privilege of the Floor.**

On motion of Supervisor Hayden, the following named gentlemen were granted the privilege of the floor and addressed the Board:

*M. Fernbrook*, representing the Panama-Pacific International Exposition, said that in the interest of the Exposition he had been requested to endeavor to bring about harmony among the cities of California by asking San Francisco to recede from its position in supporting the San Francisco and Los Angeles consolidation amendment providing for a minimum population of 150,000 in favor of the Oakland amendment making the minimum 50,000. He said that unless this request was acceded to the ill feeling engendered would endanger of the \$1,000,000 appropriation of Alameda County which had not yet been voted and which the Exposition needs badly.

*Robt. N. Lynch*, representing the board of directors of the Chamber of Commerce, urged on behalf of said board that request be complied with.

*City Attorney Stevens* of Los Angeles, said that Los Angeles was satisfied with either amendment, but in the interest of harmony was willing

to accede to Oakland's wishes. He urged San Francisco to do likewise.

*Mr. Dunlap*, representing Los Angeles commercial organizations, also urged the rescinding of the Board's former action and the approval of the Oakland amendment.

*Mayor Rose* of Los Angeles, who was visiting in San Francisco, also appeared and addressed the Board.

**Motion.**

*Supervisor Vogelsang* moved that the subject matter be referred to the Public Utilities Committee with instructions to report a resolution complying with request.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Murdock, Payot, Vogelsang, Walsh—9.

Noes—Supervisors Gallagher, Jennings, Nelson—3.

Absent—Supervisors Kortick, McCarthy, McLeran, Nolan, Power, Suhr—6.

Subsequently during the proceedings the following resolution was presented by the *Public Utilities Committee*:

**J. R. No. 1387.**

Whereas, Representations have been made to the Board of Supervisors by the Panama-Pacific Exposition management and by the San Francisco Chamber of Commerce that the interests of the Panama-Pacific Exposition will be furthered by the elimination of intercity strife in relation to the two pending city and county consolidation constitutional amendments to be voted upon by the people at the coming election in November; and

Whereas, Official representatives of the City of Los Angeles have joined in such recommendation and request the support of this Board to the constitutional amendment which fixes the minimum population for consolidated cities and counties at 50,000 and which places certain restrictions upon the annexation of territory in such consolidations; and

Whereas, It appears that the advocacy and support of the last referred to amendment will not act as against the harmony of cities of the state; therefore be it

Resolved, By this Board that it does hereby withdraw the support heretofore given by it to the constitutional amendment which fixes the minimum population of consolidated cities and counties at 175,000 and which permits the annexation of any contiguous territory; and be it further

Resolved, That this Board does hereby give its approval and support to the above described so called 50,000 population amendment.

**Motion.**

Supervisor Jennings moved that

resolution *lay over one week.*

Motion *lost* by the following vote:

Ayes—Supervisors Deasy, Gallagher, Jennings—3.

Noes—Supervisors Bancroft, Hayden, Hilmer, Murdock, Nelson, Nolan, Payot, Vogelsang, Walsh—9.

**Adopted.**

Whereupon the foregoing resolution was *adopted* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Murdock, Nelson, Nolan, Payot, Vogelsang, Walsh—10.

Noes—Supervisors Gallagher, Jennings—2.

Absent—Supervisors Hocks, Kortick, McCarthy, McLeran, Power, Suhr—6.

#### Amending Tunnel Procedure Ordinance.

Bill No. 3164, Ordinance No. 2883, Amending Section 18 of "The Tunnel Procedure Ordinance" of the City and County of San Francisco providing for the times when installments of principal shall be made in cases where agreements have been made therefor, and when and how interest on all said installments unpaid shall be paid.

Be it Ordained by the People of the City and County of San Francisco as follows:

Section One. Section 18 of "The Tunnel Procedure Ordinance" of the City and County of San Francisco, being Ordinance No. 2186, New Series, approved February 19th, 1913, is hereby amended so as to read as follows:

Section 18. The times when installments of principal shall be made in cases where agreements have been made therefor, are hereby fixed as follows:

The first installment shall be paid at the time of the application to the Tax Collector for such agreement.

The second installment shall be paid on or before the last Monday in December in the next fiscal year and subsequent installments shall be paid annually thereafter, one each year on or before said last Monday in December.

Interest on all installments unpaid shall be paid at the rate fixed in the proceedings as follows: At the time of the execution and delivery of the agreement interest shall be paid on the unpaid principal until the first day of July next after.

At the time the second installment of principal is paid, as above provided, interest shall be paid for six months from the first day of July last past to the first day of January ensuing, on the principal remaining unpaid after the last preceding payment.

At the time each subsequent installment of principal is paid as above provided, interest shall be paid for one year from the first day of January last past to the first day of January ensuing on the principal remaining unpaid after the last preceding payment.

Section Two. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Murdock, Nelson, Payot, Vogelsang, Walsh—12.

Resolution No. — (New Series), providing the sum of five thousand dollars to be expended out of the appropriation in the Budget for the fiscal year 1913-1914, for "Lighting Streets and Public Buildings," for the purpose of lighting arches on Mission street, between Sixteenth and Twenty-fourth streets, that are proposed to be erected by property owners.

#### Final Passage.

The following matters heretofore passed for printing were taken up and *finally passed* by the following vote:

#### Amending Street Excavation Ordinance.

Bill No. 3165, Ordinance No. 2884 (New Series), amending Sections Two, Three, Four, Five, Six, Nine, Eleven, Twelve, Seventeen and Twenty-one of Ordinance No. 2201, entitled, "An Ordinance Regulating the Making and Refilling of Excavations in the Public Streets, Alleys, Sidewalks and Other Public Places, and Repealing Ordinance No. 658 (New Series) and Ordinance No. 2109 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Sections two, three, four, five, six, nine, eleven, twelve, seventeen and twenty-one of Ordinance No. 2201 (New Series) entitled, "An ordinance regulating the making and refilling of excavations in the public streets, alleys, sidewalks and other public places, and repealing Ordinance No. 658 (New Series), and Ordinance No. 2109 (New Series), are hereby amended to read as follows:

Section 2. It shall be unlawful for any person, firm or corporation to make, or to cause or permit to be made, any excavation, or to install, or cause or permit to be installed any tank, pipe, conduit, duct or tunnel, except side sewers and sub-sidewalk areas, in or under the surface of any public street, alley, sidewalk or other public place at any location, other than that described in the application and shown on the plats filed by such person, firm or corporation, as required by the provisions of this ordinance.

Section 3. When the application to excavate and the details shown upon the accompanying duplicate plats, when such plats are required, comply with the terms of this ordinance and the regulations of the Board of Public Works, the application and duplicate plats shall be approved by the City Engineer's office. After such

approval one of the duplicate plats shall be filed in the office of the City Engineer as a public record. The application and the other duplicate plat shall be filed with the Board of Public Works, together with special deposits as follows, to-wit: A sum equal to thirty cents per square foot of surface of each such excavation to be made in the streets or other public places which have been paved; a sum equal to twenty cents for each square foot of surface of each such excavation to be made in streets or other public places which are neither macadamized nor paved; provided, that no deposit shall be less than five dollars; and provided further, that any person, firm or corporation intending to make excavations in public streets, allies or other public places may make and maintain with the said Board of Public Works a general deposit in the sum of twenty-five hundred dollars, which general deposit shall be used for the same purpose as the special deposits described hereinbefore in this section, and while such general deposit is maintained at the said sum of twenty-five hundred dollars such person, firm or corporation shall not be required to make the special deposits hereinbefore in this section provided for, but shall be required to file a written application for a permit for each such excavation and duplicate plats showing the location thereof, as in this ordinance provided, and to comply with all of the other provisions of this ordinance. If a general deposit is made the Board of Public Works shall deduct from the same all amounts due under the provisions of this ordinance for each calendar month from the person, firm or corporation maintaining the same and shall render a statement of such deductions at the end of each month to said person, firm or corporation, who must, within five days, restore said deposit to its original amount.

Section 4. Upon receiving a written application, as provided in Section 1 of this ordinance, and one of the duplicate plats, when such plats are required, each bearing the approval of the City Engineer, and the general or special deposit required by Section 3 hereof, the Board of Public Works in regular session shall issue a certificate in writing, which shall be evidence of the right of the person, firm or corporation therein named to make such excavation, and shall open and keep an account thereof; provided, however, that the Board of Public

Works shall not issue such certificate unless the applicant has legal authority to occupy and use, for the purpose mentioned in the application, the streets, alleys, sidewalks or other public places covered by said application.

Such certificate shall state whether the work to be done is covered by a general or a special deposit and, if a special deposit, shall state the amount thereof and shall be a receipt therefor. It shall also specify the person, firm or corporation to whom the same is issued, the street, alley or other public place and the particular portion or portions thereof to be excavated and the approximate extent of such excavation. No certificate shall be transferable. The certificate shall state a time when all of the work to be done thereunder shall be completed and every such certificate shall become and be void unless the excavation to be made pursuant thereto is commenced within six months from the date of issuance of such certificate and the work diligently prosecuted as in this ordinance required; provided, however, that the Board of Public Works may grant not to exceed one extension of time for a period not exceeding thirty days, such extension to be granted in the same manner as the original certificate. In case any excavation made in accordance with any certificate shall not be refilled and the pavement restored within the time stated therein, or within the time as extended as herein permitted, then the sum of five dollars for each day such work is thereafter incomplected shall be deducted from the deposit made as required by Section 3.

If work is not commenced pursuant to any such certificate within six months after the date thereof, such certificate shall be canceled and the City shall retain the following amounts from any general or special deposit of the person, firm or corporation to whom such certificate was issued: \$1.25 if such certificate was issued for an excavation in a paved or macadamized street, alley or other public place, and 50 cents if such certificate was issued for an excavation in a street, alley or other public place that has not been paved or macadamized.

Section 5. In every case the street or thoroughfare so opened or torn up shall be restored by the person, firm or corporation opening or tearing up the same with the same kind of pavement and to as good a condition as it was in before the opening or tearing up thereof.

In cases where the pavements are composed of concrete and asphalt or

bituminous rock, the said pavements shall be restored with new asphalt or bituminous rock in accordance with the standard specifications of the City and County.

The person, firm or corporation opening or tearing up any pavement shall assume the full responsibility for all reconstruction and repairs as aforesaid, and shall be subject to the penalties hereinafter provided in case the work of such repairs and reconstruction was not properly performed.

Section 6. No trench shall be opened in any graded street or thoroughfare for the purpose of laying pipes or conduits more than six hundred feet in advance of the pipe or conduit placed therein except in case of emergency and by consent of the Board of Public Works. All such trenches shall be backfilled and the old torn-up pavements (except basalt blocks, cobbles or old concrete) shall be removed from the street, together with the surplus excavated material, within three working days from the time such material is placed upon the street, except by the written consent of the Board of Public Works.

In case the street or road way is paved with broken rock, or macadam or basalt blocks, or cobbles, on a sand foundation, said pavement shall be restored within three working days from the time the trench was back-filled.

In case the street or thoroughfare is paved with bitumen or asphalt, and a binder course on a block or cobble foundation, or bitumen or asphalt on a concrete foundation, or a concrete foundation and basalt blocks with grouted joints, said pavements shall be restored within not less than seven nor more than twelve days from the time the trench was refilled, five of which days are to be allowed for the concrete to set and harden. This shall be the rule in all cases where concrete is used as a foundation for pavement. During the period following the laying of the concrete base to the relaying of the wearing surface such concrete shall be covered with planks and sand flush with the surface of the contiguous pavement.

Whenever any caving occurs in the side walls of any excavation, the pavement above such caving shall be cut away, and in no case shall any void under a pavement be filled by any side or lateral tamping.

In every case, the work of repaving over all trenches must commence immediately after said trenches are back-filled, and the work of clearing up the streets is to be considered a part of the repaving work, and shall be finished within the same time allowed in all cases for said repaving and to the

satisfaction of the Board of Public Works.

When a street is opened for the purpose of what is known as prospecting or for the purpose of making repairs or alterations to pipes or conduits, as soon as the work of such repairs and alterations is finished, the trench shall be backfilled and pavement restored within the time allowed for the restoration of the same kind and character of pavements over main or service trenches.

In every case and at all times the work of removal from the streets of all obstructions, surplus materials and debris or waste matter of every description caused and accumulated by said work of opening and restoring public streets and thoroughfares, shall be kept up jointly with the work of backfilling and repaving either over "main" or "service" trenches, and all finished together—or nearly so and within the time herein allowed in Section 6 of this ordinance, and in all cases the surface of the street shall be restored to as good a condition as it was in before the work of opening commenced.

When any of the work required to be done by Section 6 of this ordinance is necessarily delayed by any strike or strikes, such delay shall be added to the time limits therein prescribed.

Section 9. The said City and County shall deduct from the deposit made for any excavation under the provisions of this ordinance the following sums for each certificate under the authority of which the excavation was made to cover the cost of inspection, viz.: one dollar for each excavation in a street paved with materials acceptable under the street paving ordinance and regulations of the City and County; fifty cents for each excavation in a street graded but not acceptably paved, and in macadamized streets; no charge shall be made for excavations in streets which are neither graded nor paved.

For the purpose of this ordinance an excavation shall be defined as an opening in the street two hundred feet or less in length, and each two hundred feet or fraction thereof in excess of the first two hundred feet shall be considered as a separate excavation for which a separate permit shall be required and a separate charge made. Excavations for service connections made at the same time as and connecting with excavations for mains shall be charged for as an extension of the main excavation with which they connect, and the calculation of charges based upon the aggregate length of main and connecting services. Service excavations not connecting with main excavations,

however, shall be charged for as separate to openings.

The balance of each such deposit, after the deductions hereinbefore provided for have been made, shall be retained by the City and County of San Francisco for two years from the date of the completion of the work.

The said City and County shall also deduct the cost of any work done or repairs made by the Board of Public Works as provided for in this ordinance from any and all deposits then on hand, belonging to or that may thereafter be made by any person, firm or corporation required by this ordinance to do any work or to make any repairs under the provisions of Sections 7 and 8 of this ordinance, and who shall have failed, refused or neglected to perform such work or to make such repairs.

Section 11. The decision of the Board of Public Works as to the cost of any work done or repairs made by it or under its direction pursuant to the provisions of Section 7 or Section 8 of this ordinance shall be final and conclusive as to such cost.

Section 12. All the moneys paid to the Board of Public Works under the provisions of Section 9 of this ordinance shall be deposited with the Treasurer to the credit of a special fund hereby created and designated "Excavation Fund," to be used to defray the cost of inspection made necessary by reason of such excavations and repairs.

All costs of inspection shall be paid from said last named fund, on a warrant drawn by the Auditor on demands approved by the Board of Public Works and returns of any deposit shall be made in like manner.

The cost of all repairs made to pavements by the Board of Public Works by reason of the failure of any person, firm or corporation to make the same when required to do so under the provisions of this ordinance shall also be paid out of said fund and charged against the general or special deposit made by said person, firm or corporation.

Section 17. For the purpose of interpreting the provisions of this ordinance, the term "service connection" as herein used shall be taken to mean a branch pipe or conduit between a main pipe or conduit and a building or buildings which are to be supplied with heat, light, power, water or telephonic, telegraphic or signal service from said main pipe or conduit.

Section 21. Nothing in this ordinance contained shall be construed to prevent any person, firm or corporation maintaining any pipe or conduit in any public street, alley or other public place, by virtue of any

law, ordinance or permit, from making such excavation as may be necessary for the preservation of life or property when such necessity arises during such hours as the offices of the city are closed; provided that the person, firm or corporation making such excavation shall apply for a certificate therefor as herein required within four hours after the offices of the city are first opened subsequent to the making of such excavation. Provided, further, that in making the charges for such emergency prospect holes all the holes within 200 feet of street length shall be charged for as one excavation.

Section 2. This ordinance shall take effect immediately.

**Accepting the Offer of Edith May Richards and H. C. Richards to Sell Certain Land for Presidio-Lincoln Park Boulevard Purposes.**

On motion of Supervisor Jennings: Resolution No. 11106 (New Series), as follows:

Whereas, Edith May Richards and H. C. Richards have submitted an offer to sell certain property to the City and County of San Francisco, said offer being in words and figures as follows, to-wit:

"We hereby offer to sell to the City and County of San Francisco, for the sum of \$1750, all that certain lot, piece or parcel of land situate, lying and being in the City and County of San Francisco, State of California, and particularly described as follows, to-wit:

"Commencing at a point on the northerly line of Thirty-second avenue, said point being the northwesterly corner of Lot No. 6 of Lyon & Hoag's Subdivision of the property of Baker's Beach Land Co.; thence southeasterly on a curve with a radius of 48 feet, and along the northerly line of Thirty-second avenue for a distance of 19.292 feet to a point; thence southeasterly on a curve with a radius of 38 feet, and along the northeasterly line of Thirty-second avenue for a dis-

tance of 11.333 feet to the southwesterly corner of aforesaid Lot No. 6; thence easterly along the subdividing line between Lots Nos. 6 and 7 of Lyon & Hoag's Subdivision of the property of Baker's Beach Land Co. 18.173 feet to a point; thence northwesterly on a curve to the left with a radius of 754.23 feet for a distance of 43.791 feet to the northwesterly corner of aforesaid Lot No. 6 and point of commencement; being a portion of Lot No. 6 of Lyon & Hoag's Subdivision of the property of Baker's Beach Land Co.

"Together with all the improvements, hereditaments and appurtenances thereunto belonging or in anywise appertaining and the reversion and reversions, remainder and remainders, rents, issues and profits thereof. And in the event of the acceptance of this offer by the Board of Supervisors we hereby agree to convey said property to said City and County of San Francisco by deed absolute conveying a good, sufficient and complete fee simple title to said property above described, free from all incumbrances, liens or defects of title whatsoever.

"This offer is made upon the further conditions, viz.:

"1. That we shall not be required to pay for any street work done on the proposed boulevard to be constructed in front of the remainder of Lot No. 6, as above described, it being understood that the Panama-Pacific International Exposition Company is to pay the entire cost of constructing such boulevard.

"2. That the grade of the street as now established in front of said Lot No. 6 will not be changed, or if it should become necessary to change the same that we will be duly compensated by the City and County for the damage resulting from such change. Said damage, if any, shall be appraised by three appraisers, one to be selected by ourselves, one by the City and County authorities and the two to select a third.

"3. Taxes for the current fiscal year shall be prorated according to the date at which this transfer takes effect.

"4. Upon notification that the Board of Supervisors has accepted this offer we will place a deed to said property in escrow with the Title Insurance and Guaranty Company of 250 Montgomery street, to be delivered to the City and County upon receipt by said depository of the sum of \$1750, as above described."

And Whereas, Said property is required for the purpose of constructing the proposed Lincoln Park boulevard,

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

Adopted.

The following resolution was introduced under suspension of the rules and adopted:

Approving Decision of President C. C. Moore of the Panama-Pacific International Exposition to Open the Exposition as per Schedule, February 20, 1915. On motion of Supervisor Hayden:

J. R. No. 1388.

Whereas, President C. C. Moore has announced that the original plans are not to be altered, and that the Panama-Pacific Exposition will open as per schedule on February 20, 1915, despite reports to the contrary;

Resolved, That the Board of Supervisors unanimously approve of this decision of President Moore and the other directors of the exposition, and joins with them in extending an invitation to the world to attend this exposition which promises to eclipse and excell all preceding displays of that character.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Murdock, Nelson, Nolan, Payot, Vogelsang, Walsh—13.

Action Deferred.

The following resolution was introduced by Supervisor Gallagher and, on motion, laid over one week:

Approval of Hamill Bill H. R. 5139, Providing for Care of Aged and Incapacitated Employees of the Government.

J. R. No. —.

Whereas, The United States of America is one of the few nations in the world that has made no provision for the care of its aged and incapacitated employes, and

Whereas, A measure known as the Hamill Bill H. R. 5139, having for its object the retirement of super-annuated Federal Civil Service Employes, has been introduced in Congress, and believing that a measure of this kind is favored by the people of San Francisco in the interest of humanity, and that it will also promote efficiency and economy in the government service; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby heartily approve of the Hamill Bill H. R. 5139, and appeals to its representatives in Congress and in the Senate to support and endeavor to enact this necessary legislation; and be it furthermore

Resolved, That a copy of these resolutions be mailed to the Chairman of the Committee on Reform in the Civil Service and to each Congressman and Senator from the State of California.

Referred.

## BOARD OF SUPERVISORS

MONDAY, AUGUST 24, 1914.

In Board of Supervisors, San Francisco, Monday, August 24, 1914, at 2 p. m.

The Board of Supervisors met in regular session.

### CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nolan, Payot, Vogelsang, Walsh—15.

Quorum present.

His Honor Mayor Rolph presiding.

### READING THE JOURNAL.

The Journal of the meeting of August 17th, 1914, was read and approved.

### ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matters were presented and read by the Clerk:

Communication From the City Attorney Relative to Redwood Street Being an Open Public Street.

*Communication.*—From the City Attorney, with his opinion, stating as follows:

Locust avenue (now Redwood street) a street thirty-five feet wide and four hundred and twelve feet, six inches in length, as laid out on certain city maps in Western Addition Block No. 136, bounded by Franklin and Gough streets, McAllister street and Golden Gate avenue, does not appear on the Van Ness Map. It was therefore not reserved for street purposes in the early plans of the city and in the settlement of titles in this section of the city, and pointing out that in a previous opinion the mere fact that this street is delineated on the Humphrey map of 1870, and city maps subsequent thereto, does not determine it to be a city street; but, at a point from the westerly line of Franklin street in depth 137 feet 6 inches, constitutes Redwood street.

*Referred to Streets Committee.*

### REPORTS OF COMMITTEES.

The following Committees, by their

respective chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Finance Committee, by Supervisor Jennings, Chairman.

Fire Committee, by Supervisor McLeran, Chairman.

Public Buildings Committee, by Supervisor Bancroft, chairman.

Health Committee, by Supervisor Walsh, chairman.

Supplies Committee, by Supervisor Hilmer, Chairman.

### UNFINISHED BUSINESS.

#### Final Passage.

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote:

*City Attorney to Institute Proceedings Against the Ocean Shore Railway Com-pany.*

On motion of Supervisor McCarthy:  
J. R. No. 1391.

Resolved, That the City Attorney be directed to institute and prosecute such proceedings as may be necessary to compel the Ocean Shore Railway Company to construct a bridge carry-ing its tracks at Ocean avenue as di-rected by Resolution No. 29159 (Sec-ond Series) of the Board of Public Works, adopted on the 4th day of March, 1914, and to enforce the obli-gations of said Ocean Shore Railway Company in respect thereto as ex-pressed in its franchise granted by Ordinance No. 1623.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Mc-Leran, Murdock, Nolan, Payot, Vogel-sang, Walsh—15.

*City Attorney to Institute Proceedings Against Consolidated Construction Com-pany.*

J. R. No. 1392.

Whereas, The Board of Public Works filed in the office of the Board of Supervisors on August 20, 1914, a communication accompanied by a re-port of the City Engineer showing the net total sum of money paid to Con-tractor F. Rolandi for the construc-tion of sewers and appurtenances in Forty-eighth avenue, from Lincoln Way to Cabrillo street, through Golden Gate Park, and a comparative state-ment of the net total sum of money it would have cost the city and county if the Consolidated Construction Com-pany had completed its contract for the installation of this sewer at the prices bid, and that it appears there-from that the excess cost to the city and county to construct said sewer due to the failure of said Consolidated Construction Company to complete its contract for said construction is the sum of \$62,366.91; now, therefore,

Resolved, That the City Attorney be instructed to commence and prosec-ute such legal proceedings against the Consolidated Construction Company and its surety, the American Bonding Company, to recover the extra cost as herein recited on account of said fail-ure on the part of said Consolidated Construction Company to carry out its contract with the city and county for the performance of said work.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Mc-Leran, Murdock, Nolan, Payot, Vogel-sang, Walsh—15.

Endorsing Hamill Bill, H. R. 5139, as to Care of Aged Employees.

On motion of Supervisor Gallagher:  
J. R. No. 1394.

Whereas, The United States of America is one of the very few nations in the world that has made no provision for the care of its aged and incapacitated employes; and

Whereas, A measure known as the Hamill Bill, H. R. 5139—having for its object the retirement of superannuated Federal Civil Service employes—has been introduced in Congress, and believing that a measure of this kind is favored by the people of San Francisco in the interest of humanity, and that it will also promote efficiency and economy in the government service; therefore, be it

Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby heartily approve of the Hamill Bill, H. R. 5139, and appeals to its representatives in Congress and in the Senate to support and endeavor to enact this necessary legislation; and be it furthermore

Resolved, That a copy of these resolutions be mailed to the chairman of the committee on reform in the Civil Service and to each Congressman and Senator from the State of California.

Municipal Railways Fund.

On motion of Supervisor Jennings:  
J. R. No. 1395.

Whereas, The Department of Public Works and the Superintendent of Municipal Railways have suggested that efficiency and economy will be served by having one operating account for Municipal Railways instead of separate accounts for each division thereof; therefore, be it

Resolved, That the Department of Public Works is hereby authorized and requested to open one account in accordance with Interstate Commerce classification, which account is hereby designated "Municipal Railway Fund," and into which fund shall be paid all receipts from Municipal Railways, and out of which fund shall be paid all operating disbursements; and be it further

Resolved, That the Auditor and Treasurer are requested to co-operate with the Department of Public Works in the foregoing; and be it further

Resolved, That all resolutions or so much thereof in conflict herewith, be and the same are hereby rescinded.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Mc-

Leran, Murdock, Nolan, Payot, Vogel-  
sang, Walsh—15.

(New Series), authorizing the  
Mayor to execute deed to State of  
California for certain city property  
adjacent to the Civic Center in ex-  
change for property owned by the  
State and located within the Civic  
Center.

Be it ordained by the People of  
the City and County of San Fran-  
cisco as follows:

Whereas, By Article II, Chapter  
II, Section 10 of the Charter of this  
City and County the Board of Su-  
pervisors is authorized to convey  
to the State of California a parcel  
of land located within a district de-  
scribed in said section for the pur-  
pose of the erection of a State build-  
ing thereon, and in consideration  
therefor to receive from the State  
of California any parcel of land  
within such district now owned by  
the State,

And whereas, at the last session  
of the Legislature (Statutes of Cali-  
fornia, 1913, page 70) there was  
regularly enacted by the Legislature  
an act giving the consent of the  
State of California to exchange with  
the City and County of San Fran-  
cisco a certain lot or parcel of land  
situate in the City and County of  
San Francisco and described as fol-  
lows, said lot belonging to the State  
of California:

Commencing at a point formed by  
the intersection of the easterly line  
of Polk street with the northerly  
line of Fulton street, and running  
thence northerly along said easterly  
line of Polk street 120 feet to the  
southerly line of Ash street; thence  
at a right angle easterly along said  
southerly line of Ash street 100  
feet; thence at a right angle south-  
erly 120 feet to the said northerly  
line of Fulton street; thence at a  
right angle westerly along said  
northerly line of Fulton street 100  
feet to the said easterly line of Polk  
street and point of commencement.  
Being a portion of Western Addition  
Block No. 4.

The land to be received in ex-  
change therefor to be located in the

vicinity of the above described lot  
of land and to be of equal value  
thereto as may be determined by  
the Governor of the State, who, in  
said act was authorized to execute,  
under the seal of the State of Cali-  
fornia, the necessary deed of con-  
veyance therefor and to receive from  
the City and County of San Fran-  
cisco a like deed of conveyance of  
the land to be exchanged.

And whereas, the district above  
referred to in Section 10 of Chapter  
II of Article II of the Charter is  
that district within which is now  
being constructed the San Francisco  
Civic Center;

And whereas, located within such  
district is a certain lot of land  
owned by the State of California  
and originally acquired for the pur-  
pose of the erection thereon of a  
building to house the offices of the  
State of California located within  
the City and County of San Fran-  
cisco, which said lot of land is above  
described as belonging to the State  
of California;

And whereas, said last above de-  
scribed lot of land is included with-  
in that portion of the Civic Center  
which is to be converted into a  
park;

And whereas, adjoining the pro-  
posed San Francisco Civic Center,  
and in the vicinity of the above de-  
scribed lot of land and of equal  
value thereto, is a lot of land be-  
longing to the City and County of  
San Francisco and described as fol-  
lows:

Commencing at the northeasterly  
corner of McAllister and Polk  
streets, running thence northerly  
along the easterly line of Polk  
street 120 feet to the southerly line  
of Redwood street (formerly Locust  
avenue); thence at a right angle  
easterly and along said southerly  
line of Redwood street 100 feet;  
thence at a right angle southerly  
and parallel with said easterly line  
of Polk street 100 feet to the north-  
erly line of McAllister street; and  
thence at a right angle westerly and  
along said northerly line of McAl-  
lister street 100 feet and to the  
point of commencement; being a  
portion of Western Addition Block  
No. 5.

And whereas, the last above de-  
scribed lot of land is a portion of  
a larger block bounded on the  
south by the northerly line of Mc-  
Allister street, on the west by the  
easterly line of Polk street, on the  
north by the southerly line of Red-  
wood street (formerly Locust ave-  
nue), and on the east by the west-  
erly line of Larkin street; being a  
part of Western Addition Block  
No. 5;

And whereas, it is the desire of this Board of Supervisors, in accordance with the above authorization of said Section 10 of Chapter II of Article II of the Charter, to exchange a lot of land now owned by the City and County of San Francisco with the State of California for the above described lot of land so owned by the State in order that the said State property may become available for said park purposes within the Civic Center; and further, in order that the State may have a lot of equal value upon which to erect a State building in which shall be located the offices of the State government within the City and County of San Francisco;

And whereas, the above described lot of land now owned by the city, located on the northeast corner of Polk and McAllister streets and running along the easterly line of Polk street 120 feet northerly, and of a uniform depth of 100 feet, is of equal value to the above described lot of land so owned by the State;

And whereas, there has been submitted to the people of the State of California at the last session of the Legislature a proposed bond issue in the amount of \$1,000,000 to be voted upon at the coming November election for the authorization of the issuance of bonds in the amount of \$1,000,000 for the construction of a State building in San Francisco, in which shall be located the offices of the State which are in the City and County of San Francisco (Statutes of California, 1913, at page 920);

And whereas, in the event of the people of the State of California approving such bond issue, it is the desire of this Board of Supervisors to exchange with the State, for the above property so now owned by the State, the entire block of land above described now owned by the City, and bounded on the south by the northerly line of McAllister street; on the west by the easterly line of Polk street; on the north by the southerly line of Redwood street (formerly Locust avenue), and on the east by the westerly line of Larkin street.

Now, therefore, be it Resolved, that the Mayor of this City and County be and he hereby is authorized, on behalf of the City and County, to duly execute and deliver to the State of California a deed, which deed shall be an immediate and absolute conveyance of that portion of the above lot described as commencing at the northeasterly corner of Polk and McAllister streets; running thence northerly along the easterly line of Polk street

120 feet to the southerly line of Redwood street (formerly Locust avenue); thence at a right angle easterly and along said southerly line of Redwood street 100 feet; thence at a right angle southerly and parallel with said easterly line of Polk street 120 feet to the northerly line of McAllister street; and thence at a right angle westerly and along said northerly line of McAllister street 100 feet to the point of commencement; being a portion of Western Addition Block No. 5, and to include in said deed a condition that in the event of the people of the State of California approving, at the coming election in November of this year, the above described bond issue in the amount of \$1,000,000, that the remainder of said above described block of land now owned by the City and County of San Francisco shall also be and become absolutely the property of the State of California. That is, in the event of the people of the State of California so approving the above described bond issue at the coming election in November, then the above described entire block of land bounded on the south by the northerly line of McAllister street; on the west by the easterly line of Polk street; on the north by the southerly line of Redwood street (formerly Locust avenue), and on the east by the westerly line of Larkin street; being a portion of Western Addition Block No. 5, shall be and become absolutely the property of the State of California; Provided, that the Mayor, in exchange for said deed, shall receive from the Governor of the State of California, as so above authorized by act of the Legislature, a deed conveying to the City and County of San Francisco a fee simple absolute title to the block of land above described as now belonging to the State of California. And further provided, that in the event of any legal proceedings being had attacking the validity of the above bonds, that then, if on the final determination thereof the said bond issue shall be held invalid, the remaining portion of the above block of land now owned by the city other than the lot located on the northeasterly corner of Polk and McAllister streets and running thence northerly along the easterly line of Polk street 120 feet, and of a uniform depth of 100 feet, shall not be considered as conveyed to the State of California; provided, however, that immediately upon the exchange of the aforesaid deeds a fee simple title absolute in and to the above lot of land on the northeasterly corner of McAllister and

Polk streets, running thence northerly along said easterly line of Polk street 120 feet and of a uniform depth of 100 feet, shall be considered as having been conveyed to the State of California by the City and County of San Francisco.

Communication from the City Attorney Relative to Waiving the Penalty in Certain Instances Where Property Was Sold to the City and County of San Francisco in the Matter of the Construction of the Twin Peaks Tunnel.

August 24, 1914.

Tunnel Committee, Board of Supervisors—

Gentlemen: Pursuant to your instructions I have prepared a resolution waiving the penalty in certain instances where property was sold to the City and County of San Francisco, in the matter of the construction of the Twin Peaks tunnel. I have examined into each individual case and I am convinced that the persons named in the resolution whose properties were sold did not know of the assessment, a majority of them living out of the city. In one or two instances the property was assessed in another name. The failure to pay, I am convinced, was not due to any desire to defeat the assessment and was not due to any negligence of the parties.

Likewise, I have prepared a resolution raising the amounts awarded to certain owners of property whose property is to be taken for the construction of the tunnel. It will be recalled that at the time the report of the Board of Public Works was before the Board of Supervisors there were quite a number of protests against the amounts awarded to property owners in that report. In order not to disturb the report at that time it was stated that these protests would be taken up at the time the property would be acquired. I have had the property reappraised and have gone over with the appraisers their figures on the properties and the additional amounts awarded in the resolution. In my judgment the amounts awarded are not excessive and are justified when it is considered that it would require a considerable length of time and a large expenditure of money to condemn these properties. The amount which is in excess of that awarded by the Board of Public Works in each individual case is slight excepting the Weise property. In that case there was a typographical error in the report. That property now belongs to Theresa H. Strotgen. A figure three was through error inserted in the report instead of the figure five. The raise in the amount

therefore merely corrects a typographical error.

I recommend these several raises.

Respectfully,  
PERCY V. LONG,  
City Attorney.

Adopted.

The following resolutions were adopted:

Increasing Awards for the Acquisition of Property Required for Construction of the Twin Peaks Tunnel.

On motion of Supervisor Deasy:

Resolution No. 11122 (New Series).

Whereas, in the matter of the acquisition of lands and rights of way necessary in the construction of the Twin Peaks Ridge tunnel, certain awards were made to certain persons for property belonging to those persons, namely: To D. H. Wulzen the sum of \$16,195; to Annie M. Wulzen, the sum of \$790; to M. A. England (whose true name is M. D. England), the sum of \$5,750; to Louise A. and Charles M. Heinecke, the sum of \$4,209; to H. Weise, the sum of \$3,400 (said property now belonging to Theresa H. Strotgen); to Henry Peters, Arthur Henry Peters, Anna Augusta Peters, August Frederick Peters and Julius Peters, \$69,000; to Alfred Shephard the sum of \$40,000.

And Whereas, each and all of said persons have contested the respective awards made to them;

And Whereas, in order that said property may be acquired without condemnation proceedings, it appears advisable that said awards be raised.

Now therefore, be it Resolved, That said awards be raised to the following amounts: The award to D. H. Wulzen to the sum of \$17,500, said Wulzen being further permitted to remove and retain the house situated on the property; the award to A. M. Wulzen to the sum of \$1,040; the award to M. A. England (whose true name is M. D. England) to the sum of \$6,250, said M. D. England being permitted to remove and retain the house situated on said property; the award to Louise A. and Charles M. Heinecke, to the sum of \$5,450, said Louise A. and Charles M. Heinecke being permitted to remove and retain the house situated on said property; the award to H. Weise, whose property is now owned by Theresa H. Strotgen, to the sum of \$5,300; the award to Henry Peters, Arthur Henry Peters, Anna Augusta Peters, August Frederick Peters and Julius Peters to the sum of \$72,000; the award to Alfred Shephard to the sum of \$40,800, said Alfred Shephard being permitted to remove and retain the house situated on said property, and the City Attorney is hereby authorized and directed

to purchase the property owned by the above named persons for said respective amounts.

Authorizing and Directing the City Attorney to Institute Condemnation Proceedings for the Acquisition of Land Necessary for the Twin Peaks Tunnel.

Resolution No. 11123 (New Series), as follows:

Resolved, By the Board of Supervisors of the City and County of San Francisco, that the immediate acquisition of the lands hereinafter described is an imperative necessity for the purpose of constructing a tunnel known and designated the the "Twin Peaks Ridge Tunnel," the construction of which has been ordered by the Board of Supervisors of the City and County of San Francisco pursuant to proceedings had and taken in pursuance of the Tunnel Procedure Ordinance. Said lands so to be acquired for the public use are situated in the City and County of San Francisco and bounded and described as follows, to-wit:

Commencing at the point of intersection of the northerly line of Seventeenth street and the westerly line of Castro street, running thence westerly and along said northerly line of Seventeenth street 90 feet; thence at right angles northerly 52 feet 4 $\frac{3}{4}$  inches; thence along a line deflecting to the right 65° 42' 10" 33 feet 6 $\frac{3}{4}$  inches; thence along a line deflecting to the right 40° 59' 47", 62 feet  $\frac{5}{8}$  of an inch to a point on the westerly line of Castro street and distant thereon 48 feet 4 inches northerly from the northerly line of Seventeenth street; thence southerly along the westerly line of Castro street, 48 feet 4 inches to the point of commencement. Being part of Horner's Addition Block No. 200.

That the City Attorney of the City and County of San Francisco is hereby authorized and directed to forthwith institute in the Superior Court of the State of California, in and for the City and County of San Francisco, proceedings in eminent domain for the condemnation of such lands against the owners of and all persons having or claiming to have an interest in the lands hereinabove described, or any part or portion thereof, for the purpose of acquiring the title and fee of the said above described lands for the City and County of San Francisco, a municipal corporation, for the public use and purposes herein set forth.

Leran, Murdock, Nolan, Payot, Vogel-sang, Walsh—15.

Remitting Penalties on Properties Assessed for Twin Peaks Tunnel, and Sold to the City for Delinquency.

Resolution No. 11124 (New Series), as follows:

Whereas, In the matter of the construction of the Twin Peaks Ridge Tunnel, certain assessments were levied on property belonging to persons hereinafter named and for the amounts set opposite their respective names, viz.: Mary L. Cooley \$112.75, assessment No. 8362; M. Martin \$135.25, assessment No. 8414; Gertrude M. Dowling \$75.87, assessment No. 1819; P. J. Dwyer and Elizabeth Dwyer \$67.75, assessment No. 9745; A. Tunnison \$88.00, assessment Nos. 14072 and 14073; McCann Realty Company \$137.75, assessment No. 1492; Annie Gray \$56.50, assessment No. 7785; Alice Kerr, et al., \$135.50, assessment Nos. 10127 and 10128; Bellingham Bay Lumber Company \$158.25, assessment Nos. 7400, 7401 and 7402;

And Whereas, Said assessments were not paid within the time provided by the Tunnel Procedure Ordinance and the proceedings taken and had thereunder in the matter of the construction of the Twin Peaks Ridge Tunnel;

And Whereas, Pursuant to said Tunnel Procedure Ordinance said property was sold to the City and County of San Francisco for non-payment of assessments;

And Whereas, It appears that the above named persons, through no fault or neglect of theirs, were not informed of the levying of said assessments and said persons had no knowledge of the levying of said assessments;

And Whereas, Said Tunnel Procedure Ordinance provides that a penalty of 25 per cent of the amount of the assessment shall be added to said assessments before said parties can redeem said property so sold pursuant to the provisions of said Ordinance, and it appearing to the Board of Supervisors that the infliction of said penalties would be an unjust hardship upon said parties by reason of the facts herein recited, and the said City Attorney does recommend that said penalties be remitted.

Now Therefore, Be it Resolved, That said penalties of 25 per cent of the amount of said assessments be remitted upon condition that said parties forthwith pay in cash the total amount of their respective assessments, that is to say, the amounts assessed against said respective parties, plus 25 cents on each said assessment added to said assessment to defray advertising charges.

## COMMUNICATIONS.

## Water Supply for Richmond and Sunset Districts.

*Communication*—From the Board of Public Works, transmitting report of City Engineer on water development in Richmond and Sunset Districts:

August 21, 1914.

To the Honorable the Board of Supervisors, San Francisco, California.

Gentlemen: Referring to your Journal Resolution No. 1381, dated August 10, 1914, wherein I am directed to inform your Honorable Board what progress has been made in the matter of sinking wells and supplying additional water service to the Richmond and Sunset Districts, I have pleasure in submitting the following:

Ordinance No. 2722, Bill 3000, passed on April 20, 1914, directed the Board of Public Works to prepare specifications and contracts and advertise for bids for boring and testing wells in the Richmond and Sunset Districts. This office, upon instructions from the Board of Public Works, proceeded at once to put these instructions into effect, by making the necessary inquiries and adopting a course of procedure that would be the most effective in carrying out the spirit of your direction.

There are a few wells in the Sunset and Richmond Districts from which water is pumped for domestic supply, but so far as known they are shallow wells and not cased off from the supply of surface water.

Before proceeding with the drilling of wells for municipal water supply it was determined best to ascertain definitely the extent of the water-bearing strata lying between the surface and bed rock, assuming that the bed rock would not much exceed a depth of about four hundred (400) feet from the surface.

A number of locations for test holes were selected along the line of school lots and Fire Department lots extending from Balboa street on the north to Wawona street on the south, and between Forty-second and Forty-fifth avenues; and arrangements with the Board of Education and the Board of Fire Commissioners were made for permission to sink test holes and wells on these properties.

Several well drillers were interviewed and proposals were received for drilling test holes at the locations selected. Arrangements were made with the Layne & Bowler Corporation at a price of \$1.25 per foot for ordinary drilling, in material other than rock or solidified formation, and they started drilling the first test hole on the first of June on the school lot situated between Forty-second and

Forty-third avenues, Balboa and Cabrillo streets, in the Richmond District.

This test hole No. 1 was drilled and completed at 299 feet to rock, and water bearing sands were encountered in such quantities at from 200 feet to 299 feet in depth from the surface as to indicate a satisfactory water supply to be had from a properly installed well at this location.

Test hole No. 2, located on the Fire Department lot situated on Forty-fourth avenue, between Cabrillo and Fulton streets, was drilled and completed at 348 feet to rock and water-bearing sands were encountered in sufficient quantity to warrant the installation of a well at this location.

Test hole No. 3, located on the Fire Department lot situated on Forty-fifth avenue, between Irving and Judah streets, was drilled and completed at 244 feet to rock, and test hole No. 4, located on the school lot on Forty-second avenue, between Irving and Judah streets, was drilled and completed at 177 feet to rock. Both of these, No. 3 and No. 4, test holes penetrated water-bearing sands in sufficient quantity to warrant the installation of a well at each location.

Test hole No. 5, located on the school lot on Forty-second avenue, between Kirkham and Lawton, is now being drilled.

Proposals\* for the drilling and installation of a well on the location of test hole No. 1 are now being advertised for, and proposals for drilling and installation of a well on the location of test hole No. 2 will be advertised for within the next few days. Proposals for drilling and installing wells on locations of No. 3 and No. 4 test holes are now being prepared and will follow promptly.

It is the intention to continue, without interruption, the drilling of the test holes on the locations already mentioned, and upon the indications to be had from these test holes to determine more definitely than is now possible the extent of the water-bearing sands and gravels underlying this district.

Regarding the reservoirs, the Park Commission has granted its approval of the location of a reservoir proposed to be installed in Lincoln Park at a point 300 feet north of Clement street on a line of what would be an extension of Thirty-ninth and Fortieth avenues. This reservoir is designed to have a capacity of 3,000,000 gallons, and at an elevation of about 350 feet should afford sufficient pressure for the district. The designs

for the reservoir are practically completed and proposals for construction can be prepared in due time.

A study of the main distribution system is now being made.

Respectfully submitted,  
M. M. O'SHAUGHNESSY,  
City Engineer.

**Sale of Portion of Mission Block No. 42 $\frac{1}{2}$ .**

*Communication*—From his Honor the Mayor, relative to sale of a portion of Mission Block No. 42 $\frac{1}{2}$ , belonging to the City and County of San Francisco, as follows:

Mayor's Office, San Francisco.

August 28th, 1914.

Board of Supervisors of the City and County of San Francisco, California.

Gentlemen: I hereby inform you that, pursuant to the provisions of Ordinance No. 2834 (New Series), authorizing me to sell at private sale a portion of Mission Block No. 42 $\frac{1}{2}$ , belonging to the City and County of San Francisco, the following written bid was received by me in accordance with the advertised notice of sale:

F. E. Knowles offers to purchase said tract for the sum of \$36,000.

The appraised value of said parcel of land as found by the appraisal committee, consisting of the Assessor, Chairman of the Finance Committee and myself, is \$30,000. The sum bid being in excess of said appraised value, I respectfully recommend that the sale of said land to F. E. Knowles for the sum of \$36,000 be confirmed by your Honorable Board.

Respectfully,

JAMES ROLPH,  
Mayor.

**Fixing Time and Place of Confirmation of Sale of a Part of Mission Block No. 42½ to F. E. Knowles.**

On motion of Supervisor Jennings:  
J. R. No. 1398.

Resolved, That Monday, September 28, 1914, at three o'clock p. m., at the Chambers of the Board of Supervisors, be fixed as the time and place for hearing of the matter of the confirmation of the sale of a portion of Mission Block No. 42½ to F. E. Knowles, and that the Clerk publish notice of such hearing as is provided for by law and the Charter.

Ayes—Supervisors Bancroft, Deasy,

Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—17.

**Refund of Taxes to Patrick Joseph O'Reilly.**

Also, Resolution No. 11126 (New Series), as follows:

Whereas, The Tax Collector of the City and County of San Francisco, under authorization of the State Controller, sold at public auction on October 10, 1912, to Patrick Joseph O'Reilly for the sum of \$2650 a parcel of land hereinafter described, and thereupon said Tax Collector executed and delivered on behalf of the State of California a deed to said property to said Patrick Joseph O'Reilly; and

Whereas, It was subsequently determined by the Superior Court of the State of California, in and for the City and County of San Francisco, that the said land and the whole thereof so purchased and deeded forms a part of Blackwood street, dedicated as a public street of the City and County of San Francisco, and that said sale conveyed no right, title or interest in or to said property and was wholly void, and

Whereas, The land herein referred to and hereinafter described has been assessed by the Assessor of said City and County for the years 1912 and 1913, which assessment was erroneous and void for the reason that said property constituted a public street as aforesaid; that said Patrick Joseph O'Reilly paid the taxes assessed and levied upon said property for said years, which taxes amounted to the sum of \$118.82; and

Whereas, The City Attorney, by opinion dated August 24, 1914, and on file in the office of the clerk of the Board of Supervisors, has advised said Board that it has the right to order the refunding of the sum of \$2650 paid for said property at said alleged sale, and to refund the sum of \$118.82, the amount of the taxes erroneously assessed and paid, and that such refunding is authorized by the provisions of Section 3804 of the Political Code of the State of California; now, therefore,

Resolved, That the Auditor and Treasurer be and they are hereby authorized and directed to respectively audit and pay out of the general fund to said Patrick Joseph O'Reilly the sum of \$2768.82, said sum being the sum of \$2650, the amount paid at said sale and the sum of \$118.82, the amount paid for taxes erroneously assessed against the following described land, to-wit:

Commencing at a point on the north-easterly line of Ninth street, distant

thereon one hundred and seventy (170) feet southeasterly from the southeasterly line of Harrison street; running thence southeasterly and along said northeasterly line of Ninth street thirty (30) feet; thence at right angles northeasterly one hundred (100) feet; thence at right angles northwesterly thirty (30) feet; thence at right angles southwesterly one hundred (100) feet to the point of commencement.

Resolved, That the Auditor be and he is hereby authorized and directed to make demand upon the State of California for the refunding to the City and County of San Francisco of the money apportioned to and received by said State through the distribution of the proceeds of said void sale and tax erroneously paid.

Resolved further, That the Assessor be directed to so change his assessment maps so as to show the location of Blackwood street thereon.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—17.

Amending Sections 244, 245, 246 of the "Building Law."

On motion of Supervisor Bancroft: Bill No. 3181, Ordinance No. — (New Series) amending Sections 244, 245 and 246 of Ordinance No. 1008, known as the Building Law, approved December 22, 1909, and amended June 25, 1913, relating to the regulation of the installation of patent chimneys.

Be it ordained by the People of the

City and County of San Francisco as follows:

Section 1. Section 244 of Ordinance No. 1008 (New Series), approved December 22, 1909, and amended June 25, 1913, is hereby amended to read as follows:

Section 244. In lieu of the brick or stone chimney, as hereinbefore provided, there may be erected a chimney known as a patent chimney, for which a United States patent has been issued, and which has been approved by the Board of Public Works.

Every corporation, copartnership or individual engaged in conducting the business of constructing, erecting, installing or repairing brick, stone or patent chimneys or fireplaces in the City and County of San Francisco, shall appear in person or by duly authorized representative at the office of the Board of Public Works, and shall register with the said Board of Public Works the name and place of business in said City and County of said corporation, copartnership or individual, and the person so appearing shall make and file with said Board of Public Works, his affidavit that such name and place of business, as thus registered are correctly stated. Upon filing of said affidavit said Board of Public Works shall forthwith issue to said corporation, copartnership or individual a certificate of such registration, provided, that said certificate shall not be granted for more than the period of one fiscal year, or a portion thereof, in any case unexpired at the time of granting of the certificate. And no corporation, copartnership or individual shall construct, install, erect or repair any patent chimney or fireplace connected with a patent chimney, unless such certificate or registration shall have first been issued to such corporation, copartnership or individual.

No heater, stove or range wherein coal, gas or coal oil or other fuel is consumed shall be used unless the same be connected with a brick, stone or patent chimney, except as provided for in Section 247 of the Building Ordinance.

Upon the completion or the erection or repair of any brick, stone or patent chimney or fireplace connected with a patent chimney, it shall be the duty of the corporation, copartnership or individual who performed said work to notify the Board of Public Works of such completion, who shall at once cause the same to be inspected, and if found in compliance with this ordinance shall make and deliver a certificate or report of such inspection to the corporation, copartnership or individual that performed

said work, which certificate or report shall specify whether or not said work has been performed in compliance with the provisions of this ordinance, and if not in compliance therewith shall state wherein said work does not comply with the provisions of this ordinance. It shall be the duty of the Board of Public Works to keep on file in its office a duplicate of said certificate or report which shall at all times be subject and readily accessible to the inspection of the public.

No patent chimney or fireplace connected with a patent chimney hereafter constructed, altered or repaired shall be used until a certificate or report has been made and filed by said Board of Public Works as aforesaid, certifying that said work has been done in compliance with the provisions of this ordinance, nor shall any building hereafter constructed, wherein patent chimneys or fireplaces connected with patent chimneys shall have been installed, be plastered until such certificate or report shall have been made and filed.

All patent chimneys shall be built up from the floor on which they are used, and in no case shall a stove pipe enter the bottom of a patent chimney, and when erected on the inside of a building they shall rest on an iron plate not less than one-quarter of an inch in thickness covered by not less than eight inches of brick work, and shall contain a smoke-proof opening near the bottom for cleaning purposes. Patent chimneys, built on the inside of a building shall have an opening in the partition inclosing the chimney to permit the cleaning of same.

If a patented chimney be erected on the outside of a building, it shall rest on a substantial iron bracket, not less than  $\frac{1}{4}$ -inch in thickness by  $1\frac{1}{4}$  inches in width, and fastened to studding by two bolts, not less than  $\frac{5}{16}$  inch in thickness, and nuts, screws or lag screws shall not be allowed.

All patent chimneys shall be braced every five feet of their height by substantial iron bands securely fastened to the frame or studding or cross-pieces of the building; which said bands shall not be less than  $\frac{1}{4}$  inch in thickness by  $\frac{7}{8}$  inch in width and so constructed that chimney does not come within one inch of any woodwork. In no case shall any patent chimney be suspended from any roof timber or floor beam. All joints must be cemented together with cement mortar and the bands covering the joint shall be made of No. 24 gauge, galvanized iron, and

to be riveted with not less than two rivets, and space between bands and terra cotta pipe to be filled with cement mortar to make them smoke and spark proof. Each band to have not less than three No. 24 gauge, galvanized iron lugs riveted thereto.

The covering or casing of all patent chimneys shall be of No. 24 gauge, galvanized iron, riveted together at the lengthwise joint with rivets not more than three inches apart, or may be seamed, and top and bottom of seams secured by rivets, and shall be ventilated by six holes not less than one inch in diameter, made close to the top of chimney above roof, also six holes not less than one-half inch in diameter near inlet. The base or starting joint of galvanized iron casing or covering of patent chimney from fireplace shall have not less than eight (8) holes of not less than  $\frac{3}{4}$  inch in diameter, not less than three (3) inches from bottom of said starting joint. The casing or covering shall be at least two inches from the inside of terra cotta pipe.

Where chimney passes through the roof the flange or roof collar to be of such capacity as to allow the casing of patent chimney to pass through said roof collar or flange and to fit snugly. A short and tapering casing made to slip over outside casing of chimney and roof collar, so that casing above roof will conform with size of casing or covering of chimney below roof collar.

No patent chimney shall be erected so that it will be less than one inch from all woodwork, and the openings in the roof and through each floor and ceiling through which it passes shall be closed around said chimney with an iron plate or other fire-proof material.

All patent chimneys projecting through a pitch roof six (6) feet or more shall be braced with not less than one iron rod or gas pipe not less than  $\frac{1}{2}$  inch in diameter and said chimney to be also tied with not less than two guide wires to roof.

All pipe used for patent chimneys shall be composed of pure calcined clay not less than one inch in thickness.

No patent chimney shall have more than one inlet except that patent chimneys used or designed as vents, for gas stoves, gas ranges, or gas heaters may have one terra cotta inlet not over four inches in diameter for each floor, provided that the sizes of patent chimneys with which such inlets are connected shall be as follows:

Chimneys three stories or less in

height shall not be less than six (6) inches in diameter.

Chimneys four stories in height shall not be less than seven (7) inches in diameter.

Chimneys five stories in height shall not be less than eight (8) inches in diameter.

Chimneys six stories in height shall not be less than ten (10) inches in diameter.

Chimneys seven stories or over in height shall not be less than twelve (12) inches in diameter.

Section 2. Section 245 of Ordinance No. 1008 (New Series), approved December 22, 1909, and amended June 25, 1913, is hereby amended to read as follows:

Section 245. The inside dimensions of patent chimneys shall be as follows:

For fireplaces not over 18 inches, opening, 6 inches.

For fireplaces with openings in excess of 18 inches and not more than 21 inches, 7 inches.

For fireplaces with openings in excess of 21 inches and not more than 24 inches, 8 inches.

For fireplaces with openings in excess of 24 inches and not more than 30 inches, 10 inches.

For fireplaces with openings in excess of 30 inches and not more than 36 inches, 12 inches.

For fireplaces with openings in excess of 36 inches and not more than 48 inches, 12 inches.

For fireplaces with openings over 48 inches, 14 inches.

For ordinary stove flues, 6 inches.

For French Range flues, 8 inches.

For furnace flues, not less than 8 inches.

No flues shall be smaller in diameter than the opening of the furnace with which it is connected.

#### PATENT FIREPLACES.

Section 246. All fireplaces and all gas logs connected with patent chimneys must be set on an iron plate, not less than one-quarter of an inch in thickness and not less than three (3) feet nine (9) inches in length by three (3) feet in width, which shall be free from all holes; said iron plate in all cases shall extend at least eight inches under the back jambs and hearth. Boards shall not be placed under the iron plates, which must rest on the floor joists. On top of the iron plate there shall be one (1) inch of concrete or cement mortar, then a course of brick, followed by the tile or marble. The strength of the floor must not be impaired by the cutting out for the fireplace. In lieu of resting on the floor joists,

said iron plates may be suspended by wrought iron stirrups of sufficient strength to sustain the fireplace and patent chimney.

The brick jambs of every fireplace or grate opening shall be at least eight (8) inches wide, and the backs shall not be less than eight (8) inches thick, and where fireplaces come over one another on separate floors, the jamb of the lower fireplace shall be wide enough to carry the patent chimney far enough to one side of the jamb above so that the patent chimney will pass the upper fireplace in as straight a line as possible. Where bends are necessary in patented chimneys solid offsets shall be used.

Fireplaces shall have arched heads with an iron arch bar over the top of the opening, and not less than  $\frac{1}{4}$  x  $2\frac{1}{2}$  inches, turned up at the ends two inches in each side of a chimney breast, so as to make a perfect bond for arch.

All fireplace openings where furred with wood on face shall be surrounded by a brick rim eight inches wide projecting four inches, bonded into brickwork. The firebacks and jambs of all fireplaces shall not be less than eight inches thick, of solid masonry.

When a grate is set in a fireplace a lining of fireback at least two inches thick shall be added to the fireback unless soapstone, tile or cast iron is used, and filled solidly behind with fireproof material. No mantel or other woodwork shall be exposed back of a summer piece; the ironwork of the summer piece shall be placed against the brick or stone-work of the fireplace. No fireplace shall be closed with a wooden fire-board.

Open fireplaces shall have arched heads, which shall, whenever possible, extend to the back of the tile or marble facing. In no instance shall second-hand patent chimney material be used in the construction and erection of a patent chimney until the said material shall have been first inspected and approved by the Board of Public Works.

Section 4. All ordinances in conflict with any of the provisions hereof are hereby repealed.

Section 5. This ordinance shall take effect immediately.

Imposing a Municipal License on Patent Chimney Constructors.

Bill No. 3182. Ordinance No. — (New Series), Amending Section 1 of Ordinance No. 2239 (New Series), entitled, "Imposing Municipal License on Patent Chimney Constructors and all persons engaged in the business of

erecting or installing patent chimneys in, on or about buildings or other structures in the City and County of San Francisco."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1 of Ordinance No. 2329 (New Series), the title of which is recited in this Ordinance, is hereby amended to read as follows:

Section 1. Every person, firm or corporation engaged in the business of erecting or installing patent chimneys in, on or about buildings or other structures in the City and County of San Francisco, shall pay a municipal license of one hundred and twenty-five dollars per annum; or as an option and in lieu of the payment of said license as herein recited, there may be paid to the Board of Public Works an inspection fee in the sum of fifty cents for each and every flue to be erected or installed in any building or structure. The said inspection fee is to be payable to the Board of Public Works at the time of obtaining a permit for the erection or installing of such patent chimney.

Section 2. This Ordinance shall take effect immediately.

Adopted.

**Claim of Supervisor A. J. Gallagher for Expenses Incurred as Delegate to First National Conference on Unemployment.**

The following matters were presented, read and referred to Finance Committee:

*Communication—*From Supervisor Andrew J. Gallagher, transmitting report summarizing results of First National Conference on Unemployment, held February last in New York City under the auspices of the American Association for Labor Legislation; also requesting consideration of claim in sum of \$600 for expenses as delegate to said conference.

**Report of Delegate to the First National Conference on Unemployment.**

San Francisco, August 14, 1914.

Pursuant to resolutions adopted by the Board of Supervisors and submitted to the Mayor by the San Fran-

cisco Labor Council, I was appointed a delegate to represent this City and through the kindness of Governor Hiram Johnson, to represent the State, at the First National Conference on Unemployment, which assembled February last under the auspices of the American Association for Labor Legislation. The proceedings of the Conference did not arrive until a few days ago, which is the reason for my delay in submitting to you this report. But for that fact, this report would have been in your hands months ago.

The proceedings of the Conference were followed with deep interest and there was manifest a sense of serious purpose and responsibility in the discussions thus inaugurated to co-ordinate the efforts to combat unemployment. Representatives of fifty-nine cities and twenty-five States were present, showing the nation-wide character of the gathering and the widespread movement taking shape to do something practical to solve the out-of-work problem.

As the proceedings of the Conference may now be found in all of our libraries, I shall omit all details of the discussions and confine myself to the direct and immediate results of the Conference.

The discussion presented a mass of ideas and facts, from which the following main points seem to have been generally agreed upon. I will quote the same from the printed proceedings. The Conference agreed to the following set policy for the present:

(1) The necessity for accurate market labor statistics.

(2) The necessity for widespread system of labor exchanges or employment offices.

(3) The necessity for regularizing business.

(4) The necessity for industrial training and vocational guidance.

(5) The necessity for unemployment insurance.

The problem of unemployment is the most serious one in our system of civilization. It is world-wide and characteristic particularly of all countries with modern developed industries. Figures were submitted showing that in New York City alone last winter there were 325,000 men unemployed. Upon the basis of United States Census of 1900, six and one-half million of wage earners are some time of the year unemployed, of these nearly half were unemployed for from one to three months. Calculating the average loss of wages due to unemployment, it was found that not less than one billion dollars a year is lost in wages. The figures from last census are not yet published, and these

may reveal an even greater amount of waste and misery due to this cause.

As for permanent relief, the conference, as one might expect, had little to suggest, but it recommended a number of temporary expedients which may afford considerable practical results and eventually lead to the gradual alleviation of the worst features of the problem.

To show that the Conference had at least a few immediate results of a beneficial character, it might be mentioned that the State of New York immediately after this Conference established free state employment bureaus, and the City of New York has also established a municipal employment office.

On the question of regularization of business, municipalities and railroads have been approached with a view of preventing seasonal fluctuations of prosecuting works of construction and repairing. A bill has also been introduced in Congress to establish federal labor exchanges for the proper distribution of information as to existing supply and demand for labor in various sections of the country.

The problem of unemployment, as stated, is of such stupendous character, that it cannot be solved at once or by some single effort, but the Conference just described gives us hope and confidence that forces have already been set in motion which are to seriously grapple with the problem, and that material results must flow from such earnest and purposeful efforts.

The following resolutions were adopted by the Conference:

"Whereas, The reports presented to this National Conference, by delegates representing twenty-five States and fifty-nine cities, show a complete lack in most sections of the country of accurate statistical information in reference to the extent and nature of unemployment; and

"Whereas, Notwithstanding some difference of opinion as to whether unemployment this winter has been more widespread than usual in all sections, there is general agreement that there is a large amount of unemployment and that this and irregularity of employment at all times are among the most serious problems of modern industry; and

"Whereas, There is also general agreement that the first step toward a solution of the problem is the organization of a connected network of free public employment exchanges and that other steps should be taken as soon as agreement can be reached as to what they should be, therefore be it

"1. Resolved, That this Conference urge the establishment in the Federal Department of Labor of a Bureau of Distribution, with power to establish employment exchanges throughout the country to supplement the work of state and municipal bureaus, to act as a clearing house of information and promote the distribution of labor throughout the country, provided that such distribution shall not cause the deterioration of the present standards of wages, conditions and hours of employment of American workers, or impair their efforts to improve them.

"2. That we also urge upon the legislatures of the various states the establishment or reconstruction of free state employment agencies conforming to the following essential principles:

"First: That appointments and tenure of office be governed by the merit system and be placed beyond control of political parties;

"Second: That appropriations should be sufficient to make the agencies effective in the highest possible degree.

"Third: That the agencies constitute a network of central bureaus and branch offices under central control and direction.

"Fourth: That these agencies be so administered as to co-operate with municipal and federal bureaus so as to constitute a truly national system;

"Fifth: That every bureau or office be required to register every application as well as every position secured;

"Sixth: That frequent reports, publications and other notices give prompt information as to those seeking employment;

"Seventh: That these agencies may be held true to their character as belonging to the public and remain neutral in all trade disputes.

"3. We recommend that municipalities direct their attention to the local problem of unemployment, closely defining its relief and industrial phases with a view to dealing with the latter in a businesslike, efficient way through a central labor bureau which shall distribute employees to its various departments.

"4. We recommend that private employment agencies for profit be brought under the inspection and control of the federal government, where they send labor from state to state or to persons or corporations engaged in interstate commerce in case of interstate business and of the state authority where they are engaged in distributing labor within a state.

"5. We recommend that the American Association for Labor Legislation, in affiliation with the American Section of the International Associa-

tion on Unemployment, prosecute a thorough investigation of the following aspects of the problem of unemployment, and at the same time initiate and promote public action;

"First: The labor market, exchanges, statistics, facilities for special classes, advertising, emergency measures, relief agencies;

"Second: Regularization of industry, seasonal industries, dove-tailing of industries, adjustment of large contracts to run longer periods, casual labor, civil service methods;

"Third: Vocational guidance;

"Fourth: Legislation-employment agencies, unemployment insurance."

In addition to the above on motion of your delegate, the officers of the Conference were instructed to use every endeavor to have the national administration recognize and deal with unemployment in a manner calculated to hasten the day of lasting results and remedies.

With an expression of my earnest and sincere interest in the accomplishment of something of real benefit to reduce the many evils of unemployment in our midst, I respectfully submit this brief account of my attendance at the first conference on the subject.

ANDREW J. GALLAGHER,  
Delegate.

#### State Tax Rate.

The following communication was presented, read and *ordered spread at length in the Journal*:

Office of State Board of Equalization.

Sacramento, September 8, 1914.

To the Board of Supervisors of San Francisco County:

The rate of State Tax, fixed this day by the State Board of Equalization, as the *ad valorem* rate of taxation levied and to be collected upon each one hundred dollars of the assessed valuation of the property of the State, for the sixty-sixth fiscal year, to raise the specific amount of money required to be raised under the provisions of Section 22 of Article IV of the Constitution of the State of California, as amended November 8, 1910, in aid of the Panama-Pacific International Exposition, is

*Three cents and nine mills on each one hundred dollars of taxable property.*

You are therefore, as provided by Section 3714 of the Political Code, required, on the third Monday of September, to levy the said rate of State taxation upon the taxable property in the County.

Authorizing the Mayor to Execute a Deed to State of California Exchanging Certain Lands in the Civic Center.

Bill No. 3177, Ordinance No. 2894 (New Series), authorizing the Mayor to execute deed to State of California for certain city property adjacent to the Civic Center in exchange for property owned by the State and located within the Civic Center.

Be it ordained by the People of the City and County of San Francisco as follows:

Whereas, By Article II, Chapter II, Section 10 of the Charter of this City and County the Board of Supervisors is authorized to convey to the State of California a parcel of land located within a district described in said section for the purpose of the erection of a State building thereon, and in consideration therefor to receive from the State of California any parcel of land within such district now owned by the State,

And whereas, at the last session of the Legislature (Statutes of California, 1913, page 70) there was regularly enacted by the Legislature an act giving the consent of the State of California to exchange with the City and County of San Francisco a certain lot or parcel of land situate in the City and County of San Francisco and described as follows, said lot belonging to the State of California:

Commencing at a point formed by the intersection of the easterly line of Polk street with the northerly line of Fulton street, and running thence northerly along said easterly line of Polk street 120 feet to the southerly line of Ash street; thence at a right angle easterly along said southerly line of Ash street 100 feet; thence at a right angle southerly 120 feet to the said northerly line of Fulton street; thence at a right angle westerly along said northerly line of Fulton street 100 feet to the said easterly line of Polk

street and point of commencement. Being a portion of Western Addition Block No. 4.

The land to be received in exchange therefor to be located in the vicinity of the above described lot of land and to be of equal value thereto as may be determined by the Governor of the State, who, in said act was authorized to execute, under the seal of the State of California, the necessary deed of conveyance therefor and to receive from the City and County of San Francisco a like deed of conveyance of the land to be exchanged.

And whereas, the district above referred to in Section 10 of Chapter II of Article II of the Charter is that district within which is now being constructed the San Francisco Civic Center;

And whereas, located within such district is a certain lot of land owned by the State of California and originally acquired for the purpose of the erection thereon of a building to house the offices of the State of California located within the City and County of San Francisco, which said lot of land is above described as belonging to the State of California;

And whereas, said last above described lot of land is included within that portion of the Civic Center which is to be converted into a park;

And whereas, adjoining the proposed San Francisco Civic Center, and in the vicinity of the above described lot of land and of equal value thereto, is a lot of land belonging to the City and County of San Francisco and described as follows:

Commencing at the northeasterly corner of McAllister and Polk streets, running thence northerly along the easterly line of Polk street 120 feet to the southerly line of Redwood street (formerly Locust avenue); thence at a right angle easterly and along said southerly line of Redwood street 100 feet; thence at a right angle southerly and parallel with said easterly line of Polk street 100 feet to the northerly line of McAllister street; and thence at a right angle westerly and along said northerly line of McAllister street 100 feet and to the point of commencement; being a portion of Western Addition Block No. 5.

And whereas, the last above described lot of land is a portion of a larger block bounded on the south by the northerly line of McAllister street, on the west by the easterly line of Polk street, on the north by the southerly line of Red-

wood street (formerly Locust avenue), and on the east by the westerly line of Larkin street; being a part of Western Addition Block No. 5;

And whereas, it is the desire of this Board of Supervisors, in accordance with the above authorization of said Section 10 of Chapter II of Article II of the Charter, to exchange a lot of land now owned by the City and County of San Francisco with the State of California for the above described lot of land so owned by the State in order that the said State property may become available for said park purposes within the Civic Center; and further, in order that the State may have a lot of equal value upon which to erect a State building in which shall be located the offices of the State government within the City and County of San Francisco;

And whereas, the above described lot of land now owned by the city, located on the northeast corner of Polk and McAllister streets and running along the easterly line of Polk street 120 feet northerly, and of a uniform depth of 100 feet, is of equal value to the above described lot of land so owned by the State;

And whereas, there has been submitted to the people of the State of California at the last session of the Legislature a proposed bond issue in the amount of \$1,000,000 to be voted upon at the coming November election for the authorization of the issuance of bonds in the amount of \$1,000,000 for the construction of a State building in San Francisco, in which shall be located the offices of the State which are in the City and County of San Francisco (Statutes of California, 1913, at page 920);

And whereas, in the event of the people of the State of California approving such bond issue, it is the desire of this Board of Supervisors to exchange with the State, for the above property so now owned by the State, the entire block of land above described now owned by the City, and bounded on the south by the northerly line of McAllister street; on the west by the easterly line of Polk street; on the north by the southerly line of Redwood street (formerly Locust avenue), and on the east by the westerly line of Larkin street.

Now, therefore, be it Resolved, that the Mayor of this City and County be and he hereby is authorized, on behalf of the City and County, to duly execute and deliver to the State of California a deed, which deed shall be an immediate and absolute conveyance of that

portion of the above lot described as commencing at the northeasterly corner of Polk and McAllister streets; running thence northerly along the easterly line of Polk street 120 feet to the southerly line of Redwood street (formerly Locust avenue); thence at a right angle easterly and along said southerly line of Redwood street 100 feet; thence at a right angle southerly and parallel with said easterly line of Polk street 120 feet to the northerly line of McAllister street; and thence at a right angle westerly and along said northerly line of McAllister street 100 feet to the point of commencement; being a portion of Western Addition Block No. 5, and to include in said deed a condition that in the event of the people of the State of California approving, at the coming election in November of this year, the above described bond issue in the amount of \$1,000,000, that the remainder of said above described block of land now owned by the City and County of San Francisco shall also be and become absolutely the property of the State of California. That is, in the event of the people of the State of California so approving the above described bond issue at the coming election in November, then the above described entire block of land bounded on the south by the northerly line of McAllister street; on the west by the easterly line of Polk street; on the north by the southerly line of Redwood street (formerly Locust avenue), and on the east by the westerly line of Larkin street; being a portion of Western Addition Block No. 5, shall be and become absolutely the property of the State of California; Provided, that the Mayor, in exchange for said deed, shall receive from the Governor of the State of California, as so above authorized by act of the Legislature, a deed conveying to the City and County of San Francisco a fee simple absolute title to the block of land above described as now belonging to the State of California. And further provided, that in the event of any legal proceedings being had attacking the validity of the above bonds, that then, if on the final determination thereof the said bond issue shall be held invalid, the remaining portion of the above block of land now owned by the city other than the lot located on the northeasterly corner of Polk and McAllister streets and running thence northerly along the easterly line of Polk street 120 feet, and of a uniform depth of 100 feet, shall not be considered as conveyed to the State of California; provided, how-

ever, that immediately upon the exchange of the aforesaid deeds a fee simple title absolute in and to the above lot of land on the northeasterly corner of McAllister and Polk streets, running thence northerly along said easterly line of Polk street 120 feet and of a uniform depth of 100 feet, shall be considered as having been conveyed to the State of California by the City and County of San Francisco.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

#### Recommended.

The following bills heretofore passed for printing were taken up and on motion of Supervisor Bancroft ordered *recommended to the Buildings Committee*:

Amending Sections 244, 245, 246 of the "Building Law."

On motion of Supervisor Bancroft: Bill No. 3181, Ordinance No. — (New Series) amending Sections 244, 245 and 246 of Ordinance No. 1008, known as the Building Law, approved December 22, 1909, and amended June 25, 1913, relating to the regulation of the installation of patent chimneys.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 244 of Ordinance No. 1008 (New Series), approved December 22, 1909, and amended June 25, 1913, is hereby amended to read as follows:

Section 244. In lieu of the brick or stone chimney, as hereinbefore provided, there may be erected a chimney known as a patent chimney, for which a United States patent has been issued, and which has been approved by the Board of Public Works.

Every corporation, copartnership or individual engaged in conducting the business of constructing, erecting, installing or repairing brick, stone or patent chimneys or fireplaces in the City and County of San Francisco, shall appear in person or by duly authorized representative at the office of the Board of Public Works, and shall register with the said Board of Public Works the name and place of business in said City and County of said corporation, copartnership or individual, and the person so appearing shall make and file with said Board of Public Works, his affidavit that such name and place of business, as thus registered are correctly stated. Upon filing of said affidavit said Board of Public Works shall forthwith issue to said corporation, copartnership or

individual a certificate of such registration, provided, that said certificate shall not be granted for more than the period of one fiscal year, or a portion thereof, in any case unexpired at the time of granting of the certificate. And no corporation, copartnership or individual shall construct, install, erect or repair any patent chimney or fireplace connected with a patent chimney, unless such certificate or registration shall have first been issued to such corporation, copartnership or individual.

No heater, stove or range wherein coal, gas or coal oil or other fuel is consumed shall be used unless the same be connected with a brick, stone or patent chimney, except as provided for in Section 247 of the Building Ordinance.

Upon the completion or the erection or repair of any brick, stone or patent chimney or fireplace connected with a patent chimney, it shall be the duty of the corporation, copartnership or individual who performed said work to notify the Board of Public Works of such completion, who shall at once cause the same to be inspected, and if found in compliance with this ordinance shall make and deliver a certificate or report of such inspection to the corporation, copartnership or individual that performed said work, which certificate or report shall specify whether or not said work has been performed in compliance with the provisions of this ordinance, and if not in compliance therewith shall state wherein said work does not comply with the provisions of this ordinance. It shall be the duty of the Board of Public Works to keep on file in its office a duplicate of said certificate or report which shall at all times be subject and readily accessible to the inspection of the public.

No patent chimney or fireplace connected with a patent chimney hereafter constructed, altered or repaired shall be used until a certificate or report has been made and filed by said Board of Public Works as aforesaid, certifying that said work has been done in compliance with the provisions of this ordinance, nor shall any building hereafter constructed, wherein patent chimneys or fireplaces connected with patent chimneys shall have been installed, be plastered until such certificate or report shall have been made and filed.

All patent chimneys shall be built up from the floor on which they are used, and in no case shall a stove pipe enter the bottom of a patent chimney, and when erected on the inside of a building they shall rest

on an iron plate not less than one-quarter of an inch in thickness covered by not less than eight inches of brick work, and shall contain a smoke-proof opening near the bottom for cleaning purposes. Patent chimneys, built on the inside of a building shall have an opening in the partition inclosing the chimney to permit the cleaning of same.

If a patented chimney be erected on the outside of a building, it shall rest on a substantial iron bracket, not less than  $\frac{1}{4}$ -inch in thickness by  $1\frac{1}{4}$  inches in width, and fastened to studding by two bolts, not less than  $\frac{5}{16}$  inch in thickness, and nuts, screws or lag screws shall not be allowed.

All patent chimneys shall be braced every five feet of their height by substantial iron bands securely fastened to the frame or studding or cross-pieces of the building; which said bands shall not be less than  $\frac{1}{4}$  inch in thickness by  $\frac{3}{8}$  inch in width and so constructed that chimney does not come within one inch of any woodwork. In no case shall any patent chimney be suspended from any roof timber or floor beam. All joints must be cemented together with cement mortar and the bands covering the joint shall be made of No. 24 gauge, galvanized iron, and to be riveted with not less than two rivets, and space between bands and terra cotta pipe to be filled with cement mortar to make them smoke and spark proof. Each band to have not less than three No. 24 gauge, galvanized iron lugs riveted thereto.

The covering or casing of all patent chimneys shall be of No. 24 gauge, galvanized iron, riveted together at the lengthwise joint with rivets not more than three inches apart, or may be seamed, and top and bottom of seams secured by rivets, and shall be ventilated by six holes not less than one inch in diameter, made close to the top of chimney above roof, also six holes not less than one-half inch in diameter near inlet. The base or starting joint of galvanized iron casing or covering of patent chimney from fireplace shall have not less than eight (8) holes of not less than  $\frac{3}{4}$  inch in diameter, not less than three (3) inches from bottom of said starting joint. The casing or covering shall be at least two inches from the inside of terra cotta pipe.

Where chimney passes through the roof the flange or roof collar to be of such capacity as to allow the casing of patent chimney to pass through said roof collar or flange and to fit snugly. A short and taper-

ing casing made to slip over outside casing of chimney and roof collar so that casing above roof will conform with size of casing or covering of chimney below roof collar.

No patent chimney shall be erected so that it will be less than one inch from all woodwork, and the openings in the roof and through each floor and ceiling through which it passes shall be closed around said chimney with an iron plate or other fire-proof material.

All patent chimneys projecting through a pitch roof six (6) feet or more shall be braced with not less than one iron rod or gas pipe not less than  $\frac{5}{8}$  inch in diameter and said chimney to be also tied with not less than two guide wires to roof.

All pipe used for patent chimneys shall be composed of pure calcined clay not less than one inch in thickness.

No patent chimney shall have more than one inlet except that patent chimneys used or designed as vents, for gas stoves, gas ranges, or gas heaters may have one terra cotta inlet not over four inches in diameter for each floor, provided that the sizes of patent chimneys with which such inlets are connected shall be as follows:

Chimneys three stories or less in height shall not be less than six (6) inches in diameter.

Chimneys four stories in height shall not be less than seven (7) inches in diameter.

Chimneys five stories in height shall not be less than eight (8) inches in diameter.

Chimneys six stories in height shall not be less than ten (10) inches in diameter.

Chimneys seven stories or over in height shall not be less than twelve (12) inches in diameter.

Section 2. Section 245 of Ordinance No. 1008 (New Series), approved December 22, 1909, and amended June 25, 1913, is hereby amended to read as follows:

Section 245. The inside dimensions of patent chimneys shall be as follows:

For fireplaces not over 18 inches, opening, 6 inches.

For fireplaces with openings in excess of 18 inches and not more than 21 inches, 7 inches.

For fireplaces with openings in excess of 21 inches and not more than 24 inches, 8 inches.

For fireplaces with openings in excess of 24 inches and not more than 30 inches, 10 inches.

For fireplaces with openings in ex-

cess of 30 inches and not more than 36 inches, 12 inches.

For fireplaces with openings in excess of 36 inches and not more than 48 inches, 12 inches.

For fireplaces with openings over 48 inches, 14 inches.

For ordinary stove flues, 6 inches.

For French Range flues, 8 inches.

For furnace flues, not less than 8 inches.

No flues shall be smaller in diameter than the opening of the furnace with which it is connected.

#### PATENT FIREPLACES.

Section 246. All fireplaces and all gas logs connected with patent chimneys must be set on an iron plate, not less than one-quarter of an inch in thickness and not less than three (3) feet nine (9) inches in length by three (3) feet in width, which shall be free from all holes; said iron plate in all cases shall extend at least eight inches under the back jambs and hearth. Boards shall not be placed under the iron plates, which must rest on the floor joists. On top of the iron plate there shall be one (1) inch of concrete or cement mortar, then a course of brick, followed by the tile or marble. The strength of the floor must not be impaired by the cutting out for the fireplace. In lieu of resting on the floor joists, said iron plates may be suspended by wrought iron stirrups of sufficient strength to sustain the fireplace and patent chimney.

The brick jambs of every fireplace or grate opening shall be at least eight (8) inches wide, and the backs shall not be less than eight (8) inches thick, and where fireplaces come over one another on separate floors, the jamb of the lower fireplace shall be wide enough to carry the patent chimney far enough to one side of the jamb above so that the patent chimney will pass the upper fireplace in as straight a line as possible. Where bends are necessary in patented chimneys solid offsets shall be used.

Fireplaces shall have arched heads with an iron arch bar over the top of the opening, and not less than  $\frac{1}{4}$  x  $2\frac{1}{2}$  inches, turned up at the ends two inches in each side of a chimney breast, so as to make a perfect bond for arch.

All fireplace openings where furred with wood on face shall be surrounded by a brick rim eight inches wide projecting four inches, bonded into brickwork. The firebacks and jambs of all fireplaces shall not be less than eight inches thick, of solid masonry.

When a grate is set in a fireplace a lining of fireback at least two inches thick shall be added to the fireback unless soapstone, tile or cast iron is used, and filled solidly behind with fireproof material. No mantel or other woodwork shall be exposed back of a summer piece; the ironwork of the summer piece shall be placed against the brick or stonework of the fireplace. No fireplace shall be closed with a wooden fire-board.

Open fireplaces shall have arched heads, which shall, whenever possible, extend to the back of the tile or marble facing. In no instance shall second-hand patent chimney material be used in the construction and erection of a patent chimney until the said material shall have been first inspected and approved by the Board of Public Works.

Section 4. All ordinances in conflict with any of the provisions hereof are hereby repealed.

Section 5. This ordinance shall take effect immediately.

**Imposing a Municipal License on Patent Chimney Constructors.**

Bill No. 3182, Ordinance No. — (New Series), Amending Section 1 of Ordinance No. 2239 (New Series), entitled, "Imposing Municipal License on Patent Chimney Constructors and all persons engaged in the business of erecting or installing patent chimneys in, on or about buildings or other structures in the City and County of San Francisco."

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1 of Ordinance No. 2329 (New Series), the title of which is recited in this Ordinance, is hereby amended to read as follows:

Section 1. Every person, firm or corporation engaged in the business of erecting or installing patent chimneys in, on or about buildings or other structures in the City and County of San Francisco, shall pay a municipal license of one hundred and twenty-five dollars per annum; or as an option and in lieu of the payment of said license as herein recited, there may be paid to the Board of Public Works an inspection fee in the sum of fifty cents for each and every flue to be erected or installed in any building or structure. The said inspection fee is to be payable to the Board of Public Works at the time of obtaining a permit for the erection or installing of such patent chimney.

Section 2. This Ordinance shall take effect immediately.
